1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	You will no doubt be pleased to know that Hertfordshire County Council has no comment to make on your Local Plan Review.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes * No</p>	
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes * No</p>	
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes * No</p>

Please give reasons for your answer	<p>The Coal Authority is a non-departmental public body sponsored by the Department of Business, Energy & Industrial Strategy. As a statutory consultee, the Coal Authority has a duty to respond to planning applications and development plans in order to protect the public and the environment in mining areas.</p> <p>As West Berkshire Council lies outside the defined coalfield, the Coal Authority has no specific comments to make on any stages of your Local Plan process.</p> <p>In the spirit of ensuring efficiency of resources and proportionality, it will not be necessary for the Council to provide the Coal Authority with any future drafts or updates to the emerging Plans. This email can be used as evidence for the legal and procedural consultation requirements at examination, if necessary.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

Please give reasons for your answer	<p>For context, the position with the Bracknell Forest Local Plan (BFLP) is set out below.</p> <p>The emerging BFLP is at an advanced stage. It covers the period 2020-2037 and was submitted for examination on 20 December 2021. Stage 1 hearing sessions were held between 10th May and 15th June 2022 and Stage 2 hearing sessions were held between 18th and 20th October 2022. The Inspectors' post hearings letter was received on 19th January 2023 and outlines a series of Main Modifications that will need to be the subject of public consultation later this year.</p> <p>The majority of development planned in the BFLP is in Bracknell Town, with some smaller strategic and small site allocations. Parts of the Borough are highly constrained by land ownership (such as Crown Land), ecological constraints (such as the Thames Basin Heath Special Protection Area), policy constraints (such as Green Belt) and other constraints (such as surface water flooding).</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

<p>Please give reasons for your answer</p>	<p><i>Extract of response relevant to consultation point:</i></p> <p>Democratic Process and Timing</p> <ul style="list-style-type: none"> • The consultation, selections process and appraisals have all been severely flawed, lacking in evidence • The decision making is undemocratic by failing to obtain full council sign off after Regulation 19 consultation and before submission to the Secretary of State • Government consultation for the NPPF is currently underway, is likely to reduce housing requirements for councils and WBC are acting recklessly by proceeding when they should pause the development of the local plan • Number of houses for NE Thatcham is now “at least 1,500” – From an initial site assessment of 2,500 of which 1,250 were to be built in the Plan period, this has now in fact increased to 1,500 <p>Specific Objections : WBC's process and timings</p> <p>Government consultation on the NPPF</p> <p>The NPPF consultation launched in December 2022 runs until 2nd March, 2023. The Consultation Version of the NPPF sets out that the Standard Method for calculating the housing requirement (as used by West Berkshire for the regulation 19 version of the plan) will be advisory not mandatory and should only be the starting point for local plan. There is a particular focus within the consultation NPPF on taking into account the character of an area when assessing how much housing can be accommodated.</p> <p>Therefore it is unacceptable that West Berkshire are continuing to consult on the current version of the local plan, that councillors did not require the final version of the plan to be brought back to them for before it is submitted to the Planning Inspectorate for examination.</p> <p>On the back of this announcement, several Local Authorities have paused their plan making process whilst they await the outcome of the consultation on the basis that a lower housing requirement could be applicable to the plans than the one currently being planned</p> <p>We feel that the council should take the opportunity, as others have, to pause the plan making and to bring forward a revised plan in line with updated planning guidance when this comes in later in 2023.</p> <p><i>For full response see attachment David Copas Full Consultation Response.</i></p>

<p>Please give reasons for your answer</p>	<p><i>Extract of representation relevant to consultation point</i></p> <p>We note that Proposed Submission Regulation 19 Local Plan review was presented to Full Council on 1 December, and the decision taken at that meeting to move towards public consultation. Yet the HELAA report was not published until January 2023; having not been updated since December 2020. As such, the decision appears to have been taken to finalise the selected allocations for inclusion in the LPR, prior to finalisation of the HELAA site assessments. This raises doubts as to the soundness of the proposed allocations, given members could not have had a full appreciation of the range of options available for allocation.</p> <p>Other key parts of the evidence base have also been finalised and published after final decisions were taken on the strategy and proposed allocations, including:</p> <ul style="list-style-type: none"> • Air Quality Assessment – published Jan 2023 • Employment Background Paper – published January 2023 • Flood Sequential Test Report – published January 2023 • Housing Background Paper – published January 2023 <p><u>Errors in evidence base</u></p> <p>It is also unfortunate to note that there are errors within the evidence base documents, which could contribute to a finding that the LPR is unsound. We shall not detail these in full, but by way of example:</p> <ul style="list-style-type: none"> • Site Selection Methodology, published January 2023, refers in paragraph 1.1 to the plan covering the period up to 2037 – which of course should be 2039; • The Air Quality Assessment, published January 2023, is based on a plan period up to 2037, so has not assessed pollutant concentrations for the full plan period. The post script on page 10 notes that fact that the plan period has extended out to 2039 following production of the draft assessment, and that once the revised transport model forecasts for 2039 become available, further analysis will be required to confirm there are not significant differences from the assessment which is based on a plan period up to 2037. That work should be carried out prior to the Regulation 19 consultation and submission to Independent Examination.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it</p>	Yes

necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	<i>To discuss matters in dispute relating to Policy RSA10 in respect of the area of allocation and, density and quantum of development.</i>
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>We are the charity who look after and bring to life 2000 miles of canals & rivers. Our waterways contribute to the health and wellbeing of local communities and economics, creating attractive and connected places to live, work, volunteer and spend leisure time. These historic, natural and cultural assets form part of the strategic and local green-blue infrastructure network, linking urban and rural communities as well as habitats. By caring for our waterway and promoting their use we believe we can improve the wellbeing of our nation.</p> <p>The Kennet & Avon Canal runs broadly west to east through West Berkshire and is a well-loved, multi-functional asset, bring numerous benefits to the local area. The canal is clearly recognised as such by the Local Authority and the Trust notes that most of our comments made during earlier phases of the consultation process have been included in the submission draft, thank you. The Trust is supportive of the plan and finds it sound and legally compliant. We have no need to attend the Examination. We look forward to continuing to work with the Local Authority to promote, protect and improve the canal corridor for the benefit of both local residents and visitors to the area.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Finally, it is noted that the canal is incorrectly named at several other locations. At Para 5. 71 and Para 12.130 the name of the Kennet & Avon Canal is incorrect. The 'and' should be replaced by an ampersand.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p>

<p>Please give reasons for your answer</p>	<p><i>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</i></p> <p>CHPT 1 - INTRODUCTION & BACKGROUND</p> <p>I am an Ordinary Resident living in a small back-to-back house facing the River Lambourn in Clayhill Ward of Newbury. My 40 year old property is now at High-Risk of Surface Water Flooding (Pluvial) and although not showing on the EA Flood Maps my Fluvial Risk is rising due to continued development over Bourns upstream and degeneration of the Spatial Flood Defence (SFD) – non manmade River Banks- outside my only entrance door. My family goes back to at least the 1800s and I have lived in 5 villages and 2 of the Towns in West Berks.</p> <p>During my Career as a Senior Change & Transition Manager in FTSE 100 Company and then as a self-employed Consultant I have also lived and worked in other areas of the UK including Surrey, Cheshire, Oxfordshire, Hampshire, Devon, Scotland -Central & Highlands, and commuted all over England.</p> <p>I also ran a function within a major bank to rationalise the Branch Network for the Thames Valley region which stretched from Banbury to Godalming and Slough to Marlborough so know this part of the Southeast quite well.</p> <p>I am a Newbury Clayhill Ward Flood & Drainage Warden, a member of the Lambourn Valley Flood Forum, a member of the Working Party to look at the Lower Reaches of the R. Lambourn SAC/SSSI, and a lay member of the newly formed Newbury Flood & Drainage Action Group.</p> <p>I also run an informal Project which makes comparisons across a basket of about 12 Local Authorities that are of mixed design and size– County, District, Borough, Parish, Unitary etc., and we are currently looking at Local Plan preparation. We find Plans such as Chichester (similar in demographics), Cheshire East, Eastleigh & Lancaster much easier to navigate and understand,</p> <p>I have been a Parish Councillor in Hamble-le-Rice based on the River Hamble.</p> <p>I am not averse to change however I do want to ensure that key Environmental factors are considered in the best way possible for Newbury as a main centre in what will become an increasing large and denser area with not much clarity around basics like Building heights and styles which are suitable for the nearby Communities.</p> <p>I am wary about Building in or near the significant Flood Risk Areas within Newbury Clayhill Ward and do not think enough attention is given to building near or over our natural watercourses and seasonal Groundwater fed Bourns. Hence, I am taking the time to submit this response.</p> <p>If any statements I make are factually incorrect then this is probably because I am not trained in Planning Law or it is not always easy to find Maps & Documents that are relevant to the main Sub-Area of this Plan, which for me is the Settlement of Newbury.</p> <p>CONTEXT</p> <p>I am concentrating on the Newbury Area which should be considered as a Sub Area within the Spatial Strategy Area known as Newbury & Thatcham Area, and the Map of the Settlement Boundary for the Newbury Area is below. Unfortunately understanding the Boundaries is difficult as all the Boundaries differ.</p> <p>Newbury Town Council Boundary is different to the Newbury Unitary Wards which appear to be different to the Newbury Settlement Boundary and the Landscape Character Assessments and the study areas within the Appropriate Countryside Designations/Green Gaps Study guide used within the Evidence Base.</p> <p>This makes evaluating the future for Newbury very difficult and means making Parish level responses to Planning Applications and Local Plans more complex.</p> <p>What is evident from this plan is without clear lists of what is on the cards for the Newbury Settlement over the next 20 years it is impossible to say whether any of the Visions will become reality. Without being immersed in the detail and setting up our own spreadsheets it is impossible to say which Residential & Employment & Retail Sites for Newbury are included in which figures and how much of the residual requirements will be demanded within the Newbury Settlement.</p> <p>If the LPR is going to take a Spatial Area approach and concentrate Delivery and Implementation on the main Settlement Hierarchy, then the least that we can expect is clear projected Figures for the Major Town with detailed Tables behind them.</p> <p>Navigating the Contents & Structure</p> <p>In Terms of the <u>Contents & Structure</u> of this Submission and the ability of Planning Officers, Developers, Residents, and the Inspector to follow it and make sense of the 101 Policies within it, I think there are better and simpler Structured Plans out there which could be emulated. A re-cut Structure could lead to better Planning and Policy compliance for after adoption of this new Local Plan 2022-2039, and allow more logical feedback from Residents.</p>

Many of the Climate Change topics are scattered as are the Housing Policies and the Development Management Policies could be more logically grouped.

Case Study - Chester

[see attachment 'PS628 Paula Saunderson - Chichester Case Study' for diagram]

What is evident from this plan is without clear lists of what is on the cards for the Newbury Settlement over the next 20 years it is impossible to say whether any of the Visions will become reality. Without being immersed in the detail it is impossible to say which Residential & Employment & Retail Sites for Newbury are included in which figures and how much of the overall and residual requirements will be placed in the Newbury Settlement.

Within Chpt 7 there is no Strategic Policy for Retail and Commercial Space. I feel this is an omission and the subject is not adequately covered **under SP22 – Town & District Centres**.

Again, within Chapter 7 - which should read Economic & Employment Growth there is no Policy for Agriculture, Forestry and there are no DM Policies under Chapt.12. Apart from DM36 - Farm Diversification which is rather specific.

CHPT 9, 10, 11 & 12 – DEVELOPMENT MANAGEMENT POLICIES

I find these rather difficult to follow as they are not always logical under the headings they are under and I can quite understand why there is a huge turnover in Planning Officers. Developers & Planning Applicants either get round Policies or miss them in their presentation of their plans. The Checklists for Planning Applicants already needed updating and that need will be greater to make it easier for Planning Applicants to understand what Policies they need to comply with at Submission and Validation stage.

I do not intend to comment apart from the odd one below and I think that **Sustainable Drainage (SuDS)** must have a higher level Policy instead of being an SPD.

And I do think as a leading Tech Town and Area we may need a Policy around **Data Centres** which are highly resource hungry and would impact on Climate Change Targets.

And I would like to see something specific in the Planning framework to support the **Dementia Friendly** status that West Berks has.

The LPR is not very clear on its Terminologies in relation to the AONB, Rural & Countryside, and this is very evident in the suite DM Policies as these are all over the place for the Spatial Areas, and not grouped logically for anyone trying to ensure a Rural/Countryside/AONB Planning Application is compliant.

Evidence Base Documents

In Terms of the Evidence Base. There are late arriving Documents which have now been thrown out for input from Newbury Town Council or to Public Consultation, and some have been included without any input or consultation, and for me, that this renders the plan Unsound and not Positively Prepared as a Newbury resident. The fact that this Section 19 Consultation will not go back to Council before Submission does not give any confidence in this particular part of the process.

Examples of some of the Documents are as follows:

- Draft Local Transport Plan (LTP4) Strategy 2024-2039- launched 8th Feb 2023, ends 22nd march 2023
- Draft new Council Strategy 2023-2027 – launched 13th Jan 2023, ended 26th Feb 2023
- Draft Newbury Town Centre Conservation Area Appraisal & Management – launch 12th Jan 2023, ended 23rd Feb 2023. No input was sought from the Newbury Society during preparation.

And Key Documents such as the Appropriate Countryside Designations Studies (for Green Gaps) of which many border Newbury Settlement have not seen input from NTC Planning Committee, or asked the views of nearby Residents.

And I am totally surprised at how late in the whole LPR process the consideration of Green Gaps has been.

DEVELOPMENT STRATEGY: OUR PLACE BASED APPROACH

BACKGROUND

As the **NPPF** is under Review and a Public Consultation is underway it is difficult to place the Legality & Soundness of this plan in that Context. Whether this LPR will meet the NPPF & PPG going forward is unknown and as having this Plan with its many missing key Sites will not make any difference to the Planning Applications coming forward in 2023, I would prefer to see this Submission Delayed. This is mainly because I am concerned how and where the Employment to serve an extra 9000 Households will come from without a major increase in Commuting which is not catered for in the Plan.

I am also struggling to rationalise the contents of this Submission beyond this point and would have preferred to see the Document Structure in a clearer format such as in this Case Study below from Chichester Section 19 Submission.

[See attachment PS628 Chichester Local Plan Structure for diagram]

OTHER MATTERS

CONSULTATION DOCUMENTS

<https://www.westberks.gov.uk/media/>

[53945/Proposed-Submission-Regulation-19-West-Berkshire-Local-Plan-Review-to-2039-Clean-Version/pdf/](https://www.westberks.gov.uk/media/53945/Proposed-Submission-Regulation-19-West-Berkshire-Local-Plan-Review-to-2039-Clean-Version/pdf/)

[LPR_2022-2039_Proposed_Submission_for_consultation_20_Jan_2023_for_web.pdf?m=638096652954630000](https://www.westberks.gov.uk/media/53945/LPR_2022-2039_Proposed_Submission_for_consultation_20_Jan_2023_for_web.pdf?m=638096652954630000)

The West Berkshire Local Plan Review 2022-2039 Proposed Submission as a Document:

- Is poorly presented in terms of collecting information together relating to one Area so that we can see the likely impacts and numbers of Residential Dwellings & Employment space that is likely to exist within our Area by 2039. Many Local Plans at this stage have much clearer information for a specific Area and as Newbury is the dominant Town and Urban Area it fails to have an SP Policy for itself and is only considered in the context of SP1 – the Spatial Strategy.
- Chichester District LPR has similar demographic and spatial strategy to West Berks, yet it gives much more respect to its main town (Chichester City) as part of the Spatial Area it is within. <https://chichester.oc2.uk/document/45/459#d459>

CONSULTATION STATEMENT

<https://www.westberks.gov.uk/media/53795/>

[Proposed-Submission-LPR-Consultation-Statement/pdf/Consultation](#)

[Statement - Proposed Submission LPR Dec 2022 v2.pdf?m=638084385899730000](#)

The Consultation Statement, whilst detailed, does not appear to identify that during the Section 18 Consultation process or this Section 19 Consultation process there has not been a programme of Public Exhibitions in Areas of high impact. Such events are an opportunity for those that are not part of a Parish Council or are not Digitally enabled to participate. The Value of Story Boards and visual representations plus the opportunity to meet the Officers cannot be under estimated for the Ordinary Resident, including Parents, Environmental Studies School Pupils, Digitally Disabled, and the Elderly who are used to this type of Consultation

DUTY TO CO-OPERATE STATEMENT

<https://www.westberks.gov.uk/media/53787/>

[Duty-to-Cooperate-Statement-January-2023/pdf/LPR Interim DtC Statement](#)

[January 2023.pdf?m=638086137283470000](#)

The Duty to Co-operate does not include Town & Parish Councils however when it comes to Documents that are for a specific Town or Parish then Input and certainly better consideration during surveying and consultation would engender better relationships and quality.

EQUALITIES IMPACT ASSESSMENT

Inadequate for Key Sub Areas and Key Settlements and missing Sites that should be in the LPR.

HABITATS REGULATIONS ASSESSMENT

As a GI Framework is missing and these concentrate on International & National Designations there is no work on Local Nature Recovery Networks or complete Wildlife Corridors using non-designated Nature-based Public Open Space or Private Green Space.

POLICIES MAPS

The Policies Map is very detailed and small in scale. It does not appear to be GIS enabled and therefore does not have Post Code search facility.

The Area of Newbury is by its very nature quite crowded with colours and shaded areas which overlap. We need a detailed map for Newbury within a Sub-Area SP.

Had there been an SP Policy for Newbury and a Settlement Map - then residents would be able to comment more meaningfully on the contents of the maps and its implications for their lives.

STATEMENT OF THE REPRESENTATION PROCEDURE

The LPR 2022-2039 Section 19 Submission was not ready for Consultation and more time should have been taken to re-cut and re-format the Contents and Presentation before going to Consultation to enable meaningful Comment.

However, it is imperative that for ease of use afterwards that the Plan & Policies are restructured so that related Policies are collected together, and Planning Officers & Planning Applicants have a better chance of either complying and less opportunity to NOT comply.

SUSTAINABILITY APPRAISAL (SA)/ STRATEGIC ENVIRONMENTAL ASSESSMENT (SEA)

The Previous December 2020 Appraisals commented on how weak many of the current Plan Policies are. To strengthen Policies many now appear to be over-written and repeat information which is in the NPPF.

And you would have thought that the Consultants undertaking the Appraisals would have suggested a more logical Structuring of the Polices into groups where they relate to each other.

Not enough RSA & ESA Site Allocations for Newbury to make the plan Sound for Positive, Justified, and Effective.

None of the Key Mixed Sites are included such as NEW 1 – LRIE, Gateway Plaza, Kennet Centre/Eagle Quarter, Old Magistrates Court and without these Key Sites and any specific Policy around them I form the Opinion that this Section 19 Consultation Version of the LPR 2022-2039 is Not Sound on the Basis that it has not been Positively Prepared, is Not Justified, and Not Effective.

The Plan omits Brownfield Sites which has favoured the Sandleford Greenfield site and the Plan is not Justified without the Inclusion of the Brownfield Sites that are clearly going to start development within the next 20 years.

Without clear Data for the Newbury Settlement in terms of numbers of provision overall it is not an Effective Plan as it stands.

	<p>EVIDENCE BASE</p> <p>Many Documents arrived late and caused a significant amount of extra work to Consultees who were already reviewing the Evidence Base prior to the slippage of dates for this Consultation. This has led to a view that the Plan has not been Positively Prepared.</p> <p>TIMESCALES FOR PREPARATION AND SUBMISSION TO THE INSPECTOR</p> <p>Overall the LPR 2022-2039 as it stands has been rushed, has significant gaps, and is not of a quality in terms of presentation that many other Local Planning Authority reviews are achieving. I do believe the Plan needs restructuring BEFORE Submission to the Inspector as I think they will be immediately frustrated by the poor presentation, lack of Sub Area detail and appraisal, and illogical grouping of Policies. If it were me I would throw it back.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>I should like to register my objection to West Berkshire Council's LPR of 2023 for several reasons. The most basic reason is that updated guidance on these matters is due to be published later this year by the government and if this plan is proceeded upon it may become outdated and open to legal challenges if implemented leading to delays and missed targets. It is anticipated that the government's required numbers of houses in each area will be reduced, which is most significant. The plan also contradicts the national guidelines on impact on AONBs.</p> <p>There is insufficient information about who provided the information used in preparing this report, who paid the costs and who put it together. The plan has no explanation as to how it will be enacted in the time span covered by the report.</p> <p>The LPR lacks detailed and transparent supporting evidence to the assumptions used. This is particularly vital regarding the numbers and types of housing needed in the future. With the lack of substantive detail it must be assumed that the any new estates will be the usual, high profit mix of executive and middle management houses. Given the current and foreseeable situation the biggest requirement must be affordable and social housing, true vision would provide a lot more of these types. The plans talk of a percentage of affordable housing but experience shows that the number of these reduce as developers find unforeseen profitability problems, the WBC roll over and a reduction in number is agreed. We should be catering for a high percentage of the types of housing all of the community need not just those with the income to buy.</p>

	<p>In the LPR there is no effective detail on mitigating the effects of the extra housing on the social, physical and environmental infrastructure. With the existing pressures on all of these no LPR can ignore this matter. The effects on traffic, schools, doctors, care homes, drainage, water supplies, education, countryside etc will be very significant. The plan does not address the need and cost for extra schools, GP surgeries, care provision, road improvements, new paths in local villages as commuting traffic increases. The roads around Newbury are already very busy and these plans will put extra traffic on all of the C roads as new rat runs to the motorway junctions become used.</p> <p>Any LPR should be looking at alternatives to simple large estates and there is no detailed confirmation this has been done. The capacity of smaller developments, brownfield sites, unbuilt planning permissions, and utility of other areas should all be quantified.</p> <p>All development plans should take into account their effect on the immediate and local communities. To provide large estates means smaller communities become one big urban sprawl to the detriment of living standards generally. For instance to enlarge Thatcham by 1500 to a potential 2500 would mean Thatcham, Newbury and local villages like Cold Ash and Upper Bucklebury run one into another. Having resisted closing the green gap between Thatcham and Newbury for this reason it is ridiculous to propose this many houses around North Thatcham.</p>

Please give reasons for your answer	Central Government should return some stronger planning powers & financial measures to Local Authorities, in order to facilitate the targets for new housing, particularly social (council) housing, which they wish to achieve The recent confusion & apparent lack of control over the developments adjacent to the A339 & Vodafone complex only highlights the need for robust implementation of existing legislation, but also to reinforce LA control through the enactment of Schedules 3 & 42 of the 2010 Water & Flood Management Act.

Please give reasons for your answer	The health authorities have not been consulted in preparing this plan. The relevant water company has also not been informed about the plans.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is	No

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	Yes
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	The proposal does not take account of the revised targets announced by Michael GOve in December.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	Neither the water supplier nor the local health authority have been involved in preparatio of this plan.
<p>4. Proposed Changes</p>	<ol style="list-style-type: none"> 1. The numbers of houses being built should be reconsidered in light of revised guidance 2. Thames Water need to be consulted and to produce plans to manage the water and sewage needs 3. The relevant local health bodies should e consulted with over the viability of health provision in the plan, 4. The plans for education facilities should be reconsidered in light of the government's advice and that of West Berkshire COuncil 5. A thorough ecological assessment should be completed before outline planning is granted 6. The transport plan needs to be more realistic and consistent with the council's own estimates.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>5. Independent Examination</p>	I am able to state the case in more detail
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The</p>	Yes

<p>publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes</p> <p>* No</p>	
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes</p> <p>* No</p>	Yes

<p>1. Do you consider the Local Plan Review is legally compliant?</p> <p>* Yes</p> <p>* No</p>	
Please give reasons for your answer	<p>i find the whole process designed to discourage comments - not user friendly</p> <p>my main concern is the lack of checks and balances to ensure the plan is implements to time and specification - too many times planning permission is given and nothing built, or social housing built but not occupied. This is not acceptable</p>
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? -</p>	

<p>Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	<p>Reading Borough Council (RBC) works closely with West Berkshire District Council (WBDC) as well as other neighbouring authorities to consider strategic planning issues in the area. WBDC, RBC, Wokingham Borough Council and Bracknell Forest Council have co-operated on a Statement of Common Ground that details the situation regarding strategic matters across the area.</p> <p>RBC therefore welcomes the publication of the West Berkshire Local Plan Review Proposed Submission and supports the overall approach of the plan.</p> <p>We have some more detailed comments on some matters of strategic importance.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	WBDC has engaged on the plan throughout its preparation, and we consider that the duty to co-operate as far as RBC is concerned has been fulfilled.
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	No
<p>Please give reasons for your answer</p>	<i>Duty to Cooperate - see below.</i>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Objection</p> <p>We understand the definition of the legal duty to co-operate. On the evidence available so far thus does not appear to have been adequately carried out. It is unfortunate that full details of the co-operation to date have not been given at this submission stage.</p> <p>Paragraph 1.26 of the LPR is wholly inadequate by means of explanation. It simply states that there is a close partnership to ensure that cross boundary issues are taken into account. However this is not evidenced by the Supporting Statement on the Duty to Co-operate.</p> <p>More details and further cooperation between Authorities would have been helpful and would have informed the Local Plan Review (LPR), and the responses to it, if full details could have been given.</p> <p>This is especially true on the subject of housing as the LPR deals with the Council's housing need but does not explain in detail how adjoining Authorities (such as Reading, Swindon and Wokingham) will require housing need to be met in West Berkshire District and if so what the quantum of that additional housing would be and where it would be located.</p> <p>Indeed the Duty to Cooperate Statement does little to assist. Reading BC is stated to need 230 houses outside its boundaries but the HMA has not been agreed and is subject to "further review" but this does not provide the certainty required by the LPR.</p> <p>Also West Berkshire apparently cannot meet its own employment needs. It is stated there may be a statement on this but "it needs further work".</p> <p>The HEELA does not include Bracknell Forest and a single study covering the Housing Market Area, which would have been the most appropriate approach for consistency, apparently "has not been practical" due to there being four different plan-making timetables.</p> <p>The LPR sets out a figure for overall housing need together with some sites but it may be that both of those aspects will need to be revisited in the light of further exercise of the duty to co-operate.</p>
<p>4. Proposed Changes</p>	Fully exercise the duty to cooperate and give details of the responses to the duty to co-operate as soon as possible so that the overall housing requirement figure and the sites needed to meet it can be addressed by the LPR.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
<p>5. Independent Examination</p>	We do not consider the LPR is sound and would like to participate in the examination.
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes

6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Government consultation on the NPPF</p> <p>The NPPF consultation launched in December 2022 runs until 2nd March, 2023. The Consultation Version of the NPPF sets out that the Standard Method for calculating the housing requirement (as used by West Berkshire for the regulation 19 version of the plan) will be advisory not mandatory and should only be the starting point for local plan. There is a particular focus within the consultation NPPF on taking into account the character of an area when assessing how much housing can be accommodated.</p> <p>Therefore it is unacceptable that West Berkshire are continuing to consult on the current version of the local plan, that councillors did not require the final version of the plan to be brought back to them for before it is submitted to the Planning Inspectorate for examination.</p> <p>On the back of this announcement, several Local Authorities have paused their plan making process whilst they await the outcome of the consultation on the basis that a lower housing requirement could be applicable to the plans than the one currently being planned We feel that the council should take the opportunity, as others have, to pause the plan making and to bring forward a revised plan in line with updated planning guidance when this comes in later in 2023.</p>

Please give reasons for your answer	<p>Sustainability Appraisal:</p> <p>Page 9: the opening sentence in Table 4 in the row on historic character does not entirely make sense and needs minor editing i.e. "The conservation of historic, sites and commons, monuments, battlefields, parks, buildings and Conservation Areas has contributed..." Also within this row, we are uncertain about the rationale for including text on new development in the vicinity of nuclear installations and the influence of such development on nuclear safety. If there is a link to historic character, it needs to be made clearer.</p> <p>Page 15: we advise a minor change as follows to the subobjective to align more closely with the NPPF: "To protect or, conserve and enhance the built and historic environment including sustaining the significance significant interest of heritage assets"</p> <p>Page 15: there is a minor formatting issue – two bullets on heritage indicators have been merged. Within this merged entry, we particularly welcome the proposed indicator "% of Conservation Areas in West Berkshire with an up-to-date character appraisal (and management plan)".</p> <p>Pages 73 and 74: the SA refers to "heritage benefits" related to allocations RSA15 and RSA17-RSA22. These benefits need to be made clearer in the Plan for them to be realised.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	<p><u>The SA</u></p> <p>Page 15: we advise a minor change as follows to the subobjective to align more closely with the NPPF: "To protect or, conserve and enhance the built and historic environment including sustaining the <u>significance</u> significant interest of heritage assets"</p> <p><u>The Local Plan</u></p> <p>The heritage benefits associated with allocations RSA15 and RSA17-RSA22 need to be made clearer in the Plan for them to be realised.</p>

Please give reasons for your answer	General Observations: The aim of delivering carbon neutral by 2030 and thereafter is encouraging.

	<p>We welcome recognition of the outstanding value of the North Wessex Downs landscape and the abundant biodiversity in settlements and surrounding countryside.</p> <p>Policy wording changes generally improve the readability and effectiveness of the plan.</p> <p>Maps - Maps throughout the document have no scale. Some have no North indicator. Size of text makes crown copyright illegible.</p> <p>Policy wording - Some policies are more than a page long and contain multiple paragraphs. Paragraphs within policies are not numbered, making it difficult to precisely reference them.</p> <p>Housing and Economic Land Availability Assessment (HELAA) - This council is not aware that there has been any consultation on this modified HELAA. We have no record of contact or request for feedback.</p> <p>Local Plan Map - Too many layers are displayed simultaneously- it is impossible to accurately read detail on the map. For instance, the settlement boundary through Tilehurst Parish has been reviewed and (we believe) is largely unchanged- but we cannot accurately see what (if any) differences there are from the current settlement boundary. Without road detail displayed, the site of the proposed retail park designation in Calcot is unclear and we cannot comment on the detail of its proposed outline.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Local Plan Review complies with Sections 19 and 20 of the Planning and Compulsory Purchase Act 2004 (as amended)
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	Representations have been submitted to the Local Plan at various stages setting out development proposals for the land east of Waller Drive, Newbury which could be achieved over the plan period. In addition, the wider site has been put forward for assessment by West Berkshire Council in the Housing and Economic Land Availability Assessment. Most recently representation was submitted to the Local Plan Regulation 18 stage 2 consultation in February 2021. A number of general points were made to the draft document and are summarised below as they inform our response to the current Regulation 19 Proposed Submission document: <ul style="list-style-type: none"> • Commentary about the plan's approach to housing delivery and supply and that the unambitious scale of growth fails to meet the identified housing need; • General support for the focus of growth towards the sustainable locations of Newbury and Thatcham; • Policy compliant development on land east of Waller Drive, Newbury.

A predicament in responding to the current draft (Regulation 19) Plan is the proposed change in Government policy with the publication of the proposed Revised Framework in December 2022 to replace the July 2021 document in line with the requirements of the "Levelling Up and Regeneration Bill: reforms to national planning policy". Annex 1 of the Revised Framework suggests that the Revised Framework is a material consideration from the date of its publication (paragraph 221), specifically for the consideration of planning applications.

Transitional arrangements are set out for the purpose of examining plans (paragraph 225), which confirm that for the purposes of the tests of soundness in paragraph 35, and the policy on renewable and low carbon energy and heat in plans in Paragraph 156, these policies apply only to plans that have not reached Regulation 19 of the Town and Country Planning (Local Planning) (England) Regulations 2012 (presubmission) stage, or that reach this stage within three months of the publication of the version. Therefore, the West Berkshire Local Plan will be considered for the purposes of soundness against the July 2021 version of the NPPF.

In responding to the current Regulation 19 consultation document reference is made to the requirement to assess whether the planning document has been prepared in accordance with the legal and procedural requirements and whether it is "sound" having regard to the provisions of paragraph 35, namely:

- 1 Positively prepared – providing a strategy which, as a minimum, seeks to meet the area's objectively assessed needs and is informed by agreement with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development;
- 2 Justified – an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence;
- 3 Effective – deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground; and
- 4 Consistent with national policy – enabling the delivery of sustainable development in accordance with the policies in this Framework and other statements of national planning policy, where relevant.

Plans are required to set out strategic policies (NPPF paragraph 20) to address the priorities for development and use of land within the area, setting out an overall strategy for the patterns, scale and quality of development and make sufficient provision for housing and other development, with infrastructure to support it. NPPF paragraph 22 specifically states that such strategic policies should look ahead over a minimum period of 15 years from the date of adoption to plan for and anticipate long term requirements and opportunities. NPPF paragraph 23 outlines that such strategic policies should set out a clear strategy for bringing sufficient land forward to address objectively assessed need over the Plan period and should include planning for and allocating sufficient sites.

In considering the soundness of the Publication draft document, the following sets out our comments in relation to the Plan generally and then to the land east of Waller Drive, Newbury specifically. Overall, it is considered that the Local Plan Review is legally compliant as it complies with Sections 19 and 20 of the Planning and Compulsory Act 2004 (as amended)

Plan Period

Requirements in the NPPF seek a minimum 15-year period from the date of adoption. For a number of reasons, including resourcing in the authority and the availability of examining Inspectors, we are of the view that the Local Plan is unlikely to be adopted before the end of 2024 and that the proposed September 2024 adoption date in the Council's January 2023 Local Development Scheme is optimistic. Therefore, to ensure the plan period is consistent with national policy, it would be prudent for the Local Plan to seek an end date of 31st March 2040 and the strategic policies including housing requirement and Vision adjusted to this date accordingly.

It is considered that the draft Plan is not sound as it will not cover a minimum 15-year period from the date of adoption. Carter Jonas would therefore strongly urge the Council to review its position before proceeding with submission of the Local Plan Review for examination to review the economic and housing growth holistically and over an extended Plan period to ensure that this review of the Local Plan is found sound and delivers the required jobs and housing for its residents.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>As part of the supporting evidence to the emerging Local Plan Review, the Council have provided a signed statement of common ground with the other Berkshire authorities of: Reading Borough Council; Bracknell Forest Council; Royal Borough of Windsor and Maidenhead Council; Slough Council and Wokingham Borough Council. The statement further confirms that there is unmet housing need arising from Reading Borough Council. Despite acknowledging that housing needs and supply are a cross-boundary issue, no Council within the West Berkshire Housing Market Area have committed to delivering this shortfall within their authoritative boundaries.</p> <p>This unmet need is relatively small therefore there is no reason why these homes could not be delivered within the wider West Berkshire HMA. Given the lack of commitment to accommodate these homes, it is clear that there has not been effective cooperation between the relative authorities.</p>

General Comments on the Local Plan Review

In general, Croudace applauds the Council for preparing and bringing forward the emerging LPR for consultation. Despite this, Croudace retains fundamental concerns with the strategy set out within the Regulation 19 stage LPR, specifically in relation to the following matters which are set out below within this and subsequent sections:

- 1 The plan period (from paragraph 3.25 and 5.9);
- 2 Addressing the unmet needs of neighbouring authorities (from paragraph 5.11);
- 3 The approach to addressing affordable housing needs (from paragraph 5.20);
- 4 The approach to addressing those with specialist housing needs (e.g. elderly) or wish to build their own home (from paragraph 5.25, again at paragraph 6.78 and again at 6.85);
- 5 The over-reliance on large strategic sites and/or those which require substantial new infrastructure (from paragraph 6.17);
- 6 The direction of growth to the North Wessex Downs AONB (from paragraph 6.49); g. The Council's overoptimistic assessment of its housing supply (from paragraph 6.59);
- 7 A lack of inherent flexibility within the plan to anticipate and accommodate future changes in circumstance (from paragraph 6.87);
- 8 The lack of consideration of reasonable alternatives, including the absence of allocation of the land at Henwick Park.

We also set out our recommended changes to make the plan 'sound' and 'legally compliant' in the Conclusion (Section 8).

Changes since the Regulation 18 Stage

We firstly note that the housing requirement has been reduced, from that set out at the Regulation 18 stage in December 2020 (575 dwellings per annum ('dpa')), to reflect the latest iteration of the standard method (April 2022) contained within PPG (513 dpa).

Whilst Croudace understands the rationale behind the change, it believes that the effect of the change represents an unambitious approach to plan-making; it will result in a significant reduction in the housing requirement at a time when there is an acute need for housing within West Berkshire. Therefore, Croudace urges the Council to revisit the housing requirement to help ensure the housing needs of all members of the community can be better met and ensure the plan meets the tests of soundness.

More positively, Croudace is pleased the LPR retains the ambition to direct growth to Thatcham, a highly sustainable 'top tier' settlement. It also welcomes the decision to reduce the draft allocation at North East Thatcham (Policy SP17) from 2,500 dwellings to 1,500 dwellings in principle.

We also note that a number of other previously proposed draft allocations in Thatcham have been removed from the plan and as a result, in combination with the reduction at North East Thatcham, the level of housing growth directed to Thatcham has reduced by up to 1,400 units. Likewise, 589 units have been removed from the allocations in the Eastern Area and 86 from the North Wessex Downs AONB

Plan Period

Paragraph 22 of the NPPF is clear that strategic policies should look ahead over a minimum 15-year period from adoption, to anticipate and respond to long-term requirements and opportunities, such as those arising from major improvements in infrastructure. Where larger scale developments such as new settlements or significant extensions to existing villages and towns form part of the strategy for the area, policies should be set within a vision that looks further ahead (at least 30 years), to take into account the likely timescale for delivery.

As currently drafted, the LPR covers the period 2022/23 to 2038/39. We note that the Council currently anticipates submission of the LPR to the SoS for Examination in March 2023. Therefore, to look forward a minimum of 15 years, the LPR would need to be adopted by the end of 2023/24. However, from our experience of Local Plan Examinations elsewhere, this would appear to be overly optimistic and highly unlikely to happen.

In our view, it would not be unreasonable to expect a period of at least 18 months more realistically from submission to adoption (to allow for Examination and consultation on Main Modifications etc.). This would place plan adoption at September 2024 (i.e. 2024/25) at the very earliest, which would reduce the remaining plan period down to 14 years.

Therefore, to ensure that the LPR is consistent with national policy, Croudace considers the Council must add at least one year to the plan period (i.e. to 2039/40). This would, of course, require an additional year of housing requirement (i.e. at least 538 dpa) being added to the plan.

Extraordinary Meeting of West Berkshire Council

It has been brought to Croudace's attention that on 1 February 2023, the necessary number of elected Council Members (which we understand was led by the Liberal Democrats) signed a requisition to seek an Extraordinary Meeting of West Berkshire Council to discuss the Regulation 19 LPR consultation on the basis that it is flawed.

According to the published agenda papers, Members proposed to debate 'abandoning' consultation on the LPR so that all relevant issues can be rectified and/or clarified and thereby avoid the perceived risk of the LPR submission being dismissed as unsound by the Planning Inspector, and to undertake a new Regulation 19 consultation in the future once these omissions and errors have been rectified.

In summary, the alleged flaws include:

- 1 Inaccuracies surrounding the housing numbers for North East Thatcham and the associated settlement boundary accommodating a greater level of growth than specified in the LPR;
- 2 The HELAA published in January 2023 contained new information which Councillors were unaware of when approving the Regulation 19 consultation;
- 3 Technical evidence not covering the entirety of the plan period;

	<p>4 The lack of engagement associated with, and evidence supporting, the provision of appropriate infrastructure to support the allocation at North East Thatcham;</p> <p>5 The SoS' WMS of December 2022 (regarding national planning policy reform) not being taken into account as part of the LPR.</p> <p>Croudace notes the points made and observed the Extraordinary Council Meeting on 2 March 2023 at which Members voted to reject the motion and as such it is envisaged that the LPR, together with a copy of all representations, will be submitted to the SoS for Examination as planned.</p> <p>Notwithstanding this, Croudace shares many of the concerns highlighted by the Liberal Democrats, which raise legitimate concerns over the soundness of the LPR as currently drafted. As such, it makes comments throughout these representations in a similar vein, albeit with the exception of the proposals contained in the WMS and subsequent NPPF prospectus consultation (which do not represent current Government policy, as explained in Section 1 of these representations).</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
Please give reasons for your answer	
4. Proposed Changes	Extension of the plan period – upon adoption, it is likely that the LPR would look ahead only 14 years, whereas the NPPF requires plans to look ahead for a minimum of 15 years. Croudace requests that the Council extend the plan period by at least one year to at least 2039/40 in order to ensure that the LPR is 'positively prepared' and 'consistent with national policy'.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
5. Independent Examination	The opportunity to discuss matters of legal compliance and soundness with the Planning Inspector, together with proposed modifications to the Plan.
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No</p>	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p><u>Plan period is not consistent with national policy as it is likely to be less than 15 years on adoption.</u></p> <p>The proposed plan period runs to 2038/39 which will mean that the plan would need to be adopted in 2023/24 if it is to have a full 15 years from the point of adoption as required by paragraph 21 of the National Planning Policy Framework (NPPF). If the plan is adopted in 2024/25, as would seem most likely on the basis of submission in autumn 2023 and at least 12 months for examination, in then the plan would look forward for less than 15 years. Therefore, in order to ensure the plan period is consistent with national policy then an extra year should be added with the plan period ending in 2039/40.</p> <p>At present we do not consider the plan to be sound, as measured against the tests of soundness set out in paragraph 35 of the NPPF, in the following key areas:</p> <ul style="list-style-type: none"> • Insufficient evidence to show the duty to co-operate has been adequately discharged. • Plan period that is not consistent with national policy • A failure to meet the unmet needs of Reading;

	<ul style="list-style-type: none"> • Failure to set out clearly the housing • Unjustified requirements in relation optional technical standards for accessible homes and nationally described space standards; • Unsound requirement to go beyond energy efficiency standards set out in building
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	<ol style="list-style-type: none"> 1 The Council have produced a signed statement of common ground setting out what the key strategic issues are with regard to the West Berkshire Local Plan and the co-operation that has taken place. This notes that housing needs and supply are a cross boundary issue and notes that unmet needs of Reading as a particular issue that needs to be resolved. As is also noted later on in our representations no Council in the West Berkshire Housing Market Area (HMA) has committed to addressing this small shortfall arising in Reading. Given that it is not a significant number of homes this should have been a relatively simple exercise and does not give much confidence as to the effectiveness the co-operation in this. Instead of addressing this issue the Councils have, contrary to the expectations of PPG, pushed back consideration of this issue to a future plan review. 2 What is also lacking within the statement of common ground or the Duty to Co-operate Statement is any recent evidence of ongoing cooperation and engagement. The Governance section of the SoCG for example points to a West of Berkshire Strategic Planning Group but we could find no evidence as to when these meetings have occurred, whether the key strategic and cross boundary issues were discussed and the outcome from these discussions. The Council will need to provide more detail if it is to show that it has co-operated effectively and met its legal duties.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>EXECUTIVE SUMMARY</p> <p>Boyer has been appointed by Sovereign Housing Association ('Sovereign'), to act on their behalf in respect of the ongoing promotion of the Land adjoining The Haven, Kintbury, for residential development. Boyer have prepared these representations on behalf of Sovereign, in response to the 'Regulation 19' consultation relating to the Proposed Submission West Berkshire Local Plan Review (2022 – 2039).</p> <p>The purpose of these representations is to assist the Council in formulating and refining an approach that is both consistent with national planning policy and the tests of soundness. To this end, general support is provided to the spatial strategy set out in the West Berkshire Local Plan Review (2022 – 2039), to the Council's conduct of the plan-making process in relation to the Duty-to-Cooperate, and specifically for the allocation of Land Adjoining The Haven, Kintbury, for residential development.</p> <p>The Proposed Submission West Berkshire Local Plan (2022 – 2039) ('emerging local plan') proposes to allocate a series of sites to, as a minimum, meet the identified housing needs within the district. Despite the constrained nature of the district, the plan identifies a robust selection of sites that are capable of delivering residential development appropriate to accommodate sustainable growth to meet the minimum local housing need of the area. Sovereign supports this approach, recognising that the Council's commitment to accommodate the identified minimum Local Housing Need ('LHN') figure within the district is paramount.</p> <p>The Council's identification of sufficient developable land to deliver approximately 5% additional homes above the minimum identified need is also supported. Sovereign considers that this 5% 'headroom' provides for a flexible and robust quantum of housing supply to fully ensure that the identified housing needs of the district are met.</p> <p>Furthermore, the identified headroom in the housing supply could usefully accommodate a proportion of the unmet need that is likely to arise from Reading, as part of the Western Berkshire Housing Market Area ('HMA'). Sovereign supports the Council in seeking to accommodate a reasonable proportion of this unmet need and recommends that the Council seek to maximise the delivery of new homes on the proposed site allocations to assist in delivering this aim. Such an approach would support housing delivery in the wider region in accordance with the Government's commitment to significantly boost the supply of housing, ensuring minimum housing needs are met.</p> <p>In seeking to deliver the amount of new homes required in the district, the Council have identified an appropriate spatial strategy. The emerging local plan recognises that there is limited further growth potential at the district's most sustainable settlements; namely, Newbury and Thatcham, alongside the Eastern Urban Area, whilst maximising the available land within the relevant site allocations. Sovereign supports the Council's identification of a spatial strategy which directs development to available land within the next most sustainable locations as appropriate, in accordance with the settlement hierarchy.</p> <p>The otherwise relatively unconstrained nature of the North Wessex Downs Area of Outstanding Natural Beauty ('AONB'), in combination with the presence of a series of sustainable medium and smaller-sized Service Villages, provides that the North Wessex Downs AONB Spatial Area (as identified in proposed Policy SP1) remains appropriate to accommodate a reasonable proportion of the district's identified housing needs.</p> <p>To maintain the longer-term vitality of the district's Service Villages, such as Kintbury, it is imperative that the Council supports the sustainable growth of these areas, supporting the viability of local services and amenities, alongside delivering much-needed affordable housing in rural areas. To this end, Sovereign supports the identification of specific site allocations within these villages, which provide opportunities for modest sustainable growth whilst conserving and enhancing the special landscape qualities of the AONB.</p> <p>Sovereign therefore supports the identification of Land Adjoining The Haven, Kintbury ('the site') as being suitable for allocation within the emerging local plan, through proposed Policies SP15: 'Sites allocated for residential development in North Wessex Downs AONB' and RSA23: 'Land adjoining The Haven, Kintbury'. Kintbury comprises a relatively unconstrained settlement that can accommodate sustainable growth during the plan period. The site is well-positioned to make a reasonable contribution to meeting the district's development needs.</p> <p>The site is in a sustainable location, within practical walking and cycling distance of the range of services and facilities provided in the village, benefitting from good access to nearby main settlements including Newbury (by bus and rail), Reading, and London Paddington (by rail). There are not considered to be any significant constraints to the development of the site, which could provide at the very least a minimum of 20 high-quality new homes.</p> <p>Sovereign is able to confirm that the site is available for development now, offers a suitable location for residential development, and is achievable with a realistic prospect that housing can be delivered on-site within the first five</p>

years of the proposed plan period. Consequently, the site should be considered favourably in relation to planning practice guidance and its proposed allocation within the emerging West Berkshire Local Plan is supported.

Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant and is capable of being found Sound following independent Examination. Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.

Introduction

Context

Boyer has been appointed by Sovereign Housing Association ('Sovereign'), to act on their behalf in respect of the ongoing promotion of the Land adjoining The Haven, Kintbury, for residential development. The Site Location Plan is provided at Appendix 1: Site Location Plan.

Sovereign holds a specific land interest within West Berkshire, known as Land adjoining The Haven, Kintbury ('the site'). These representations are aligned with this land interest and address topics within the West Berkshire Local Plan Review consultation, and its supporting evidence base, accordingly.

The site has been assessed by West Berkshire District Council ('the Council') within the district's Housing and Economic Land Availability Assessment ('HELAA') (2023), under Site Reference: KIN6. Furthermore, the site is proposed for allocation within the Local Plan Review document, to accommodate residential development, under proposed Policies SP15: 'Sites allocated for residential development in North Wessex Downs AONB' and RSA23: 'Land adjoining The Haven, Kintbury'.

The purpose of these representations is to assist the Council in formulating and refining an approach that is both consistent with national planning policy and the tests of soundness, as set out at paragraph 35 of the NPPF; namely, whether the emerging West Berkshire Local Plan (2022 – 2039) is:

- a) Positively prepared – providing a strategy which as a minimum seeks to meet the area's objectively assessed needs.
- b) Justified – provides an appropriate strategy, taking into account reasonable alternatives and based on proportionate evidence.
- c) Effective – deliverable over the plan period and based on effective joint working.
- d) Consistent with national policy – enabling the delivery of sustainable development.

At this stage of the plan-making process, it is essential that West Berkshire District Council ('the Council') continues to pursue an approach that is consistent with national policy, effective, justified, and positively prepared. These representations comprise our recommendations to assist the Council in achieving such an approach, as emerging plan progresses toward adoption.

These representations build upon and should be considered in conjunction with the previous representations submitted by Sovereign to the 'Regulation 18' consultation on the West Berkshire Local Plan Review 2020 – 2037: Emerging Draft (December 2020), which ran from 11 December 2020 to 5 February 2021.

Policy Context

The Council adopted the Core Strategy Development Plan Document (2006 - 2026) in July 2012. Five years later, the Council then adopted the Housing Site Allocations Development Plan Document in May 2017, to implement the spatial framework set out within the Core Strategy. The adopted Development Plan for the district therefore sets out the spatial strategy to meet development needs up to 2026 and provides a series of site allocations and planning policies that seek to deliver that strategy.

To ensure that planning policies remain relevant and are able to effectively meet the needs of the local community, the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended) requires local planning authorities to review local plans at least once every 5 years from their adoption date.

The Proposed Submission West Berkshire Local Plan Review (2022 – 2039), which is the subject of the 'Regulation 19' consultation, reflects the distilled outcome of that review process. The draft plan sets out an updated vision and strategy, alongside an updated series of site allocations and policies that would supersede the adopted Core Strategy upon its adoption, which is anticipated in 2024.

Sovereign **supports** the Council's commitment to review the existing development plan through this process.

Conclusion

The Proposed Submission West Berkshire Local Plan Review (2022 – 2039) sets out how West Berkshire District Council proposes to, as a minimum, meet identified development needs within the district area. The proposed spatial strategy seeks to direct development toward the most sustainable locations within the district, whilst recognising the vital role that modest growth provides to support medium and smaller-sized villages within the North Wessex Downs Area of Outstanding Natural Beauty.

Sovereign supports the Council's commitment to meeting housing needs in full and supports the Council's identification of a reasonable amount of headroom in the district's housing supply to ensure that local housing needs are met during the plan period.

However, Sovereign recommends that the Council seeks opportunities to maximise the development capacity of appropriate sites to ensure that the identified headroom is as robust as is reasonably practicable. Land adjoining The Haven, Kintbury, which is proposed to be allocated for the development of approximately 20 new homes under emerging Policy RSA23, presents such an opportunity. Sovereign considers that the approximate capacity allocated for the site could be higher, without detriment to the amenity of adjoining residents, with sufficient scrutiny to the design of the scheme and in considering greater benefits to the wider community. The provision of additional capacity could reflect the full potential of the proposed allocation and ensure the efficient use of development land within the district.

	<p>Furthermore, Sovereign supports the proposed spatial strategy, which includes a modest amount of residential development within the North Wessex Downs AONB Spatial Area. The approach maintains the existing spatial strategy within the district and would support housing delivery in the wider region in accordance with the Government's commitment to significantly boost the supply of housing. The proposed allocations have also been evidenced and justified through detailed analysis to ensure the high value of the AONB and any potential impacts are carefully considered.</p> <p>Otherwise relatively unconstrained, the nature of the district's North Wessex Downs AONB Spatial Area, which includes the presence of a series of sustainable, small and mediumsized villages, provides that the area remains appropriate to accommodate a reasonable proportion of the district's identified housing need. Furthermore, to support the longer-term viability of these villages, it is critical that the Council supports opportunities to provide modest growth in appropriate locations.</p> <p>To this end, Sovereign supports the proposed allocation of Land adjoining The Haven, Kintbury, for residential development under emerging Policies SP15 and RSA23. Kintbury comprises a relatively unconstrained settlement that could accommodate a reasonable level of growth during the proposed plan period. Land adjoining The Haven is well-positioned to make a reasonable contribution to meeting the district's development needs in this location.</p> <p>The site is in a sustainable location, within practical walking and cycling distance of the range of services and facilities within Kintbury. Furthermore, the site benefits from good access to nearby main settlement areas via bus and rail links, including Newbury and Reading. There are no significant constraints to the development of the site for approximately 35 new homes which could not be resolved through detailed, sensitive design consideration.</p> <p>Sovereign is able to confirm that the site is available for development now, represents a suitable location for development, and that development of the site is achievable with a realistic prospect that housing can be delivered within the first five years of the draft plan period. The site is deliverable and should continue to be favourably regarded in relation to allocation for residential development within the emerging West Berkshire Local Plan.</p> <p>We look forward to continuing to work with West Berkshire District Council, Kintbury Parish Council, and the wider community to provide much-needed new housing in this rural community. We also look forward to exploring how the Land adjoining The Haven, Kintbury can contribute to the delivery of sustainable development and benefit the village, local infrastructure, and facilities.</p> <p>We hope these representations are of assistance in taking the plan forward. Should you require any further clarification on the issues raised in our comments please contact me.</p> <p><i>See attached document for a full response <Boyer obo Sovereign_full rep></i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p><i>3. The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities.</p> <p>Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.</p>
<p>4. Proposed Changes</p>	<p>As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<p>We were surprised to find that the Duty Cooperate Statement for the Regulation 19 consultation has the filename 'LPR_Interim_DtC_Statement_(January_2023).pdf'. Several places in the document suggest the intention to modify before submission for examination, for example:</p> <p>5.29 While the LPR is out for Reg 19 consultation, we will work together towards a statement of common ground between West Berks and National Highways, ready in time for the Examination stage of the LPR. We will continue our collaboration with National Highways as the Local Plan gets finalised. The ideal situation is that at examination we have an agreed statement of common ground confirming there are no issues flowing from our proposals from National Highways' point of view; and, they are content with our approach and methodology of assessment / modelling.</p> <p>5.38 Water and drainage are considered across the district at a strategic level and the close work with Thames Water is highlighted who supply both the water and collect and treat waste water across the district. This work will continue as the Local Plan is progressed and proposals for development are firmed up with more certainty.</p> <p>5.44 The approach to Habitats Regulations Assessment (HRA) has been developed in conjunction with Natural England and they agreed with our initial screening opinion and the final HRA document has been developed following that screening. We have requested entering to a statement of common ground with Natural England and will continue to work with them on this topic.</p> <p>This Interim Duty to Cooperate Statement is presumably a 'proposed submission document' under Regulation 19 of The Town and Country Planning (Local Planning) (England) Regulations 2012. It therefore cannot be modified after the Regulation 19 Consultation, because all proposed submission document must have been available for inspection during the consultation period.</p>

	<p>Therefore, if the Duty to Cooperate Statement is modified after the consultation period, as appears from its filename and content to be the intention, the amended document would not be legally compliant with Regulation 19.</p> <p>As the document does not include any 'version control' information, the pdf document properties of the version for Regulation 19 consultation are copied below, so that the correct version can be confirmed at Examination: <See attached document - <i>Thatcham Town Council_DtC Report_Document properties</i>></p>
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Paragraph 27 of NPPF states:</p> <p>"In order to demonstrate effective and on-going joint working, strategic policy-making authorities should prepare and maintain one or more statements of common ground, documenting the cross-boundary matters being addressed and progress in cooperating to address these. These should be produced using the approach set out in national planning guidance, and be made publicly available throughout the plan-making process to provide transparency."</p> <p>We are not aware of the Duty to Cooperate Statement (and therefore the Statement of Common Ground that it contains) having been made available prior to 6th January 2023 (the previously intended start date of the Regulation 19 Consultation). Paragraph 5.29 suggests that a Duty to Cooperate Statement will be provided at examination that has not been available during the Regulation 19 consultation.</p> <p>Neither of these provide any transparency to the public during the plan-making process.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	The Examination must consider the version of the Duty to Cooperate Statement that was available during the Regulation 19 Consultation

5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	<p>Thattham Town Council is the principal representative body of the community of Thattham, which is the location of only new strategic site allocation in the draft Local Plan. The suitability of this site for development is reliant on having adequate infrastructure. However, the regeneration that was promised in the current Local Plan has not materialised, and would not be delivered through the policies in the draft Local Plan. The Town Council can provide local insight to the examination about Thattham, and particularly on the substantial deficit of infrastructure in the locality. It would also be happy to elaborate on its other concerns about the current proposals for the North East Thattham Strategic Site Allocation, as described in these representations. The Town Council anticipates that changes necessary to the draft Local Plan in relation to site allocations are greater than could be addressed through 'main modifications'. If, however, the Inspector is minded to consider recommending 'main modifications' to policy SP17 and related matters in other Policies, it would welcome the opportunity to provide its perspective on what modifications would be required.</p>
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	The Document is difficult to read, it lacks details, lacks cohesion and is not evidence based. For such an important plan the public should have been provided with the opportunity to see a presentation / exhibition and been allowed to ask questions / seek clarification from the authors. It feels like everything is being done behind closed doors and the public will be presented with a fait accompli.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes

5. Independent Examination	<i>The Local plan as it currently stands is, in my opinion, a poorly presented document and does not provide up to date evidence or sufficient detail to provide a sound basis for a local plan that will be in place until 2039. It appears rushed and ill considered in many areas. The public really should have had the opportunity to question and clarify directly with the authors at a "Town Hall" type presentation / exhibition / seminar.</i>
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<i>[See attachment 'Andrew Black Consulting (Bucklebury PC) Full Rep' for full consultation response]</i> Timing of Consultation It is also surprising that members did not require the plan to be taken back to full council for approval prior to submission to the Planning Inspectorate for examination. Most authorities have held a final vote in order to approve the submission of the local plan for examination. An example of this being Spelthorne Council on 31 January this year where the decision to submit for examination was made by members in full knowledge of the responses received during the final regulation 19 consultation. It is considered highly irregular that WBC has not chosen to provide members with the same opportunity. Given the significant failings in the plan identified by BPC and numerous others, it is considered that members should still be given the opportunity to consider the position of submitting a plan for examination that is effectively destined to be found unsound. Section 20 of the Planning and Compulsory Purchase Act 2004 sets out the process for independent examination and states that a local planning authority must not submit a development plan document to the Secretary of State for independent examination unless (with emphasis added) a) <i>They have complied with any relevant requirements contained in regulations under this part, and</i> b) <i>They think the document is ready for independent</i>

	<p>Notwithstanding the failings under regulations including those for Sustainable Environmental Assessment it is clear from even a cursory reading of the development plan documents that the LPR is <u>not</u> ready for examination. The regulation 19 consultation was twice delayed, presumably due to inadequacies in the evidence base. It is not considered that the plan is ready for examination, and it is the position of BPC that it should not be submitted until councillors are satisfied that it passes the statutory requirements of section 20 of the Act.</p> <p>This in itself is a matter for legal challenge which BPC maybe taking further advice from Counsel on should the plan continue to examination in its current form and on the current timescales.</p>
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p><i>[See attachment 'Andrew Black Consulting (Bucklebury PC) Full Rep] for full consultation response]</i></p> <p>Introduction and Executive Summary</p> <p>The representations set out that there are multiple significant flaws in the regulation 19 version of Local Plan Review which are incapable of being remedied prior to the submission of the document for examination. The Local Plan Review, and accompanying evidence base, is fundamentally unsound for numerous reasons as set out within these detailed representations.</p> <p>These representations have been prepared with significant input from experts on a variety of technical matters. Technical reports have been prepared by Yes Engineering in relation to highways and the Nature Bureau in relation to biodiversity and ecology and are appended to these representations.</p> <p>The representations have been informed by ongoing consultation with the residents of Bucklebury and the surrounding area who have detailed knowledge of the history and constraints of North East Thatcham. This has uncovered a substantial lack of logic in the decision-making process to allocate the area to the North East of Thatcham for significant housing growth.</p> <p>At the time of these submissions, a consultation is taking place (until 2 March 2023) for proposed changes to the National Planning Policy Framework (NPPF). The potential impact of those changes in respect of the WBC Local Plan Review are discussed in subsequent sections of these representations. However, the main thrust of these representations is made against the existing tests of soundness as set out in paragraph 35 of the current NPPF. This states that plans are 'sound' if they are:</p>

	<p>Positively prepared – providing a strategy which, as a minimum, seeks to meet the area’s objectively assessed needs; and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development;</p> <p>Justified – an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence;</p> <p>Effective—deliverable over the plan period, and based on effective joint working on cross- boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground; and</p> <p>Consistent with national policy – enabling the delivery of sustainable development in accordance with the policies in this Framework and other statements of national planning policy, where relevant.</p> <p>For the reasons set out within these representations, it is considered that the plan is unsound and fails against each of the tests as set out in paragraph 35 of the framework in numerous areas of the LPR. The failings against the tests of soundness are set out in each of the subsequent sections of these representations.</p> <p>Site Selection Process</p> <p>Of further concern in the site selection process is the transparency of the Housing and Economic Land Availability Assessment (HELAA). The most recent version of the was only published at the time of the start of the consultation process and was not made available to councillors when the decision to launch the regulation 19 consultation. It is also notable that the previous versions of the HELAA from February 2020 and December 2020 have not been made available as part of the evidence base for the plan.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>[See attachment 'Andrew Black Consulting (Bucklebury PC) Full Rep] for full consultation response]</p> <p>Consultation and Duty to Cooperate</p> <p>Local planning authorities must comply with the Duty to Co-operate when revising their development plan documents and reviewing whether they remain up to date.</p> <p>Section 33A(3)of the Planning and Compulsory Purchase Act 2004 sets out the activities which bodies subject to the duty to co-operate must co-operate on. Paragraph (3)(d) of section 33A of that Act provides that such bodies will be subject to the duty when undertaking activities that can reasonably be considered to prepare the way for the preparation of development plan documents, marine plans and other local development documents. Plan reviews prepare the way for the preparation of such documents as they involve an assessment of whether policies in a plan need updating</p> <p>Plans are required to set out strategic policies that address strategic priorities. These may include cross-boundary matters, including issues such as whether an authority is able to meet all its housing need. Given the direct implications of plan reviews in enabling such matters to be addressed through the updating of policies, it is important that the bodies subject to the Duty to Co-operate have an opportunity to engage in both how plan reviews are undertaken and the review of the plan. Engagement with neighbouring authorities and prescribed bodies needs to occur before a final decision on whether to update policies in a plan is made, as such engagement may influence that decision.</p> <p>The level of co-operation is expected to be proportionate to the task and should not unduly delay the plan review. For example, an authority may set out how they propose to review the policies in their plan and when and how neighbouring authorities and prescribed bodies will be engaged. A record of how authorities will be engaged in the review of plans and of where agreement has or hasn't been reached on the need to update a policy or policies can be set out in the Statement of Common Ground.</p> <p>WBC announced the reg 19 consultation on 20th January but then notified interested parties that some content on the WBC web site would be unavailable on 21st and 22nd January because of planned work on maintenance of the site. It was unclear what content could not be accessed and so review of the LPR evidence could not begin. WBC knew of the maintenance work and could have started the consultation once the evidence was available on 23rd January. The effect of their mismanagement is to shorten the Reg 19 consultation by 2 days to less than the 6 weeks required.</p> <p>Further evidence of the lack of consultation is apparent in the approach taken by WBC to the Settlement Boundary Review. A consultation was launched by WBC in February – March 2020 and details of this are set out in the Settlement Boundary Review Paper. The timing of the consultation is curious given that this was undertaken at the time of the first lockdown for Covid-19 when Parish Councils and residents were focused on the response to Pandemic.</p> <p>BPC was not consulted by WBC on the boundary review in the first instance as part of the Settlement Boundary Review. When told of the review by Thatcham Town Council, BPC responded (appendix 1). WBC erroneously state in the review paper that BPC failed to respond. The important points made were the need for a strategic gap between Thatcham and Bucklebury and that a ‘country park’ should be outside the settlement boundary to aid its protection. Each of these factors were ignored in the LPR.</p> <p>BPC has wider concerns around the way in which WBC has undertaken the consultation process for the LPR and the Duty to Cooperate in general. Failings with Duty to Cooperate are matters which are not capable of being remedied in advance of the plan being submitted for examination. BPC will set out further details of these failings to the inspector should the plan be submitted to the Planning Inspectorate by WBC.</p>
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it</p>	<p>Yes</p>

necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	Bucklebury Parish Council wishes to participate in the examination process and will be presenting further evidence through the submission of matters statements and oral evidence from experts. To provide updated evidence to the examiner. For other relevant experts employed by parish council to give detailed technical views on matters.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>Multiple version of draft Local Plan</p> <p>During the preparation of representations, I have discovered that West Berkshire Council have published several versions of the draft Local Plan during January 2023. These have the same title 'West Berkshire Local Plan Review 2022-2039 Proposed Submission January 2023' and cover page, which can only be distinguished by the page header. The most recent that I am aware has the header "West Berkshire Council: consultation version 20th January 2023". Potential respondents were not informed of this, either on the web page where the document could be downloaded or by email.</p> <p>I am aware of material differences between the versions in the first paragraph of policy SP17 and in relation to its number of dwellings – but there may be others.</p> <p>Therefore, if the Examination finds representations that do not accord with the wording of the draft Local Plan that it receives, this might be because a respondent has inadvertently used an earlier version of the document (but which was still represented at the time of its publication as being final).</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	I should like to register my objection to West Berkshire Council's LPR of 2023 for several reasons. The most basic reason is that updated guidance on these matters is due to be published later this year by the government and if this plan is proceeded upon it may become outdated and open to legal challenges if implemented leading to delays and missed targets. It is anticipated that the government's required numbers of houses in each area will be reduced, which is most significant. The plan also contradicts the national guidelines on impact on AONBs.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No

Please give reasons for your answer	I should like to register my objection to West Berkshire Council's LPR of 2023 for several reasons. The most basic reason is that updated guidance on these matters is due to be published later this year by the government and if this plan is proceeded upon it may become outdated and open to legal challenges if implemented leading to delays

	<p>and missed targets. It is anticipated that the government's required numbers of houses in each area will be reduced, which is most significant. The plan also contradicts the national guidelines on impact on AONBs.</p> <p>There is insufficient information about who provided the information used in preparing this report, who paid the costs and who put it together. The plan has no explanation as to how it will be enacted in the time span covered by the report.</p> <p>The LPR lacks detailed and transparent supporting evidence to the assumptions used. This is particularly vital regarding the numbers and types of housing needed in the future. With the lack of substantive detail it must be assumed that the any new estates will be the usual, high profit mix of executive and middle management houses. Given the current and foreseeable situation the biggest requirement must be affordable and social housing, true vision would provide a lot more of these types. The plans talk of a percentage of affordable housing but experience shows that the number of these reduce as developers find unforeseen profitability problems, the WBC roll over and a reduction in number is agreed. We should be catering for a high percentage of the types of housing all of the community need not just those with the income to buy. As a young couple looking to start a family, but currently stuck in the rental market due to the high house prices in the area, this point is particularly pertinent to our situation. If this housing landscape does not change soon we would potentially look to move away from the area.</p> <p>In the LPR there is no effective detail on mitigating the effects of the extra housing on the social, physical and environmental infrastructure. With the existing pressures on all of these no LPR can ignore this matter. The effects on traffic, schools, doctors, care homes, drainage, water supplies, education, countryside etc will be very significant. The plan does not address the need and cost for extra schools, GP surgeries, care provision, road improvements, new paths in local villages as commuting traffic increases. The roads around Newbury are already very busy and these plans will put extra traffic on all of the C roads as new rat runs to the motorway junctions become used. We have lived in Thatcham for (personal information redacted) years and have recently moved to the outskirts of Newbury, and traffic is already an issue, not to mention the poor states of the roads due to this. School places are hard come by, with very little choice for parents, and public transport to and from schools is already at full capacity. These are only the tip of the iceberg of issues – imagine the impact if so many new houses are added to an already stretched community.</p> <p>Any LPR should be looking at alternatives to simple large estates and there is no detailed confirmation this has been done. The capacity of smaller developments, brownfield sites, unbuilt planning permissions, and utility of other areas should all be quantified.</p> <p>All development plans should take into account their effect on the immediate and local communities. To provide large estates means smaller communities become one big urban sprawl to the detriment of living standards generally. For instance to enlarge Thatcham by 1500 to a potential 2500 would mean Thatcham, Newbury and local villages like Cold Ash and Upper Bucklebury run one into another. Having resisted closing the green gap between Thatcham and Newbury for this reason it is ridiculous to propose this many houses around North Thatcham.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<p>Site Allocations have been selected and the plan finalised for consultation prior to finalisation of HELAA site assessments; decision of members to move forward to consultation on Reg 19 Plan taken in the absence of knowledge of the range of site assessments/ options available to accommodate development.</p> <p>Public comments invited until 3 March, in the knowledge of proposed meeting the evening of 2 March to decide whether to abandon the consultation/ draft strategy. This will inevitably have impacted decisions taken on whether or not to spend time/ funds pursuing representations on the plan, leading to a flawed consultation process.</p> <p>Errors in evidence base contributing to flawed consultation process, with stakeholders unable to review/ comment on full assessment of the impact of the proposed development strategy.</p>
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes	No

* No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p><i>Timing of production of evidence base:</i></p> <p>We note that Proposed Submission Regulation 19 Local Plan review was presented to Full Council on 1 December, and the decision taken at that meeting to move towards public consultation. Yet the HELAA report containing assessment of proposed allocations and other available sites was not published until January 2023. The latest update prior to that was December 2020, so a number of changes and additions are expected in the interim. As such, the decision appears to have been taken by members to finalise the selected allocations for inclusion in the LPR, prior to them having had sight of the full range of HELAA site assessments. This raises doubts as to the soundness of the proposed allocations, given members could not have had a full appreciation of the range of options available for allocation, and the relative merits/ constraints associated with each.</p> <p>Other key parts of the evidence base have also been finalised and published after key final decisions were taken on the strategy and proposed allocations, including:</p> <ul style="list-style-type: none"> • Air Quality Assessment – published Jan 2023 • Employment Background Paper – published January 2023 • Flood Sequential Test Report – published January 2023 • Housing Background Paper – published January 2023 <p><i>Errors in evidence base:</i></p> <p>It is also unfortunate to note that there are errors within the evidence base documents, which could contribute to a finding that the LPR is unsound. We shall not detail these in full, but by way of example:</p> <ul style="list-style-type: none"> • Site Selection Methodology, published January 2023, refers in paragraph 1.1 to the plan covering the period up to 2037 – which of course should be 2039; • The Air Quality Assessment, published January 2023, is based on a plan period up to 2037, so has not assessed pollutant concentrations for the full plan period. The post script on page 10 notes that fact that the plan period has extended out to 2039 following production of the draft assessment, and that once the revised transport model forecasts for 2039 become available, further analysis will be required to confirm there are not significant differences from the assessment which is based on a plan period up to 2037. That work should be carried out prior to the Regulation 19 consultation and submission to Independent Examination. • Transport Assessment – phase 1 was completed in December 2020 and assesses a plan period up to 2037. Phase 2 modelling (July 2021) and assessment was also based on a 2037 end date. As such it is not clear that the full plan period has been assessed and that the effects of the large strategic development locations, up to 2039, are known. This is a key issue with the proposed development strategy, given the focus on larger strategic sites in edge of settlement locations. That assessment work should be carried out prior to the Regulation 19 consultation and submission to Independent Examination, so that the public can comment meaningfully on it.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	Update evidence base to assess full plan period, and revisit proposed site allocations following completion of that work. To include update to technical studies and whole plan viability. Undertake a further public consultation on the proposed plan/ allocations once the full suite of technical work is complete and up to date.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes

6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>We note that our client is broadly supportive of the Plan, including its Vision and Objectives, which clearly recognises the role that small and medium-sized enterprises play in ensuring a resilient and sustainable economy. Further, our client welcomes the Council's aspirations to continue to conserve and enhance the North Wessex Downs AONB, with appropriate landscape-led development delivering wider environmental, economic and social benefits.</p> <p>Notwithstanding the above, our client has concerns as to whether the Plan provides a 'sound' strategy to deliver sustainable development. On this basis, we have prepared the enclosed representation form, covering emerging policies related to Spatial Strategy, North Wessex Downs AONB, transport, heritage and sustainability.</p> <p>It is noted that the Council held an Extraordinary Meeting on 2nd March to decide whether they proceed or withdraw the current consultation. The related agenda item itself describes the current Local Plan consultation as containing serious 'omissions and ambiguities' which make the plan unsound. The flaws appear to principally relate to the northeast Thatcham allocation and how processes were followed including communication of key information to Council Members. The housing number relevant to this allocation is also in doubt. The ultimate vote resulted in the motion being lost and the Plan consultation to continuing. These important matters of soundness and related procedural matters will need to be addressed prior to the submission of the plan for examination.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>

2. Do you consider the Local Plan Review is sound? - Consistent with national policy:	

<p>the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>Specific Objections : WBC's process and timings</p> <p>Government consultation on the NPPF</p> <p>The NPPF consultation launched in December 2022 runs until 2nd March, 2023. The Consultation Version of the NPPF sets out that the Standard Method for calculating the housing requirement (as used by West Berkshire for the regulation 19 version of the plan) will be advisory not mandatory and should only be the starting point for local plan. There is a particular focus within the consultation NPPF on taking into account the character of an area when assessing how much housing can be accommodated.</p> <p>Therefore it is unacceptable that West Berkshire are continuing to consult on the current version of the local plan, that councillors did not require the final version of the plan to be brought back to them for before it is submitted to the Planning Inspectorate for examination.</p> <p>On the back of this announcement, several Local Authorities have paused their plan making process whilst they await the outcome of the consultation on the basis that a lower housing requirement could be applicable to the plans than the one currently being planned</p> <p>We feel that the council should take the opportunity, as others have, to pause the plan making and to bring forward a revised plan in line with updated planning guidance when this comes in later in 2023.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>

Please give reasons for your answer	THE PLAN PERIOD Paragraph 22 of the NPPF requires that ' <i>...strategic policies should look ahead over a minimum 15 year period from adoption</i> '. The Council's proposed plan period runs to 2038/39, which would mean that the plan would need to be adopted in 2023/24 if it is to ensure a full 15 years from the point at which it is adopted. The Council's own

	<p>Local Development Scheme ('LDS') [Footnote 12: Available online at: https://www.westberks.gov.uk/media/53425/Local-Development-Scheme- January 2023/pdf/Local_Development_Scheme_Jan_2023_clean.pdf?m=638097176540170000], further demonstrate the extent of this need in the plan area, finding there is a need within West Berkshire for approximately 330 new affordable homes per annum up to 2039.</p> <p>To redress this, Darcliffe recommends the plan-period should be extended by at least 12 months, ending in 2040. This would, in effect, increase the overall housing target by at least 513 dwellings, to cover the additional monitoring year. The council will also need to identify additional supply of new homes to address the plan's extended plan period.</p> <p>Darcliffe recommends that the allocation of the Land west of Little Heath Road, Reading for approximately 322 dwellings could and would make a significant contribution to redressing this additional housing need through the plan period.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Duty to Co-operate</p> <p>The Duty to Co-operate is a legal requirement under section 33A of the Planning and Compulsory Purchase Act 2004 for which guidance is set out in NPPF 2021 paragraphs 24-27.</p> <p>The four LPAs which make up the Western Berkshire Housing Market Area, including WBC and Reading Borough Council, signed an updated Statement of Common Ground for Local Plan Making in August 2021.</p> <p>That SoCG (paragraph 4.5) recognises a shortfall of 230 dwellings in total for Reading BC's area, or 10 per annum over the plan period (to 2036). This shortfall derives from Policy H.1 of the adopted Reading Local Plan, November 2019, which states:</p> <p><i>H1: PROVISION OF HOUSING</i></p> <p><i>Provision will be made for at least an additional 15,847 homes (averaging 689 homes per annum) in Reading Borough for the period 2013 to 2036.</i></p> <p><i>The Council will continue to work with neighbouring authorities within the Western Berkshire Housing Market Area to ensure that the shortfall of 230 dwellings that cannot be provided within Reading will be met over the plan period.</i></p> <p>Paragraph 4.4.6 develops the issue of the shortfall:</p> <p><i>Delivering the level of housing set out in policy H1 will mean that there is a shortfall of 230</i></p>

	<p> dwellings when considered against Reading’s need. This will need to be accommodated elsewhere within the Western Berkshire Housing Market Area. The other three authorities within the HMA recognise that there will be issues with Reading’s ability to accommodate its need within its own boundaries, and this issue is set out within the West of Berkshire Spatial Planning Framework to which the four authorities have signed up⁷⁵. There will be continuing dialogue on this matter between the affected authorities which will inform local plans. Where agreement is reached, it will be for individual authorities’ Local Plans to specify where development will be located.</p> <p>Where: 75 http://www.bracknell-forest.gov.uk/west-of-berkshire-spaal-planning-framework-final.pdf</p> <p>In principle, therefore, the shortfall of 230 dwellings must be met within the West of Berkshire Area. Policy H1 envisages that individual Local Plans will specify where development will be located yet there is no such specification or allocation in the WB R19 LPR. Indeed paragraph 1.28 of the R19 LPR is silent on Reading’s unmet need. The SOCG contains out an important caveat: “... it is important to note that this agreement relates only to Reading’s need as calculated by the (West of Berkshire SHMA) not by any alternative calculations of need, which will need to be subject to separate discussions.”¹ (quote from para 4.5 of the SoCG, reproduced at Appendix 4 of the WBV Duty to Cooperate Statement January 2023)</p> <p>Although the 230 dwelling shortfall is a product of the SHMA, it has been examined and is now embedded in policy H1 of Reading’s adopted local plan.</p> <p>Reading BC’s area need is due to be calculated by the end of December 2024 using the standard method (or any other calculation which applies at that time), yet there is no evidence of any separate discussions with regard to this.</p> <p>There is no agreement between the four LPAs on how this current shortfall might be met across the HMA. Furthermore, RBC will face an uplift in its figures of 35% as a result of it being one of the 20 most populous urban LPAs in England. Whilst there may be no requirement for adjoining LPAs to accept this element of unmet need it will still serve to increase the pressure on the HMA as a whole.</p> <p>Moreover, as recognised further in the WBC Duty to Co-operate Statement: <i>2.7 The settlements in the Eastern Area – Purley on Thames, Tilehurst, Calcot and Theale have a close functional relationship with Reading. Whilst many residents in this area use facilities and services in Reading, there is a significant movement the other way in terms of school children, with West Berkshire schools educating a significant number of Reading pupils.</i></p> <p>Without a clear and document agreement on how Reading BC’s unmet need can be met across the HMA, and more specifically West Berkshire which shares its border with the Reading urban area, it is obvious that WBC has failed to meet the Duty to Co-operate tests. This means the R19 LPR is also not sound because it has not been positively prepared and is not consistent with NPPF 24-27.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>As above</p>
<p>4. Proposed Changes</p>	<p>Address the shortfall of unmet need arising in Reading by allocating more sites in the Eastern Area. Thee are sites which are recognised as achievable and deliverable in the Council’s evidence base supporting the LPR. Prime amongst these is site TIL13 at Pincents Lane.</p> <p>Site TIL13 has a long planning history. By common consent, the problems with the 2011 appeal scheme have been resolved and no technical obstacles exist to development of the site for a scheme of up to 165 dwellings. By the LPA’s own assessment, the concerns – and the reasons for not proposing it for allocation – are entirely “political”. No one would deny the validity of elected members making political choices where real choices exist, but the fact is that not allocating the site would leave the LPA without a single significant contribution to offer to meet either its own housing need in the Eastern Area or that arising from Reading, of which the Area is functionally part. The site should therefore be allocated.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	

6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

<p>Please give reasons for your answer</p>	<p>Thatcham Town Council respectfully submits its representations on West Berkshire Council's Regulation 19 Consultation on its draft Local Plan.</p> <p>The Town Council welcomes the decision of West Berkshire Council to reconsider its proposal in the Emerging Draft Local Plan for a strategic site of 2,500 homes to the north east of Thatcham. However, the Regulation 19 draft Local Plan does not properly consider the impacts of a development of its revised proposal for 1,500 homes, nor adequate provision for the infrastructure that Thatcham so desperately needs – even before any additional homes are built.</p> <p>The current Local Plan states that:</p> <p>“Thatcham’s services and facilities will be improved allowing the town to fulfil its role within the District Settlement Hierarchy and the Hierarchy of Centres, serving the local population, not only within Thatcham, but also the surrounding rural areas.”</p> <p>This improvement has not happened during the current plan period, and the policies in the draft Local Plan and the Infrastructure Delivery Plan will not deliver this in the next plan period. The draft Local Plan is therefore unsound, as it relates to Thatcham and its surroundings.</p> <p>Thatcham Town Council acknowledges that Thatcham should make its proportionate contribution to the housing needs of West Berkshire, once the deficit of infrastructure (particularly social infrastructure) in the town has been addressed.</p> <p>These representations identify numerous reasons why the draft Local Plan as it relates to Thatcham is not legally compliant or is unsound. The Town Council believes that it is not ready for independent examination (as per Section 20 (7) of the Planning and Compulsory Purchase Act 2004). We therefore urge West Berkshire Council to delay the submission of the draft Local Plan to the Secretary of State, so that these matters can be addressed. This would also enable it to take into account the review of the National Planning Policy Framework, on which the Government is currently consulting.</p> <p>Should West Berkshire Council proceed with submission of the draft Local Plan in its current form, the Town Council envisages that the changes necessary to make it sound would be more extensive than could be addressed through ‘main modifications’, and it would therefore be rejected. The Town Council understands the need for West Berkshire to have a Local Plan. Delaying the submission in order to address the issues in these representations is therefore likely to lead to an earlier date of final adoption.</p> <p>The Town Council welcomes the statement in paragraph 6.63 of the draft Local Plan “Further detailed work will be required to develop a coherent masterplan or development framework to take the development <i>[at North East Thatcham]</i> forward, which will be produced in collaboration with the community and other stakeholders.”</p> <p>As the principal representative of the community of Thatcham, the Town Council looks forward to playing a leading role in this collaboration. If this collaboration had started earlier (between the Regulation 18 consultation on the Emerging Draft Local Plan and this consultation) as is called for in Paragraph 25 of NPPF, then many of these representations might not have been necessary.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	<p>Yes</p>

5. Independent Examination	<p>Thatcham Town Council is the principal representative body of the community of Thatcham, which is the location of only new strategic site allocation in the draft Local Plan. The suitability of this site for development is reliant on having adequate infrastructure. However, the regeneration that was promised in the current Local Plan has not materialised, and would not be delivered through the policies in the draft Local Plan. The Town Council can provide local insight to the examination about Thatcham, and particularly on the substantial deficit of infrastructure in the locality. It would also be happy to elaborate on its other concerns about the current proposals for the North East Thatcham Strategic Site Allocation, as described in these representations.</p> <p>The Town Council anticipates that changes necessary to the draft Local Plan in relation to site allocations are greater than could be addressed through 'main modifications'. If, however, the Inspector is minded to consider recommending 'main modifications' to policy SP17 and related matters in other Policies, it would welcome the opportunity to provide its perspective on what modifications would be required.</p>

<p>Please give reasons for your answer</p>	<p>It is recognised that WBC is progressing with the plan-making process and includes provision for meeting the borough's housing needs and addressing its response to the Climate Change Emergency. However, BDBC wishes to ensure that West Berkshire Council is meeting its needs in full and that the Plan takes account of any potential impacts upon the borough and its residents.</p> <p>The draft Plan sets out how the council has sought opportunities to meet the office and industrial needs for the district but acknowledges that there is an identified shortfall in supply. WBC commits to addressing this in the first five year review of the Local Plan.</p>

<p>the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Paragraph 1.14 (Neighbourhood Planning) – Thakeham supports the proactive use of Neighbourhood Development Plans by local communities to influence development in their local areas, particularly where Neighbourhood Development Plans seek to allocate sites for development to assist meeting the housing need within the local authority area.</p> <p>Paragraph 1.19 (Housing and Economic Land Availability Assessment (HELAA)) – This paragraph refers to the February 2020 HELAA that forms part of the evidence base of the Reg 19 Local Plan. It is evident that this HELAA assessment has since been updated in December 2020, and most recently in January 2023. Thakeham welcomes the approach to keeping the HELAA updated, however, it is noted the evidence base for the HELAA remains unchanged. Sites are therefore, for example, being assessed against the 2011 Landscape Sensitivity Assessment; a document which is now over twelve years old. The Reg 19 Local Plan proposes new allocations to help meet the housing requirement over the Plan period to 2039, however Thakeham considers the inclusion of new sites within the Reg 19 Local Plan should be based on sound and the most up to date evidence. This is particularly imperative in relation to landscape, given its ability to change over time. The Housing Background Paper (January 2023) confirms at paragraph 3.14 that ‘the sites considered for allocation were identified through the HELAA’. Thakeham considers the evidence supporting the HELAA is out of date and therefore this is not a sound approach. New sites have been added to the HELAA and assessed, without the assessment of previously submitted sites having been revisited.</p> <p>As an example, our Site is discounted within Stage 2b of the HELAA assessment, following the Landscape Sensitivity Assessment (2011) conclusion that development would result in harm to the AONB. Thakeham submitted detailed evidence to West Berkshire Council in December 2021, in the form of an updated Landscape Appraisal (September 2021), that demonstrated positive changes to the Site’s context when compared to the Council’s 2011 Landscape Sensitivity Assessment and concluded the Site could be developed without causing harm to the AONB. In addition, we confirmed to West Berkshire Council that Lambourn Parish Council has produced a Landscape Character Appraisal (November 2020), to inform the LNDP, which also confirms the Site is capable of sensitive development. This evidence does not appear to have been considered.</p> <p>The Council confirms at paragraph 1.23 of the Reg 19 Local Plan that ‘one of the key features of the plan-led system is that development plans should be based on up-to-date evidence’. Thakeham supports this, however, maintains the position that the evidence supporting the HELAA is out of date. Thakeham has received no correspondence from the Council on the above, however would welcome the opportunity to discuss the matter further.</p> <p>Paragraph 1.22 (Duty to Cooperate) notes the intention of the Council to continue the cross- boundary relationship with neighbouring authorities. Thakeham supports this approach and considers that it goes to the heart of successful strategic planning. It is noted however that the ‘Duty to Cooperate Statement’ at paragraph 5.7, whilst confirming that Reading’s unmet need should be met within the West of Berkshire Area, also states that ‘this agreement relates only to Reading’s need as calculated by the Berkshire SHMA, not by any alternative calculations of need’. Thakeham suggests that this is re-written, as it appears to not include the Government’s proposed method for calculating housing need and therefore cannot be considered a sound approach. It is also not clear how this unmet need will be delivered.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council’s evidence underpinning certain policies is strong, in others it is notably weak.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	

Please give reasons for your answer	<i>Policies Map</i> <i>The policies map does not clearly show the following for Theale:</i> • <i>primary shopping area</i> • <i>three conservation areas</i>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	The map should be corrected to clearly show the primary shopping area and the conservation areas in Theale
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

Please give reasons for your answer	Local Plan Regulation 19 covering letter to Inspector As Leader of the main Opposition Group on West Berkshire Council and with the support of my entire Group, I am writing to point out the unusual situation in this Council, and as such the Local Planning Authority in whose name you are being sent our draft Local Plan for Examination in Public. The Council is due to hold all-out elections on 4th May and therefore enters the statutory "Pre-Election Period" during which - from the formal Calling Notice on Friday 24th March until the first meeting of the Full Council after the election currently scheduled for Friday 25th May – no political decision can be made. In the outgoing Council at this time, there are 24 Conservatives, 16 Liberal Democrats and 3 Green Party Members. It is widely expected that there will be a change in administration. We would respectfully ask that you consider our response to the Regulation 19 submission draft new Local Plan for 2026-39 in the light of this situation. We have had to submit our responses to Regulation 19 by 3rd March. We had called on 2nd February for an Extraordinary Meeting of Council, which the Chairman arranged to be held following the Budget Meeting on Thursday 2nd March. In that Meeting we had hoped to persuade Members across all parties to pause the Plan making process until we knew what the outcome of the Government's consultation on an update to the NPPF would be, as several other LPAs have done, including the Secretary of State's own LPA (Surrey Heath DC) which is in exactly the same stage as ours and also has a very similar political composition as ours. It too is facing all-out elections in May. We have therefore had only one day to finalise our response, which is enclosed. However, we had assumed that our Motion to Full Council last night would not find support, hence this letter.

	<p>We also have concerns about the soundness of the evidence that has led to the choice of the one new strategic housing site in the District, following the need that arose in 2020 to abandon the previous preferred strategic site on the West Berkshire / Wokingham Borough border. Grazeley was withdrawn owing to changes in the Atomic Weapons Establishment's policies on its development safety zones preventing new development in them.</p> <p>The decision to delegate to our officers the signing off of the Submission of the Plan to PINS was made on 1st December. That was before it was known that there was about to be an NPPF consultation running in parallel to our Reg. 19 consultation. It was also before the 6th December Ministerial Letter and the January Chief Planner's Newsletter in which it said there will be a further major update to NPPF later in 2023.</p> <p>Only if our officers deemed there to be non-editorial changes made between that date and the date of submission were they to refer the Plan back to Full Council. The fact that you are now reading this letter means that officers did not refer the Reg. 19 draft Plan back to Full Council at its additional and final pre-election meeting set for 16th March. However we believed it would be extremely challenging for our officers to collate and summarise all responses made to the Regulation 19 draft before the Pre-Election Period. If they did find it necessary to refer the Plan back to Full Council it must nevertheless have been decided by Council to submit.</p> <p>You may now find upon contacting this Council that the political leadership has changed and that Liberal Democrats have now formed the Administration. If that is the case, we would like to advise you that it is our clear and publicly known intention to ask the newly elected Council to pause the process for a few months while we review the Plan that was submitted.</p> <p>We would respectfully ask you to consider our submitted comments as those of the new Council, which may not necessarily find agreement across the Chamber. We will have asked Council to do so, so that our officers will, as from after the first meeting of the new Council, be expected to work to our policy direction during any future Examination of the Plan. Note that hitherto and in this response we have not had the benefit of professional officer support.</p> <p>However, please note that during the passage of the draft emerging Plan through this Council's internal processes, there have been few disagreements on major strategic policies. We do not wish the Plan to be found unsound, but we sincerely hope that you will find it possible to favourably consider our responses, to the few policies where we have concerns, as the basis of Modifications that you will ask us to make in order that we can adopt a new Plan in a timely fashion. Our priority is to help our District better tackle climate change, through having a robust new Local Development Plan to take us through to 2039.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.	No

* Yes * No	
Please give reasons for your answer	<p>Soundness of the Regulation 19 Consultation</p> <p>The decision to take forward the Proposed Submission Regulation 19 LPR to consultation took place at a Full Council meeting in December 2022, yet the HELAA report containing the assessment of all sites was not published until January 2023. This means that Full Council made a decision to take forward the Proposed Submission LPA including proposed site allocations, without having had sight of the updated HELAA (2023). The HELAA that would have been available at the time of the Full Council meeting was dated December 2020.</p> <p>Hathor Property therefore question the soundness of the proposed allocations, in the absence of Members having access to the full evidence base for the site selections when taking the decision to proceed with the Regulation 19</p> <p>Local Plan Period</p> <p>NPPF (2021) paragraph 22 requires strategic policies should look ahead over a <u>minimum</u> 15 year period from adoption (our underlining). The proposed LPR period runs to 2038/39 which will mean that the LPR would need to be adopted in 2023/24 if it is to be consistent with the NPPF.</p> <p>However, given the need to allow for formal submission and Examination, and any preliminary matters the Inspector may want to review, and subsequent modifications, it is highly unlikely the LPR will be adopted a year from now. Therefore, in order to ensure the plan period is consistent with national policy then an extra year should be added with the plan period ending in 2039/40.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Our position is that the site should be included as a proposed residential allocation and that the LPR does not provide enough sites to provide sufficient housing supply
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	General Observations: The aim of delivering carbon neutral by 2030 and thereafter is encouraging. We welcome recognition of the outstanding value of the North Wessex Downs landscape and the abundant biodiversity in settlements and surrounding countryside. Policy wording changes generally improve the readability and effectiveness of the plan. Maps - Maps throughout the document have no scale. Some have no North indicator. Size of text makes crown copyright illegible.

	<p>Policy wording - Some policies are more than a page long and contain multiple paragraphs. Paragraphs within policies are not numbered, making it difficult to precisely reference them.</p> <p>Local Plan Map - Too many layers are displayed simultaneously- it is impossible to accurately read detail on the map. For instance, the settlement boundary through Tilehurst Parish has been reviewed and (we believe) is largely unchanged- but we cannot accurately see what (if any) differences there are from the current settlement boundary. Without road detail displayed, the site of the proposed retail park designation in Calcot is unclear and we cannot comment on the detail of its proposed outline.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>The Vision confirms that the Council will make available "...housing of different types, sizes, tenures and affordability will be a priority in order to provide West Berkshire residents with homes and environs at sustainable locations in towns and villages that meet their needs, whatever their income, stage of life and ability" [our emphasis]. The 'Housing' objective explains that a key objective of the Plan is to meet its housing need by providing a range of housing, including affordable housing.</p> <p>Please see accompanying statement for our full representations. In brief, the housing target is insufficient to boost the supply of housing and provide flexibility, address affordability and need for affordable housing in the district and the housing supply would likely lead to a housing shortfall below the LHN, particularly due to reliance on windfall sites and the large strategic sites.</p> <p>As such, the Council's strategic policies of the Local Plan (i.e. Policy SP12 and the strategic site allocations etc.) do not currently deliver the Plan's vision and objectives and are unsound.</p> <p><Full response attached but does not include specific comments on the Vision or Objectives></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Please see accompanying statement for our full representations.</p> <p>There is justification that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10 - 20% buffer/uplift to the minimum LHN). This level of housing will ensure sufficient flexibility to deliver the minimum local housing need, but also provides for choice and contingency to the market and reflect current and future demographic trends and housing market signals and affordability in West Berkshire. As such, the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy.</p> <p><Full response attached></p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>We wish to appear at the examination to present our evidence and technical information to support these representations</p>

Please give reasons for your answer	The Regulation 19 plan sets out a vision for the emerging plan to be brought forward. As set out below with regards to the specific areas of this consultation, we consider the plan's aims for providing for housing in the main towns of the district to be a sound one. Proposed Vision In general, we support the proposed vision that seeks to provide sufficient housing in the Borough along with the aim of approaching development based on three spatial areas. The vision states the aim of ensuring that development should be well connected to local services and facilities.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

<p>1. Do you consider the Local Plan Review is legally compliant? * Yes * No</p>	
Please give reasons for your answer	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a</p>	

<p>minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>As set out in the previous representations, we are supportive of West Berkshire's vision set out in paragraphs 3.1 to 3.4 of the Local Plan Review Consultation document. We strongly agree with the Council's priority to make available housing of different types, sizes, tenures and affordability. In addition to focusing most of the growth in the urban areas the Council should look to all settlements and available land within the district in sustainable locations to help meet this priority.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes * No</p>	
<p>6. Notification of Progress of the Local Plan Review - The</p>	

publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

<p>Please give reasons for your answer</p>	<p>In the consultation portal the strategy outlined by West Berkshire Council (WBC) seems to be that the Area of Outstanding Natural Beauty (AONB) must not have any new housing or work opportunities built in it.</p> <p>Figure 1 West Berkshire Constraints shows that the majority of West Berkshire is covered by the AONB and WBC seem to have decided that a very small part of the district, concentrated around Newbury, Thatcham and Reading, must contain all of the new housing and work opportunities for the foreseeable future.</p> <p>WBC has failed to properly investigate alternative places in the district for development and have dismissed out of hand anywhere else but north-east Thatcham, south Newbury and Reading.</p> <p>This is an unsustainable plan for the future and goes against the idea of providing a pleasant place for everyone to live and work. The best way to deliver a good place for everyone to live and work is to develop new small-scale housing and business premises in all villages and settlements, so that people can live and work more locally.</p> <p>For the future the nation will need to grow food and create energy for living much closer to where people live and work and a completely new approach will be needed to ensure that this is done for the benefit of everyone. The idea of keeping all new housing and business development concentrated around Newbury, Thatcham and Reading will not be sustainable into the future..</p> <p>The idea that the AONB must not have any new housing and business development built in it is completely flawed. Villages and settlements need to have new housing and work opportunities so that they will be able to accommodate future generations of current families, otherwise they will continue to be the preserve of only very wealthy people thereby forcing new generations out of these communities.</p>

2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable	

<p>over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p><i>NPPF C1 Understand and relate well to the site, its local and wider context</i></p> <p><i>Context Looking Forward</i></p> <p><i>prioritise nature so that diverse ecosystems can flourish to ensure a healthy natural environment that supports and enhances biodiversity;</i></p> <p>We believe across West Berkshire there is an opportunity to make real benefits and gains in the wider countryside to reverse biodiversity loss but this needs the proactive help of planners encouraging local off-site high quality habitat creation and linkage schemes, as is happening in other local authority areas.</p> <p>The local plan does not place a high enough emphasis on nature and biodiversity in relation to the creation of high quality and enduring nature and habitats in relation to biodiversity net gain requirements.</p> <p>The WBC method of managing biodiversity seems to mainly involve policing on-site habitat activity which the Biodiversity Metric may score well in the first instance but would in fact be severely negatively impacted over the 30 year period due to recreational/domestic/residential/business activities and pressures on and around sites.</p> <p>Also, regarding economic activity and employment, Natural England's BNG Brochure states: https://naturalengland.blog.gov.uk/wp-content/uploads/sites/183/2022/04/BNG-Brochure_Final_Compressed-002.pdf</p> <p>For landowners BNG can create long-term income opportunities through investment in habitat management. BNG generates sustainable and long-term financing for habitat management and maintenance, providing certainty and creating jobs.</p> <p>Restoring habitats via BNG can act as a green finance mechanism, delivering wider economic benefits and increasing financial and natural capital asset values. By creating bigger and better natural capital assets the resilience and flow of ecosystem services, and the benefits society receive from them, will be enhanced, and the value received from nature maintained and increased.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>We believe there is an opportunity to make real benefits and gains in the wider countryside to reverse biodiversity loss but this needs the proactive help of planners encouraging local off-site high quality habitat creation and linkage schemes as is happening in other local authority areas.</p> <p>The local plan does not place a high enough emphasis on nature and biodiversity in relation to the creation of high quality and enduring nature and habitats in relation to biodiversity net gain requirements.</p> <p>The WBC method of managing biodiversity seems to mainly involve policing on-site habitat activity which the Biodiversity Metric may score well in the first instance but would in fact be severely negatively impacted over the 30 year period due to recreational/domestic/residential/business activities and pressures on and around sites.</p> <p>For landowners BNG can create long-term income opportunities through investment in habitat management. BNG generates sustainable and long-term financing for habitat management and maintenance, providing certainty and creating jobs.</p> <p>Restoring habitats via BNG can act as a green finance mechanism, delivering wider economic benefits and increasing financial and natural capital asset values. By creating bigger and better natural capital assets the resilience and flow of ecosystem services, and the benefits society receive from them, will be enhanced, and the value received from nature maintained and increased.</p> <p>WBC's local plan should place more emphasis on the employment and diversification into green jobs that can come with a greater emphasis on local high quality biodiversity off-site compensation for development.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p>	Yes

* No	
5. Independent Examination	<p>We believe there is an opportunity to make real benefits and gains in the wider countryside to reverse biodiversity loss but this needs the proactive help of planners encouraging local off-site high quality habitat creation and linkage schemes as is happening in other local authority areas.</p> <p>The local plan does not place a high enough emphasis on nature and biodiversity in relation to the creation of high quality and enduring nature and habitats in relation to biodiversity net gain requirements.</p> <p>The WBC method of managing biodiversity seems to mainly involve policing on-site habitat activity which the Biodiversity Metric may score well in the first instance but would in fact be severely negatively impacted over the 30 year period due to recreational/domestic/residential/business activities and pressures on and around sites.</p> <p>For landowners BNG can create long-term income opportunities through investment in habitat management. <p>Please give reasons for your answer</p>	<p>Chieveley Parish Council broadly agrees with the vision presented (3.1-3.4) Strategic Objectives of the plan (3.5) and in particular, that the landscape in the North Wessex Downs should remain of outstanding value (3.4).</p> <p>The plan must continue to conserve and enhance the North Wessex Downs AONB in accordance with national policies</p> <p>Any landscape-led development should be both appropriate within that policy context and deliver wider environmental, economic, and social benefits. These requirements should also have regard to local needs.</p> <p>In particular CPC supports the following elements of the vision and Strategic Objectives: Making available carbon neutral housing of different types, sizes, tenures and affordability ... and Strategic Objective 1. High quality design that is in keeping with the character and local distinctiveness of the area... and Strategic Objective 3. West Berkshire's landscape in the North Wessex Downs will remain of outstanding value and its biodiversity more abundant in settlements and the surrounding countryside. and Strategic Objective 8.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	We do not believe the plan is legally compliant in relation to its assessment of employment provision within the Sustainability Appraisal.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by	No

<p>the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>The Vision of the Plan states that West Berkshire will provide the space and environment for employment opportunities and:</p> <p>“A variety of different sectors together with a combination of larger businesses and small and medium-sized enterprises will ensure a resilient and sustainable economy. The local economy will help to create benefits for the environment, culture and social well-being.”</p> <p>The Vision goes on to say:</p> <p>“Development will be better connected to local services, facilities and open space within the District, and where relevant in adjoining local authority areas, by favouring more sustainable means of travel including reducing the need to travel, all of which will foster community cohesion, health and wellbeing.”</p> <p>Strategic Objective 4 relates to the economy and notes:</p> <p>“To facilitate and support a strong, diverse and sustainable economic base across the District, including the provision of employment land which provides for a range of local job opportunities.”</p> <p>Panattoni support the Vision and Objectives set out within the Local Plan but raise significant concerns about whether these can actually be met given that the Council have acknowledged that there remains a shortfall of 32,709sqm of industrial land which is not met through allocations in the Plan.</p> <p>The failure to allocate land to meet this shortfall does not comply with paragraph 82(b) of the NPPF which notes that planning policy should “set criteria, or identify strategic sites, for local and inward investment to match the strategy and to meet anticipated needs over the plan period” [our emphasis]</p> <p>It is Panattoni’s position that additional land needs to be allocated to at least meet the shortfall and provide a sufficient buffer to ensure a resilient economy.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>5. Independent Examination</p>	<p>Our position is that the site should be included as a proposed employment allocation and that the LPR does not provide enough sites to provide sufficient employment land.</p> <p>We can assist the inspector in their consideration of the Local Plan and associated evidence.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes

2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.	Yes

* Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	<p>On the scope of the Regulation 18 Consultation we noted the key themes within Council's Vision and, in particular, the focus on community cohesion, health and wellbeing. The energy efficiency, landscape, heritage and biodiversity elements of the vision are also noted. These key themes continue to be a part of the Council's Vision on the Draft Local Plan currently being consulted on, and this is welcomed.</p> <p>In relation to the key themes of the vision, we consider that our Client's site, Land at Hall Place Farm, is highly consistent and offers the opportunity to realise the separate strands of the vision on a medium sized site which can be delivered in the short to medium term.</p> <p>Land at Hall Place Farm Tilehurst, provides the opportunity to accommodate in the region of 80 new homes, a farm shop, small workshop units (to support small and medium sized enterprises), allotments and new public open space within a sustainable location adjoining the Eastern Urban Area. The majority of the homes are intended to be delivered as private rental which would be retained and managed by the landowner. The landowner has a track-record of providing quality accommodation to very longstanding tenants and believes that the private rented sector can offer a genuine, long-term alternative to homeownership. Please refer to the Vision Document which accompanies these representations and other supporting reports for further information as to the details of the proposal.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	N/A
4. Proposed Changes	Land at Hall Place Farm Tilehurst is not currently proposed to be allocated within the Regulation 19 Draft Local Plan. Nevertheless, we consider that the site should be identified as an additional allocation in the Local Plan, on the basis that the development proposal offers the opportunity for an exemplar scheme to reflect the Council's Vision for the district.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	N/A
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable	No

<p>development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>The revision of the NPPF in July 2021 introduced a new requirement into paragraph 22:</p> <p>“Where larger scale developments such as new settlements or significant extensions to existing villages and towns form part of the strategy for the area, policies should be set within a vision that looks further ahead (at least 30 years) to take into account the likely timescale for delivery.”</p> <p>West Berkshire Council concluded that this change required it to pause the Regulation 19 consultation of the Local Plan in order for it to undertake additional work to support this new requirement. The press release announcing this is reproduced below.</p> <p>West Berkshire Council then commissioned Iceni Projects Ltd to undertake this work. The specification for this project describes it as follows (the full specification is Attachment 8 to these representations <see attached document- PS1703 Thatcham Town Council_Attachment 8_Vision 2050 spec.>):</p> <p>“West Berkshire District Council (WBDC) wishes to procure consultancy services to deliver focussed visioning work for two settlements to support the Local Plan Review (LPR) 2021 - 2037; Newbury where the strategic site Sandlesford (circa 1,500 dwellings) is proposed and Thatcham where the strategic site, North East Thatcham (circa 2,500 dwellings) is proposed.</p> <p>The visioning will support the spatial strategy for the West Berkshire LPR.”</p> <p>The three reports by Iceni Projects form part of the Evidence Base for the Local Plan Review:</p> <ul style="list-style-type: none"> - West Berkshire Vision – Local Plan Review; Baseline Report - Newbury & Thatcham – Socio-economic baseline & property market assessment - West Berkshire Strategic Vision 2050 (though this is missing its Appendix 1 and 2) <p>The two baseline reports contained significant errors and shortcomings. Town Councillors spent a considerable time reviewing these documents, and the Council provided detailed corrections and comments to Iceni (this is provided as Attachment 9 to these representations <see attached document - PS1703 Thatcham Town Council_Attachment 9_Thatcham Town Council Initial Response>). However, neither document has been updated. The most obvious error is that the statement “Thatcham is an historic market town approximately 3 miles west of Newbury” (rather than east). This is such an obvious error that it suggests that these documents were not properly reviewed either by Iceni or West Berkshire Council.</p> <p>Since the report was commissioned, the definition of the number of dwellings for North East Thatcham has changed but it is clear that it is still a significant extension to an existing town (as also is Sandlesford Park). The inclusion of these reports by West Berkshire Council in the evidence base indicates that it believes that the new provision in paragraph 22 of NPPF is still applicable.</p> <p>However, there is no mention whatsoever of this visioning work in the Local Plan Review Proposed Submission (January 2023). Nothing in this document looks beyond the end of the next plan period in 2039. Paragraph 1.26 explicitly states this:</p> <p>“1.26 The LPR includes a vision, strategic objectives and a set of policies which together provide a policy framework for assessing planning applications and guiding development across West Berkshire. It is set out as follows:</p> <p>... Our Vision of what West Berkshire will look like in 2039...”</p> <p>The Iceni reports are also not mentioned in Paragraph 4.5 “Key pieces of evidence” for the “Development Strategy: Our place based approach” – i.e. the spatial strategy.</p> <p>It therefore appears that the Vision 2050 study was commissioned as a ‘tick-box exercise’, to give the token appearance of compliance with NPPF Paragraph 22, rather than to provide a basis for the development of policies within the plan. Therefore, Local Plan Review Proposed Submission (January 2023) cannot as a whole be in compliance with Paragraph 22 of NPPF.</p> <p>As the Appendices to the West Berkshire Strategic Vision 2050 are missing from the evidence base for the Regulation 19 consultation, the detailed comments made by Thatcham Town Council in response to the survey by Iceni are provided as Attachment 10 (See attached document - PS1703 Thatcham Town Council_Attachment 10_Comments on Iceni Report).</p> <p>(Image of West Berkshire Press Release on postponement of Local Plan Review attached - PS1703 Thatcham Town Council_Press Release Aug 21)</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>N/A</p>
<p>4. Proposed Changes</p>	<p>Paragraph 22 requires that policies should be set within a vision that looks further ahead (at least 30 years)” and this ‘setting’ is totally absent from the Local Plan Review Proposed Submission (January 2023).</p> <p>To remedy this requires a review of many of the policies within the document, which is beyond what can be addressed through modification at examination.</p> <p>It is clear that the Local Plan is therefore “not ready for independent examination”. Therefore, in accordance with Section 20 of the Planning and Compulsory Purchase Act 2004, West Berkshire Council must not submit it to the Secretary of State for examination.</p>
<p>5. Independent Examination - If your representation is seeking a</p>	<p>Yes</p>

change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	<p>Thattham Town Council is the principal representative body of the community of Thattham, which is the location of only new strategic site allocation in the draft Local Plan. The suitability of this site for development is reliant on having adequate infrastructure. However, the regeneration that was promised in the current Local Plan has not materialised, and would not be delivered through the policies in the draft Local Plan. The Town Council can provide local insight to the examination about Thattham, and particularly on the substantial deficit of infrastructure in the locality. It would also be happy to elaborate on its other concerns about the current proposals for the North East Thattham Strategic Site Allocation, as described in these representations.</p> <p>The Town Council anticipates that changes necessary to the draft Local Plan in relation to site allocations are greater than could be addressed through 'main modifications'. If, however, the Inspector is minded to consider recommending 'main modifications' to policy SP17 and related matters in other Policies, it would welcome the opportunity to provide its perspective on what modifications would be required.</p>

<p>1. Do you consider the Local Plan Review is legally compliant? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Paragraph 3.2 (Provision of Housing) – Thakeham agrees with the importance of delivering a range of housing, and agrees that they need to come forward in the most sustainable locations, which is why it is critical that the allocated sites set out in the Reg 19 Local Plan are available, suitable and achievable and therefore deliverable. This is even more important for the villages in the AONB where the presumption in favour of sustainable development does not apply, and therefore windfall applications are unlikely to come forward outside of the Development Plan. We are also supportive of newly proposed text that housing be made "carbon neutral", which falls in line with our own sustainability objectives to provide carbon neutral construction and net zero lifetime use homes from 2025.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.</p>

<p>Please give reasons for your answer</p>	<p>In our response to the December 2018 version of the Draft Local Plan, we highlighted our concern regarding the inconsistency of the Council's proposed vision with the approach of the NPPF, particularly paragraph 78). This relates to the failure of the proposed vision to effectively support growth in villages. The revision to the vision (particularly the second paragraph) which includes references to both towns and villages is therefore consistent with national advice, as is the allocation of our client's land north of Bath Road, Woolhampton. The proposed vision for the Local Plan is therefore endorsed.</p>

<p>Please give reasons for your answer</p>	<p>We note the second strategic objective 'Housing' has been amended to be more specific and less broad. We support the provision of a range of sites to ensure the District's housing needs are met in appropriate and sustainable locations. Such an amendment may assist with the achievement and maintenance of a five-year housing land supply. As highlighted previously, through the allocation of a range of sites, the Council will be able to maintain a stable housing land supply enabling the delivery of homes throughout the plan period to meet the identified local requirements and to ensure they are not vulnerable to unsustainable, speculative development.</p>

Please give reasons for your answer	<p>Herewith our response to the Local Plan 2022-2039:</p> <p>1. Strategic Objectives – 3.5.2. An affordable housing survey needs to be carried out and the need ascertained in Theale parish, and a district wide survey, so that the Plan statement is backed by evidence.</p> <p>2. Strategic Objectives – 3.5.5. The Plan implies that a shopping centre makes a community prosperous but we believe it takes a lot more to build a community from social, health and wellbeing etc. Theale has always been overlooked for leisure and community activities. There is also a lack of access and public transport in Theale to be able to support large scale development.</p>

	3. Strategic Objectives – 3.5.11. Theale has very little infrastructure, certainly not enough to support a large number of new housing. The Plan states that infrastructure is part of it but there are no specifics mentioned and they need to be included in the Plan. Also, the 'catch up' plans for new housing that has already been developed or approved as Theale has had significant development but to improvement/additions to infrastructure with the exception of the primary school.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

<p>1. Do you consider the Local Plan Review is legally compliant? * Yes * No</p>	No
<p>Please give reasons for your answer</p>	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>The strategic objectives and housing requirement set out in the Submission Plan are addressed in the Representations to the West Berkshire Local Plan Review Consultation (Regulation 19) Matters Relating to Housing Needs and Supply, prepared by Pegasus Group (January 2023) (Appendix A) and are not, as a result, repeated here.</p> <p>The analysis by Pegasus Group highlights the shortcomings of the Submission Plan with reference to housing provision:</p> <ul style="list-style-type: none"> • An insufficient buffer to allow for flexibility and to ensure that the local housing need (LHN) is met in full over the Plan period. • A larger buffer could be provided with no additional negative affects against the Sustainability Appraisal objectives and would provide additional positive benefits. • The current unmet need of Reading is not adequately provided for. • The likely future unmet need of Reading should be planned for now, and the Submission Plan should include flexibility to provide for that need as part of the Duty to Co-operate. • There is a clear case for an uplift to the housing provision to account for the identified affordable housing need of the area. • The reliance on a single, large strategic site for the delivery of most of the residual housing requirement, emphasises the need for a sufficient buffer to offset the potential under-delivery of the Plan. • A potential shortfall in the five-year housing land supply from the intended date of adoption of the Plan. <p>It is clear, as a result, that there is an urgent need for more housing in West Berkshire and, therefore, a need to increase the housing requirement within the Submission Plan.</p>

	<p>Should the Council not take this opportunity to address the urgent need for more housing, it is likely that the Submission Plan will fail to meet the necessary test of soundness in terms of providing an effective and justified housing delivery strategy, which meets the needs of the community over the Plan period.</p> <p>Of fundamental importance is the issue of unmet need from Reading. The failure of the Council to address the unmet need arising from Reading, now and in the future, puts the Submission Plan at risk of failing the necessary Legal Compliance test. A failure in terms of Legal Compliance cannot be addressed retrospectively through modifications in the same way that a matter of soundness can. If the Submission Plan fails the Legal Compliance test, the examination cannot continue, and the plan making process must recommence.</p> <p>The unmet need arising from Reading must, therefore, be fully addressed now.</p> <p>Attachment:</p> <ul style="list-style-type: none"> Appendix A - Repls to WBC LPR consultation Housing Need and Supply Pegasus Group
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>The primary amendments necessary for the Submission Plan to be found sound and to meet the Legal Compliance tests are summarised as:</p> <ul style="list-style-type: none"> An increase in the housing requirement to fully account for the local housing need across West Berkshire. Inclusion of a buffer to the housing requirement to insulate against non-delivery during the Plan period. Reconsider the Spatial Strategy to direct more housing to settlements, such as Hungerford, to ensure a better distribution of development, more reflective of the needs of the community. Fully addressing the unmet need arising from Reading to ensure the Legal Compliance test is met. The allocation of further sites to enable a rolling five-year housing land supply, maintained over the Plan Period, of which Donnington New Homes' promotion site at Smitham Bridge Road for approximately 34 new homes and Marsh Lane for allotments, is a prime example of the suitable, available, and achievable sites that can come forward.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No</p>	Yes

Please give reasons for your answer	Our Government has a high commitment to leaving the environment in a better state than we found it, and to reverse the decline of nature. The 25 Year Environment Plan and the 2023 Environmental Improvement Plan (EIP) both place emphasis on how delivering restored habitats and changes to agricultural practise will boost employment through 'green jobs'. The need to maintain, restore and create biodiverse and flood mitigation habitats and features to mitigate against climate change and contribute

	<p>to biodiversity increases, carbon capture and sequestration within West Berkshire will create a wide range of 'green' jobs. These employment opportunities will be tied to contractual arrangements for 30-100 year maintenance and management requirements of biodiversity and environmental improvements, creating long term employment opportunities.</p> <p>Therefore there needs to be specific policy in this Economic Growth section of the Local Plan.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Local Plan Review complies with Sections 19 and 20 of the Planning and Compulsory Purchase Act 2004 (as amended)
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Carter Jonas generally supports the proposed Vision and Strategic Objectives of the Local Plan Review and considers that an additional allocation for residential development east of Waller Drive, Newbury will help realise the Plan's strategic objectives by:</p> <ul style="list-style-type: none"> • Mitigating and adapting to the effects of climate change • Providing a range of sites to ensure that the district's housing need and aspirations are met by providing a range of market, affordable and specialist housing types, tenures and sizes in appropriate and sustainable locations • Providing sustainable development of high quality design, construction and efficiency contributing to an attractive, safe and accessible environment for all • Supporting a strong, diverse and sustainable economy during construction and occupation • Helping to enhance the vitality and viability of Newbury through the increased population • Conserving and enhancing the local distinctive character, identity, significance and special interest of the built, historic and natural environment through sympathetic and complimentary development establishing new public rights of way and play space

	<ul style="list-style-type: none"> • Providing appropriate landscape led development outside the AONB delivering wider environmental, economic and social benefits • Enhancing and contributing to West Berkshire's strong network of multi-functional green infrastructure providing health and environmental benefits and enhancing the overall quality of life of sustainable communities • Promoting low emission transport choices including active travel and enhancing of cycle networks • Contributing to reasonable infrastructure enhancements where necessary to support the development.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Attendance is required at the examination to enable explanation of stance, participation in the discussions and to answer questions posed by the Inspector.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant?	
* Yes	
* No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan	No

<p>provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>CHPT 3 - SHAPING WEST BERKSHIRE: VISION & OBJECTIVES</p> <p>OUR STRATEGIC OBJECTIVES</p> <p>For me there is a huge gap in relation to preservation and enhancement of wildlife habitats for native flora and fauna. Missing is the <u>Objective for NATURE RECOVERY</u>. This should at least be added as a 12th Objective, or the 12 Objectives linked up into fewer more Strategic Objectives.</p> <p>Nature <u>Recovery</u> is not an Objective that seems high on the agenda of WBC and only a small % of their own lands are managed to maximise recovery of Wildlife Habitats. No Current State Assessment of lands has been undertaken and there is very little money in the IDP for Nature Recovery.</p> <p>Knowing from personal experience that the AONB is not rich in natural flora and fauna being mainly large-scale Agriculture & Forestry and subject to Wildlife Crime, and is much depleted, I really think not having Nature Recovery as a Key Objective makes the Legality & Soundness of the plan questionable, given that the high-level contents of the Environment Bill have been known for at least 4 years and enacted in November 2021. Especially as there has been no work on the Green/Blue Infrastructure which was promised in the Old Plan.</p> <p>Objective 4 – Economy - would be more focused and measurable if it was Employment & Economic Development</p> <p>Objective 5 – Town Centres - clearer if it was Settlement Centres and it listed those in-scope for the duration of this plan. And somewhere within the Policies in this Plan we need clear identification of Settlements that are designated as Rural. As Centre Designs will vary between Urban & Rural.</p> <p>Objective 6 – Culture - could be Leisure & Culture as the 2022 Leisure Strategy is not submitted within the Evidence base and the Plan is not Effective without it as it identifies Sites for re-development which are not included in the Plan. I believe plans are underway to produce a Leisure & Culture Strategy.</p> <p>Objective 7 – Heritage could be Heritage & Historic Environment as Heritage is an often mis-understood term. Heritage is not defined in the Glossary of Terms.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	I seek an change which is to introduce Policies and Site Allocations which are not currently in the Plan for the Sub-Area Newbury Settlement.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>BBOWT is disappointed that addressing the decline in biodiversity is not listed as one of West Berkshires strategic objectives. The State of Nature 2016 report shows that over half (56%) of the UK's wild species have declined in the past 50 years and continue to do so and that more than one in ten species faces extinction. The UK government's 2018 biodiversity indicators show that the decline in the abundance of 'priority species' continues. Therefore, addressing this issue should be a key strategic objective of West Berkshire's local plan.</p>

Please give reasons for your answer	The heading of objective 7 is "Heritage" whereas the text refers to the built, historic and natural environment. We acknowledge the links between built, historic and natural assets and do not object to this wording; but we'd be happy to discuss this further as appropriate, if the Council wish to amend this in response to consultation feedback.

<p>Please give reasons for your answer</p>	<p>Chieveley Parish Council broadly agrees with the vision presented (3.1-3.4) Strategic Objectives of the plan (3.5) and, in particular, that the landscape in the North Wessex Downs should remain of outstanding value (3.4).</p> <p>The plan must continue to conserve and enhance the North Wessex Downs AONB in accordance with national policies.</p> <p>Any landscape-led development should be both appropriate within that policy context and deliver wider environmental, economic, and social benefits. These requirements should also have regard to local needs.</p> <p>In particular CPC supports the following elements of the vision and Strategic Objectives: Making available carbon neutral housing of different types, sizes, tenures and affordability ... and Strategic Objective 1. High quality design that is in keeping with the character and local distinctiveness of the area... and Strategic Objective 3. West Berkshire's landscape in the North Wessex Downs will remain of outstanding value and its biodiversity more abundant in settlements and the surrounding countryside. and Strategic Objective 8.</p>

* Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	Paragraph 3.5(2) (Strategic Objectives: Housing) – Following on from paragraph 3.2, Thakeham is supportive of providing the required level of market, affordable and specialist housing types in appropriate and sustainable locations, with all of our developments promising to provide policy compliant levels of affordable housing, with no viability assessments. Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	The modifications to objective 2 (Housing) are welcome- the inclusion of affordable and specialist housing types, tenures and sizes recognizes the changing needs of the community. We approve of the additional wording stating that development should be in appropriate and sustainable locations.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>It is noted that paragraph 4.5 sets out that the Local Housing Need (LHN) for West Berkshire is 513 dwellings per annum, using a 2022 base date. This figure has not changed since the Regulation 18 consultation document which is hard to believe given two years has passed and the current housing crisis is worsening. This figure should be tested in the Local Plan Examination and due regard should be given to the standard method as well as the duty to cooperate.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	Reference should be made to Registered Parks and Gardens, for accuracy and consistency with the Policies Map. Figure 1 (or perhaps the Policies map?) should also include Scheduled Monuments.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	In addition, there are other designations including conservation areas and <u>Registered historic</u> parks and gardens...

5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p><i>Para 4.6</i> AWE Detailed Emergency Planning Zones (DEPZs) are not specifically mentioned</p> <p><i>Para 4.7</i> The justification for merging the Eastern and Kennet Valley Spatial Areas is no longer valid. The strict constraint on the building of new homes imposed by the introduction of the DEPZs around the two AWEs means that the merging no longer provides flexibility</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p><i>Para 4.6</i> The text regarding the AWE constraints should be re-worded to include "DEPZs"</p> <p><i>Para 4.7</i> The spatial areas should no longer be merged</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No

Please give reasons for your answer	Paragraph 4.5 (Key Pieces of Evidence) – It should be emphasised that Thakeham is concerned with the HELAA stated as being a key piece of evidence in preparation of the Plan, as we consider sites have been assessed on out-of-date information, and while it is appreciated that the HELAA report was updated in January 2023, individual Site information does not seem to have been consistently updated. Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.

2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable	

<p>over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>West Berkshire Strategic Vision 2050</p> <p>[See attached document Attachment 4]</p> <p>The revision of the NPPF in July 2021 introduced a new requirement into paragraph 22: “Where larger scale developments such as new settlements or significant extensions to existing villages and towns form part of the strategy for the area, policies should be set within a vision that looks further ahead (at least 30 years), to take into account the likely timescale for delivery.”</p> <p>West Berkshire Council concluded that this change required it to pause the Regulation 19 consultation of the Local Plan in order for it to undertake additional work to support this new requirement.</p> <p>West Berkshire Council then commissioned IcenI Projects Ltd to undertake this work. The specification for this project describes it as follows (the full specification is Attachment 4 to my representations):</p> <p>“West Berkshire District Council (WBDC) wishes to procure consultancy services to deliver focussed visioning work for two settlements to support the Local Plan Review (LPR) 2021 - 2037; Newbury where the strategic site Sandleford (circa 1,500 dwellings) is proposed and Thatcham where the strategic site, North East Thatcham (circa 2,500 dwellings) is proposed.</p> <p>The visioning will support the spatial strategy for the West Berkshire LPR.”</p> <p>The three reports by IcenI Projects form part of the Evidence Base for the Local Plan Review:</p> <ul style="list-style-type: none"> - West Berkshire Vision – Local Plan Review; Baseline Report - Newbury & Thatcham – Socio-economic baseline & property market assessment - West Berkshire Strategic Vision 2050 (though this is missing its Appendix 1 and 2) <p>The two baseline reports contained significant errors and shortcomings. I spent a considerable time reviewing these documents on behalf of the Town Council, which then provided detailed corrections and comments to IcenI (this is provided as Attachment 9 to the Town Council’s representations). However, neither document has been updated. The most obvious error is that the statement “Thatcham is an historic market town approximately 3 miles west of Newbury” (rather than east). This is such an obvious error that it suggests that these documents were not properly reviewed either by IcenI or West Berkshire Council.</p> <p>Since the report was commissioned, the definition of the number of dwellings for North East Thatcham has changed, but it is clear that it is still a significant extension to an existing town (as also is Sandleford Park). The inclusion of these reports by West Berkshire Council in the evidence base indicates that it believes that the new provision in paragraph 22 of NPPF is still applicable.</p> <p>However, there is no mention whatsoever of this visioning work in the Local Plan Review Proposed Submission (January 2023). Nothing in this document looks beyond the end of the next plan period in 2039. Paragraph 1.26 explicitly states this:</p> <p>“1.26 The LPR includes a vision, strategic objectives and a set of policies which together provide a policy framework for assessing planning applications and guiding development across West Berkshire. It is set out as follows:</p> <p>... Our Vision of what West Berkshire will look like in 2039...”</p> <p>The IcenI reports are also not mentioned in Paragraph 4.5 “Key pieces of evidence” for the “Development Strategy: Our place based approach” – i.e. the spatial strategy.</p> <p>It therefore appears that the Vision 2050 study was commissioned as a ‘tick-box exercise’, to give the token appearance of compliance with NPPF Paragraph 22, rather than to provide a basis for the development of policies within the plan.</p> <p>Therefore, Local Plan Review Proposed Submission (January 2023) cannot as a whole be in compliance with Paragraph 22 of NPPF.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>N/A</p>

4. Proposed Changes	<p>Paragraph 22 requires that policies should be set within a vision that looks further ahead (at least 30 years)” and this ‘setting’ is totally absent from the Local Plan Review Proposed Submission (January 2023).</p> <p>To remedy this requires a review of many of the policies within the document, which is beyond what can be addressed through modification at examination.</p> <p>It is clear that the Local Plan is therefore “not ready for independent examination”. Therefore, in accordance with Section 20 of the Planning and Compulsory Purchase Act 2004, West Berkshire Council must not submit it to the Secretary of State for examination.</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	If it would assist the examination.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	Holybrook has strongly objected to being lumped into one zone with all parishes which are not part of the ANOB or Thatcham and Newbury and this has not been addressed. Combining these, two very distinct in character areas, will create an overly diverse area with a mixture of urban and rural neighbourhoods. The only common factor is that they are not in the ANOB or in Newbury/Thatcham. The Council is concerned that less attention will be paid by planners to the circumstances/constraints of the urban parishes of the Eastern Urban area and this shows a broad-brush approach with more consideration shown for the ANOB and Newbury/Thatcham.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	Many questions raised in previous submissions have not been addressed. So, questions have been asked but thoughtful responses not provided.
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	It is impossible to comment as we are neither Legally Qualified nor an expert in LPR Legal Compliance.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is	No

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	Yes
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	<p>The council disagrees with the definition of "Positively Prepared".</p> <p>Plans which are both complex and cross representational boundaries are inherently difficult to deliver and hence "Ineffective"</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	Poor evidence of inclusion of NDPs or co-operation with local communities
<p>4. Proposed Changes</p>	<p>Paragraph 4.14, sentence 4 needs alteration as follows:</p> <p>Hungerford, Lambourn, and Hermitage have designated neighbourhood areas for the preparation of neighbourhood plans, Compton has a designated neighbourhood area for its adopted neighbourhood plan, and the rural service centre of Pangbourne, has limited development opportunities.</p> <p>This is to ensure the Compton Neighbourhood Development Plan, adopted following referendum in Feb 2022, is recognised as being in place, whilst the designated neighbourhood areas for Hungerford, Lambourn and Hermitage are for plans that have not yet been brought to referendum and adopted.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The</p>	Yes

<p>publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes</p> <p>* No</p>	
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes</p> <p>* No</p>	Yes

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Paragraph 4.15-4.16 (Lambourn's Role in the AONB) – Thakeham supports the Council's identification of Lambourn as a key service centre for surrounding rural area, as well as identifying its leading role within the horseracing industry across the country. It is therefore considered that growth to this village is sustainable, to ensure the village continues to thrive and also provide homes to support the specific local need of those within the horseracing industry.</p> <p>Paragraph 4.17 (Existing Allocations in the AONB) – Thakeham is concerned that, despite being allocated in an adopted Plan in 2017, a number of the allocations in the AONB have not been delivered.</p> <p>The West Berkshire Core Strategy (2012) ("the Core Strategy") sets out a housing requirement of 'at least' 10,500 net additional dwellings from 2006 to 2026. Whilst the Core Strategy allocates strategic development sites, the Housing Site Allocations DPD 2006-2026 ("HSA DPD") was prepared to allocate non-strategic sites to help meet the housing need across the Plan Period.</p> <p>The Housing Delivery and Trajectory within Appendix 1 of the HSA DPD notes the expected delivery from the HSA DPD allocations across the Plan Period to be 1,650; thus confirming all of the HSA DPD allocations were expected to be delivered by 2026. It is also confirmed on page 107 of the HSA DPD that a new Local Plan will cover the period up to 2036 and will need to consider allocating new sites and to look again at the proposed housing distribution. The Council's latest Annual Monitoring Report (January 2023) confirmed that as of 31/03/22 1,539 dwellings had been permitted on the HSA DPD sites, however, completions totalled only 388 dwellings. With 3 years remaining in the Plan Period, it is unlikely that the delivery of the HSA DPD sites will accord with expectations.</p> <p>Detailed analysis of these sites and the reason for lack of delivery needs to be understood, and if appropriate the allocations deleted or supported by new, available and deliverable Sites. Again, it is considered this is even more important for settlements within the AONB, where windfall applications are unlikely to come forward. For example, Thakeham is concerned that of the 26 sites allocated within the HSA DPD in 2017, HSA 6 and specifically HSA 19 which is located in Lambourn, have not advanced a planning application. Notwithstanding this, Thakeham is not aware that the achievability and deliverability of these sites has been reassessed, however the Council proposes the sites to be 'carried forward' into the Local Plan Update. This would effectively grant an allocation on these sites for a total period of 22 years (2017-2039), when there is evidence that suggests these sites might not be deliverable. Thakeham does not consider this to be a sound approach to allocating land for development.</p> <p>Paragraph 4.17 also emphasises the role of neighbourhood planning, stating that: "<i>additional development for the period beyond 2026 will therefore be limited and will come in part through allocations within the NDPs.</i>" Whilst Thakeham is wholly supportive of neighbourhood plans and their ability to drive community-led growth, it is also our understanding that they can be slow to come forward. Therefore, in Settlements within the AONB, where existing allocations are proving slow to deliver, Thakeham would advocate the Reg 19 Local Plan considering additional supporting sites to ensure growth is not stunted by undeliverable allocations.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.</p>

<p>Please give reasons for your answer</p>	<p>No further comments to be made in addition to those made in response to the Regulation 18 consultation document (<i>see attachment</i>), however it is emphasised that it is highly likely that strategic allocation will not deliver the number of homes that it was intended to as per the allocation in the adopted Local Plan for the reasons mentioned in the previous representations.</p> <p>Therefore, there is likely to be a shortfall in West Berkshire's housing land supply and the Council should be looking to allocate more sustainable sites for residential development to 'bridge' the gap and provide the homes the district needs.</p> <p><i>For appendix 1 see attachment.</i></p>

Please give reasons for your answer	<i>Extract of full response relevant to consultation point.</i> The spatial strategy enshrined in draft policy SP1 (Spatial Strategy) is strongly supported. The draft policy sets out three main objectives for the district over the plan period; <ol style="list-style-type: none"> 1 Directs development to areas of lower environmental value; 2 Optimises the use of previously developed land; and 3 Optimises the density of development to make the best use of land whilst conserving and enhancing the distinctive character and identity of the built, historic and natural environment The policy goes on to state that this development approach will be based on three main spatial areas comprising of Newbury and Thatcham, Eastern Area, North Wessex Downs AONB.

	<p>It then states that that the focus of the development within each spatial area will be required to follow the district wide settlement hierarchy as set out in Policy SP3 (more below). Further, development and redevelopment within settlement boundaries as identified in Appendix 2 (the settlement boundary review), will be supported. Outside of the settlement boundaries, land will be treated as open countryside where development will be more restricted as set out in Policy DM1 and DM35.</p> <p>Within the 'North Wessex Downs Area' the policy strategy states that the AONB will have appropriate and sustainable growth which conserves and enhances its special landscape qualities.</p> <p><i>For full response see attachment</i></p>

Please give reasons for your answer	<p>1. An increase in houses by 25% with the aim of fitting them into a very small area of the county, mainly Theale and Thatcham, is not acceptable. The main reasons being extra demand on services already at breaking point or fully subscribed such as GP surgeries, hospitals, schools, dentists etc, additional traffic and air pollution adding to that of the M4 and the A32, and lack of public transport.</p> <p>2. There is already a 57.3% increase in housing approved which is very high. WBC need to consider planning applications that have been approved and ensure they are contained within the plan.</p> <p>3. There is major concern that the Plan will seriously compromise local medical provision, particularly hospitals and GP surgery facilities. The Plan needs to state these concerns and address the issues.</p> <p>4. There is major concern that the Plan will seriously increase traffic, pollution and does not accommodate much needed public transport, especially to rural villages such as Theale. Solutions need to be considered.</p> <p>5. 'Desk based' statements are not adequate/appropriate and a survey should be carried out.</p> <p>4. Policy SP1 - "Within other defined settlements developments are expected to secure a net density of at least 30 dwellings per hectare with higher densities achievable in the centres of Hungerford, Pangbourne and Theale." We object to Theale being included here as it is a rural village.</p> <p>5. Policy SP1. Including current planning applications, Theale has a 57.3% increase in development which is extremely high and has huge effects on the character of the village. The large Lakeside Development is not included in the Plan and needs to be added. The approved development figures for Theale need to be inclusive and accurate so need revisiting and correcting.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	

<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Policy SP1 (Spatial Strategy) states that the overarching spatial strategy for West Berkshire will deliver the spatial vision and strategic objectives for the district over the Plan period. The strategy:</p> <ul style="list-style-type: none"> • Directs development to areas of lower environmental value. • Optimises the use of previously developed land. • Optimises the density of development. <p>The development approach will be focused on three spatial areas:</p> <ul style="list-style-type: none"> • Newbury and Thatcham • Eastern Area • North Wessex Downs AONB <p>Given the clear need to increase the housing requirement, the Council's strategy fails to take advantage of the opportunity presented by Rural Service Centres, such as Hungerford, which are, by definition, larger rural settlements that are capable of accommodating growth, providing the opportunity to deliver sites early on in the Plan period.</p> <p>Hungerford benefits from a good range of key services and opportunities for employment, community, and education. It is accessible and has regular public transport services to a range of destinations.</p> <p>Directing further housing to locations, such as Hungerford, would enable the Submission Plan to cater for the needs of the community and assist in insulating the Council against housing delivery problems arising from the chosen strategy of focusing on a single large-scale development location.</p> <p>Donnington New Homes considers that this policy should be revised to account for the opportunities presented for housing delivery in the Rural Service Centres, particularly Hungerford.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No

Please give reasons for your answer	
4. Proposed Changes	The primary amendments necessary for the Submission Plan to be found found and to meet the Legal Compliance tests are summarised as: <ul style="list-style-type: none"> Reconsider the Spatial Strategy to direct more housing to settlements, such as Hungerford, to ensure a better distribution of development, more reflective of the needs of the community.

<p>Please give reasons for your answer</p>	<p>Sandleford Park West (SPW)</p> <p>On behalf of our Client, Donnington New Homes, I write in response to the Council's current consultation on the emerging West Berkshire Local Plan Review 2022-2039 (hereafter 'the Plan'). As you will be aware from past submissions, my client controls the western portion of Sandleford Park (known as Sandleford Park West) allocated by the existing West Berkshire Core Strategy Policy CS3. That Policy allocates approximately 134ha of land to provide a strategic housing development. Donnington New Homes has consistently promoted the land for over 10 years, demonstrating my client's ongoing commitment to its delivery. In 2018, my client submitted a planning application (ref. 18/00828/OUTMAJ) for the development of land within its control that was to be considered jointly with a corresponding application submitted by Bloor Homes and the Sandleford Farm Partnership (SFP), on the balance of the site. Since that time, Bloor Homes and SFP have obtained planning permission on the land within their control (in May 2022), following appeal and Secretary of State 'Call In' which demonstrates the acceptability of development on the site at the highest level. This submission, in response to the Plan, represents my client's continued commitment to deliver the element of Sandleford Park within its control as a sustainable, strategic housing allocation within the proposed submission Plan. My client supports the continued allocation of Sandleford Park within the Plan, together with the policies which secure land for that purpose and wishes to comment as follows:</p> <p>The overarching principles of distribution of development, as set out within Policies SP1 and SP3 of the Plan, are supported. Those being that Newbury will, as the most sustainable settlement in the District, continue to be the focus for new development. My client welcomes the clarification within Policy SP1 – Spatial Strategy stating that Sandleford Park is 'an urban extension' as opposed to a 'new urban extension' as it was referred to in the Regulation 18 Plan. As set out above, the site has been allocated for in excess of 10 years and part now has planning permission, so to make reference to the site as a 'new' site was previously incorrect.</p> <p>To emphasise the importance of Newbury as the continued focus for new development, the commentary within the Plan relating to the extensive area covered by rural parishes and AONB (74%) is welcomed. The continued protection of the AONB will be, to an extent, reliant on the delivery of the majority of new development within and around Newbury and Thatcham. My client's site at Sandleford Park West will make a valuable contribution to that delivery.</p>

	<Representation is part of a wider response for <u>Sandleford Park West</u> which can be found at relevant consultation points.>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes

<p>Please give reasons for your answer</p>	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>This proposed 'expected' minimum density based on the net space is too high for Holybrook and, for suburban areas, may not be the most effective way of calculating the required densities. This is of great concern, especially for development close to and feeding into the A4 Bath Road not only from Junction 12 of the M4 but also from Tilehurst and Burghfield. The Government's document Effective use of Land states: 'dwellings per hectare, used in isolation, can encourage particular building forms over others, in ways that may not fully address the range of local housing needs...it is therefore important to consider how housing needs, local character and appropriate building forms relate to the density measures being used'.</p> <p>The Local Plan has not considered the other options for the calculation of density which include habitable rooms or quantity of floor area. There is also the option to view sites in terms of their gross area which would include major distributor roads, primary schools, churches, shopping areas, open spaces and significant buffer areas required for landscape, ecological or infrastructure such as underground pipes. Again, this has not been considered. This policy is, like that for Spatial Areas, shows a broad-brush approach which fails to fully appreciate the requirements of each area and their infrastructure constraints.</p> <p>The Local Plan encourages more development in an area where traffic levels are dangerously close to saturation and infrastructure simply has not kept pace. The local plan should do more to protect these urban/suburban areas from over development and complete collapse through lack of sufficient infrastructure.</p> <p>HPC and its residents have made many unheeded representations to West Berkshire Council in respect of high-density development, traffic and infrastructure impact. Our residents face a regular battle with these ever-increasing issues.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>No</p>

Please give reasons for your answer	Previous comments made on this by the Parish Council have not been addressed.
4. Proposed Changes	All density tests should be included in the plan. The Parish Council proposed that no minimum density be applied and, instead, each application is considered on its own merit with each applicant's Design and Access Statement clearly explaining the rationale of the design and layout to justify the proposed density with reference to the accessibility to local services, the impact on infrastructure and local character, and sufficient parking provision.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework.</p> <p>There appears to be conflict within the Spatial Strategy and Policy DM1.</p> <p>Policy SP1 sets out that in each spatial area, opportunities should be taken to make the best use of previously developed land. It also confirms that settlement boundaries should ensure that villages surrounding Newbury and Thatcham maintain physical separation.</p>

Please give reasons for your answer	Under Policy SP1, we support the spatial strategy which “optimises the use of previously developed land”. By adopting this approach, the Local Plan would be positively prepared and consistent with national policy, as it would make effective use of land (previously developed land).
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
Please give reasons for your answer	<p><i>c) Comments on other LPR Draft Policies (SP1, SP5, SP23, DM42 and supporting text)</i></p> <p>In non-site-specific terms the LPR policies in respect of spatial strategy, climate change and transport considerations also raise concerns in the context of the tests of soundness. The spatial strategy, climate change policy and transport policy should equally be consistent with National Policy requirements with regard to supporting and promoting sustainable transport.</p> <p>Across the LPR there are concerns that opportunities for policies to support sustainable development and specifically to encourage modal shift (to ensure the plan is positively prepared and consistent with national policy) have not been included. This again raises issues of soundness.</p> <p>The LPR as currently drafted is not consistent with NPPF requirements in terms of meeting the challenge of climate change (paragraphs 152-154). Neither is it consistent with wider national policy</p> <p><i>d) Consideration of Tests of Soundness</i></p> <p>By reference to Response Form Question 2, and in the absence of any wording in the LPR expressly supporting the growth of rail freight provision at Theale and wider omissions in respect of the Spatial Strategy, Climate Change Policy and Transport Policies, the LPR is not considered to meet the tests of soundness for the reasons identified above and summarised below:</p> <p>- The Plan is not positively prepared – it does not respond to identified need and it does not facilitate sustainable development.</p> <p>- The Plan is not justified – The Plan is not justified since it fails to be an appropriate strategy taking into account reasonable alternatives and based on proportionate evidence. The approach of not including either policy or supporting text to identify and support the growth of rail freight at Theale is not the most appropriate strategy when considered against the reasonable alternatives. There is no clear audit trail as to why this approach has been adopted and changed from earlier stages. The Sustainability Appraisal does not appear to consider how a different approach (supporting growth) would perform. As such it is not clear that the SA has been able to robustly inform the content of the LPR. The evidence points to the</p>

	<p>need to support the growth in rail freight provision both generally and in regional/local plan terms. The sound approach (and reasonable alternative) would be to at minimum provide supporting text which supports growth at Theale and/or to otherwise have this expressed within Policy text itself.</p> <p>- The Plan is not Consistent with National Policy – the LPR is not consistent with NPPF and other relevant national policy in particular with regard to: promoting a sustainable pattern of development; meeting the challenge of climate change; supporting sustainable transport (including supporting modal shift of freight from road to rail, wherever possible, to reduce emissions from the freight sector); considering the specific locational requirements of different sectors in suitably accessible locations. The lack of consistency with National Policy is both in terms of site specific considerations of the Theale Rail-Road Transfer Site under Policy DM 43 and supporting text and more generally in respect of: Spatial Strategy Policy SP1, Climate Change Policy SP5, and Transport and Transport Infrastructure Policies SP23 and DM42.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p><i>e) Changes required to make the West Berkshire Proposed Submission (Reg 19) Local Plan Sound</i></p> <p>By reference to Response Form Question 4 changes are identified as being required to make the West Berkshire Proposed Submission Local Plan sound. Specifically, the changes are required to ensure the plan is positively prepared, justified, and consistent with National Policy.</p> <p>To address the concerns raised with regard to soundness and specifically the failure of the LPR to appropriately identify and support modal shift in the context of transshipment of freight changes are sought in the context of spatial strategy, climate change and transport policies. Additionally, in site specific terms express support for growth of the Rail-Road Transfer Site at Theale is sought. The specific changes required to make the plan 'sound' are as follows: (Changes required shown in red underlined/struck through). It is confirmed that the schedule of required changes has been jointly drafted and agreed between NR, Beftonforth and the Englefield Estate.</p> <p>Schedule of Required Changes (a) Policy SP1, Spatial Strategy (Page 17, third para)</p> <p>“Demand for travel will be managed, and accessibility to sustainable transport opportunities increased through improving choice for transport modes. <u>Opportunities to increase and expand provision of the movement of freight by sustainable means will be supported.</u> Existing community infrastructure will be protected and where appropriate enhanced. Infrastructure requirements will be set out in the Infrastructure Delivery Plan (IDP)”</p> <p>Early discussion with West Berkshire Council with regard to the representations made and suggested changes would be welcomed.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>

2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? -	No

Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.
 * Yes
 * No

Please give reasons for your answer

Our client has an agreement with the landowners of the site, known as 'Land to the rear of The Hollies' in the District, which currently forms part of an allocated site for approximately 60 dwellings under Policy HSA16 in the adopted Housing Site Allocations Development Plan Document (HSADPD) (May 2017).

It is understood the 'emerging draft' Local Plan Review (LPR) no longer seeks to carry this allocation forward. This is despite part of the allocated site having already been built out and now occupied by residents. The Council say this is because the site now falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield. The DEPZ was extended as a result of the updated Radiation (Emergency Preparedness and Public Information) Regulations (REPPiR) 2019.

Our client does not support the removal of this allocated site from the Development Plan. Our client is keen to work collaboratively with the Council to secure the development of the remaining part of this currently allocated site. These representations therefore focus on responding to the removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield.

These representations also seek to respond to the Council's development strategy (including Policies SP1 and SP3, SP12 and SP14) and decision-making in relation to an effective 'moratorium' on new development within Burghfield Common, despite the village remaining as a 'Rural Service Settlement', which offers 'development potential appropriate to the character and function of the settlement', according to the proposed Spatial Strategy.

These representations also discuss Policy RSA12, which seeks the provision of approximately 100 dwellings within Burghfield Common1, within the extended DEPZ.

In order to consider whether a Local Plan is sound, reference needs to be made to the National Planning Policy Framework (NPPF) (July 2021) paragraph 35. This identifies that a sound Plan is:

- 1 a) **Positively Prepared**– 'providing a strategy which, as a minimum, seeks to meet the area's objectively assessed needs; and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development';
- b) **Justified**– 'an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence';
- c) **Effective** – 'deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground'; and
- d) **Consistent with National Policy** – 'enabling the delivery of sustainable development in accordance with the policies in this Framework'.

It is in light of these criteria that the LPR (Regulation 19) version has been considered. We find the de-allocation of site HSA16 is not consistent with the Council's approach to its development strategy and the settlement hierarchy. In addition, its approach towards a 'moratorium' on further development within the parish of Burghfield Common is flawed.

In relation to Policy SP1, the spatial strategy seeks to focus development within settlement boundaries, to optimise the use of previously developed land and make the best use of land whilst conserving and enhancing the distinctive character and identity of the built, historic and natural environment. We agree with this strategy in the context of the continued allocation of land to the rear of The Hollies.

Conclusion

These representations have been prepared by Pro Vision on behalf of our client, T A Fisher & Sons, in response to West Berkshire Council's consultation on its Local Plan Review 2022-2039 (Regulation 19) (January 2023).

Our client has an agreement with the landowners of the site known as 'Land to the rear of The Hollies' in the District, which currently forms part of allocated site 'HSA16', in the adopted HSADPD (May 2017).

We note the allocation for the site is no longer included within the 'emerging draft' LPR, as the site falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield, despite there being a remainder of 32 units still to be delivered.

Our client **does not** support the removal of this allocated site from the LPR.

These representations have therefore focused on responding to the unjustified removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield as well as the development strategy and spatial hierarchy proposed by the LPR.

In particular, we consider the remaining number of dwellings should be carried forwards in the LPR as the development of the western part of the allocated site can be achieved and is deliverable now. We contend that the Emergency Plan can be updated to accommodate the delivery of 32 units without impacting adversely on the operation of AWE Burghfield, public safety or the functioning of the Emergency Plan. The LPR as currently drafted is unsound, as it is not justified, not consistent with the Framework and not positively prepared.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer

<p>Please give reasons for your answer</p>	<p><i>For Full Representation see attachment</i></p> <p><i>By reference to Response Form Question 2, and in the absence of any wording in the LPR expressly supporting the growth of rail freight provision at Theale and wider omissions in respect of the Spatial Strategy, Climate Change Policy and Transport Policies, the LPR is not considered to meet the tests of soundness for the reasons identified above and summarised below:</i></p> <p><i>The Plan is not positively prepared – it does not respond to identified need and it does not facilitate sustainable development.</i></p> <p><i>The Plan is not justified – The Plan is not justified since it fails to be an appropriate strategy taking into account reasonable alternatives and based on proportionate evidence. The approach of not including either policy or supporting text to identify and support the growth of rail freight at Theale is not the most appropriate strategy when considered against the reasonable alternatives. There is no clear audit trail as to why this approach has been adopted and changed from earlier stages. The Sustainability Appraisal does not appear to consider how a different approach (supporting growth) would perform. As such it is not clear that the SA has been able to robustly inform the content of the LPR. The evidence points to the need to support the growth in rail freight provision both generally and in regional/local plan terms. The sound approach (and reasonable alternative) would be to at minimum provide supporting text which supports growth at Theale and/or to otherwise have this expressed within Policy text itself.</i></p> <p><i>The Plan is not Consistent with National Policy – the LPR is not consistent with NPPF and other relevant national policy in particular with regard to: promoting a sustainable pattern of development; meeting the challenge of climate change; supporting sustainable transport (including supporting modal shift of freight from road to rail, wherever possible, to reduce emissions from the freight sector); and considering the specific locational requirements of different sectors in suitably accessible locations. The lack of consistency with National Policy is both in terms of site specific considerations of the Theale Rail-Road Transfer Site</i></p>

	<i>under Policy DM 43 and supporting text and more generally in respect of: Spatial Strategy Policy SP1, Climate Change Policy SP5, and Transport and Transport Infrastructure Policies SP23 and DM42.</i>

Please give reasons for your answer	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>THE SPATIAL AREAS</p> <p>I am concentrating on the Newbury Area which should be considered as a Sub Area within the Spatial Strategy known as Newbury & Thatcham Area, and the Map of the Settlement Boundary for the Newbury Area is below. We need Policy for Newbury Settlement such as a refreshed ADPP2 Pg 25-27 of the Local plan 2006-2026.</p> <p>https://www.westberks.gov.uk/media/36374/Core-Strategy-Final/pdf/Core_Strategy_-_Final.pdf?m=638047964894800000</p> <p><i>[See attachment 'PS779 Paula Saunderson – Newbury Area Plan' for diagram]</i></p> <p>https://www.westberks.gov.uk/media/53788/Local-Plan-Review-Policies-Map/pdf/Local_Plan_Review_Policies_Map.pdf?m=638095646380970000</p>

POLICY SP1 – THE SPATIAL STRATEGY

With old Policies such as ADPP2 for Newbury disappearing and as Newbury does not have its own SP Policy in this new Plan it is impossible to establish how many of the proposed 9000 residential dwellings/households and 50,816sqm of Office Space Employment or 91,109sqm of Industrial Space will be within the Newbury Area as a sub-set of the Newbury & Thatcham Spatial Area.

ADPP2 should not be made redundant- an updated version should be included.

There is far too much windfall development in the Newbury Sub-area which has been outside of Development Plan Documents and has been subject to Policies which were not necessarily very specific or leading edge. The Scale of Development in terms of Density, Height, Design, and Sustainability are important in what was an Old Market Town as it transforms into what may appear to be a Mini City. Design Codes are not clear and the rush to get through a Conservation Area Appraisal for Newbury without involving local expert Societies is an example of the lack of Duty to Co-operate.

To me having a Spatial Sub Area with Policy for Newbury is important as I already live in a densely populated area near the major road networks and very close a plan to the planned Redevelopment of WBC owned lands on the London Road Industrial Estate – the old NEW 1 LRIE Area which has mysteriously escaped being given a Site Allocation under either SP13 pg 55 or SP20 pg 73.

A comprehensive Development Plan led Policy Framework should be put in place for Newbury Settlement especially as several key Housing, Mixed and Employment Sites within the Sub Area are entirely missing from this Plan.

Lack of Clarity for Newbury Sub Area Sites

Sites seem to be coming in and out of scope via not clearly defined reasons or criteria and there is no clear table such as this example below for Newbury Sub Area. The example comes from the Chichester Section 19 Consultation currently underway which is much easier for residents to understand than the West Berks Consultation.

Newbury needs its own SP as it is a separate Community from Thatcham and should have the Green Gap between the 2 settlements clearly defined and protected as a Green Gap. That Statement is needed in an SP for Newbury.

It would be easier to understand if we had an **SA** Policy or a SPATIAL STRATEGY identifying the 3 SPATIAL AREAS then Major Settlements could EACH have Individual SP as is the norm under many other Local Plans such as Chichester, Cheshire East, Eastleigh (which groups related Wards), Lancaster, all of which have individual Policies for major areas within a Spatial Area.

CASE STUDY - E.g., Chichester is currently consulting on its Section 19 Proposed Submission and it has much clearer Summary Information shown in total and by Sub Areas. It also has clear Policy for Sub Sub Areas such as Chichester City, Chichester East & West

<https://chichester.oc2.uk/document/45/311#topofdoc>

[See attachment 'PS779 Paula Saunderson – Chichester Local Plan Summary Information' for diagram]

Newbury Town Council (NTC) have been given an explanation that Residential Site Allocations (RSA) & Employment Site Allocations (ESA) will not be made for several parcels of land as they are deemed to be within the Settlement Boundaries, however as several of the RSA Site Allocations ARE in the Newbury Settlement Boundary then this as a reason is illogical and invalid.

e.g.

- RSA3- Coley Farm is in the Settlement Boundary shown on the Map, it is in Newbury Clayhill Ward, work has started on site.
- RSA1- North of Newbury College appears to be in the Settlement Boundary
- RSA2 – Bath Rd Speen looks to now be in the Boundary?
- Sims Metal Yard (Old Passey Yard) has outline planning but is not yet started so why is it not in the Plan when Coley Farm is in the Plan and it has already started?
- Lambourn Site Allocation is in the Settlement Boundary

The **Map of Brownfield Sites** has disappeared, and the London Road **Industrial** Estate has been withdrawn. We are now left with a Spreadsheet with individual entries and no overall picture.

I cannot find the **Map of Dedicated Employment Areas (DEA)** and they are not listed in **DM32**? I can see the old PEAs on WBC GIS, but it is not possible to make a comparison of Old to New boundaries.

Within this Submission I may now diverge from the Structure of the Submission Document as we are missing a Strategic Policy for Newbury and the contents which relate to Newbury Settlement are now spread amongst other Chapters in the LPR.

>Comments on 'Retail and Commercial Areas within Newbury Settlement Area' can be found under the relevant consultation point<

Newbury NDP

The Newbury Neighbourhood Development Plan (NDP) is in its infancy and could take years to develop if it ever comes to fruition, and we have been advised it will NOT include Development Sites of any description??

As the Major Town and the Settlement earmarked for Maximum growth by the Unitary Council It is doubtful that a Newbury NDP would be allowed to truly reflect the wishes of its Residents.

Soundness

This means all the missing sites identified in this Document will not have the benefit of coming before a Planning Inspector. This position, in my view, makes the LPR 2022-2039 **Unsound** in respect of the Newbury Settlement.

	<p>The missing Sites mean it has not been Positively Prepared, It is Not Justified in terms of Households vs Infrastructure vs Employment as this is not adequately explained for this Settlement. As it is without the missing Sites which are required to make it work it will also Not Be Effective.</p> <p><i>Comments from representation form:</i></p> <p>None of the Key Mixed Sites for Newbury are included such as NEW 1 – LRIE, Gateway Plaza, Kennet Centre/Eagle Quarter, and without these Key Sites and any specific Policy around them.</p> <p>The Plan omits Key Brownfield Sites for Newbury which has favoured the Sandleford Greenfield site. It omits one Key Employment Site for Newbury.</p> <p>Without a Newbury Settlement Sub Area SP Policy there is no clearly articulated Map or Data for this important Major Town.</p> <p>Without clear Maps & Data & Lists for Newbury of what is already promised, is underway, and the remaining numbers required by the area it is not an Effective Plan as it stands.</p> <p>Therefore, I conclude the Plan is Not Sound for Newbury Settlement and:</p> <ul style="list-style-type: none"> • Is Not Positively Prepared • Is Not Justified • Is Not Effective for the next 20 years, and this Plan as it stands will Not Achieve the Visions <p>My document highlights many examples.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p><i>In Terms of Newbury Settlement it needs to include the following Key Items for the Major Town.</i></p> <p>Include Key Mixed Sites for Newbury such as NEW 1 – LRIE, Gateway Plaza, Kennet Centre/Eagle Quarter, Old Magistrates Court and without these Key Sites and any specific Policy around them.</p> <p>Include Brownfield Sites for Newbury to balance against the favoured the Sandleford Greenfield site.</p> <p>Include the missing Key Employment Sites for Newbury.</p> <p>Include a Newbury Settlement Sub Area SP Policy with a clearly articulated Map or Data for this important Major Town.</p> <p>Include Maps & Data & Lists for Newbury of what is already promised, is underway, and the remaining numbers required by the area it is not an Effective Plan as it stands.</p>

development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<i>Extract of full response relevant to consultation point.</i> The Site falls within the spatial area of Newbury and Thatcham as per draft Policy SP1. We are supportive of the spatial strategy and identification of three spatial areas, including Newbury and Thatcham as one of these. For Newbury and Thatcham specifically, the policy requires that among other requirements 'A new urban extension to the north east of the town will provide a new residential neighbourhood with supporting facilities and green infrastructure in accordance with Policy SP17.' We are particularly supportive of the policy recognition for the need to green infrastructure specifically for Policy SP17 (North East Thatcham Strategic Site). <i>For full response see attachment.</i>

Please give reasons for your answer	It would appear that the current ADPP areas :ADPP1 Spatial strategy; ADPP2 Newbury; ADPP3 Thatcham; ADPP4 Eastern SP1 Spatial strategy - Area; ADPP5 AONB; ADPP6 East Kennet Valley, will be replaced by three SP1 areas: Newbury and Thatcham; Eastern Area North Wessex Downs AONB. What is the rationale behind this? why are Newbury and Thatcham now lumped together, where are the SP1 plans for Newbury and Thatcham etc. How will this fit in with Neighbourhood Plans (NP) and how will NPs be incorporated?
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? -	No

<p>Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>We have concern that as drafted Policy SP1 (Spatial Strategy) of the Local Plan Review (LPR) has some inconsistency in relation to density of development. As such, it is not justified when considered against the tests of soundness (NPPF, 2021:paragraph 35).</p> <p>The stated density ranges are not consistent with the West Berkshire Pattern Book (2019) (Chapter 2: Density by Location). That document is referenced at paragraph 4.35 of the supporting text as a "starting point to guide development". The Pattern Book has been used to guide the density of development on the allocated sites (LPR paragraph 8.3).</p> <p>The policy is not consistent with the starting point, which is therefore, liable to lead to uncertainty in decision making and frustrate efforts to deliver sustainable development.</p> <p>The policy is generally consistent with the Pattern Book in the fact that it requires "at least 70 dwellings per hectare" (dph) in more accessible locations in the settlement hierarchy's top tier settlements (the Pattern book indicates a range of 70 to 90 dph).</p> <p>However, the policy is inconsistent when it addresses edge of settlement locations in at least two respects:</p> <ul style="list-style-type: none"> • It treats edge of settlement the same for all defined settlements, whereas it starts by defining densities between top tier settlements and other settlements. • It is not consistent with the Pattern Book, which notes that higher densities are, in principle, appropriate along transport corridors, even to the edge of settlements. The policy requirement for 30 dph on the edge of defined settlements therefore overlooks the possibility of higher density development away from the town centres and closer to the settlement edge. There are many examples already of higher density developments on the edge of Newbury, for example.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	

4. Proposed Changes	Policy SP1 should be modified to be consistent with the Pattern Book, including in respect of clarifying that higher density can in principle be appropriate on the edge of defined settlements, including some flatted development, especially for higher tier settlements and along the main transport corridors and nodes.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	To explain why the approach to density is inconsistent and inappropriate as drafted.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	No
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	No
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>3. Regulation 19 Proposed Submission document representations</p> <p>3.1 We generally support the draft Local Plan and the proposed strategy for the Plan period, including the spatial approach to development and its approach to housing numbers. However, we have some concerns about the lack of flexibility in the Plan, the failure of the Plan to allocate sites in accordance with its identified spatial framework, and inadequacies / inaccuracies in its evidence base in relation to our client's site.</p> <p>3.2 We are particularly mindful that Councils are required to maintain a rolling five-year supply of housing land, and consider that this may be a challenge for the Council due to the sites it has selected for allocation. The deliverability of these identified allocated sites are key to ensuring sites are coming forward as anticipated in the Plan.</p> <p>3.3 There is currently a continued reliance on sites that have not yet delivered and are therefore retained allocations from the current Core Strategy and Site Allocations DPD; or large strategic sites where delivery is likely to be slow.</p> <p>3.4 There are alternative available and deliverable sites immediately adjacent to Newbury that should be considered in the selection of proposed residential allocations in order to meet the identified housing need in the short to medium term.</p> <p>3.4 There are alternative available and deliverable sites immediately adjacent to Newbury that should be considered in the selection of proposed residential allocations in order to meet the identified housing need in the short to medium term.</p> <p>3.5 The merits of the Site at Long Lane, Newbury are considered later in these representations.</p> <p>Local Plan Strategy</p>

3.6 Policy SP1 'Spatial Strategy' sets out three spatial areas within the district where development will be focussed. Within these areas, development will follow the settlement hierarchy set out in Policy SP3.

3.7 The Spatial Strategy recognises that the allocation of greenfield sites is required alongside brownfield development in order to maintain a five year supply of housing land.

3.8 Newbury is identified as the largest settlement in the district and is one of the two main focus areas for development in the draft Plan (identified as 'Urban Areas' in Policy SP3). This is acknowledged to contribute to the regeneration of the towns in the District as well as the rural areas they serve. It should therefore be the principle location for identifying development sites.

3.9 The Council's housing supply position as of 31st March 2022 takes into account the Core Strategy Sandford Park Strategic Site amongst other sites allocated in the current Plan period, some of which are not being taken forward as proposed allocations as they are at an advanced stage of construction, and existing planning commitments on unallocated sites.

3.10 These 'commitments' total 7,337 dwellings. The annual requirement of 538 new dwellings results in an additional need of 1,809 dwellings. It is acknowledged that the 538 dwellings are not a ceiling nor a cap. There is no specific housing need identified for Newbury within the housing figures. The accompanying report by Pegasus (dated 19th January 2023) looks at matters relating to Housing Needs and Supply in more detail.

Sustainability Appraisal

3.11 The Sustainability Appraisal / Strategic Environmental Assessment ('SA/SEA') for the Spatial Strategy Policy SP1 states the continued focus on Newbury is not being taken forward. It states at Table 11 that

"This option gives a number of potentially positive sustainability effects in relation to focusing development on the biggest town with the largest number of facilities, with a significantly positive effect predicted due to the strategies' focus on the use of brownfield land. However, there are is an unknown impact as to whether the strategy would be able deliver adequate housing to meet the local identified need due to the lack of suitable sites within the area."(our emphasis)

3.12 Further, Table 12 subsequently states "The Policy is likely to have an overall positive impact on sustainability. The policy directs development to the most sustainable locations, therefore, giving positive impacts on all elements of sustainability. The policy is likely to have a number of positive knock-on effects on social and environmental sustainability as a result of focusing development on the most sustainable locations in the district."

3.13 The statement that "A reliance on focusing development in Newbury may not deliver the number of dwellings required to meet the local need" is boldly made but without justification, qualification or articulation. Although it may not be possible to direct all development to Newbury, it is apparent from the SA that there are available sites which could add to supply and restrict the need to allocate sites in more sensitive and less sustainable areas. The discounting of this positive SA scoring out of hand does not lead to good planning outcomes, and the plan consequently fails to reflect its evidence base and the SA/SEA outcomes.

3.14 We consider that the Council has failed to identify sufficient allocations at Newbury, contrary to its own spatial strategy and SA/SEA.

3.15 Conversely, in relation to Policy SP2 'North Wessex Downs AONB' the SA/SEA states "The Policy is likely to have an overall neutral impact on sustainability. There is likely to be a significantly positive impact on environmental sustainability as a result of the protection the policy offers to the AONB. There are also likely to be positive impacts on all elements of sustainability as the policy seeks to protect the AONB, and requires that any development supports the local community and the rural economy. There is a potentially known impact of social sustainability in relation to the provision of housing, as the policy does restrict major development in the AONB except in exceptional circumstances."

3.16 Yet the Council maintain a number of allocations in the most sensitive part of the District.

5. Comments on Development Management policies

5.1 **Policy SP1 'Spatial Strategy'** – we support this policy as it identifies Newbury as a focus for housing development.

6. Summary and Conclusions

	<p>6.1 These representations have been prepared by Turley on behalf of Donnington New Homes in respect of the West Berkshire Local Plan Review 2039 Proposed Submission (Regulation 19) Consultation (January 2023).</p> <p>6.2 We reiterate that Newbury is the largest settlement in the District and is able to support residential growth to support the district's housing needs. The strategy set out in the Plan is supported, however the proposed site allocations are not varied enough to deliver the District's housing need in the short to medium term. There is an over-reliance on the two strategic sites coming forward, one of which (Sandleford Park) has been slower to come forward than anticipated in the previous plan period.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
Please give reasons for your answer	
4. Proposed Changes	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
5. Independent Examination	Our position is that the site should be included as a proposed residential allocation and that the LPR does not provide enough sites to provide sufficient housing supply.
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No</p>	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	N/A
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>We support Policy S1 criteria b), which confirms that the Council's strategy for the plan period optimises the use of previously developed land. This is consistent with para 119 of the National Planning Policy Framework (NPPF), which promotes an effective use of land.</p> <p>Policy SP1 encourages proposals to strengthen and diversity the rural economy, particularly where they are located in or adjacent to Rural Service Centres and Service Villages identified in the settlement hierarchy. We consider that this is too prescriptive and goes against the aspirations of Section 6 (Building a Strong Economy) of the NPPF, which seeks to support a prosperous rural economy.</p> <p>At paragraph 84 the NPPF states: <i>Planning policies and decisions should enable:</i> a) the sustainable growth and expansion of all types of business in rural areas, both through conversion of existing buildings and well-designed new buildings [...].</p> <p>At paragraph 85, the NPPF states:</p>

	<p><i>Planning policies and decisions should recognise that sites to meet local business and community needs in rural areas may have to be found adjacent to or beyond existing settlements, and in locations that are not well served by public transport'.</i></p> <p>The above NPPF paragraphs correctly recognise that businesses in rural areas should be supported including those 'beyond existing settlements'.</p> <p>As currently drafted, Policy SP1 expresses a preference for enterprises located in or adjacent to Rural Service Centres and Service Villages. In introducing this preference, there is a risk that those rural businesses which are not within or adjacent to settlements would not be supported. We note that no such preference is expressed within the NPPF and request that the Council accords with this approach.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	<p>For the reasons discussed above, we request that Policy SP1 of the Draft Local Plan is amended to ensure consistency with National Policy as detailed below (additions shown <u>underlined</u> deletions shown with a strikethrough).</p> <p>[...]</p> <p>Proposals to strengthen and diversify the rural economy will be encouraged., particularly where they are located in or adjacent to Rural Service Centres and Service Villages identified in the settlement hierarchy. Existing small and medium sized enterprises within the countryside will be supported in order to provide local job opportunities and maintain the vitality of smaller rural settlements and their communities.</p> <p>[...]</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Whilst much of Policy SP 1 is unobjectionable, and can be supported, objection is raised to the mechanisms for the allocation of housing in Lambourn.</p> <p>We are pleased to see that the very last sentence of SP1 proposed in the Regulation 18 version has now been deleted.</p> <p><i>"Allocations for housing for Hungerford, Lambourn, Compton and Hermitage will be made through Neighbourhood Development Plans".</i></p>

	<p>That was an abrogation of the function of this Draft Plan Review set in Policy. Neighbourhood Plans should not be making housing allocations, that is a function of the Draft Plan Review, and indeed some such sites, if suggested, may cut across the policies of the LPR.</p> <p>However the provisions for housing now are vague and do not give the certainty required from the Plan.</p> <p>The Draft LPR now states :-<i>“Additional development will come forward on both large strategic sites and smaller non-strategic sites allocated in the Local Plan Review LPR and in some neighbourhood plans, together with infill development, including that on windfall sites within settlement boundaries”.</i></p> <p>Indeed Paragraph 4.19 states that housing will “in part” be provided through Neighbourhood Plans. Currently there is no adopted Neighbourhood Plan for Lambourn. If the task of allocating housing sites is left to Neighbourhood Plans, especially in Lambourn, either that Plan may not come forward or, more likely, local residents will not want additional housing in their locality leaving the housing requirement unsatisfied.</p> <p>It is very unlikely that the statement in Paragraph 1.17 can be achieved namely that Neighbourhood Plans can promote more housing (but not less).</p> <p>Similarly there should not be any prohibition on sites adjoining the settlement boundary to allow for development contemplated by the NPPF. These sites will especially be required if proposed housing sites do not come forward.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
<p>Please give reasons for your answer</p>	Please see other submissions on this specific point <See Rep: ID1170>
<p>4. Proposed Changes</p>	<p>The reliance on allocations through the Neighbourhood Plan process in Policy, albeit watered down from the Consultation Version, together with the prohibition on edge of settlement sites, raises questions as to whether the objectively assessed housing needs will be met within the Plan period increasing pressures on other areas and settlements to meet the unmet need.</p> <p>The Council should allocate all housing sites through this Draft LPR and not leave the task to Neighbourhood Plans. Amend the provisions of Policy SP1 accordingly.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	No
<p>5. Independent Examination</p>	We do not consider the LPR is sound and would like to participate in the examination
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes

Please give reasons for your answer	Object. The policy is not consistent with national policy, justified or effective.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate?	

* Yes * No	
Please give reasons for your answer	
4. Proposed Changes	<p>Proposed change: insertion of the following phrase, “Within Newbury ... and Calcot, developments are expected to secure a net density of at least 35 dwellings per hectare... <u>unless it has been demonstrated that site constraints necessitate a lower density of development.</u></p> <p>Paragraph 125 of the NPPF advocates the use of minimum density standards, where there is an existing or anticipated shortage of land for meeting identified housing needs. Paragraphs 127-136 provide guidance on the importance of good design to ensure that development is visually attractive, sympathetic to local character, and optimises the potential of the site to accommodate and sustain an appropriate amount and mix of development (including green and other public space). Given that there is not a shortage of land to meet housing needs and much of West Berkshire District is valuable countryside, some flexibility should be introduced into the policy wording to ensure that sustainable development can be provided in sustainable locations which sits well within the landscape and reflects the constraints of each individual development site. There needs to flexibility for density to be varied across a development site, particularly where it will be delivered in phases, to reflect site constraints.</p> <p>Blanket application of density requirements could also render the plan ineffective as it could prevent sustainable sites from being developed out due to protracted debate over application of the density policy.</p> <p>It is noted and supported that this caveat has been attached to the requirement for development on the edge of defined settlements to secure a net density of 30 dwellings per hectare.</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Yes. To explain and provide examples of how the plan cannot be effectively delivered without flexibility over density requirements.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Relationship with the Settlement Hierarchy</p> <p>Policy SP1 of the draft Local Plan confirms that the focus of development in the District's three spatial areas (footnote 5) "will follow the District-wide settlement hierarchy set out in policy SP3 which takes account of the function and sustainability of settlements and promotes sustainable communities." This is an appropriate strategy, focusing new development in the most sustainable parts of the District, as confirmed by the policy's supporting text (paragraph 4.21).</p> <p>In setting out the proposed settlement hierarchy for the District, Policy SP3 of the draft Local Plan builds upon the spatial strategy outlined in Policy SP1. Mortimer is identified as a Rural Service Centre, which is described as a larger rural settlement that offers "development potential appropriate to the character and function of the settlement". This includes "Non-strategic sites allocated for housing and economic development through other policies in the LPR or Neighbourhood Plans".</p>

Table 1 of the draft Local Plan sets out the function of the Rural Service Centres. It explains that they comprise “Settlements with a good range of key services and opportunities for employment, community and education. They serve a wide catchment area and contain reasonable accessibility and regular public transport provided to a number of destinations.”

Paragraph 4.33 confirms that “Development over the plan period will build upon the existing settlement pattern”, while paragraph 4.34 explains that “**the six rural service centres across the District provide a focal point for the surrounding villages and rural areas in terms of the provision of services and facilities. Although they do not have as wide a range of services as the urban areas, they are still sustainable locations (our emphasis).**”

Furthermore, paragraph 4.33 notes the following:

“The characteristics of the individual rural service centres and service villages vary, reflective of the diverse nature of West Berkshire. They are not intended to have the same amount of growth as each other; instead, the level of growth will depend on the role and function that they perform for the surrounding spatial area, and will be related to their location, size, range of facilities and services as well as the availability of suitable development opportunities. Their sustainability will be considered alongside other factors, particularly environmental constraints such as the AONB or the DEPZ around the AWE sites of Aldermaston and Burghfield.”

At the time of preparing the adopted Development Plan, Mortimer was considered a sustainable location for growth, as demonstrated by the allocation of 110 dwellings to the village. Considering this, the case for focusing new development in this location is even stronger now, given the level and range of existing facilities, services and infrastructure in the area, as well as those currently coming forward.

Rural Service Centres that have been allocated housing in the draft Local Plan include Hungerford (55 dwellings) and Lambourn (25 dwellings), which are in the same tier of the settlement hierarchy as Mortimer.

Mortimer is not subject to the constraints mentioned in paragraph 4.16 and 4.33 of the draft Local Plan as it is not in the AONB or the DEPZ around the AWE sites of Aldermaston and Burghfield.

Paragraph 4.15 of the draft Local Plan states that there is significant employment in the Eastern Area which adds further weight to growth in Mortimer which is not subject to the environmental constraints that some of the other settlements in the Eastern area are.

At present, the draft Local Plan, particularly Policy SP14, fails to recognise Mortimer as a Rural Service Centre (a sustainable location for growth) through its proposed housing allocations over the Plan-period up to 2039. In line with the adopted Development Plan, as well as the approach taken at other Rural Service Centres and Service Villages, the village should be allocated its own growth beyond that currently planned up to 2026.

As referred to earlier, paragraph 66 of the NPPF confirms that “**strategic policies should...set out a housing requirement for designated neighbourhood areas which reflects the overall strategy for the pattern and scale of development and any relevant allocations (our emphasis).**”

For the reasons explained above, the Council has failed to allocate housing to Designated Neighbourhood Areas “which reflects the overall strategy for the pattern and scale of development”. In particular, the Council has overlooked the additional potential at Stratfield Mortimer, while allocating new housing to other Rural Service Centres, alongside Service Villages. The draft Local Plan and its evidence base clearly confirm that the latter are less sustainable locations than Stratfield Mortimer, notwithstanding the sustainability of Mortimer compared with the former.

This approach conflicts with Policy SP3 of the draft Local Plan, which explains that “*The focus of development will follow the District-wide settlement hierarchy which takes account of the function and sustainability of settlements across the District and promotes sustainable communities.*”

While not directly comparable, some insight into this issue can be taken from the recently adopted South Oxfordshire Local Plan 2011-2034.

Of particular relevance, in relation to Market Towns, paragraph 185 of the Inspector’s Report (27 November 2020) raised the following concerns regarding draft Policy H3:

“...housing delivered or committed since the start of the plan period means that at this stage, with almost 15 years still to go until the end of the plan period, most of the requirement for Thame and Henley, and all of the requirement for Wallingford, has been met. Policy H3 is written in such a way that neighbourhood plans only need to cater for the relatively small residual amounts: 156 in Henley, 363 in Thame, and none in Wallingford. In practice this would be likely to prevent sustainable development from taking place over a considerable number of years which would impair the ability to meet demonstrable local housing needs that could arise during that period (our emphasis).”

Further to this, paragraph 186 sets out the Inspector’s recommendations to enable Policy H3 to be found sound:

“The market towns are sustainable towns with a reasonable range of facilities and should be expected to play a proportionate role in meeting the District’s housing needs. MM25 therefore expresses as minima the Policy H3 housing requirements for the market towns, including Wallingford, and deletes the references to residual requirements. It also indicates that neighbourhood development plans for the market towns should seek to meet demonstrable local needs, for example for specialist or affordable housing, even where this would result in provision above the outstanding requirement. This additional flexibility would not result in excessive unplanned development because Policy H1 exerts control over sites not allocated in the development plan; nor would it threaten either the character of the AONBs or the historic character of the market towns, because Policy ENV1 contains strong protection for the AONBs and Policies ENV6 to ENV9 equally protect heritage assets (our emphasis).”

In relation to the Larger Villages, paragraph 4.17 of the adopted Local Plan notes that:

	<p><i>“The Local Plan proposes the provision of 15% growth in the larger villages. This level of growth has been calculated using the existing housing stock as it was at 2011 - the base date of the Local Plan and is on top of Core Strategy allocations where these exist.</i></p> <p><i>The larger villages have already collectively delivered 14% growth in housing based on completed dwellings between 1 April 2011 and 31 March 2020. The Plan is therefore planning positively for further growth over the remainder of the plan period. This will ensure that these places continue to grow and support the services and facilities that sustain them (our emphasis).”</i></p> <p>Furthermore, paragraph 4.30 of the Local Plan explains that:</p> <p><i>“Table 5f differentiates between villages where this Local Plan proposes allocations to either meet the village’s growth needs (due to them not preparing a Neighbourhood Development Plan) or where the Local Plan has proposed strategic allocations in Chapter 4. For villages where the Council is not making allocations in this Local Plan, the table identifies a housing requirement for them to be achieved either through Neighbourhood Development Plans or planning applications in accordance with Policy H4. The Council will support larger villages to allocate further development sites should the NDP so wish, where this level of growth is sustainable for that village, and where this is in accordance with national policies and guidance. These housing targets take into account the existing commitments and completions and identifies the following remaining levels of development to be delivered at each larger village (our emphasis).”</i></p> <p>In summary, the points outlined above demonstrate that simply because an area may have already achieved the level of housing originally planned – or has an existing allocation to deliver this quantum of housing – additional growth in sustainable locations should be supported throughout the whole Plan-period.</p> <p>This underlines the importance of supporting the delivery of new housing in the most sustainable locations, acknowledging the social, economic and environmental benefits that it can provide, including the role that it can play in maintaining the vitality and viability of existing settlements.</p> <p>Stratfield Mortimer is a sustainable location that is suitable for additional growth – as well as being capable of accommodating additional growth – which should be encouraged and reflected in an amendment to policy SP14.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes	No

* No	
Please give reasons for your answer	<p>Paragraph 11 of the NPPF 2021 requires (inter alia) that “all plans should promote a sustainable pattern of development that seeks to meet the development needs of their area...”</p> <p>The spatial strategy for the District seeks to focus development on Newbury as the key market town and administrative centre; as well as Thatcham as a ‘focus for regeneration.’ However, as a result, the role of Reading as the key economic driver and centre of population in the sub-region and HMA is underplayed. The Local Plan’s current strategy will tend to exacerbate unsustainable patterns of travel with more people required to travel from Newbury and Thatcham to Reading in order to access employment or higher-level public or other services.</p> <p>It is acknowledged that much of WBC is protected from significant development by virtue of national or local planning designation – for instance 74% of the area falls within the North Wessex Downs AoNB. Similarly, constraints exist within the Eastern Area.</p> <p>However, whilst constraints exist with the Eastern Area, there is a both a need and a sustainable opportunity to identify more sites for development in the Eastern Area, particularly where sites exist that are demonstrated to have little or no practical obstacles to development. These would necessarily have to be free from constraints including flood risk and the Atomic Weapons Establishments (AWE) safeguarding zones of Aldermaston and Burghfield. Such a move would recognise the ‘close functional relationship’ with Reading noted in the Duty to Co-Operate statement quoted in section 3 above.</p> <p>With regard to SP1 and the Eastern Area we object to the removal of new allocations for housing development in this area and particularly at Tilehurst given the clear identification of suitable, available and developable land in this locale in the HELAA -TIL 13 which is not in the AONB. NPPF 11(a) makes clear plans should promote a sustainable pattern of development and meet the development needs of their area. The plan’s failures with regard to the Eastern Area are inconsistent with the NPPF.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	
4. Proposed Changes	<p>The requirement to allocate more sites in the Eastern Area would address many of these challenges to soundness. Whilst it is acknowledged that some constraints do exist, there are sites which are recognised as achievable and deliverable in the Council’s evidence base supporting the LPR. Prime amongst these is site TIL13 at Pincent’s Lane (see overleaf). Site TIL13 has a long planning history. By common consent, the problems with the 2011 appeal scheme have been resolved and no technical obstacles exist to development of the site for a scheme of up to 165 dwellings. By the LPA’s own assessment, the concerns – and the reasons for not proposing it for allocation – are entirely “political”. No one would deny the validity of elected members making political choices where real choices exist, but the fact is that not allocating the site would leave the LPA without a single significant contribution to offer to meet either its own housing need in the Eastern Area or that arising from Reading, of which the Area is functionally part. The site should therefore be allocated.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Local Plan Review complies with Sections 19 and 20 of the Planning and Compulsory Purchase Act 2004 (as amended)
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	<p>We continue to support the Council's spatial strategy and agree that the focus of development should be at the sustainable top tier Urban Areas of Newbury and Thatcham. The main urban areas of Newbury and Thatcham contain a wide range of services and opportunities for employment, community and education that serve a large catchment area with good levels of accessibility and frequent public transport provision. Regeneration and expansion of these settlements therefore accords with the Framework.</p> <p>Owing to Newbury and Thatcham's sustainability criteria, and that "<i>Newbury will be a focus for housing development</i>" and "<i>Thatcham will be a focus for regeneration</i>", it is therefore surprising that there are not more allocations proposed at Newbury and Thatcham. Currently, there is an over-reliance on two large strategic sites, (one of which has been carried forward from the Core Strategy (2012)) which will require at least the 17-year plan period and beyond to be delivered. Furthermore, it is noted that the smaller proposed residential allocations around Newbury and Thatcham have been carried forward from West Berkshire's Housing Site Allocations Development Plan Document (DPD) which was adopted in 2017, 6 years ago.</p>

	<p>Generally, of the 23 proposed residential allocations across the district, 14 (60%) have been brought forward from the Housing Site Allocations DPD of 2017 as they have yet to be delivered. Additionally, the housing trajectory suggests that despite the long-standing allocations, several of the carried forward sites are unlikely to start to provide homes until after 2027, such as sites RSA1, RSA8, RSA9, RSA14, RSA18, RSA21.</p> <p>Furthermore, of the proposed new residential allocations none of which are anticipated to provide a source of housing supply in the first five years of the plan, with the trajectory confirming housing delivery after 2027.</p> <p>This analysis suggests that additional sites need to be found to ensure that there is housing delivery in the early phases of the plan and to ensure that the plan is positively prepared.</p> <p>It is considered that there should be flexibility in relation to development outside but adjacent to settlement boundaries in sustainable locations at Urban Areas and that development in these locations should not be restricted and treated as open countryside. Sites adjacent to settlement boundaries at Urban Areas should be considered as a flexible opportunity for sustainable development to bolster historic allocations, such as Sandleford Park or Lynch Lane, Lambourn, which fail to deliver in a timely fashion.</p> <p>Whilst the Spatial Strategy Policy SP1 is generally supported, it is considered that several of the proposed residential allocations conflict with the policy in relation to “<i>optimising the density of development to make the best use of land</i>”. Whilst landscape impact is an important consideration for the design and density of a scheme, policy wording recommending low density development on proposed allocations at Theale and Chieveley (Policies RSA10, RSA11 and RSA17) are considered contrary to draft Policy SP1 as the density and ultimate capacity of a site should be determined during the course of planning application preparation and determination.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
Please give reasons for your answer

Please give reasons for your answer	It is noted that the overall proposed spatial strategy set out in draft LPR Policy SP1 generally reflects that of the adopted Core Strategy, with new residential and employment development predominantly focused towards Newbury and Thatcham (as referred to at paragraph 4.13). This overall approach is supported by the Council's Settlement Hierarchy Review Topic Paper (November 2020), which identifies Newbury and Thatcham as the most sustainable locations for development in the District and follows

the NPPF (paragraph 68) guidance which seeks to direct development to the most sustainable locations. It is however important to note that previous large allocations at Newbury and Thatcham (including the 2,000 home allocation at Sandleford Park) have been delayed in coming forward, as set out in the Annual Monitoring Report (AMR) 2022 (published January 2023), and that Newbury and Thatcham are subject to a number of constraints including heritage (including a Registered Battlefield south-west of Newbury), flood risk and a Nutrient Neutrality Zone north-west of Newbury. On this basis and given that the AONB covers 74% of the District, it is particularly important that an appropriate amount of development is also allowed for at sustainable locations in the Eastern Area in particular (e.g. Burghfield Common, Mortimer and Theale) to ensure that housing needs are met across the District and that the vitality of other settlements is maintained.

The Sustainability Appraisal (SA) states that, in considering the option for an 'increased focus on the Eastern Area' – 'This option is not considered to be a reasonable alternative due to the constraints relating to the DEPZ for AWE Burghfield and the long term nature of the Grazeley settlement proposal to meet the growth needs of Reading.' However, whilst the Eastern Area has constraints (e.g. DEPZ, flood risk etc.), these are subject to change and are dependent on the scale and type of development proposed, and are therefore not necessarily insurmountable constraints over the entirety of the Plan period. It is important to note that the DEPZ is reviewed every 3 years (as referred to at paragraph 4.16) and was recently subject to minor amendments made in January 2023. Furthermore, an Inspector recently allowed a residential development of 49 units within the DEPZ at Three Mile Cross (within Wokingham borough) (ref. 3304042), where he concluded based on detailed examination that there was a 'very small' risk of an incident and that 'there would be no harm with regard to the proximity of the AWE Burghfield site.' On this basis it is considered that a more positive and proactive approach should be taken to addressing these issues to accommodate sustainable development within the Eastern Area, in line with NPPF paragraph 121.

Policy SP1 itself states that, within the Eastern Area, Theale will be a focus for additional housing; however, provision for additional housing at Burghfield and Tilehurst through Neighbourhood Plans (as proposed in the previous Reg 18 consultation), including 175 units at Tilehurst has been deleted. This appears to be on the basis of the DEPZ designation relating to Burghfield and on the basis that Tilehurst Parish Council decided not to allocate any sites in the recent Neighbourhood Plan consultation undertaken, as referred to in the Housing Background Paper. The provision for 175 units at Tilehurst has not been redistributed elsewhere in the Eastern Area and so there is a reduction in the amount of development proposed in the Eastern Area compared to the previous Reg 18 consultation. The first part of draft Policy SP1 states that 'The focus of development in each spatial area will be required to follow the District-wide settlement hierarchy set out in Policy SP3' – which in the Eastern Urban Area includes the 3 Rural Service Centres of Theale, Burghfield Common and Mortimer. Taking into account the roles of Theale, Burghfield Common and Mortimer in the District (referred to further below) and the recent provision made for development within the DEPZ, greater provision should be made for additional housing at these settlements in the Eastern Area in order to ensure certainty of future housing supply. This approach will also provide flexibility for the Council to respond to changes in circumstance e.g. amendments to the DEPZ boundary.

Notably, draft LPR Policy SP1 also makes no reference to the potential for additional housing supply at Mortimer, one of the largest settlements in the Eastern Area. The village is however located just outside the DEPZ and is therefore a less constrained area that has the greater opportunity to accommodate development in the Eastern Area. Draft LPR Policy SP14 acknowledges the 110 units allocated in the Stratfield Mortimer Neighbourhood Plan, however this only covers the period to 2026 and therefore does not account for the LPR plan period to 2039. Paragraph 6.38, supporting Policy SP14, states that no additional dwellings are proposed based on incorrect reference to Mortimer being a 'Service Village' with 'some limited development potential'. Mortimer is however a 'Rural Service Centre' in the second tier of the Settlement Hierarchy alongside Burghfield Common and Theale as set out in draft Policy SP3. Given the sustainable and relatively unconstrained location, the LPR spatial strategy should therefore make additional provision for development at Mortimer.

Draft LPR Policy SP1 adds that the Eastern Area will 'continue to be important for business development with the retention of DEAs' (Designated Employment Areas). Whilst the importance of business development within the area is welcomed, it is considered that this reference should be broadened to not only refer to DEAs but also existing employment areas (within and adjacent to the District boundary) and the rural economy (as referred to elsewhere within Policy SP1) which also provide an important contribution to the local economy. In this regard it is welcomed that draft Policy SP1 has been updated to specifically state that 'Proposals to strengthen and diversify the rural economy will be encouraged...' and 'Existing small and medium sized enterprises within the countryside will be supported...'

<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>On this basis, Policy SP1 as currently worded does not meet the tests of soundness set out in paragraph 35 of the NPPF. The following changes are therefore recommended in order to ensure the soundness of the Plan:</p> <p>"...Theale, <u>Burghfield Common and Mortimer</u> will be a focus for additional housing including through existing commitments and new allocations.</p>

	The area will continue to be important for business development with <u>through</u> the retention of DEAs <u>and</u> existing employment sites and through proposals to strengthen and diversify the rural economy ...”.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	<i>The Englefield Estate consider that the plan in its current version is not sound and would like the opportunity to set out how alterations could be made to the plan and its evidence base to enable it to be found sound and progress to adoption.</i>

<p>Please give reasons for your answer</p>	<p>[See attached Combined Appendices for appendices. For wider representation and Tables and Figures, see attached Representations on behalf of Croudace Homes]</p> <p>The Spatial Strategy and Settlement Hierarchy (Draft Policies SP1 and SP3)</p> <p>West Berkshire is a highly constrained District. As set out at paragraph 4.6 of the LPR, it contains a number of physical and environmental constraints which influence the location of development including the North Wessex Downs AONB (which covers 74% of the District), substantial areas liable to flooding, the presence of the AWEs at Aldermaston and Burghfield, areas constrained by nutrient neutrality and various other heritage and environmental designations. These are well represented in visual form at Figure 1 of the LPR, which is extracted below at Figure 5.</p> <p>In response to this, the LPR's spatial strategy is set out at draft Policy SP1. One of its key aims is to direct development to areas of lower environmental value.</p> <p>It splits the District into three spatial areas: 'Newbury and Thatcham'; 'North Wessex Downs AONB'; and 'Eastern Area'.</p> <p>Newbury and Thatcham</p> <p>As set out by Croudace's representations at the Regulation 18 stage (Appendices E, F and G), the decision to direct growth towards Thatcham is strongly supported.</p> <p>Although Thatcham is one of the 'top tier' sustainable settlements in West Berkshire, it was only allocated very modest levels of growth in the adopted Core Strategy and HSA DPD. The Council justified this at the time on the basis that Thatcham had historically seen significant growth and was deemed to require a period of 'consolidation'. Again, the HSA DPD only contained a single allocation in Thatcham.</p> <p>When the Core Strategy was examined between November 2010 and May 2012, the Inspector accepted the 'consolidation' strategy for Thatcham, but recommended it should be reconsidered as an area for housing growth in any future review, acknowledging its position at the 'top tier' of the settlement hierarchy. An initial review was taken by the HSA DPD and so the LPR represents the second review since the Core Strategy's adoption in July 2012.</p> <p>Therefore, by continuing to designate Thatcham as a 'top tier' settlement and by directing growth to the 'Newbury and Thatcham' spatial area, the Council has taken this advice on board. Accordingly, Croudace supports Thatcham's status as a 'top tier' settlement (Urban Area) in draft Policy SP3.</p> <p>However, Croudace considers that the LPR has not gone far enough, and in order to propose a 'justified' strategy, considers directing additional levels of growth to Thatcham given its status in the hierarchy. This growth could be redistributed either through different allocations to meet the proposed housing requirement identified (538 dpa) or through additional allocations to meet an increased housing requirement which provides additional 'headroom' or uplift in flexibility (for example, takes into account Reading's existing and future needs that remain, or will be, unmet).</p> <p>Alternatively, Croudace considers that in order to provide greater flexibility to the LPR, the Council should explore an approach which allows development to come forward on sites outside, but immediately adjacent to the settlement boundary, subject to meeting certain criteria. Such an approach may be useful in instances where, for example, there is no 5YHLS and/or the Housing Delivery Test has been failed, or where delivery rates on sites in the housing trajectory drop below a certain level.</p> <p>In this regard, Croudace would like to highlight an example used by many local authorities, including Fareham Borough Council, where Policy DSP40 (Housing Allocations) and emerging Policy HP4 both support residential development on land outside the urban area where there is no 5YHLS. (Appendices H and I).</p> <p>In summary, Croudace lends its tentative support to some of the principles established by draft Policies SP1 and SP3. However, it cannot fully support these policies without a mechanism for bringing forward land at Henwick Park for development, whether that be an allocation or other favourable policy.</p>

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	Yes
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	<p>Paragraph 4.19 of the LPR states that Pangbourne has limited development opportunities, we disagree with this statement.</p> <p>Pangbourne does have development opportunities with sites such as those identified later on in this letter, which would go a long way towards providing well designed and appropriate development as natural extensions of the existing settlement, within acceptable distances from the centre of the village as defined in the settlement hierarchy topic paper.</p> <p>Pangbourne does not have a neighbourhood plan, and therefore, sites are unlikely to come forward through one in the early part of the new plan period.</p> <p>The plan fails to consider whether Pangbourne, as a rural service centre, can accommodate development outside of the existing settlement, in particular, to contribute to meeting the needs of specialised housing as set out in Policy DM19.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>The plan should be amended to identify sites in and round Pangbourne, which is identified within the settlement hierarchy (SP3) and the second highest tier settlement with extensive services and facilities available.</p> <p>Allocating sites for specialist housing, in this instance older persons accommodation / retirement living, plays a key part in allowing family housing within villages to be made available on the open market, bringing new economically active adults into the area and assisting in sustaining local services and facilities. It also provides job opportunities for the local community and allows older people to stay in their communities with additional support.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No

<p>Please give reasons for your answer</p>	<p>The sections on “Context” (2.1) and the “Development Strategy: Overview” (4.6) need to make more of the very large constraints on all spatial development in West Berkshire. These are listed in 4.6 but nowhere in these sections does the natural conclusion appear: that there is a severe shortage of available land; I have seen a figure of 11% cited in other policy documents approved by Council. With the recent statement by DLUHC that this could be taken into account when deciding the number of new homes to provide, it should be explicitly stated whether or not the Council wishes to use this to argue for a lower number.</p> <p>This will be used in support of some of our other responses to policy in the draft Plan, which tend to call for a more flexible approach to well evidenced applications for development in the countryside – even in the AONB – and in flood zones.</p> <p>The policy doesn’t take sufficient advantage of broadband reducing the need to travel. This doesn’t just enable reduction of out-commuting from the District as a whole, but can also help sustain viable rural communities through improved access to services via remote means: from online shopping to primary healthcare online consulting and online education.</p> <p>The current pattern of middle income white collar workers and executives working from home in rural communities, while low income rural workers out-commute from social housing in urban areas doesn’t help maintain rural shops and schools. We believe the rural areas and AONB could sustainably accommodate significantly more new homes to meet the needs of rural businesses and communities.</p> <p>This will also be reflected in changes we propose to DM1 and in the reduction of numbers in SP17. We also think the spatial strategy does not make sufficient use of brownfield land, as set out in SP12.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	<p>In 2.1, add a sentence to the end: “These facts alone indicate a severe constraint on all forms of development in the District.”</p> <p>In 4.6, add a sentence at the end: “It is estimated that only 11% of the District is either not already developed or is not subject to national policies that seriously limit the prospects for development and/or are areas where housing cannot be allocated in a Spatial Plan.”</p> <p>In the third paragraph of SP1 on page 17, after “improving choice in transport modes” add “and seeking to minimise the need to travel through broadband rollout”.</p> <p>At end of 4.19 add new sentence: “We will also encourage local communities and rural businesses to seek opportunities that may arise to accommodate small residential development in support of local needs in appropriate locations, thereby reducing in-commuting from towns and helping to sustain local facilities.”</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes

5. Independent Examination	We wish to explain our approach to rural development known as "Viable Villages".

2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? -	

<p>Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>THE SPATIAL DISTRIBUTION OF HOUSING</p> <p>The NPPF (2021) requires, at paragraph 20, strategic policies should set out an overall strategy for the pattern, scale, and design quality of places. Making sufficient provision for housing and other development needs. Darcliffe welcomes the Council's consideration of alternative options [Footnote 13: Available online at: https://www.westberks.gov.uk/lpr-proposed-submission-consultation] to develop an appropriate spatial strategy for West Berkshire up to 2039, as detailed within the Sustainability Appraisal that accompanies this iteration of the emerging local plan (SA).</p> <p>The identified alternative spatial strategy options for the District each seek to direct development toward the most sustainable settlement locations within West Berkshire. Darcliffe supports the Council's recognised commitment to maximising development at the most sustainable locations in the District.</p> <p>However, notwithstanding the direction of development toward the most sustainable settlements, each reasonable alternative spatial strategy option ultimately relies upon the allocation of land within all three Spatial Areas, including the North Wessex Downs AONB, to meet the District's overall housing needs.</p> <p>As noted within the Housing Background Topic Paper (2023) [Footnote 14: Available online at: https://westberks.gov.uk/media/54001/Housing-Background-Paper-January-2023/pdf/Housing_Background_Paper_January_2023.pdf?m=638102336216470000], the North Wessex Downs AONB Spatial Area covers 74% of West Berkshire. Given the various constraints associated with the Newbury and Thatcham Spatial Area (including environmental, flooding, and heritage constraints), and with the Eastern Area Spatial Area (including flooding constraints and the Detailed Emergency Planning Zone), the Council considers that it is not reasonably practicable to accommodate the entire housing need in these areas.</p> <p>Despite the constraints in these two Spatial Areas, 92% of the residential allocations within the emerging local plan are located in the Newbury and Thatcham and Eastern Area Spatial Areas. Darcliffe generally supports the Council's proposed spatial strategy to the extent that development is clearly and appropriately intended to be directed toward the most sustainable locations.</p> <p>However, Darcliffe contends that in the implementation of this spatial strategy, the Council have missed opportunities to allocate residential development at appropriate and sustainably located sites within the preferred spatial locations within the District. Darcliffe recommends the Council reconsider the omission of an allocation(s) for residential development at the Land west of Little Heath Road, Reading accordingly.</p> <p>Importantly, the site adjoins the highest order settlement within the District, and even within the HMA, being located immediately adjacent to the west of Reading. Furthermore, the site is located adjacent to the District's highest order Spatial Area - the Eastern Area Spatial Area. The site clearly therefore relates favourably regarding the Council's identified spatial strategy, which directs development toward the most sustainable locations.</p> <p>As noted in the Updated Housing Needs Evidence (July 2022) paper, a number of settlements (including Aldermaston, Burghfield and Mortimer) in the southern extent of the Eastern Area are unable to contribute toward meeting local housing need owing to their location within the Atomic Weapons Establishment Detailed Emergency Planning Zone ('AWE DEPZ'). Consequently, this provides an impetus that the remaining settlements of the Eastern Area, such as Tilehurst, should and where appropriate can accommodate the surplus housing needs of this spatial area.</p> <p>It is also relevant that the omission of the large strategic Grazeley Garden Settlement, allocation (c. 15,000 homes), was a consequence of the AWE DEPZ preventing housing deliverability in the east of the District. This further demonstrates that housing should be reallocated elsewhere within the Eastern Area to fulfil the voided supply of homes, as well as capitalise on the lost supply of potential resource associated with the large functional economic market area that is Reading.</p>

The Settlement Hierarchy Study Paper, which forms part of the evidence base supporting the Local Plan Review, classifies Tilehurst and Purley-on-Thames as an 'Urban Area' which forms highest classification for sustainability. Proposed Policies SP1 and SP3 set out the Spatial Strategy for West Berks and states "The scale of development proposals will be expected to be relative to the existing or proposed level of facilities and services in the settlement, together with their accessibility".

Boyer has undertaken an assessment of the site against the Council's Sustainability Appraisal ('SA') methodology, which is set out in section 7 of these representations. The assessment demonstrates that the site scores positively in relation to the SA assessment framework. Given the clear positive score of the site against the Council's SA methodology, Darcliffe contends that the site's allocation could be achieved consistent with the Council's proposed spatial strategy.

Furthermore, the scale of development that is proposed for this site will assist with the District's housing delivery both in the short-term and over the life of the plan period. In conjunction with the strategic-scale site allocations the Council's identified housing trajectory relies upon, the development of sites at this medium scale can assist in significantly boosting the supply of housing across the plan period, and specifically within the early part of the plan period.

Paragraph 68 of the NPPF states that local authorities should promote a good mix of sites, with medium-scale sites often able to be built out relatively quickly. This is supported in research conducted by Lichfields [Footnote 15: Available online at: <https://lichfields.uk/content/insights/start-to-finish>], which reports that schemes of 500 dwellings or more take on average between 5 to 8.4 years from the validation of an application for outline planning permission to the delivery of the first new home. The consequence being larger sites, such as the proposed strategic allocations, typically only substantively contribute to new housing delivery later on in the plan's lifespan.

For these reasons, Darcliffe recommends that the Council reconsiders the omission of the site from allocation for residential development prior to the submission of the plan for examination.

Development in the North Wessex Downs AONB Spatial Area

In seeking to identify sufficient development sites to meet the District's local housing needs, the Council has sought to accommodate a modest amount of new homes (approximately 8% of the overall need) within the North Wessex Downs AONB.

Paragraph 174 of the NPPF sets out that "*Planning policies and decisions should contribute to and enhance the natural and local environment by: [inter alia] protecting and enhancing valued landscapes*" such as the country's Areas of Outstanding Natural Beauty. Furthermore, the NPPF clarifies, at paragraph 176, that "*Great weight should be given to conserving and enhancing landscape and scenic beauty in [...] Areas of Outstanding Natural Beauty*".

Given the significant housing need within the District, as set out in the previous discussion, there is clearly a need to accommodate a modest amount of the District's much-needed residential development within the North Wessex Downs AONB Spatial Area. Therefore, although the Council has given great weight to conserving and enhancing the landscape and scenic beauty of the AONB, there is a clear and overriding need to accommodate a modest amount of growth within the Spatial Area if sustainable development is to be achieved.

Darcliffe generally **supports** the Council's proposed spatial strategy to this extent, in which a modest amount of new homes is proposed to accommodate growth within the North Wessex Downs AONB Spatial Area.

Furthermore, in determining appropriate locations to accommodate residential development within the North Wessex Downs AONB Spatial Area, the Council has sought to have due regard to the conservation and enhancement of the landscape and scenic beauty of the AONB, in accordance with Paragraph 176 of the NPPF.

The Council assessed parcels of land within the North Wessex Downs AONB Spatial Area through the Landscape Character Assessment ('LCA') and Landscape Sensitivity Assessment ('LSA') processes, which informed the Council's assessment of the potential suitability of sites for residential development. However, the Council did not assess Land west of Little Heath Road, Reading within the HELAA and therefore did not form a conclusion as to the suitability of the site for development.

Taking into account the LCA / LSA processes, the Council concluded that several parcels of land within the AONB could be appropriate to accommodate development, subject to various recommendations to maintain and enhance the landscape and scenic beauty of the AONB. Darcliffe has undertaken an assessment of Landscape Sensitivity for development at the site, and we set the results out in more detail in Section 6 and Appendix 2 of these representations.

In summary, Darcliffe considers the site would be capable of accommodating the proposed level of residential development whilst conserving and enhancing the broader landscape and scenic beauty of the AONB. This is aided by the site's generally flat topography and the belt of trees aligning the western extent of the site, which ensures the land is visually enclosed from the wider landscape of the AONB.

The Council's proposed site allocations within the North Wessex Downs AONB represent locations where development can best be situated within the landform, or best relate to the existing built form, or are enclosed by substantive established native deciduous tree cover, of value in its own right. As such, Darcliffe considers the allocation of Land west of Little Heath Road, Reading, could be undertaken consistent with the Council's existing and proposed spatial strategy ensuring that the special qualities of the AONB as a whole can be appropriately conserved and enhanced.

With regard to the Land west of Little Heath Road, Reading, the West Reading LSA (2009) assessed the broad area in which the site is situated as part of Parcel 13E 'Little Heath Gravel Plateau'. The LSA concludes that the area demonstrates *low to medium landscape sensitivity* and is characterised by:

- Scattered mixed development broken up by small open areas,
- Good level of visual enclosure, and
- Mostly low to medium historic landscape sensitivity.

	Darcliffe is committed to bringing forward development on the site in accordance with the principal objective of conserving and enhancing the character of the AONB. Further detail is provided in section 6 and Appendix 2 of these representations. However, in principle, Darcliffe contends that the site is capable of delivering the proposed quantum of residential development, adjoining the most sustainable settlement within the District, whilst conserving and enhancing the special qualities of the North Wessex Downs AONB.

2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>These representations have been prepared by Nexus Planning on behalf of Pangbourne Beaver Properties Ltd, in response to the West Berkshire Local Plan Review 2022-2039 – Regulation 19 consultation (“the Plan”).</p> <p>We support, in general terms, the spatial strategy set out in Policy SP1, which adopts an approach based on three spatial areas in the district, which include the North Wessex Downs AONB.</p> <p>We also support the requirement for the focus of development in each of these spatial areas to: <i>‘...follow the District-wide settlement hierarchy set out in Policy SP3 which takes account of the function and sustainability of settlements and promotes sustainable communities’.</i></p> <p>We additionally support the spatial approach to the North Wessex Downs AONB itself as referenced in Policy SP1, which seeks to ensure that it delivers appropriate and sustainable growth in this area that conserves and enhances its special landscape qualities.</p> <p>However, despite clearly identifying this spatial strategy in Policy SP1, Policy SP15 fails wholly to have regard to / accord with it.</p> <p>With specific regard to the North Wessex Downs AONB area, Policy SP15 disregards not only the spatial strategy in Policy SP1 but also the settlement hierarchy in Policy SP3, failing to make any development allocations at Pangbourne (a ‘Rural Service Centre’ which also benefits from a railway station), whilst making a series of allocations at settlements in this spatial area that are demonstrably less sustainable / lower down the Council’s own settlement hierarchy.</p> <p>As set out in detail in our representations to Policy SP15, the approach to housing provision in the North Wessex AONB area is unjustified, inappropriate and unsound, and conflicts with the strategy for the district as set out in Policies SP1, SP2 and SP3 of the Local Plan.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	As set out in more detail in our representations to Policy SP15, the approach to housing provision in the North Wessex AONB area, in making no provision for any residential development at the Rural Service Centre of Pangbourne, is fundamentally unsound. It should be corrected by way of a review of the approach to the allocation of sites in the North Wessex AONB area and as part of this, the allocation of Site PAN8 at Pangbourne - as the most sustainable location for development in this spatial area.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	It is important for the Inspector to fully understand the existing flaws with the Plan with specific regard to Pangbourne. This can be best achieved by us presenting oral evidence to the Inspector.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant?	No

* Yes * No	
Please give reasons for your answer	Site Allocations have been selected and the plan finalised for consultation prior to finalisation of HELAA site assessments; decision of members to move forward to consultation on Reg 19 Plan taken in the absence of knowledge of the range of site assessments/ options available to accommodate development. Public comments invited until 3 March, in the knowledge of proposed meeting the evening of 2 March to decide whether to abandon the consultation/ draft strategy. This will inevitably have impacted decisions taken on whether or not to spend time/ funds pursuing representations on the plan, leading to a flawed consultation process. Errors in evidence base contributing to flawed consultation process, with stakeholders unable to review/ comment on full assessment of the impact of the proposed development strategy.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	our client is generally supportive of statement in this policy, of the aim to direct development to land of lower environmental value and previously developed land; and the support for appropriate densities to make efficient use of land. It is not clear, however, that the selected allocations are the best means of achieving this strategy, given the heavy reliance on large strategic developments on greenfield sites to meet housing need. The proposed spatial strategy recognises there is a need to allocate greenfield sites, and that housing need cannot be met on brownfield sites alone. We agree this is realistic. However, there is some doubt that the LPR allocates a sufficient number of sites to ensure sufficient housing delivery in the initial 5 year period from adoption. In order to deliver a more robust land supply position, we submit there the Council should revisit its land supply assessment and seek to include additional small/ medium sites (such as our client's site in Brimpton) to ensure quick delivery of sites in the first five years of the plan. The housing land supply position (as at 31 March 2022) relies upon current allocations including the Sandleford Park strategic development location and the LPR also relies on delivery of large scale development at Thatcham. In the short term, there is a need to ensure delivery of sufficient number of dwellings in the early plan period and small/ medium sites must form part of the mix to ensure this.

	<p>Policy SP1 does not give adequate recognition of the requirement to plan for rural villages meeting their own needs. There is support expressed for the rural economy, but not for any rural housing. This is contrary to paragraph 79 of the NPPF, which requires that planning policies identify opportunities for villages to grow and thrive, especially where this will support local services. Paragraph 80 clarifies that policy should avoid the development of isolated homes in the countryside – but this should be interpreted in line with Braintree DC v SSCLG [2018] EWCA Civ.610 which confirms that ‘isolated’ means ‘far away from other places, buildings or people; remote’. Villages such as Brimpton are not ‘remote’ or ‘isolated’ and indeed are in close proximity to the major urban areas of the district and beyond. The policy as worded will rely upon infill/ windfall housing in the existing settlement boundary to deliver any growth in villages such as Brimpton.</p> <p>Our client’s site in Brimpton partially within, and partially adjacent to the settlement boundary. <for map see attachment></p> <p>It is in fact located centrally within the village, in walking distance to the local primary school. It is not isolated, for the purposes of the NPPF, and therefore this LPR should contain policies which would allow for small scale infill development of this site, to support the growth of the village. As presently proposed, the LPR would not support development of the portion of the site outside the settlement boundary, even where the proposal amounted to infill and continuation of the building line, connecting to residential development to the north and south/east and reflecting built form on the opposite side of Brimpton road.</p> <p>When consulting on the Settlement Boundary Review, the Brimpton Parish Council expressed support for the inclusion of our client’s site within an amended boundary. The following is an extract from the appendices to the Settlement Boundary Review Background Paper (December 2022). It identifies the “parcel of land to the west of Forge Stores...and running north between Brimpton Road and the drive to Hilcourt Lodge...There may be a case for including the area within the Settlement Boundary and permitting suitable housing to join up with the building line at the southern end of the existing houses (Manor View) to the north). The Parish Council were of the view they would need to consult with the community before confirming it should be included, given the site’s prominent location in the centre of the village and in close proximity to a public open space. They were unable to do so in the time allowed, so provided this feedback “in the hopes that, it a suitable housing development can be agreed, with both the landowner and the parish, this response will be taken into account when any planning application is considered.”</p> <p>This reinforces, therefore, that the settlement boundary could be amended to incorporate our client’s site to the west of Brimpton Road.</p> <p><for table see attachment></p> <p>The Parish Plan also expresses support for some additional housing development in the village: <i>“Support proposals (subject to compliance with planning regulations and the Village Design Statement) to build up to 10 small private houses over 10 years, affordable to first time buyers and people wishing to downsize, primarily through infilling.”</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Include additional site allocations, to ensure sufficient supply of housing in early plan period. In particular, allocate additional small/ medium sites (under 1ha) including our client’s site in Brimpton where there is support for appropriate development which would relate well to the existing settlement. The Policy needs to be amended to include recognition of the need for rural villages to grow and thrive to support their vitality, as set out in the NPPF.</p>

Please give reasons for your answer	<p>I write to confirm the statutory safeguarding position of the Ministry of Defence (MOD) in relation to the West Berkshire Local Plan Review Consultation. The Local Plan Review sets out the Council's vision, objectives and spatial planning strategy for West Berkshire up to 2039. Public engagement will form part of the consultation process required under Regulation 19 of the Town and Country Planning (Local Development) (England) (Amendment) Regulations 2012, and the responses received will help the West Berkshire Authorities prepare the Proposed Submission Plan.</p> <p>The Defence Infrastructure Organisation (DIO) Safeguarding Team represents the MOD as a statutory consultee in the UK planning system to ensure designated zones around key operational defence sites such as aerodromes, explosives storage sites, air weapon ranges, and technical sites are not adversely affected by development outside the MOD estate.</p> <p>For clarity, this response relates to MOD Safeguarding concerns only and should be read in conjunction with any other submissions that might be provided by other parts of the MOD.</p> <p>Paragraph 97 of the National Planning Policy Framework 2021 requires that planning policies and decisions should take into account defence requirements by 'ensuring that operational sites are not affected adversely by the impact of other development proposed in the area.' To this end, MOD may be involved in the planning system both as a statutory and non-statutory consultee. Statutory consultation occurs as a result of the provisions of the Town and Country Planning (Safeguarded aerodromes, technical sites and military explosives storage areas) Direction 2002 (DfT/ODPM Circular 01/2003) and the location data and criteria set out on safeguarding maps issued by Department for Levelling Up, Housing and Communities (DLUHC) in accordance with the provisions of that Direction.</p> <p>The area covered by any West Berkshire Local Plan will both contain and be washed over by statutory safeguarding zones that are designated to preserve the operation and capability of defence assets and sites including RAF Benson, RAF Odiham, RAF Welford, Atomic Weapons Establishments (AWE) at Aldermaston and Burghfield and the Central Wide Area Multilateration (WAM) Network.</p> <p>To provide an illustration of the various issues that might be fundamental to MOD assessment carried out in response to statutory consultation, a brief summary of each of the safeguarding zone types is provided below. Depending on the statutory safeguarding zone within which a site allocation or proposed development falls, different considerations will apply.</p> <ul style="list-style-type: none"> • The airspace above and surrounding aerodromes is safeguarded to ensure that development does not form a physical obstruction to the safe operation of aircraft using that aerodrome. Zones are drawn that trigger consultation on development of various heights to ensure that their effect on the protected airspace above and surrounding an aerodrome is assessed and, if necessary, mitigated. These zones also indicate areas where development might reduce the capability or otherwise compromise the operation of technical assets such as communications, navigation, or surveillance systems including radar. In addition to permanent physical development within these zones, the use of cranes, piling rigs or other tall plant or equipment to implement development may also be of concern. • Within the West Berkshire plan area is a new technical asset known as the Central Wide Area Multilateration (WAM) Network which contributes to aviation safety by feeding into the air traffic management system in the Central areas of England. There is the potential for development to impact on the operation and/or capability of this new technical asset which consists of nodes and connecting pathways, each of which have their own consultation criteria. Elements of this asset pass through the West Berkshire Local Plan area. The key concerns are the presence and height of development, and where introduction of sources of electro-magnetic fields (such as power lines or solar photo voltaic panels and their associated infrastructure) are of particular concern. • Birdstrike safeguarding zones with a radius of 12.87km are designated around certain military aerodromes. Aircraft within these zones are most likely to be approaching or departing aerodromes and therefore being at critical stages of flight. Within this zone, the principal concern of the MOD is that the creation of new habitats may attract and support populations of large and, or flocking birds close to the aerodrome. • Statutory safeguarding zones are designated around Military explosives storage sites, to ensure that development and land uses will be compatible with MOD capability. Within these zones, where applicable, requirements relating to the siting, design, and construction of buildings, or changes to land use may apply. In principle, the MOD does not object to land in the outer explosives safeguarding zone being developed for residential, commercial, and industrial land use purposes. Any buildings within this zone must be 'non-vulnerable' to blast effects, that is of robust construction, so should an explosive event occur, the structure would not collapse or sustain damage that could cause critical injury to the occupants. Of particular concern within this zone are tall buildings (in excess of 3 storeys), light weight construction and large areas of glazing. The MOD will object to development proposals which support people living, working and congregating within the inner explosives safeguarding zone. <p>Copies of these safeguarding maps, in both GIS shapefile and .pdf format, can be provided on request through the email address at the start of this letter.</p>

	<p>It should be recognised that where development falls outside designated safeguarding zones, the MOD may also have an interest, particularly where the development is of a type likely to have an impact on operational capability by virtue of scale, height, or physical properties. Examples of these types of development include any development that would exceed a height of 50m above ground level. Tall (of or exceeding a height of 50m above ground level) structures introduce physical obstacles to low flying aircraft. The MOD should be consulted, through DIO Safeguarding, where development exceeds a height of 50m above ground level to ensure that the potential for these structures to form a physical obstacle to low flying aircraft can be addressed through appropriate lighting and charting. In addition, the MOD requests to be consulted on any proposals, regardless of height, which fall outside of an MOD safeguarding zone but are in the vicinity of military training estate or property.</p> <p>On reviewing the potential allocation site and policies for the area, I can confirm the MOD has no statutory safeguarding concerns or suggested amendments to the West Berkshire Local Plan Review.</p> <p>The MOD Safeguarding team would welcome being listed as a consultation body of the West Berkshire Local Plan and will provide representations as and when appropriate in the drafting and consultation stages.</p> <p>I trust this clearly explains our position in relation to this consultation. However, should you have any questions please do not hesitate to contact me.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<p>Regulation 12 of The Environmental Assessment of Plans and Programmes Regulations 2004 states:</p> <p>“(1) Where an environmental assessment is required by any provision of Part 2 of these Regulations, the responsible authority shall prepare, or secure the preparation of, an environmental report in accordance with paragraphs (2) and (3) of this regulation.</p> <p>(2) The report shall identify, describe and evaluate the likely significant effects on the environment of—</p> <p>(a) implementing the plan or programme; and</p> <p>(b) reasonable alternatives taking into account the objectives and the geographical scope of the plan or programme.”</p> <p>The SA/SEA Environmental Report states:</p> <p>“The Core Strategy had a focus on Newbury and Thatcham, with two strategic sites allocated in Newbury and smaller sites allocated across the rest of the district. This mix of strategic and smaller sites across the district worked well for the Core Strategy by providing flexibility and natural phasing of developments across the plan period. As a result a similar mix of sites is considered to be appropriate for the LPR with no other alternatives considered.”</p> <p>Regulation 12 requires the identification, description and evaluation of ‘reasonable alternatives’. If an approach worked well in the current plan period, it does not follow that it is the best approach for the following plan period – and it is certainly does not follow that there are no ‘reasonable alternatives’.</p> <p>It is incorrect for the SA/SEA to assert that the approach in the current Local Plan has ‘worked well’ by providing ‘natural phasing of developments across the plan period. This is certainly not the case for the Sandleford Strategic Site Allocation. Policy CS3 of the current Local Plan states:</p> <p>“Within the area identified at Sandleford Park, a sustainable and high quality mixed use development will be delivered in accordance with the following parameters:</p> <p>Phased delivery of up to 2,000 dwellings, of which at least 40% will be affordable and with an emphasis on family housing. At least half the housing is planned to be delivered by 2026;”</p> <p>However, as the SA/SEA explains (pages 35-37): “no work has started at the site at Sandleford, with outline planning permission for the eastern part of the site only granted (on appeal) in May 2022.” The site has been re-allocated “as a single site for up to 1500 dwellings”. “Reducing the number of dwellings on the site allowed for better consideration of the constraints on the site (Ancient woodland, drainage, landscape buffers etc.) and will allow for adequate and appropriate mitigation measures to be put in place.”</p> <p>The SA/SEA states (page 25, below the table):</p> <p>“Following the decision that the spatial strategy should focus on Thatcham, strategic site options were considered, based on the sites submitted through the February 2020 HELAA.”</p> <p>Therefore, ‘reasonable alternatives’ that are not around Thatcham were not considered. This decision was also based on the false premise that the town of Thatcham would have sufficient infrastructure to support this development, either at the time of the decision or as a result of the development. The lack of infrastructure in Thatcham is addressed by other representations of the Town Council.</p> <p>The Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) for Policy SP1 cannot be legally compliant, because it explicitly states that it has not complied with the requirement to identify, describe and evaluate reasonable alternatives to the proposed policy. The experience of delays in delivery of Sandleford Park in the current plan period (described in paragraphs 6.44 – 6.46 of the draft Local Plan, and the reduction in the number of dwellings from 2,000 to 1,500, suggest that the proposed policy for North East Thatcham is not even the best alternative.</p>
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area’s objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is	

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>As explain in Section 1 above, the draft Local Plan explicitly states that no alternatives have been considered. The evidence of the failure of the Sandlford Strategic Site Allocation to deliver the expected number of houses suggests that relying on two strategic sites (with a number of smaller sites) is not even the best approach.</p> <p>As the sustainability appraisal is not legally compliant, the Local Plan cannot be in accordance with Paragraph 32 of NPPF.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	<p>A new Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) needs to be undertaken, which considers all 'reasonable alternatives' to the decisions relating to strategic sites and proposed approach of Policy SP1.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>5. Independent Examination</p>	<p>Thatcham Town Council is the principal representative body of the community of Thatcham, which is the location of only new strategic site allocation in the draft Local Plan. The suitability of this site for development is reliant on having adequate infrastructure. However, the regeneration that was promised in the current Local Plan has not materialised, and would not be delivered through the policies in the draft Local Plan. The Town Council can provide local insight to the examination about Thatcham, and particularly on the substantial deficit of infrastructure in the locality. It would also be happy to elaborate on its other concerns about the current proposals for the North East Thatcham Strategic Site Allocation, as described in these representations.</p> <p>The Town Council anticipates that changes necessary to the draft Local Plan in relation to site allocations are greater than could be addressed through 'main modifications'. If, however, the Inspector is minded to consider recommending 'main modifications' to policy SP17 and related matters in other Policies, it would welcome the opportunity to provide its perspective on what modifications would be required.</p>

6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<p>Regulation 12 of The Environmental Assessment of Plans and Programmes Regulations 2004 states: “(1) Where an environmental assessment is required by any provision of Part 2 of these Regulations, the responsible authority shall prepare, or secure the preparation of, an environmental report in accordance with paragraphs (2) and (3) of this regulation. (2) The report shall identify, describe and evaluate the likely significant effects on the environment of— (a) implementing the plan or programme; and (b) reasonable alternatives taking into account the objectives and the geographical scope of the plan or programme.”</p> <p>The SA/SEA Environmental Report explicitly states that no alternatives have been considered to the approach in the current Local Plan of two strategic sites and smaller sites allocated across the rest of the district.</p> <p>This is not in accordance with Regulation 12, which requires the identification, description and evaluation of ‘reasonable alternatives’. The Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) for Policy SP1 therefore cannot be legally compliant.</p>
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area’s objectively assessed need and is informed by agreements with other authorities, so that	

<p>unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	As the sustainability appraisal is not legally compliant, the Local Plan cannot be in accordance with Paragraph 32 of NPPF.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	A new Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) needs to be undertaken, which considers all 'reasonable alternatives' to the decisions relating to strategic sites and proposed approach of Policy SP1.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	Yes

<p>Please give reasons for your answer</p>	<p>Policy SP1 (Spatial Strategy) – Thakeham supports the Council's approach to the AONB and agrees that any development in this area needs to be sensitively designed to respect its special landscape qualities.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	N/A
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No

<p>Please give reasons for your answer</p>	<p>The Sustainability Appraisal should be based on evidence, rather than speculation or supposition.</p> <p>Table 30 compares the SA/SEA a development of 2,500 homes (i.e. the proposal for the Regulation 18 consultation) and for 1,500 homes (i.e. the proposal for the Regulation 19 consultation) for North East Thatcham. It should therefore be based on the SP17 Policy for this development in the Emerging Draft Local Plan for the Regulation 18 consultation and the Draft Local Plan for the Regulation 18 consultation.</p> <p>The table below compares the text of Table 30 with the corresponding parts of Policy SP17 in those two consultations.</p> <p>With the exception of secondary education, the version of Policy SP17 for 1,500 homes (i.e. Regulation 19) gives a greater positive impact and confidence in that impact than the version of Policy SP17 for 2,500 homes (i.e. Regulation 18).</p> <p>Nothing can be meaningfully inferred regarding provision of secondary education:</p> <ul style="list-style-type: none"> • The figure of 8FE appears to have been copied from the Thatcham Strategic Growth Study, where it is given very tentatively as a need resulting from other unspecified developments in the Newbury/Thatcham area. • The figure of 2.5FE is below the minimum viable size for a secondary school, so is undeliverable. <p>Thatcham Town Council has provided detailed representations on many aspects of Policy SP17, including primary healthcare, secondary education and the provision of social infrastructure in the town.</p> <p><i>See attached document for Thatcham Town Council comments on SA/SEA < PS1862&PS1864 Thatcham Town Council_SA SEA Comparison Table></i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	A review of Table 30 should be part of a wider review of the Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) in relation to North East Thatcham.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
<p>5. Independent Examination</p>	<p>Thatcham Town Council is the principal representative body of the community of Thatcham, which is the location of only new strategic site allocation in the draft Local Plan. The suitability of this site for development is reliant on having adequate infrastructure. However, the regeneration that was promised in the current Local Plan has not materialised, and would not be delivered through the policies in the draft Local Plan. The Town Council can provide local insight to the examination about Thatcham, and particularly on the substantial deficit of infrastructure in the locality. It would also be happy to elaborate on its other concerns about the current proposals for the North East Thatcham Strategic Site Allocation, as described in these representations.</p> <p>The Town Council anticipates that changes necessary to the draft Local Plan in relation to site allocations are greater than could be addressed through 'main modifications'. If, however, the Inspector is minded to consider recommending 'main modifications' to policy SP17 and related matters in other Policies, it would welcome the opportunity to provide its perspective on what modifications would be required.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the</p>	Yes

Inspector appointed to carry out the examination * Yes * No

<p>Please give reasons for your answer</p>	<p>Policy SP1 'Spatial Strategy' sets out three spatial areas within the district where development will be focussed. Newbury is identified as a focus for housing development, recognising its 'key role as the administrative centre and major town centre for the District.' The principle of this approach is supported, given it provides the greatest opportunities of delivering sustainable development.</p>

Please give reasons for your answer	<p>We concur with the need to maximise the use of brownfield sites and believe that they should be a priority for developments. We note that the development at the old Sterling Cables site is an exemplar of brownfield development.</p> <p>We very much support the statement 'The villages in the surrounding area [of Newbury and Thatcham] will retain their existing role and</p>

	separate identity, with settlement boundaries and Policies SP8, DM1 and DM2 ensuring that physical separation is maintained’.

<p>Please give reasons for your answer</p>	<p>We support the "town centre first" strategy and the sequential approach within it.</p> <p>We note that within Newbury Town Centre, there is a minimum density requirement of 70 dwellings per hectare for flatted developments. We support a minimum density approach however note that the potential for higher densities should be acknowledged, as set out at paragraph 25 of the NPPF, and request that the policy wording is amended as follows (in bold):</p> <p><i>Within Newbury, Thatcham, Tilehurst, Purley on Thames, and Calcot, developments are expected to secure a net density of at least 35 dwellings per hectare with densities of at least 70 dwellings per hectare in town centres and for flatted developments, with the potential for significantly higher densities along main transport routes and close to transport nodes.</i></p> <p>We note that the recent developments in Newbury town centre have consistently achieved densities higher than 100 dwellings per hectare, with Sterling Cables and the Bayer Office development achieving densities at circa 150 dwellings per hectare, and higher.</p>

<p>Please give reasons for your answer</p>	<p>Our representations are prepared in relation to the strategic promotion of land known as North East Thattham ("NET") on behalf of "the Partnership" which comprises A2Dominion, Catesby Estates, Donnington New Homes and Ptarmigan Land who are jointly promoting the land ("the site") on behalf of its landowners. The Partnership has signed a collaboration agreement to ensure that the site at NET comes forward as a whole, thereby avoiding piecemeal development. The agreement should give the Council confidence that a comprehensive approach will be delivered and the Partnership remains fully committed to progress a planning application as soon as the site's allocation within the Local Plan is secured.</p> <p>We support Policy SP1's vision and objectives which includes a strategy over the plan period to "optimise the density of development to make the best use of land whilst conserving and enhancing the distinctive character and identity of the built, historic and natural environment." This is in line with the objectives for delivery of the strategic site allocation identified at North East Thattham (NET) (Policy SP17) where both the Partnership's own studies and the Council's background evidence have undertaken work to explore and demonstrate how the site at NET can best deliver the growth which Thattham needs. The evidence indicates the site could accommodate development of up to 2,500 homes with a number of infrastructure improvements such as local centres, education, healthcare, sports provision and open space.</p> <p>We also support the Spatial Strategy's development approach which is based on three spatial areas. This identifies Newbury and Thattham as one of the spatial areas, and notes that development will be required to follow the district-wide settlement hierarchy set out in Policy SP3. The thrust of the strategy aims to promote sustainable communities taking account of the function and sustainability of settlements across the District and Policy SP3 identifies Thattham as an 'urban area' - the urban areas being the prime focus for housing and economic development. Development potential is to be offered through a number of means but importantly includes "b. Strategic and non-strategic sites allocated for housing and economic development through other policies in the LPR or neighbourhood plans" within this. As stated above, the site at NET is included with the LPR as one of these strategic sites.</p> <p>We support the recognition that, "Density on individual sites will vary according to their location and context, size of developable area and site specific issues such as shape and access." We consider these are important determining factors to ensure that the right amount and type of development is brought forward and will usually be determined by further detailed technical work on sites being assessed through the detailed design stages.</p> <p>We note that Allocations will be related to the role and function of settlements and the development opportunities identified through the HELAA and support this as a sustainable and viable approach to identifying suitable sites coming forward through the LPR.</p> <p>We support the policy intention that states, "Thattham will be a focus for regeneration, for new housing and for improved provision of services and facilities" and the identification of NET as "A new urban extension to the north east of the town" which "will provide a new residential neighbourhood with supporting</p>

	facilities and green infrastructure in accordance with Policy SP17." NET has been identified as the most appropriate site to deliver the strategic growth which Thatcham needs and is the only site which has been identified as suitable for delivering this through the LPR and its background evidence. In particular the Vision 2050 for West Berkshire clearly supports the idea of north of Thatcham as being the only direction of growth for the settlement in the long term.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant?	Yes

* Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Lambourn Trainers' Association ('LTA'). LTA represents licensed racehorse trainers in Lambourn, one of the key stakeholders of the success of the Horse Racing Industry (HRI) in Lambourn (known as the Valley of the Racehorse), along with others including Jockey Club Estates (JCE), the owner and operator of Lambourn Training Grounds.</p> <p>The HRI cluster in and around Lambourn is identified on a plan titled Lambourn Horseracing Industry Cluster at Appendix 1 [see attachment]. The success of the HRI is vital to protecting Lambourn's racing heritage dating back to the 18th Century and making a substantial contribution to the economic, cultural and environmental well-being of the area. LTA also recognises that the HRI cluster in Lambourn is located in the North Wessex Downs AONB, where development proposals would need to be considered sensitively, and that the HRI makes a contribution to the character of the AONB.</p> <p>In this context, LTA wishes to ensure that the new Local Plan contains appropriate and clear policies to protect the HRI in Lambourn and to support its future success while recognising its location being within the AONB. Further, a Neighbourhood Plan for Lambourn is being prepared by Lambourn Parish Council, which is understood to include policies for the HRI. While LTA is broadly supportive of the draft Local Plan, it is considered that further amendments are necessary to ensure the effectiveness and the soundness of the Plan, taking into account evidence for the HRI in the area, and a Neighbourhood Plan being prepared for Lambourn.</p> <p>The consultation document recognises that Lambourn serves as the heart of one of the most important areas for horseracing in the country and there is evidence of the HRI's significant contribution to the rural economy as set out above. The Council's support for the retention and growth of the HRI in Lambourn should be identified as part of the Plan's spatial strategy. There is no strategic link to Policy DM37 which specifically addresses the equestrian and horseracing industry.</p> <p>Notwithstanding the strategic importance of the HRI in Lambourn, the draft Policies Map does not identify the location. We note that Newbury Racecourse is identified on the Policies Map. Similarly, Lambourn's</p>

	<p>horseracing industry cluster should be identified on the plan, as a broad location as a minimum, for clarity and effectiveness of the policies. The National Planning Policy Framework (2021) ('NPPF') states that broad locations for development should be indicated on a key diagram, and land use designations and allocations identified on a policies map (paragraph 23). Given the strategic importance of Lambourn's horseracing cluster where its growth is supported, it should be identified on the Policies Map.</p> <p>We therefore object to Policy SP1 and consider that following is added to North Wessex Downs AONB spatial area section:</p> <p><i>"The horseracing industry is particularly important to the rural economy, with the Lambourn area being a nationally important location and making a significant economic contribution. The broad area of Lambourn's horseracing industry cluster is identified on the policies map. The HRI in Lambourn will be safeguarded and its expansion supported, as set out in Policy DM37."</i></p> <p>(see attachment)</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>North Wessex Downs AONB</p> <p>The North Wessex Downs AONB will have appropriate and sustainable growth that conserves and enhances its special landscape qualities as set out in Policy SP2.</p> <p><i>The horseracing industry is particularly important to the rural economy, with the Lambourn area being a nationally important location and making a significant economic contribution. The broad area of Lambourn's horseracing industry cluster is identified on the policies map. The HRI in Lambourn will be safeguarded and its expansion is supported, as set out in Policy DM37."</i></p> <p>The Policies Map should identify the horseracing industry cluster in Lambourn.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	EXECUTIVE SUMMARY Boyer has been appointed by Sovereign Housing Association ('Sovereign'), to act on their behalf in respect of the ongoing promotion of the Land adjoining The Haven, Kintbury, for residential development. Boyer have prepared these representations on behalf of Sovereign, in response to the 'Regulation 19' consultation relating to the Proposed Submission West Berkshire Local Plan Review (2022 – 2039).

The purpose of these representations is to assist the Council in formulating and refining an approach that is both consistent with national planning policy and the tests of soundness. To this end, general support is provided to the spatial strategy set out in the West Berkshire Local Plan Review (2022 – 2039), to the Council's conduct of the plan-making process in relation to the Duty-to-Cooperate, and specifically for the allocation of Land Adjoining The Haven, Kintbury, for residential development.

The Proposed Submission West Berkshire Local Plan (2022 – 2039) ('emerging local plan') proposes to allocate a series of sites to, as a minimum, meet the identified housing needs within the district. Despite the constrained nature of the district, the plan identifies a robust selection of sites that are capable of delivering residential development appropriate to accommodate sustainable growth to meet the minimum local housing need of the area.

Sovereign supports this approach, recognising that the Council's commitment to accommodate the identified minimum Local Housing Need ('LHN') figure within the district is paramount.

The Council's identification of sufficient developable land to deliver approximately 5% additional homes above the minimum identified need is also supported. Sovereign considers that this 5% 'headroom' provides for a flexible and robust quantum of housing supply to fully ensure that the identified housing needs of the district are met.

Furthermore, the identified headroom in the housing supply could usefully accommodate a proportion of the unmet need that is likely to arise from Reading, as part of the Western Berkshire Housing Market Area ('HMA'). Sovereign supports the Council in seeking to accommodate a reasonable proportion of this unmet need and recommends that the Council seek to maximise the delivery of new homes on the proposed site allocations to assist in delivering this aim. Such an approach would support housing delivery in the wider region in accordance with the Government's commitment to significantly boost the supply of housing, ensuring minimum housing needs are met.

In seeking to deliver the amount of new homes required in the district, the Council have identified an appropriate spatial strategy. The emerging local plan recognises that there is limited further growth potential at the district's most sustainable settlements; namely, Newbury and Thatcham, alongside the Eastern Urban Area, whilst maximising the available land within the relevant site allocations. Sovereign supports the Council's identification of a spatial strategy which directs development to available land within the next most sustainable locations as appropriate, in accordance with the settlement hierarchy.

The otherwise relatively unconstrained nature of the North Wessex Downs Area of Outstanding Natural Beauty ('AONB'), in combination with the presence of a series of sustainable medium and smaller-sized Service Villages, provides that the North Wessex Downs AONB Spatial Area (as identified in proposed Policy SP1) remains appropriate to accommodate a reasonable proportion of the district's identified housing needs.

To maintain the longer-term vitality of the district's Service Villages, such as Kintbury, it is imperative that the Council supports the sustainable growth of these areas, supporting the viability of local services and amenities, alongside delivering much-needed affordable housing in rural areas. To this end, Sovereign supports the identification of specific site allocations within these villages, which provide opportunities for modest sustainable growth whilst conserving and enhancing the special landscape qualities of the AONB.

Sovereign therefore supports the identification of Land Adjoining The Haven, Kintbury ('the site') as being suitable for allocation within the emerging local plan, through proposed Policies SP15: 'Sites allocated for residential development in North Wessex Downs AONB' and RSA23: 'Land adjoining The Haven, Kintbury'. Kintbury comprises a relatively unconstrained settlement that can accommodate sustainable growth during the plan period. The site is well-positioned to make a reasonable contribution to meeting the district's development needs.

The site is in a sustainable location, within practical walking and cycling distance of the range of services and facilities provided in the village, benefitting from good access to nearby main settlements including Newbury (by bus and rail), Reading, and London Paddington (by rail). There are not considered to be any significant constraints to the development of the site, which could provide at the very least a minimum of 20 high-quality new homes.

Sovereign is able to confirm that the site is available for development now, offers a suitable location for residential development, and is achievable with a realistic prospect that housing can be delivered on-site within the first five years of the proposed plan period. Consequently, the site should be considered favourably in relation to planning practice guidance and its proposed allocation within the emerging West Berkshire Local Plan is supported.

Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant and is capable of being found Sound following independent Examination. Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.

INTRODUCTION

Context

Boyer has been appointed by Sovereign Housing Association ('Sovereign'), to act on their behalf in respect of the ongoing promotion of the Land adjoining The Haven, Kintbury, for residential development. The Site Location Plan is provided at Appendix 1: Site Location Plan.

Sovereign holds a specific land interest within West Berkshire, known as Land adjoining The Haven, Kintbury ('the site'). These representations are aligned with this land interest and address topics within the West Berkshire Local Plan Review consultation, and its supporting evidence base, accordingly.

The site has been assessed by West Berkshire District Council ('the Council') within the district's Housing and Economic Land Availability Assessment ('HELAA') (2023), under Site Reference: KIN6. Furthermore, the site is proposed for allocation within the Local Plan Review document, to accommodate residential

development, under proposed Policies SP15: 'Sites allocated for residential development in North Wessex Downs AONB' and RSA23: 'Land adjoining The Haven, Kintbury'.

The purpose of these representations is to assist the Council in formulating and refining an approach that is both consistent with national planning policy and the tests of soundness, as set out at paragraph 35 of the NPPF; namely, whether the emerging West Berkshire Local Plan (2022 – 2039) is:

- a) Positively prepared – providing a strategy which as a minimum seeks to meet the area's objectively assessed needs.
- b) Justified – provides an appropriate strategy, taking into account reasonable alternatives and based on proportionate evidence.
- c) Effective – deliverable over the plan period and based on effective joint working.
- d) Consistent with national policy – enabling the delivery of sustainable development.

At this stage of the plan-making process, it is essential that West Berkshire District Council ('the Council') continues to pursue an approach that is consistent with national policy, effective, justified, and positively prepared. These representations comprise our recommendations to assist the Council in achieving such an approach, as emerging plan progresses toward adoption.

These representations build upon and should be considered in conjunction with the previous representations submitted by Sovereign to the 'Regulation 18' consultation on the West Berkshire Local Plan Review 2020 – 2037: Emerging Draft (December 2020), which ran from 11 December 2020 to 5 February 2021.

Policy Context

The Council adopted the Core Strategy Development Plan Document (2006 - 2026) in July 2012. Five years later, the Council then adopted the Housing Site Allocations Development Plan Document in May 2017, to implement the spatial framework set out within the Core Strategy. The adopted Development Plan for the district therefore sets out the spatial strategy to meet development needs up to 2026 and provides a series of site allocations and planning policies that seek to deliver that strategy.

To ensure that planning policies remain relevant and are able to effectively meet the needs of the local community, the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended) requires local planning authorities to review local plans at least once every 5 years from their adoption date.

The Proposed Submission West Berkshire Local Plan Review (2022 – 2039), which is the subject of the 'Regulation 19' consultation, reflects the distilled outcome of that review process. The draft plan sets out an updated vision and strategy, alongside an updated series of site allocations and policies that would supersede the adopted Core Strategy upon its adoption, which is anticipated in 2024.

Sovereign **supports** the Council's commitment to review the existing development plan through this process.

THE SPATIAL DISTRIBUTION OF HOUSING

The NPPF (2021) requires, at paragraph 20, that strategic policies should set out an overall strategy for the pattern, scale, and design quality of places, making sufficient provision for housing and other development needs. Sovereign welcomes the Councils' consideration of alternative options [*Footnote: available online at: <https://www.westberks.gov.uk/lpr-proposed-submission-consultation>.*] to develop an appropriate spatial strategy for West Berkshire up to 2039, as detailed within the Sustainability Appraisal.

The identified alternative spatial strategy options for the district each seek to direct development toward the most sustainable settlement locations within West Berkshire. Sovereign **supports** the Council's commitment to maximising development at the most sustainable locations in the district.

However, notwithstanding the direction of development toward the most sustainable settlements within the district, each reasonable alternative spatial strategy option ultimately relies upon the allocation of land within all three Spatial Areas, including the North Wessex Downs AONB, to meet the overall housing needs for the district.

As noted within Housing Background Topic Paper (2023) [Footnote 13: Available online at: <https://www.westberks.gov.uk/lpr-proposed-submission-consultation>], the North Wessex Downs AONB Spatial Area covers 74% of West Berkshire. Given the various constraints associated with the Newbury and Thatcham Spatial Area (including environmental, flooding, and heritage constraints), and with the Eastern Area Spatial Area (including flooding constraints and the Detailed Emergency Planning Zone), it is not considered to be reasonably practicable or sensible to accommodate the district's entire housing need in these areas.

Despite the constraints in these two Spatial Areas, 92% of the residential allocations within the emerging local plan are located in the Newbury and Thatcham and Eastern Area Spatial Areas.

Sovereign **supports** the Council's proposed spatial strategy to the extent that development has clearly and appropriately directed toward the most sustainable locations within the district.

Despite the constraints in these two Spatial Areas, 92% of the residential allocations within the emerging local plan are located in the Newbury and Thatcham and Eastern Area Spatial Areas.

Sovereign **supports** the Council's proposed spatial strategy to the extent that development has clearly and appropriately directed toward the most sustainable locations within the district.

Supporting the Vitality and Viability of Rural Villages

However, it remains pertinent for an appropriate amount of development to be located within the North Wessex Downs AONB Spatial Area; given, in particular, the identified need for market and affordable housing to support the viability of the area's various Rural Service Villages and Service Villages, including Kintbury.

In accordance with the discussion set out previously, in Section 3 of these representations, Sovereign recommend that any appropriate spatial strategy for West Berkshire must include the allocation of land to provide sustainable development at different levels across the current settlement hierarchy and within the different Spatial Areas.

Such an approach would align with the general principle of the district's existing spatial strategy, which would support the sustainable growth of the larger settlements, whilst providing sufficient growth for the abundance of medium and smaller-sized villages in the district to support their sustainable growth.

This strategy would also accord with paragraph 78 of the NPPF, which states: "*Planning policies should identify opportunities for villages to grow and thrive, especially where this will support local services. Where there are groups of smaller settlements, development in one village may support services in a village nearby.*"

Reductions in average household sizes, alongside low housebuilding rates, present a challenge for rural communities. Without an appropriate uplift in the level of development in these locations, there is a risk that local services in such areas would become unviable, undermining the vitality and sustainability of the district's rural villages.

In addition to helping maintain the vitality of the district's villages, medium and smaller-scale development in appropriate locations will assist with the district's housing delivery, both in the short-term and over the life of the plan period.

Paragraph 68 of the NPPF states that local planning authorities should promote a good mix of sites, with small and medium sites often able to be built out relatively quickly. This is supported in research conducted by Lichfields [Footnote: Available online at: <https://lichfields.uk/content/insights/start-to-finish>] which reports that schemes of 500 dwellings or more take on average between 5 to 8.4 years from the validation of an application for outline planning permission to the delivery of the first new home. The consequence being larger sites, such as the proposed strategic allocations, typically only substantively contribute to new housing delivery later on in the plan's lifespan.

As such, Sovereign **supports** the Council's commitment to allocate sufficient small and medium sized sites to maintain housing delivery throughout the plan period. Furthermore, Sovereign encourages the Council to seek to secure efficient delivery of new homes from any future proposed site allocations, i.e., maximising development potential whilst ensuring appropriate local character and context are respected. This would be particularly important for the smaller and medium-sized sites, which would help to ensure the district meets its housing needs in the shorter-term.

Development in the North Wessex Downs AONB Spatial Area

In seeking to identify sufficient development sites to meet the district's local housing needs, the Council has sought to accommodate a modest amount of new homes (approximately 8% of the overall need) within the North Wessex Downs AONB.

The NPPF, at paragraph 174, sets out that "*Planning policies and decisions should contribute to and enhance the natural and local environment by: [inter alia] protecting and enhancing valued landscapes*" such as the country's Areas of Outstanding Natural Beauty. Furthermore, the NPPF clarifies, at paragraph 176, that "*Great weight should be given to conserving and enhancing landscape and scenic beauty in [...] Areas of Outstanding Natural Beauty*".

Given the significant housing need within the district, as set out in the previous discussion, there is clearly a need to accommodate a modest amount of residential development within the North Wessex Downs AONB Spatial Area. Sovereign **supports** the Council's proposed spatial strategy, in which a modest amount of new homes are proposed to support local communities within the area.

Furthermore, in determining appropriate locations to accommodate residential development within the North Wessex Downs AONB Spatial Area, Sovereign considers that the Council has clearly had due regard to the conservation and enhancement of the landscape and scenic beauty of the AONB, in accordance with Paragraph 176 of the NPPF.

The Council assessed parcels of land within the North Wessex Downs AONB Spatial Area through the Landscape Character Assessment ('LCA') and Landscape Sensitivity Assessment ('LSA') processes, which informed the Council's assessment of the potential *suitability* of sites for residential development.

This assessment is set out within the Council's HELAA (2023). The Council concluded that, taking account of the LCA/LSA process, several parcels of land within the AONB could be appropriate to accommodate development, subject to various recommendations to maintain and enhance the landscape and scenic beauty of the AONB, as set out in Policies SP2, SP15, and, in relation to the Land adjoining The Haven, Kintbury, RSA23.

Consequently, the proposed site allocations represent locations where development can best be situated within the landform, or best relate to the existing built form, or are enclosed by substantive established native deciduous tree cover, of value in its own right. As such, Sovereign considers that the proposed allocations sufficiently ensure that the special qualities of the AONB, and the settlements that sit within it, can be appropriately conserved and enhanced.

With regard to Land adjoining The Haven, Kintbury, the LSA (2011)¹⁵ concluded that the site has '*no visual link to the wider landscape*' and that '*the site has a strong relationship with the settlement*'. As such, the LSA concludes that development on the whole site would be acceptable subject to:

- the retention of boundary hedgerows and trees and scattered trees within the southern section of the site,
- the replacement of the conifer hedgerow with more appropriate planting,
- views from the surrounding countryside, Public Right of Way and the neighbouring recreation field being carefully considered, and
- the provision of new planting to integrate the buildings into the landscape.

Sovereign is committed to bringing forward development on the site in accordance with the recommendations of the LSA set out above.

In summary, Sovereign supports the Council's proposed spatial strategy and site allocations, which direct development toward the most sustainable locations in the district whilst accommodating an appropriate level of development within the North Wessex Downs AONB. The approach successfully conserves and enhances the special qualities of the AONB.

CONCLUSION

The Proposed Submission West Berkshire Local Plan Review (2022 – 2039) sets out how West Berkshire District Council proposes to, as a minimum, meet identified development needs within the district area. The proposed spatial strategy seeks to direct development toward the most sustainable locations within the district, whilst recognising the vital role that modest growth provides to support medium and smaller-sized villages within the North Wessex Downs Area of Outstanding Natural Beauty.

Sovereign supports the Council's commitment to meeting housing needs in full and supports the Council's identification of a reasonable amount of headroom in the district's housing supply to ensure that local housing needs are met during the plan period.

However, Sovereign recommends that the Council seeks opportunities to maximise the development capacity of appropriate sites to ensure that the identified headroom is as robust as is reasonably practicable. Land adjoining The Haven, Kintbury, which is proposed to be allocated for the development of approximately 20 new homes under emerging Policy RSA23, presents such an opportunity. Sovereign considers that the approximate capacity allocated for the site could be higher, without detriment to the amenity of adjoining residents, with sufficient scrutiny to the design of the scheme and in considering greater benefits to the wider community. The provision of additional capacity could reflect the full potential of the proposed allocation and ensure the efficient use of development land within the district.

Furthermore, Sovereign supports the proposed spatial strategy, which includes a modest amount of residential development within the North Wessex Downs AONB Spatial Area. The approach maintains the existing spatial strategy within the district and would support housing delivery in the wider region in accordance with the Government's commitment to significantly boost the supply of housing. The proposed allocations have also been evidenced and justified through detailed analysis to ensure the high value of the AONB and any potential impacts are carefully considered.

Otherwise relatively unconstrained, the nature of the district's North Wessex Downs AONB Spatial Area, which includes the presence of a series of sustainable, small and mediumsized villages, provides that the area remains appropriate to accommodate a reasonable proportion of the district's identified housing need. Furthermore, to support the longer-term viability of these villages, it is critical that the Council supports opportunities to provide modest growth in appropriate locations.

To this end, Sovereign supports the proposed allocation of Land adjoining The Haven, Kintbury, for residential development under emerging Policies SP15 and RSA23. Kintbury comprises a relatively unconstrained settlement that could accommodate a reasonable level of growth during the proposed plan period. Land adjoining The Haven is well-positioned to make a reasonable contribution to meeting the district's development needs in this location.

The site is in a sustainable location, within practical walking and cycling distance of the range of services and facilities within Kintbury. Furthermore, the site benefits from good access to nearby main settlement areas via bus and rail links, including Newbury and Reading. There are no significant constraints to the development of the site for approximately 35 new homes which could not be resolved through detailed, sensitive design consideration.

Sovereign is able to confirm that the site is available for development now, represents a suitable location for development, and that development of the site is achievable with a realistic prospect that housing can be delivered within the first five years of the draft plan period. The site is deliverable and should continue to be favourably regarded in relation to allocation for residential development within the emerging West Berkshire Local Plan.

We look forward to continuing to work with West Berkshire District Council, Kintbury Parish Council, and the wider community to provide much-needed new housing in this rural community. We also look forward to exploring how the Land adjoining The Haven, Kintbury can contribute to the delivery of sustainable development and benefit the village, local infrastructure, and facilities.

We hope these representations are of assistance in taking the plan forward. Should you require any further clarification on the issues raised in our comments please contact me.

See attached document for a full response <Boyer obo Sovereign_full rep>

<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p><i>3. The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or</p>

	<p>would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities.</p> <p>Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.</p>
4. Proposed Changes	As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	<p>[See attached document for full accompanying statement - PSPconsulting obo Beftonforth Ltd REDACTED]</p> <p>Please refer to Section 3 and Section 4 of the accompanying statement prepared by PSP on behalf of Beftonforth Ltd – Ref PER109 Dated March 2023.</p> <p>SECTION 3 - POLICY REVIEW INCLUDING DRAFT POLICIES DM43 AND DM42</p> <p>National Planning Policy Framework (NPPF July 2021)</p> <p>The National Planning Policy Framework (NPPF) has a presumption in favour of sustainable development at its heart. Of particular relevance to the potential for growth in rail use at the Theale Railhead, Beftonforth have highlighted below particular elements of National Policy which support the Government’s intention to increase the use of rail freight to assist in achieving national decarbonisation targets and deliver net-zero.</p> <ul style="list-style-type: none"> • At NPPF paragraph 106(c), planning policies should: “identify and protect, where there is robust evidence, sites and routes which could be critical in developing infrastructure to widen transport choice and realise opportunities for large scale development;” • At NPPF paragraph 106(e) planning policies are also required to: “provide for any large scale transport facilities that need to be located in the area, and the infrastructure and wider development required to support their operation, expansion and contribution to the wider economy...” • Footnote 44 on page 31 confirms that: “Policies for large scale facilities should, where necessary, be developed through collaboration between strategic policy-making authorities and other relevant bodies. Examples of such facilities include ports, airports, interchanges for rail freight,” [our underlining]. • NPPF paragraph 83 is clear that in the context of building a strong, competitive economy: “Planning policies and decisions should recognise and address the specific locational requirement of different sectors. This includes making provision for clusters or networks of knowledge and data-driven, creative or high technology industries; and for storage and distribution operations at a variety of scales and in suitably accessible locations.” [our underlining]. • At NPPF paragraph 152 In the context of meeting the challenge of climate change, the planning system should help to: “shape places in ways that contribute to radical reductions in greenhouse gas emissions...”. • And NPPF paragraph 153 requires that: “Plans should take a proactive approach to mitigating and adapting to climate change...”. • Similarly, NPPF paragraph 154 confirms that new development should be planned in ways that: “can help reduce greenhouse gas emissions...”. <p>The consultation on the December 2022 proposed updates to the NPPF, which run to March 2023, do not propose any material change to the NPPF paragraphs quoted above.</p> <p>The Planning Practice Guidance (PPG) on Climate Change gives advice at paragraph 003 on “How the challenges of climate change can be addressed through the Local Plan”. The Guidance states that “there</p>

are many opportunities to integrate climate change mitigation and adaptation objectives into the Local Plan. Sustainability appraisal can be used to help shape appropriate strategies in line with the statutory duty on climate change and ambition in the Climate Change Act 2008.

Examples of mitigating climate change by reducing emissions:

- Reducing the need to travel and providing for sustainable transport;”

Draft Policies SP1 ‘Spatial Strategy’; SP5 ‘Responding to Climate Change; and SP23 ‘Transport’

Consistent with the above National Policy advice, Beftonforth consider that the following Draft Local Plan Policies should be amended as below:

- Draft Policy SP1 ‘Spatial Strategy’ should be extended to include opportunities to increase and expand the provision for the movement of freight by sustainable means.
- Draft Policy SP5 ‘Responding to Climate Change’ listed criteria should also include an item to demonstrate how opportunities to secure the sustainable movement of freight have been maximised and secured.
- Draft Policy SP23 ‘Transport’ should similarly include a requirement for development that generates a transport impact to demonstrate that all options to secure modal shift from road to more sustainable transport means have been explored.
- The Supporting Text to Draft Policy SP23 should include a new paragraph encouraging modal shift for the movement of freight from road to rail.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate?
 * Yes
 * No

Yes

Please give reasons for your answer

All as set out in detail in the Local Plan Review Documentation

4. Proposed Changes

Please refer to Section 4 of the accompanying statement prepared by PSP on behalf of Beftonforth Ltd – Ref PER109 Dated March 2023.

SECTION 4 - REQUIRED CHANGES TO MAKE THE PLAN SOUND

With reference to **Response Form Question 2**, in the absence of any wording in the Regulation 19 Submission Draft Local Plan expressly supporting the growth of the Theale Railhead, and with wider omissions with respect to the Spatial Strategy, Climate Change Policy and Transport Policies, the Submission Draft Local Plan is not considered to meet the tests of Soundness for the reasons identified above and summarised below:

The **Submission Draft Local Plan is not positively prepared** since it does not respond to identified need and it does not facilitate sustainable development in accordance with National and Regional Policy.

The **Submission Draft Local Plan is not justified** since it fails to deliver an appropriate strategy taking into account reasonable alternatives and based on proportionate evidence. The approach of not including either policy or supporting text to identify and support the growth of rail freight at Theale is not the most appropriate strategy when considered against the reasonable alternatives.

There is no clear audit trail as to why this approach has been adopted and changed from the adopted Development Plan and from earlier stages of the current Local Plan Review. The Sustainability Appraisal fails to consider the increased use of rail freight consistent with National and Local Policy, when the evidence points to the need to support the growth in rail freight provision. The Sound approach and reasonable alternative would be to provide supporting text which supports the growth of rail freight at Theale and to have this expressed within the Policy itself.

The **Submission Draft Local Plan is not Consistent with National Policy** in particular with regard to: promoting a sustainable pattern of development; meeting the challenge of climate change; supporting sustainable transport (including supporting modal shift of freight from road to rail, wherever possible, to reduce emissions from the freight sector); considering the specific locational requirements of different sectors in suitably accessible locations. The lack of consistency with National Policy is both in terms of site-specific considerations of the Theale Rail-Road Transfer Site under Policy DM43 and supporting text and more generally in respect of: Spatial Strategy Policy SP1, Climate Change Policy SP5, and Transport and Transport Infrastructure Policies SP23 and DM42.

Changes required to make the West Berkshire Regulation 19 Proposed Submission Draft Local Plan Sound

With reference to **Response Form Question 4** changes have been identified below which are considered necessary to make the Submission Draft Local Plan Sound. The changes are required to ensure that the Submission Draft Local Plan is positively prepared, justified, and consistent with National Policy.

To address the concerns raised in these representations with regard to Soundness, and specifically the failure of the Submission Draft Local Plan to appropriately identify and support modal shift in the context of the movement of freight, changes are sought below with respect to spatial strategy, climate change and transport policies. Additionally, in site specific terms, express support for growth of the Rail-Road Transfer Site at Theale is sought. The specific changes required to make the plan ‘Sound’ are shown below in red underline or strike through.

It is confirmed that the schedule of required changes set out below, has been jointly drafted and agreed between Network Rail, Beftonforth and the Englefield Estate.

	(a) Policy SP1, Spatial Strategy (Page 17, third para) “Demand for travel will be managed, and accessibility to sustainable transport opportunities increased through improving choice for transport modes. <u>Opportunities to increase and expand provision of the movement of freight by sustainable means will be supported.</u> Existing community infrastructure will be protected and where appropriate enhanced. Infrastructure requirements will be set out in the Infrastructure Delivery Plan (IDP)”
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	To explain in detail to the Inspector, the importance of the Local Plan Review including the opportunity for the growth of rail freight at the Theale Railhead.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Regarding the Spatial Strategy, a Strategic Environmental Assessment (SEA) has been carried out, as part of the Local Plan appraisal process to promote sustainable environmental considerations in the preparation of the local plan.

<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>We reviewed Policy SP1 and when taking into consideration the area constraints as listed in section 4.6, we consider it important for the protected areas or the Atomic Weapons Establishments (AWE) areas and how these will affect the development goals to be highlighted in this policy. It is important, especially as the north Wessex downs takes up a large part of the local authority area. Also the River Kennet Site of Special Scientific Interest (SSSI), the River Lambourn SSSI and Special Area of Conservation (SAC) is in this area. Therefore, details about how these sensitive areas will be protected and safeguarded from development pressures or completing development should be highlighted. For example, there are details of what will be appropriate for the North Wessex Downs AONB in Policy SP2, which is useful</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	<p>The Council (Under Section 33A of the Planning and Compulsory Purchase Act) in its Duty to Cooperate with other prescribed bodies/key agencies when preparing the LPR in order to address strategic planning issues relevant to their areas has engaged generally with the Environment Agency during the Plan making process.</p>
<p>4. Proposed Changes</p>	<p>Details about how these sensitive areas/protected areas or the Atomic Weapons Establishments (AWE) will be protected and safeguarded from development pressures or completing development should be highlighted in Policy SP1.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	Yes

5. Independent Examination	We wish to attend the examination for an opportunity to explain the need to state the need for protected areas or the Atomic Weapons Establishments (AWE) to protected and safeguarded from development pressures or completing development when taking into consideration the constraints in West Berks as listed in section 4.6.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is	No

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>Policy SP1 confirms the development approach will be based on the District's three spatial areas of Newbury and Thatcham, Eastern Area and North Wessex Downs AONB, where the focus of development will "follow the District-wide settlement hierarchy set out in Policy SP3 which takes account of the function and sustainability of settlements and promotes sustainable communities". We consider this to be an appropriate strategy, focusing new development in the most sustainable parts of the District, as confirmed by the policy's supporting text (paragraph 4.18).</p> <p>Paragraph 4.11 confirms that "The Newbury and Thatcham urban area is the main focus for development in the current Local Plan and will remain the focus in the LPR [Local Plan Review]". At the time of preparing the current Local Plan, this part of the District was considered to be the most sustainable spatial area to deliver the majority of new development. In light of this, the case for focusing new development in this spatial area is even greater now, given the level and range of existing facilities, services and infrastructure in the area, taking account of those also currently coming forwards.</p> <p>Policy SP1 identifies that the spatial strategy "will deliver a range of site sizes for residential development". This is supported and accords with national policy. Paragraph 68 of the NPPF outlines that "planning policies should identify a sufficient supply and mix of sites". Furthermore, paragraph 69 highlights that "small and medium sized sites can make an important contribution to meeting the housing requirement of an area, and are often built out relatively quickly", with local planning authorities being encouraged to promote the development of a good mix of sites. Adding to this, a mix of large, medium and smaller scale sites ensure housing needs can be met in different parts of the District.</p> <p>Policy SP1 introduces the proposed new urban extensions to the south of Newbury at Sandford Park and to the north east of Thatcham. Large sites such as these – whilst capable of delivering a significant quantum of new housing – are typically complicated and take time for housing to be delivered. The importance of small and medium sized sites should therefore not be underestimated and indeed in line with the framework, at least 10% of the housing requirement should come from small sites such as our clients site. Our recommendations in this regard are expressed later in these representations. <for full rep see attachment></p> <p>In relation to economic development, Policy SD1 seeks "employment development to meet the existing and future economic demands of businesses... to help promote sustainable patterns of development". This is supported and in line with national policy. Paragraph 20 of the NPPF sets out that "Strategic policies should set out an overall strategy for the pattern, scale and design quality of places and make sufficient provision for housing, employment, retail, leisure and other commercial development". Paragraph 80 of the NPPF identifies that "Planning policies should help create the conditions in which businesses can invest, expand and adapt. Significant weight should be placed on the need to support economic growth and productivity".</p> <p>(Attachment)</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	<p>Yes</p>
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>NPPF clearly states Brownfield sites to be brought forward for development prior to the release of greenfield sites Re-use of brownfield sites prior to release of greenfield land for redevelopment It is a requirement of all Local Authority's to seek the re-use of brownfield sites prior to the release of green field sites for residential development. This is particularly so when sites such as the former Newbury Leisure Park are redundant and available for development. Concluding remarks The NPPF states "local planning authorities, and other plan-making bodies, should take a proactive role in identifying and helping to bring forward land that may be suitable for meeting development needs" Priority should be given to brownfield sites before release of greenfield sites</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p>	<p>Yes</p>

* Yes * No	
5. Independent Examination	The use of brownfield sites prior to greenfield release should be a fundamental objective of the local plan which needs to be addressed. We would therefore wish to have a seat at the examination.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>This consultation response has been prepared by Fisher German on behalf of our clients Mr M Musgrave and Mr W Begley in respect of their land adjacent to Oxford Road, Chieveley, as illustrated in the attached.</p> <p>The land, which extend to circa 6.58ha, is located to the east of Chieveley. The site is defined by residential development and Graces Lane to the south, Oxford Road to the east, residential development and East Lane to the north and a field to the west. The site benefits from mature boundary planting and forms a logical infill location close to the centre of Chieveley.</p> <p>These representations follow the order of the policies within the Submission Plan, wherein we have not commented we have no specific comments at this stage. If you have any questions regarding these representations, please contact the author.</p> <p><i>Extract of response relevant to consultation point:</i></p> <p>We support the overarching aim of the policy which seeks to protect the special landscape area. However, we have fundamental issues with elements of the policy. In particular, the presumption that development within the AONB can be simply delivered elsewhere. There are a number of settlements within the AONB that should be allowed to grow sensibly and sustainably to support their long term interests. Whilst housing can be delivered elsewhere, clearly this does not provide the localised benefits, including the</p>

	<p>delivery of new market and affordable housing, to enable young people and families to buy in these AONB areas. Failure to deliver new housing will serve to increase house prices and drive away young people. The Council's own evidence (Updated Housing Needs Assessment May 2022) highlights a significant affordable housing need within the AONB, equating to 173 dwellings per annum. This provides significant justification for a sensible approach to housing delivery in the AONB.</p> <p>Failure to deliver new housing will also result in the ageing of the population, as younger people are forced to move out of the area, to the detriment of localised services and facilities and the aim of delivering balanced, healthy and distinct communities. Sites within the AONB should be looked at on their own individual merits, including overall contribution to the AONB. Sites which are of lower value should be viewed as acceptable, where they deliver significant localised community benefits, including new market and affordable housing.</p> <p><i>For full response please see attachment.</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>

Please give reasons for your answer	HPC does not feel competent to provide such detailed comments on proposals for other parishes; but we would like to express our support for the following overarching policies: <ul style="list-style-type: none"> • SP2 North Wessex Downs AONB. In particular we support the statement that "The strong sense of remoteness, tranquillity and dark night skies, particularly on the open downland, should be preserved." We respectfully suggest that it should be made clear that the preference for dark skies applies equally to villages in the AONB (insofar as compatible with safety) since street lighting spills over into adjacent countryside.

<p>Please give reasons for your answer</p>	<p>Herewith our response to the Local Plan 2022-2039:</p> <p>6. Policy SP2 - "If it is considered that exceptional circumstances exist and development would be in the public interest, all opportunities to conserve and enhance the special qualities of the AONB will be sought." – This statement needs revisiting as it excludes far too much of the district. A problem of this size needs the whole district to resolve the problem and these areas need to be included to spread the impact.</p>

Please give reasons for your answer	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP2 – NORTH WESSEX DOWNS - AREA OF OUTSTANDING NATURAL BEAUTY</p> <p>This AONB is not a Natural Area. It has important Geological features, but the Flora and Fauna on the Lands are very constrained by intensive Farming & Forestry. There is no Strategic Policy in respect of the Rural Economy and Agriculture</p> <p>Overall, having lived in many villages in the AONB, and more recently in Boxford for 3 years I do feel that the over reliance on a Planning Officer defining the Settlement Boundaries does rather stifle the Organic Growth of the villages. They are becoming Unaffordable and very affluent areas and every property is bought up for expansion. There are hardly any 2–3-bedroom Bungalows left for the ageing population. Electronically Gated properties are created, Dark skies are compromised with the desire for</p>

	<p>Street Lights, Bats are driven away to allow Developments to go ahead, and Pavements are now required for Safe Active Travel.</p> <p>Generally new residents do not have much empathy with Wildlife which is a reason for having Nature Recovery at the heart of our LPR Objectives. Rather than Barbour Wellies and Jackets the latest desirable 'Must Have' is a Mini-Digger, and bright Security Lighting that can be left on all night under the guise of Security.</p> <p>Again, within Chapter 7 - which should read Economic & Employment Growth there is no Policy for Agriculture, Forestry and there are no DM Policies under Chapt.12. Apart from DM36 - Farm Diversification which is rather specific.</p> <p>And the terminology in terms of Countryside vs. Rural vs. AONB definitions is not inherently clear within the Policies.</p> <p>I doubt we will ever again see Organic Growth back in our Rural settlements and as the Affluent are not really Bus users achieving sustainable Bus Networks for the AONB is highly unlikely.</p> <p>Maybe it is the way the Submission Document is structured however I am glad I am not reviewing it for Rural or AONB or Countryside Content as it would be better to have all relevant DM's grouped together.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	I have no reason to believe it is illegal, but I'm not a legal expert.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	Yes, although the sheer volume of text and ancillary documents does present a challenge to cooperation with the public.

4. Proposed Changes	In Policy SP 2 (North Wessex Downs AONB), as most of this area is agriculture and farmland, I'd like to see objectives mentioned that while protecting the AONB, also enable and encourage farmers to produce more to food for the local towns. If the local towns consumed more local produce this would reduce West Berkshire overall Carbon Footprint, and contribute towards more sustainable and robust local economies.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Policy SP2: North Wessex Downs AONB</p> <p>Darcliffe supports draft Policy SP2 insofar as it recognises that the North Wessex Downs Area of Outstanding Natural Beauty (AONB) will have appropriate and sustainable growth that conserves and enhances its special landscape qualities.</p> <p>However, to improve the effectiveness of the policy, it is recommended that the draft policy should explicitly set out that the principle of development is considered to be acceptable for the sites that are allocated within the North Wessex Downs AONB Spatial Area. This would avoid the subsequent need for each individual planning application to demonstrate that there are exceptional circumstances to make the development acceptable.</p> <p>The Local Plan has already established that there are indeed exceptional circumstances to support development within the North Wessex Downs AONB Spatial Area, which ensure that such modest growth is within the public interest to come forward. Acknowledging that the allocated sites are acceptable, in principle, in this regard will avoid potential complications and delays further along in the planning process.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>As such, the following criteria is recommended to be included:</p> <p>i) Sites within the North Wessex Downs AONB that are allocated for development within the West Berkshire Local Plan Review (2022 – 2039) are acceptable for development in principle and will be supported provided that they conserve and enhance the special landscape qualities of the AONB.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>

<p>Please give reasons for your answer</p>	<p>These representations have been prepared by Nexus Planning on behalf of Pangbourne Beaver Properties Ltd, in response to the West Berkshire Local Plan Review 2022-2039 – Regulation 19 consultation (“the Plan”).</p> <p>We support the spatial objective to deliver appropriate and sustainable growth in the North Wessex Downs Area of Outstanding Natural Beauty in a way that conserves and enhances its special landscape qualities.</p> <p>However, as set out further in our representations to Policies SP1, SP3 and specifically Policy SP15, the allocations made in the Local Plan fail to deliver appropriate and sustainable growth in this important area, making <u>no development allocations</u> at Pangbourne (a ‘Rural Service Centre’ which also benefits from a railway station), whilst making a series of allocations at settlements that are demonstrably less sustainable / lower down the Council’s own settlement hierarchy.</p> <p>As set out in detail in our representations to Policy SP15, the approach to housing provision in the North Wessex AONB spatial area is unjustified, inappropriate and unsound, and conflicts with the strategy for the district as set out in Policies SP1, SP2 and SP3.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>The approach to housing provision in the North Wessex AONB area should be fundamentally reviewed and specifically, Site PAN8 at Pangbourne should be allocated as part of this strategy - as the most sustainable location for development in this spatial area.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>5. Independent Examination</p>	<p>It is important for the Inspector to fully understand the existing flaws with the Plan with specific regard to Pangbourne. This can be best achieved by us presenting oral evidence to the Inspector.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable	Yes

<p>over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>On the scope of the Regulation 18 Consultation we commented that Policy SP2 represents an unnecessary duplication of paragraphs 176-177 of the National Planning Policy Framework (NPPF). We note that the wording of this Policy remains broadly the same as in the previous version of the Draft Local Plan. This is inconsistent with the Planning Practice Guidance, which states that all plans need to be as focused, concise, and accessible as possible [Paragraph: 002 Reference ID:61-002-20190315].</p> <p>As such, we consider that the policy should be revised to remove duplication and refer to the relevant sections of the national policy instead.</p> <p><u>Paragraphs 4.29 and 4.30</u></p> <p>We note that the supporting text to Policy SP2 (paras 4.29 and 4.30) sets out what constitutes ‘Major Development’ in the context of the AONB.</p> <p>Footnote 60 of the NPPF states that:</p> <p>“for the purposes of paragraphs 176 and 177, whether a proposal is ‘major development’ is a matter for the decision maker, taking into account its nature, scale and setting, and whether it could have a significant adverse impact on the purposes for which the area has been designated or defined”.</p> <p>National Policy is therefore clear that whether a development is ‘Major’ is a matter for the decision maker and, as such, is subjective and dependent on site-specific circumstances. In our view, the Draft Local Plan seeks to incorporate a prescriptive approach which contradicts the deliberate flexibility afforded by Footnote 60 (above). We fundamentally consider that this approach is inappropriate and unsound on the basis that it is inconsistent with National Policy.</p> <p>In addition to our ‘in principle’ objection, we also raise particular objection to the specific wording of items i), ii) and iv) under para 4.29 within the Draft Local Plan Review and make additional comments below.</p> <p>Points i) and ii) under para 4.29 advise that the starting point of assessment will be the definitions of ‘Major’ and ‘Minor’ development set under the Town and County Planning (Development Management Procedure) (England) Order 2015 (DMPO). Reference to the DMPO is erroneous and conflates two entirely separate definitions of ‘Major’.</p> <p>Footnote 60 does not make any reference to the definitions of major and minor development set out in the DMPO, but rather states that, for the purposes of this definition in the context of the AONB, the development’s nature, scale and setting are to be taken into account. If the DMPO was relevant to the decision maker’s judgement, national policy would state this. The fact it does not is a clear indication that the definitions are unrelated and should not be conflated.</p> <p>Point iv) under para 4.29 states that <i>the ‘determination as to whether a development is ‘Major’ will consider whether it has the potential to have a significant adverse impact alone or in combination with other development’.</i> We consider that this requirement is unsound and is inconsistent with National Policy. There is no reference in national policy to assessments of development within the AONB being undertaken considering an ‘in combination’ impact. Paras 176-177 and Footnote 60 are clear in reference to ‘the development’ as a singular. There is no reference to consideration in combination with other development. As such, we consider that this point is not consistent with national policy.</p> <p>Our position is supported by a relevant Legal Opinion (available here: Guidelines-on-Significance-for-SDNP-Planning-Applications—NPPF-Complaint-July-2014.pdf (southdowns.gov.uk)), where the Solicitor undertakes a review of caselaw, guidance and appeal decisions aiming to understand the reasoning for a development to be considered ‘Major’ in the context of the AONB.</p> <p>The Legal Opinion concludes that ‘the overarching principle is that the determination of whether a proposal amounts to ‘major development’ for the purposes of paragraph 116 of the NPPF (now paras 176-177) is a matter of planning judgment to be decided by the decision maker in light of all the circumstances of the application and the context of the application site’ (para 24).</p> <p>Furthermore, the Legal Opinion states that it would be wrong in law to apply the definition of ‘major development’, as well as any set or rigid criteria to defining major development (para 25). As a matter of planning judgement, the decision maker must consider the application in its local context (para 27).</p> <p>Although we do not object to the points vi) to xii) under para 4.30, we query whether these are an unnecessary duplication of national policy.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	N/A
4. Proposed Changes	In light of the above discussions, we recommend that para 4.29 of the Draft Local Plan is fully deleted to ensure consistency with National Policy. Furthermore, we consider that Policy SP2 should be revised to remove an unnecessary duplication of paragraphs 170-173 of the NPPF and refer to the relevant sections of the national policy instead.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes

<p>Please give reasons for your answer</p>	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	<p>Yes</p>
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	<p>Yes</p>
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	<p>Yes</p>
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>Chieveley Parish broadly supports Policy SP2 which recognises the importance of the AONB and the protection that it must be given in accordance with National Planning Policy and that planning permission should be refused for major development in the AONB except in exceptional circumstances.</p> <p>However, the presumption in the supporting text at 4.30 viii. Is not consistent with paragraph 177 of the NPPF which does not contain any presumption that just because something is proposed in the AONB, including housing, there must be a local need which should be met inside the AONB.</p> <p>See proposed changes below.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p><i>Policy SP2 supporting text.</i> 4.30 viii. <i>[Add Where under vi the need for development in the location proposed location is demonstrated.] the cost of, and scope for, meeting the need in some other way; [Delete ; on the assumption that it is a local need which should ideally not be met outside the AONB;]</i></p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes</p>	<p>Yes</p>

* No	
5. Independent Examination	We wish to ensure the reasons for these views on the transposition of national policy into the Local Plan are understood.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	The statement "planning permission will be refused for major development in the AONB except in exceptional circumstances, and where it can be demonstrated to be in the public interest" is too restrictive
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Restricting development to this extent would increase pressures for development elsewhere in the district. It would also allow villages to "wither on the vine" because their population would age and thus reduce the viability of services such as shops, pubs, primary schools and churches.</p> <p>Major developments SHOULD be allowed in the AONB where they do not have a significantly adverse effect on landscape character.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	No
<p>5. Independent Examination</p>

Please give reasons for your answer	Draft LPR Policies SP1 and SP2 propose to continue the Core Strategy approach of allowing 'appropriate and sustainable growth' in the AONB, with provision made for residential development across a mix of several large, small and medium sites predominantly in the west of the District (draft LPR Policy SP15). In light of the increasing housing needs in the District (explained further below) and the challenges of accommodating these needs, a greater allowance should be made for new development in sustainable areas in the east of the AONB close to the Eastern Area, including at Englefield and Bradfield Southend. A positive approach should be taken to considering development proposals which are commensurate in scale and extent in the AONB which reflects guidance set out in paragraphs 78 and 172 of the NPPF.

<p>Please give reasons for your answer</p>	<p>The spatial strategy for the North Wessex Downs AONB is set out in proposed Policy SP2 (North Wessex Downs AONB) and confirms that there will be appropriate and sustainable growth that conserves and enhances its special landscape qualities. The Housing Background Paper (January 2023) sets out at paragraph 5.7 that allocations within the AONB have been directed to the settlements within the settlement hierarchy.</p> <p>It is of note, however, that the LPR does not allocate any housing to Pangbourne and only very limited housing to both Hungerford and Lambourn (the two other larger settlements within the AONB).</p>

<p>Please give reasons for your answer</p>	<p>On the scope of the Regulation 18 Consultation we commented that Policy SP2 represents an unnecessary duplication of paragraphs 176-177 of the National Planning Policy Framework (NPPF). We note that the wording of this Policy remains broadly the same as in the previous version of the Draft Local Plan. This is inconsistent with the Planning Practice Guidance, which states that all plans need to be as focused, concise, and accessible as possible [Paragraph: 002 Reference ID: 61-002-20190315].</p> <p>As such, we consider that the policy should be revised to remove duplication and refer to the relevant sections of the national policy instead.</p> <p><u>Paragraphs 4.29 and 4.30</u></p> <p>We note that the supporting text to Policy SP2 (paras 4.29 and 4.30) sets out what constitutes 'Major Development' in the context of the AONB.</p> <p>Footnote 60 of the NPPF states that:</p> <p>"for the purposes of paragraphs 176 and 177, whether a proposal is 'major development' is a matter for the decision maker, taking into account its nature, scale and setting, and whether it could have a significant adverse impact on the purposes for which the area has been designated or defined".</p> <p>National Policy is therefore clear that whether a development is 'Major' is a matter for the decision maker and, as such, is subjective and dependent on site-specific circumstances. In our view, the Draft Local Plan seeks to incorporate a prescriptive approach which contradicts the deliberate flexibility afforded by Footnote 60 (above). We fundamentally consider that this approach is inappropriate and unsound on the basis that it is inconsistent with National Policy.</p> <p>In addition to our 'in principle' objection, we also raise particular objection to the specific wording of items i), ii) and iv) under para 4.29 within the Draft Local Plan Review and make additional comments below.</p> <p>Points i) and ii) under para 4.29 advise that the starting point of assessment will be the definitions of 'Major' and 'Minor' development set under the Town and County Planning (Development Management Procedure) (England) Order 2015 (DMPO). Reference to the DMPO is erroneous and conflates two entirely separate definitions of 'Major'.</p> <p>Footnote 60 does not make any reference to the definitions of major and minor development set out in the DMPO, but rather states that, for the purposes of this definition in the context of the AONB, the development's nature, scale and setting are to be taken into account. If the DMPO was relevant to the decision maker's judgement, national policy would state this. The fact it does not is a clear indication that the definitions are unrelated and should not be conflated.</p> <p>Point iv) under para 4.29 states that the 'determination as to whether a development is 'Major' will consider whether it has the potential to have a significant adverse impact alone or in combination with other development'. We consider that this requirement is unsound and is inconsistent with National Policy. There is no reference in national policy to assessments of development within the AONB being undertaken considering an 'in combination' impact. Paras 176-177 and Footnote 60 are clear in reference to 'the development' as a singular. There is no reference to consideration in combination with other development. As such, we consider that this point is not consistent with national policy.</p> <p>Our position is supported by a relevant Legal Opinion (available here: Guidelines-on-Significance-for-SDNP-Planning-Applications---NPPF-Complaint-July-2014.pdf (southdowns.gov.uk)), where the Solicitor undertakes a review of caselaw, guidance and appeal decisions aiming to understand the reasoning for a development to be considered 'Major' in the context of the AONB.</p> <p>The Legal Opinion concludes that 'the overarching principle is that the determination of whether a proposal amounts to 'major development' for the purposes of paragraph 116 of the NPPF (now paras 176-177) is a matter of planning judgment to be decided by the decision maker in light of all the circumstances of the application and the context of the application site' (para 24).</p>

	Furthermore, the Legal Opinion states that it would be wrong in law to apply the definition of 'major development', as well as any set or rigid criteria to defining major development (para 25). As a matter of planning judgement, the decision maker must consider the application in its local context (para 27). Although we do not object to the points vi) to xii) under para 4.30, we query whether these are an unnecessary duplication of national policy.

Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Policy SP2 (North Wessex Downs AONB) – The approach to development within the AONB is broadly supported, however a true assessment of a development site within the AONB cannot be undertaken without robust and up to date evidence; something that Thakeham considers is currently lacking, as highlighted. Moreover, in locations where there is a specific need to support a local industry, such as the village of Lambourn and the racing industry, the Reg 19 Local Plan must make sure that the right amount of development is coming forward to support this. The proposed Reg 19 Local Plan allocations total 65 homes, when added to the further 25 homes to come forward through the neighbourhood plan process, it would reveal a 3% increase on the number of households (3,750), according to 2011 Census data (2021 Census data on specific settlements currently unavailable). Thakeham suggests that given the delay to the delivery of the allocations to date and the fact that these are being carried forward into the Reg 19 Local Plan, the future needs of Lambourn and the thriving racing industry are being misrepresented.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p><u>Policy SP2</u></p> <p>On the scope of the Regulation 18 Consultation we commented that Policy SP2 represents an unnecessary duplication of paragraphs 176-177 of the National Planning Policy Framework (NPPF). We note that the wording of this Policy remains broadly the same as in the previous version of the Draft Local Plan. This is inconsistent with the Planning Practice Guidance, which states that all plans need to be as focused, concise, and accessible as possible [Paragraph: 002 Reference ID: 61-002-20190315].</p> <p>As such, we consider that the policy should be revised to remove duplication and refer to the relevant sections of the national policy instead.</p> <p><u>Paragraphs 4.29 and 4.30</u></p> <p>We note that the supporting text to Policy SP2 (paras 4.29 and 4.30) sets out what constitutes 'Major Development' in the context of the AONB.</p> <p>Footnote 60 of the NPPF states that:</p> <p>"for the purposes of paragraphs 176 and 177, whether a proposal is 'major development' is a matter for the decision maker, taking into account its nature, scale and setting, and whether it could have a significant adverse impact on the purposes for which the area has been designated or defined".</p> <p>National Policy is therefore clear that whether a development is 'Major' is a matter for the decision maker and, as such, is subjective and dependent on site-specific circumstances. In our view, the Draft Local Plan seeks to incorporate a prescriptive approach which contradicts the deliberate flexibility afforded by Footnote 60 (above). We fundamentally consider that this approach is inappropriate and unsound on the basis that it is inconsistent with National Policy.</p> <p>In addition to our 'in principle' objection, we also raise particular objection to the specific wording of items i), ii) and iv) under para 4.29 within the Draft Local Plan Review and make additional comments below.</p> <p>Points i) and ii) under para 4.29 advise that the starting point of assessment will be the definitions of 'Major' and 'Minor' development set under the Town and County Planning (Development Management Procedure) (England) Order 2015 (DMPO). Reference to the DMPO is erroneous and conflates two entirely separate definitions of 'Major'.</p> <p>Footnote 60 does not make any reference to the definitions of major and minor development set out in the DMPO, but rather states that, for the purposes of this definition in the context of the AONB, the development's nature, scale and setting are to be taken into account. If the DMPO was relevant to the decision maker's judgement, national policy would state this. The fact it does not is a clear indication that the definitions are unrelated and should not be conflated.</p>

	<p>Point iv) under para 4.29 states that the 'determination as to whether a development is 'Major' will consider whether it has the potential to have a significant adverse impact alone or in combination with other development'. We consider that this requirement is unsound and is inconsistent with National Policy. There is no reference in national policy to assessments of development within the AONB being undertaken considering an 'in combination' impact. Paras 176-177 and Footnote 60 are clear in reference to 'the development' as a singular. There is no reference to consideration in combination with other development. As such, we consider that this point is not consistent with national policy.</p> <p>Our position is supported by a relevant Legal Opinion (available here: Guidelines-on-Significance-for-SDNP-Planning-Applications---NPPF-Complaint-July-2014.pdf (southdowns.gov.uk)), where the Solicitor undertakes a review of caselaw, guidance and appeal decisions aiming to understand the reasoning for a development to be considered 'Major' in the context of the AONB.</p> <p>The Legal Opinion concludes that 'the overarching principle is that the determination of whether a proposal amounts to 'major development' for the purposes of paragraph 116 of the NPPF (now paras 176-177) is a matter of planning judgment to be decided by the decision maker in light of all the circumstances of the application and the context of the application site' (para 24).</p> <p>Furthermore, the Legal Opinion states that it would be wrong in law to apply the definition of 'major development', as well as any set or rigid criteria to defining major development (para 25). As a matter of planning judgement, the decision maker must consider the application in its local context (para 27).</p> <p>Although we do not object to the points vi) to xii) under para 4.30, we query whether these are an unnecessary duplication of national policy.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	<p>In light of the above discussions, we recommend that para 4.29 of the Draft Local Plan is fully deleted to ensure consistency with National Policy.</p> <p>Furthermore, we consider that Policy SP2 should be revised to remove an unnecessary duplication of paragraphs 170-173 of the NPPF and refer to the relevant sections of the national policy instead.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	

<p>Please give reasons for your answer</p>	<p>DEVELOPMENT MANAGEMENT POLICIES</p> <p>The comments set out in this section are intended to assist the Council in developing an approach that is consistent with national planning policies and the tests of soundness. Some comments have been included to assist the Council in developing a series of policies that are both effective and robust. Where possible, suggested amendments have been set out in the response.</p> <p>Sovereign broadly supports the West Berkshire Local Plan Review (2022 - 2039). However, the comments set out below are intended to identify opportunities to improve the effectiveness of the proposed policies.</p> <p>As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document substantially.</p> <p>Policy SP2: North Wessex Downs AONB</p> <p>Sovereign support draft Policy SP2 insofar as it recognises that the North Wessex Downs Area of Outstanding Natural Beauty (AONB) will have appropriate and sustainable growth that conserves and enhances its special landscape qualities.</p> <p>However, to improve the effectiveness of the policy, it is recommended that the draft policy should explicitly set out that the principle of development is considered to be acceptable for the sites that are allocated within the North Wessex Downs AONB Spatial Area. This would avoid the subsequent need for each individual planning application to demonstrate that there are exceptional circumstances to make the development acceptable.</p> <p>The Local Plan has already established that there are indeed exceptional circumstances to support development within the North Wessex Downs AONB Spatial Area, which ensure that such modest growth is within the public interest to come forward. Acknowledging that the allocated sites are acceptable, in principle, in this regard will avoid potential complications and delays further along in the planning process.</p> <p><i>See attached document for a full response <Boyer obo Sovereign_full rep></i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p><i>3. The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities.</p> <p>Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.</p>
<p>4. Proposed Changes</p>	<p>As such, the following criteria is recommended to be included:</p> <p>i) Sites within the North Wessex Downs AONB that are allocated for development within the West Berkshire Local Plan Review (2022 – 2039) are acceptable for development in principle and will be supported provided that they conserve and enhance the special landscape qualities of the AONB.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.</p>

<p>Please give reasons for your answer</p>	<p>This consultation response has been prepared by Fisher German on behalf of our clients Mr M Musgrave and Mr W Begley in respect of their land adjacent to Oxford Road, Chieveley, as illustrated in the attached.</p> <p>The land, which extend to circa 6.58ha, is located to the east of Chieveley. The site is defined by residential development and Graces Lane to the south, Oxford Road to the east, residential development and East Lane to the north and a field to the west. The site benefits from mature boundary planting and forms a logical infill location close to the centre of Chieveley.</p> <p>These representations follow the order of the policies within the Submission Plan, wherein we have not commented we have no specific comments at this stage. If you have any questions regarding these representations, please contact the author.</p> <p><i>Extract of response relevant to consultation point:</i></p> <p>The identification of Chieveley as one of the more sustainable settlements in West Berkshire is supported, as is its identification as a 'Service Village'. As demonstrated by the Council's published supporting Settlement Audit, Chieveley benefits from a high level of service provision, which serves both the settlement itself and wider rural hinterland, particularly the smaller hamlets to the north and west.</p> <p>Policy SP3 states that Service Villages "offer some limited and small-scale development potential, appropriate to the character and function of the village". Such development will be delivered to meet local needs through development within the settlement boundary and through new allocations. Whilst windfall infill development can be appropriate, it is vital to ensure that there is sufficient land allocated to deliver housing needs for a number of reasons. Firstly, the supply of infill land is likely to be highly constrained, particularly having regard for the level of such development to date. Suitable infill land is a highly finite resource, and it cannot be expected to continue to deliver at past rates, as suitable sites and opportunities to deliver such development will have diminished by now. Secondly, there is considered to be significant benefit in seeking to positively meet local housing needs through housing allocations, as piecemeal development will not contribute to the funding of infrastructure through developer contributions nor contribute to the delivery of much needed affordable housing. The positive allocation of land, combined with robust site-specific policies, will ensure the delivery of high-quality developments, the provision of funding for any infrastructure deficiencies and the provision of much needed affordable housing. Finally, such an approach can promote garden grabbing and other forms of development which can be harmful to settlement character.</p>

Please give reasons for your answer	<p>Herewith our response to the Local Plan 2022-2039:</p> <p>7. Policy SP3. There is a 57.3% increase in development proposed for Theale. We object to further development as it is not proportionate to the settlement.</p> <p>8. Policy SP3 – Rural Service Centres – Service Villages. Woolhampton and Cold Ash are included but these are not service villages. The Plan needs to state the impact new development will have on utilities, services, and villages. Theale schools do not have the capacity to have a higher intake, nor the doctors surgery. Theale is not a Rural Service Centre as it does not have key services so should be moved to the Service Village section as Theale does not meet the criteria for a Rural Service Centre.</p> <p>Sentence “These smaller rural settlements may offer some limited and small-scale development potential, appropriate to the character and function of the village, in order to meet local needs through” – we object and disagree to this sentence.</p> <p>9. 4.33. Theale does not meet this as there is insufficient infrastructure, services, and public transport.</p> <p>10. 4.34. Local services are already oversubscribed in Theale and could not cope with more demand. Theale has no leisure centre and no direct public transport to any leisure centre. Theale schools are either at capacity or very close to capacity so could not cope with an increase in demand. The GP surgery has no more capacity. We have little other facilities e.g. no dentist etc.</p>

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable	Yes

alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<i>Extract of full response relevant to this consultation point:</i> Policy SP3 sets out the Settlement Hierarchy as settlements listed as either Urban Areas, Rural Service Centres or Service Villages. The policy adds that development in smaller settlements, with settlement boundaries, but which are not listed in the hierarchy, will be delivered in accordance with Policy SP1- as above. However the approach outline in this policy is not reflective of the approach to development in relation to settlements as identified in the NPPF. <i>For full response see attachment.</i>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes

Please give reasons for your answer	<i>Extract of representation relevant to consultation point</i> We support the continued recognition of Theale as a Service Centre within the hierarchy set out within the Local Plan and support that Theale is seen as a focus for additional housing within the Eastern Area of the District. Whilst we do not object to its definition as a 'Rural Service Centre' (Policy SP3), as noted in the Regulation 18 consultation we consider that this could be appropriately simplified to 'Service Centre'. It is not accurate to describe Theale as a rural area, given its location on the edge of Reading and in very close proximity to the major roads network as well as large scale housing and employment areas. Rural Service Centres are described in the emerging local plan as having 'reasonable accessibility'. Theale's accessibility is higher than this and could justifiably be described as 'excellent'. It may therefore be more appropriate to separate Theale out from the other 'rural' service centres which are smaller scale and less accessible and put it in a separate category of 'service centre' or 'small town'.

Please give reasons for your answer	<p>The Council's current approach to 'smaller villages' with a defined settlement boundary seeks to severely restrict any housing growth, such as at Boxford. The Council's approach is flawed and will have serious implications for rural communities, contrary to the aims of national policy.</p> <p>The National Planning Policy Framework ('the Framework'), at paragraph 79, confirms that to promote sustainable development in rural areas, housing should be located where it will enhance or maintain the vitality of rural communities. Furthermore, it states that planning policies should identify opportunities for villages to grow and thrive, especially where this will support local services. For the reasons set out below, it is not considered that the Council's proposed Settlement Hierarchy, as set out at Policy SP3, allows for this.</p> <p>Policy SP3, as drafted, notes that, "Development in smaller settlements with settlement boundaries, and which are not included in the settlement hierarchy, will be delivered in accordance with Policy SP1.</p>

	<p>Development outside of these settlements, in other rural hamlets and in isolated groups of development will be restricted to that which is appropriate in a rural area as set out in Policy DM1.”</p> <p>The supporting text, at paragraph 4.37, expands by stating: <i>“Settlements outside of the settlement hierarchy will deliver additional development but this will be limited to infill or change of use within the settlement where a settlement boundary has been defined, and to rural exception schemes for affordable housing to meet local needs. Some limited development is important for the long-term sustainability of rural communities. Outside these settlements, in the countryside, a more restrictive approach to development will be taken as set out in other policies in the LPR.”</i></p> <p>Therefore, the Council’s current approach to ‘smaller villages’ with a defined settlement boundary seeks to severely restrict any housing growth, such as at Boxford.</p> <p>The Council’s approach is flawed and will have serious implications for rural communities, contrary to the aims of national policy. It does not support the vitality of rural communities since it fails to identify opportunities for these villages to grow and thrive. The effect of failing to permit any reasonable scale development in these villages is that house prices in these areas will likely rise to levels which create cost barriers for residents and workers. The lack of affordable housing provision will determine who can live in these rural villages contrary to the overarching aim of improving affordability as a key objective of the Plan. Indeed, the Housing Needs Assessment Update (dated, July 2022) prepared by Icení (on behalf of the Council) demonstrates that within the North Wessex Downs AONB area - which includes Boxford - that there is a significant affordable housing need of 152 affordable and social rented homes per annum, and a further 160 shared ownership homes. This equates to 46% of the overall need for affordable and social rented homes and 43% of the shared ownership need in the district.</p> <p>Furthermore, and what the Council have failed to consider, is that many people in fact desire living in rural locations in West Berkshire, and to provide new housing in such locations is to meet the strategic objective of providing a range of sites to meet the district’s housing needs and aspirations.</p> <p>The lack of housing growth within villages such as Boxford risks the decline of services and facilities, which inevitably leads to such places falling into a ‘sustainability trap’ and becoming dormant communities. Further, without any investment through development, there is potential to leave these villages without appropriate digital infrastructure which is vital to support modern life in rural communities moving forward.</p> <p>In the ‘smaller villages’ with defined settlement boundaries, the Council should seek to bring forward opportunities for growth to enhance their vitality and viability and to support the wider rural economy. Specifically, reasonable scale sites can provide a suitable housing mix and variety of tenures to meet local needs. Indeed, these sites may help attract and retain younger residents and provide housing for older residents to downsize and, as a result, potentially free up larger family housing in the village. Younger residents and larger households can generally put more money into the local economy through local shops, pubs and sporting facilities which in turn support older, less mobile residents by keeping facilities local and more accessible.</p> <p>Furthermore, reasonable scale development in the ‘smaller villages’ with a defined settlement boundary may be able to help rural communities deliver their aspirations for new local infrastructure either by providing a land resource or via S106/CIL contributions.</p> <p>Policy SP3 as currently worded may provide very limited small-scale housing growth in these villages. Indeed, there is likely to be little opportunity for any significant housing within the settlement boundary and no delivery of affordable housing.</p> <p>However, it is concluded that the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy, and noting that many available sites in the ‘smaller villages’ with a defined settlement boundary have been overlooked contrary to paragraph 79 of the Framework. In light of the Council’s identified housing shortfall and the need to support the vitality of rural communities, it is considered that those ‘smaller villages’ with a defined settlement boundary – such as Boxford – could help the Council meet any identified housing shortfall. Alternatively, the Plan could require ‘small villages’ with a defined settlement boundary to prepare Neighbourhood Plans to allocate sites to deliver reasonable scale growth to enhance their vitality and viability and that can help deliver the aspirations of the community.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>In light of the Council’s identified housing shortfall and the need to support the vitality of rural communities, it is considered that those ‘smaller villages’ with a defined settlement boundary – such as Boxford – could help the Council meet any identified housing shortfall. Alternatively, the Plan could require ‘small villages’ with a defined settlement boundary to prepare Neighbourhood Plans to allocate sites to deliver reasonable scale growth to enhance their vitality and viability and that can help deliver the aspirations of the community.</p>

Please give reasons for your answer	We are supportive of the settlement hierarchy identified within Policy SP3, particularly the identification of Thatcham as an urban area which is defined as 'The main urban areas with a wide range of services and opportunities for employment, community and education. Serving a large catchment area with good levels of accessibility and frequent public transport provided to a large number of destinations'.

Please give reasons for your answer	Under Policy SP3, we support the proposed settlement hierarchy. Future development should be focused in urban areas, especially Newbury. By adopting this approach, the Local Plan would be positively prepared and consistent with national policy, as it would make effective use of land (previously developed land).
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

<p>Please give reasons for your answer</p>	<p>Sandleford Park West (SPW)</p> <p>The principle of Newbury continuing to be a 'prime focus for new development' as set out in Policy SP3 – Settlement Hierarchy is also supported. Newbury and Thatcham continue to be the most sustainable locations for new development providing a range of services, together with linkages to higher order services in surrounding cities. New development, and the associated increase in population, will mean that existing services will continue to thrive and also support new ones, which, in turn, will mean both Newbury and Thatcham can continue to be the key economic and social hubs of the District. On the basis that Newbury is the most sustainable settlement in the District, clarification that the scale of new development in those areas will 'be expected to....' be proportionate to the level of services and facilities in the settlement is welcomed – Sandleford Park West is of a scale that has the ability to sustain existing, and support new services and facilities in and around Newbury.</p>

Please give reasons for your answer	Support. We welcome the re-incorporation of Lambourn as a "Rural Service Centre" (see also Paragraph 4.18) with the ability to meet local housing needs through the allocation of housing sites. Indeed Lambourn can fulfil Strategic Objective 2 to provide a range of housing and sites for housing.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No

Please give reasons for your answer	The Parish of Holybrook is not mentioned specifically in this policy. Does that mean it is not included in SP3 or is it grouped with Calcot? It is difficult to engender the sense of space in terms of reference within the document if it does not relate to the area in question. It also diminishes any credibility and reputation that the Parish has built since its formation in 2000 (Holybrook is made up of two suburbs of Reading: Beansheaf Farm and Fords Farm, together with part of the older suburb of Calcot that lies south of the

	A4 Bath Road and a section of Southcote). 'Calcot' falls into the two very different Parishes of Tilehurst and Holybrook and it is an oversight to ignore their individuality.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	The Parish Council previously raised concern that it is not mentioned in the policy but the policy has not been updated or the question addressed.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	

<p>Please give reasons for your answer</p>	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p><i>[For full response see attached document]</i></p> <p>Whilst we generally agree with the strategic approach to development in the District as outlined in the settlement hierarchy and Policy SP3, the circumstances in which development on windfalls sites is deemed to be acceptable in the rural service centres and service villages continue to be unduly restrict. 'Infill' sites and change of use within the settlement boundary are not typically of the scale that will require the delivery of affordable housing. Whilst the policy criteria refer to rural exception affordable housing schemes as acceptable development in these tier settlements, there is no certainty that such sites will be delivered. In our experience, landowners are much less willing to release their land for rural exception schemes given the typically lower land values.</p> <p>We consider a more successful approach to secure the delivery of affordable tenure homes within these settlements is through the provision of a market-led housing scheme with policy-compliant on site affordable housing deliver. The criteria of Policy CP3 as currently drafted will not facilitate the delivery of such schemes however. We therefore suggest a further criterion is added to the policy that permits the delivery of suitable sites on the edge of settlements (outside of the settlement boundary) but which accord with the settlement pattern, is commensurate in scale to the settlement and which will have limited adverse impacts on the character and appearance of the area. This is a positive, proactive and a more realistic approach to securing much needed affordable housing within the more rural settlements.</p> <p>It is also unclear what the Council's position on 'infill' development is as this is not clearly defined within Policy CP3. Many different LPAs have differing positions on the definition of 'infill' sites and 'infill' development. There is a description of what constitutes 'infill' development at Policy DMI which refers to residential development in the open countryside, but not in the context of sites within the settlement boundary or defined Rural Service Centres or Service Villages. For clarity, the term 'infill' should be defined within Policy CP3 so that applicants are clear which sites would meet this definition.</p>

<p>Please give reasons for your answer</p>	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP3 SETTLEMENT HIERARCHY</p> <p>It is what it is. Quite constrained for Rural Villages which is a great pity as it has now become almost only possible for the Affluent to live in our Rural Areas. The less Affluent are priced out, there is little supply and no Plans to deliver replacement Affordable or Social Housing and private Rental is very expensive.</p> <p>The overall approach just feels like there are influences at play other than logical apportionment of developments within Boundaries, and the conflicts between Settlement Boundaries, Ward Boundaries, Parish Boundaries, Landscape Character Appraisal Boundaries, Appropriate Countryside Designation Boundaries, Employment Boundaries need a thorough review especially for N& NE part of Newbury Clayhill Ward, Shaw-c-d, Speen, Cold Ash & Thatcham North East.</p>

<p>Please give reasons for your answer</p>	<p>Gleeson supports the settlement hierarchy set out under Policy SP3 which identifies Rural Service Centres such as Burghfield Common as offering development potential appropriate to the character and function of the settlement. As set out in the supporting text the services and facilities provided by Rural Service Centres such as Burghfield Common provide a focal point for the surrounding villages and rural areas, and are sustainable locations for new development.</p> <p>The Plan recognises that the newly defined Detailed Emergency Planning Zone (DEPZ) around AWE sites of Aldermaston and Burghfield could limit the development potential of those areas and specific regard should be given to Policies SP2 North Wessex Downs AONB and SP4 Atomic Weapons Establishment (AWE) Aldermaston and Atomic Weapons Establishment (AWE) Burghfield. Burghfield Common is not within the AONB but is now within the enlarged AWE Burghfield DEPZ.</p> <p>To summarise the above points, Gleeson Land supports the overall intentions of the Local Plan Review to deliver sustainable development for the district, the settlement hierarchy and the spatial strategy. However, it is considered that there should be a requirement for an earlier review of the Local Plan should any changes arise in the AWE Burghfield and AWE Aldermaston DEPZ's or the capabilities of the Emergency Planning Services that may change the acceptability of new residential development in areas currently covered by the DEPZ. In addition the housing target should be more clearly defined at the upper end of the given range. It should be clear throughout the whole Plan that the housing target is for 9,146 dwellings (538dpa), plus the 230 dwellings of unmet need from Reading Borough Council. This unmet need should be provided for in new site allocations now, rather than being left for a later review. Serious consideration should also be given to increasing the overall housing target further to support the delivery of more affordable homes given the very high need for such homes</p>

Please give reasons for your answer	<p>Our client has an agreement with the landowners of the site, known as ‘Land to the rear of The Hollies’ in the District, which currently forms part of an allocated site for approximately 60 dwellings under Policy HSA16 in the adopted Housing Site Allocations Development Plan Document (HSADPD) (May 2017).</p> <p>It is understood the ‘emerging draft’ Local Plan Review (LPR) no longer seeks to carry this allocation forward. This is despite part of the allocated site having already been built out and now occupied by residents. The Council say this is because the site now falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield. The DEPZ was extended as a result of the updated Radiation (Emergency Preparedness and Public Information) Regulations (REPIR) 2019.</p> <p>Our client does not support the removal of this allocated site from the Development Plan. Our client is keen to work collaboratively with the Council to secure the development of the remaining part of this currently allocated site. These representations therefore focus on responding to the removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield.</p> <p>These representations also seek to respond to the Council’s development strategy (including Policies SP1 and SP3, SP12 and SP14) and decision-making in relation to an effective ‘moratorium’ on new development within Burghfield Common, despite the village remaining as a ‘Rural Service Settlement’, which offers ‘development potential appropriate to the character and function of the settlement’, according to the proposed Spatial Strategy.</p> <p>These representations also discuss Policy RSA12, which seeks the provision of approximately 100 dwellings within Burghfield Common¹, within the extended DEPZ.</p> <p>In order to consider whether a Local Plan is sound, reference needs to be made to the National Planning Policy Framework (NPPF) (July 2021) paragraph 35. This identifies that a sound Plan is:</p> <ol style="list-style-type: none"> 1 a) Positively Prepared– ‘providing a strategy which, as a minimum, seeks to meet the area’s objectively assessed needs; and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development’; b) Justified– ‘an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence’; c) Effective – ‘deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground’; and d) Consistent with National Policy – ‘enabling the delivery of sustainable development in accordance with the policies in this Framework’. <p>It is in light of these criteria that the LPR (Regulation 19) version has been considered. We find the de-allocation of site HSA16 is not consistent with the Council’s approach to its development strategy and the settlement hierarchy. In addition, its approach towards a ‘moratorium’ on further development within the parish of Burghfield Common is flawed.</p> <p>Policy SP3 identifies Burghfield Common as a ‘Rural Service Centre’, which offers “<i>development potential appropriate to the character and function of the settlement through: Infill or changes of use within the settlement boundary; non-strategic sites allocated for housing and economic development through other policies in the LPR or neighbourhood plans; and rural exceptions affordable housing schemes</i>”.</p> <p>However, this policy appears to be at odds with the Council’s position in respect of The Hollies as it does not rule out further development in Burghfield Common, despite the approach taken within Policy SP4 which sets out that proposals for development within the DEPZ are likely to be refused.</p> <p>Burghfield Common is recognised by Table 1 of the LPR as a Rural Service Settlement meaning that it has a good range of services and opportunities. Paragraph 4.32 of the draft plan states “<i>the six rural service centres across the District provide a focal point for the surrounding villages and rural areas in terms of the provision of services and facilities. Although they do not have as wide a range of services as the urban areas, they are still sustainable locations</i>”. The draft LPR does not therefore support the</p>

	<p>vitality of the rural community of Burghfield Common since it fails to identify further opportunities for the village to grow and thrive. The LPR is contrary to the NPPF in that regard.</p> <p>Conclusion</p> <p>These representations have been prepared by Pro Vision on behalf of our client, T A Fisher & Sons, in response to West Berkshire Council's consultation on its Local Plan Review 2022-2039 (Regulation 19) (January 2023).</p> <p>Our client has an agreement with the landowners of the site known as 'Land to the rear of The Hollies' in the District, which currently forms part of allocated site 'HSA16', in the adopted HSADPD (May 2017).</p> <p>We note the allocation for the site is no longer included within the 'emerging draft' LPR, as the site falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield, despite there being a remainder of 32 units still to be delivered.</p> <p>Our client does not support the removal of this allocated site from the LPR.</p> <p>These representations have therefore focused on responding to the unjustified removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield as well as the development strategy and spatial hierarchy proposed by the LPR.</p> <p>In particular, we consider the remaining number of dwellings should be carried forwards in the LPR as the development of the western part of the allocated site can be achieved and is deliverable now. We contend that the Emergency Plan can be updated to accommodate the delivery of 32 units without impacting adversely on the operation of AWE Burghfield, public safety or the functioning of the Emergency Plan. The LPR as currently drafted is unsound, as it is not justified, not consistent with the Framework and not positively prepared.</p>

<p>Please give reasons for your answer</p>	<p>Policy SP3 sets out the proposed settlement hierarchy for the District, building upon the spatial strategy outlined in Policy SP1. The Urban Areas of Newbury, Thatcham and the Eastern Urban Areas of Tilehurst, Calcot and Purley on Thames are outlined as being the "prime focus for housing... development, offering development potential through:</p> <ol style="list-style-type: none"> 1 regeneration and change in the existing built up area; and 2 strategic and non-strategic sites allocated for housing... development". <p>These urban areas are the most sustainable locations in the District and are therefore correctly identified as being the focus for growth. We agree with the hierarchy proposed, which has been informed by the Review of Settlement Hierarchy Topic Paper (November 2020).</p> <p>Policy SP3 sets out the proposed settlement hierarchy for the District, where the Urban Areas of Newbury, Thatcham and the Eastern Urban Areas of Tilehurst, Calcot and Purley on Thames are outlined as being the "prime focus for... economic development, offering development potential through:</p> <ol style="list-style-type: none"> a) regeneration and change in the existing built up area; and b) strategic and non-strategic sites allocated for... economic development". <p>Again, we agree with the hierarchy proposed for... economic development.</p>

<p>1. Do you consider the Local Plan Review is legally compliant?</p> <p>* Yes</p> <p>* No</p>	
Please give reasons for your answer	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on</p>	No

<p>cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>The National Planning Policy Framework, at paragraph 79, confirms that to promote sustainable development in rural areas, housing should be located where it will enhance or maintain the vitality of rural communities. Furthermore, it states that planning policies should identify opportunities for villages to grow and thrive, especially where this will support local services. For the reasons set out below, we do not consider that the council's proposed settlement hierarchy, as set out within Draft Policy SP3, allows for this.</p> <p>Draft Policy SP3 identifies the district's 'Urban Areas', 'Rural Service Centres' and 'Service Villages'. As the Plan is currently drafted, neither Brimpton or Aldermaston Wharf villages are proposed to fall within any of these categories, but the draft Policy Map identifies that they benefit from a defined settlement boundary.</p> <p>Draft Policy SP3, as drafted, notes that, "Development in smaller settlements with settlement boundaries, and which are not included in the settlement hierarchy, will be delivered in accordance with Policy SP1. Development outside of these settlements, in other rural hamlets and in isolated groups of development will be restricted to that which is appropriate in a rural area as set out in Policy DM1."</p> <p>The supporting text, at paragraph 4.37, expands by stating: "Settlements outside of the settlement hierarchy will deliver additional development but this will be limited to infill or change of use within the settlement where a settlement boundary has been defined, and to rural exception schemes for affordable housing to meet local needs. Some limited development is important for the long-term sustainability of rural communities. Outside these settlements, in the countryside, a more restrictive approach to development will be taken as set out in other policies in the LPR."</p> <p>We note that the council also place the same restriction to allow only infill or changes of use to development within Rural Service Centres, and Service Villages (as stated within draft Policy SP3).</p> <p>Paragraph 6.31, in respect of the role of settlement boundaries, states that "Sites within settlement boundaries are not being allocated. This is because settlement boundaries are a long established planning tool. They identify the main built up area of a settlement within which development is considered acceptable in principle, subject to other policy considerations." This sentiment is also repeated at paragraph 3.1 of Appendix 3.</p> <p>The Estate objects to the council's inconsistent approach to development within settlement boundaries. It is apparent that settlement boundaries, as a "long established planning tool" identify areas in which development is considered acceptable in principle, nevertheless in many instances the council are proposing to limit development to only 'infill or change of use'. This is unnecessary and unjustified, and this restriction should be removed to encourage growth.</p> <p>Draft Policy SP3 does (in principle) allow for non-strategic sites to be allocated for housing and economic development, albeit at the 'service village' level, through other policies in the Plan or in Neighbourhood Plans. We support this and would add that allocating nonstrategic sites to 'smaller villages' would not be inconsistent with the draft LPR spatial strategy. However, the Estate maintains its objection to the draft LPR only identifying housing site allocations at the 'service village' level and above and considers that smaller villages and rural areas are also able to make a contribution to housing supply as well as to delivering a wider choice of homes.</p> <p>The council's Site Selection Methodology document (January 2023) confirms that, in respect of assessing potential sites for development, states:</p> <p>"Sites which were not ruled out in the HELAA were assessed to determine which settlement they fell in. Sites in settlements below the hierarchy or in 'open countryside' have been ruled out from further consideration because they are considered to be within unsustainable locations. The exception to this has been the employment sites as several of the Designated Employment Areas are located in locations outside of the settlement hierarchy. In addition, paragraph 85 of the NPPF is clear that planning policies should recognise that sites to meet local business needs in rural areas may have to be found adjacent to or beyond existing settlements, and in locations that are not well served by public transport."</p> <p>The Estate objects to this approach and have concern that this will have serious implications for rural communities. If development in the 'smaller villages' continues to be severely restricted, and without opportunities for growth in suitable locations within and around these villages, rural communities and their valued services and facilities will continue to decline and it is conceivable that they may disappear altogether. The draft LPR does not support the vitality of rural communities since it fails to identify opportunities for these villages to grow and thrive. The LPR is contrary to the NPPF in that regard.</p> <p>We also note that the council is still maintaining its stance that Aldermaston Wharf should not be classified as a service village despite scoring 21 points as set out within the evidence base related to the Settlement Hierarchy. Aldermaston Wharf scored highly enough to be, and it performs the function of, a 'service</p>

village'. It is a sustainable settlement, with key services including a village hall, access to employment opportunities and a convenience store. In addition to this, there is a public house, a private school, mobile library service, a nursery, recreation ground and children's play area.

As noted in the Topic Paper, Aldermaston Wharf benefits from excellent public transport and is highly accessible. There is a mainline railway station and bus stops, providing regular services to Reading, Newbury, Thatcham and Beenham. A footpath and cycleway has recently been constructed, which connects Aldermaston Wharf with Aldermaston Village.

Aldermaston Wharf and Aldermaston Village are very well linked and should be looked at holistically. Aldermaston Village provides key services and facilities, such as a primary school, a convenience store, a village hall and a farm shop, all of which are easily accessible from Aldermaston Wharf.

Aldermaston Village is currently a 'service village' in the Core Strategy but is proposed to be downgraded as part of the LPR settlement hierarchy review. We reiterate that we do not support this approach and consider that Aldermaston Village should remain a 'service village', given there has been no significant change to the settlement, nor any known loss of key services and facilities.

It is evident that the decision to categorise both Aldermaston Wharf and Aldermaston

Village as 'smaller villages' is not justified for the above reasons. Moreover, it would appear that sufficient weight has not been given to the high level of accessibility of Aldermaston Wharf in the settlement hierarchy review. We therefore encourage the Council to reconsider this, noting that both Aldermaston Wharf and Aldermaston Village both clearly perform the function of 'service villages' and are scored at the 'service village' level.

As a 'service village', it would clearly be appropriate and consistent with the LPR's spatial strategy to allocate a housing site at Aldermaston Wharf to help sustain the range of services and facilities, improving the vitality of the village and in turn, supporting the wider rural economy, noting that "where there are groups of smaller settlements, development in one village may support services in a village nearby" (NPPF Paragraph 79). Housing allocation sites should not be precluded due to a perceived lack of services and facilities. Rural housing is essential to ensure the long-term viability of these services and facilities.

Notwithstanding this, even as a 'smaller villages', housing site allocations at Brimpton and Aldermaston Wharf, including BRIM1, BRIM2 and ALD5 which are located adjacent to the existing settlement, would be consistent with wider aims to sustain a prosperous rural economy. For the council to make a blanket statement that sites in settlements below the hierarchy or in open countryside have been ruled out of further consideration because they are unsustainable is inconsistent with the fact that many rural villages have defined settlement boundaries, which in turn suggests that the principle of new development is acceptable. Furthermore, and what the council have failed to consider, is that many people desire living in rural locations, and to provide new housing in such locations is to meet the strategic objective of providing a range of sites to meet the district's housing needs and aspirations. The LPR is therefore not justified, not consistent with national policy and not positively prepared. The LPR is therefore unsound.

Previous representations in respect of sites BRIM1, BRIM2 and ALD5 are appended for the Inspectors consideration (Appendix A and B respectively) to highlight that these are suitable locations to accommodate new residential development. This is particularly important given the objections that are raised in respect of the council's overall approach to the delivery of housing, below. We note that in respect of Site ALD5, the council had concerns over flood risk on part of the site; to alleviate these concerns and clarify the current position in terms of the extent of flood risk on the site, we enclose (at Appendix C) a short letter from Dr Chris Whitlow of Edenvale Young and confirm that the Estate is willing to provide further technical information as and when required. Draft Policy SP12 'Approach to Housing Delivery'

Draft Policy SP12 explains that provision will be made for 8,721 to 9,146 net additional homes for the period 1 April 2022 to 31 March 2039. It is acknowledged that the target figure of 538 dwellings per annum (dpa) does not constitute a ceiling or cap to development. The target figure of 538 dpa is a 5% uplift on the local housing need (LHN), as calculated using the standard method.

In this regard, we note that the Regulation 18 version of the West Berks LPR included a 10% buffer/uplift, but that this has been reduced to 5%, as set out within the Housing Background Paper, to provide a balance between boosting housing supply in the district while considering the limitations and constraints of a largely rural district (paragraph 2.33).

The Council does not provide any justification that a 10% buffer/uplift (or greater) to the housing requirement could not be accommodated within the district without harm to those constraints. Indeed, none of the key environmental constraints (e.g AONB) in the district or the rural nature of the district preclude the principle of residential development (different to floodplain, Green Belt etc.), but instead will shape the form and direction of growth across the district via the broad spatial strategy. As such, there is no justification to identify such a reduction in housing growth during the plan period on this basis, particularly as there appear to be sufficient sites available in the HELAA to accommodate further growth. As such, it is considered that the level of housing currently proposed is insufficient to support the Government's objective of significantly boosting the supply of housing.

It is considered that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10-20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039. This level of housing will ensure sufficient flexibility to deliver the minimum local housing need, but also provides for choice and contingency to the market and reflect current and future demographic trends and housing market signals and affordability in West Berkshire.

In respect of housing supply, it is concluded that to be positively prepared and sound, the LPR should be allocating more sites for housing over the plan period and we refer back to the comments above in respect of the settlement hierarchy and the council's approach to allocating new sites for development. It is considered that the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy, and noting that many available sites in the 'smaller villages' with a defined settlement boundary have been overlooked contrary to paragraph 79 of the NPPF.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Local Plan Review complies with Sections 19 and 20 of the Planning and Compulsory Purchase Act 2004 (as amended)

<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	Yes
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	<p>The purpose of the settlement hierarchy is to ensure that new development planned through the Plan period is directed to the more sustainable settlements. Focussing development at the largest settlements and on previously developed sites is supported (Draft Policy SP3 Settlement Hierarchy). However, the majority of the proposed site allocations are on greenfield sites. Furthermore, the West Berkshire Brownfield Register December 2022 update demonstrates that the majority of sites on the register have been redeveloped and only an additional 4 sites have come forward as a result of the recent call for sites process.</p> <p>Additionally, of those few sites on the Brownfield register that have historically benefitted from planning permission, several have let the consent lapse suggesting that the sites are either no longer viable for the proposed redevelopment or are no longer available. It is therefore considered that the reliance on windfall sites to deliver 1,949 dwellings over the plan period is optimistic and that further residential allocations are required to replenish some of the assumed supply from this source.</p> <p>It is also noted that draft Policy SP3 anticipates that Neighbourhood Plans will assist in allocating sites for residential development and that 80 dwellings are anticipated to come forward through this process (draft Policy SP12 Approach to Housing Delivery). However, of the 9 designated neighbourhood plan areas since 2015, slow progress has been made and only 2 have been "made". Of those 9 with designated areas, only 2 neighbourhood plans are proposing to make site allocations for the 80 dwellings. It is therefore concluded that additional sustainably located sites, such as land east of Waller Drive, Newbury, should be allocated for residential development to ensure that the identified housing need is met as there appears to be little appetite for providing additional residential growth through the designated neighbourhood plan areas.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>

<p>Please give reasons for your answer</p>	<p>We refer to the above consultation event and respond on behalf of our client, Ms S McElhinney who have interests with respect of land located east of Little Lane, Upper Bucklebury. As explained below, land east of Little Lane, Upper Bucklebury should be included in the defined settlement boundary of the village when considered against the Council's criteria for definition (as outlined in appendix 2 of the Draft Submission Plan), including its application elsewhere in the district. The omission of land east of Little Lane, Upper Bucklebury is therefore a clear illustration of inconsistency within the Draft Submission Local Plan and therefore that it is unsound, of the basis of not being justified.</p> <p>National Planning Policy Framework (NPPF) and the Tests of Soundness The NPPF (July 2021) sets out the principal components to be included in local plans. Paragraph 35 requires that in order to be "sound" a Development Plan Document ('DPD') should be positively prepared, justified, effective and consistent with national policy.</p> <p>In order to be justified the DPD must be founded upon a proportionate evidence base and represent an appropriate strategy when considered against the reasonable alternatives.</p> <p>Effective means the document must be deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the Statement of Common Ground.</p> <p>The positive preparation test requires plans to as a minimum, seeks to meet the area's objectively assessed needs and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical.</p> <p>For the reasons set out in these submissions there are a number of potential matters that need to be addressed in future iterations of the emerging Plan. These are outlined following the relevant policies and supporting information within the Draft Submission Local Plan.</p> <p>Response to draft Policy SP3 - Settlement Review of settlement hierarchy This policy details the proposed settlement hierarchy alongside the definition of settlement boundaries following the review undertaken by the Council.</p> <p><i>Review of settlement hierarchy</i> Within the existing Plan, Upper Bucklebury is included as a third tier settlement (a service village) which recognizes its size and range of facilities to serve residents within the village and surrounding areas.</p> <p>Through the draft Submission Local Plan, it is proposed to be omitted from settlement hierarchy although it would retain a settlement boundary. Whilst it would retain a settlement boundary, it is proposed to be adjusted from that which currently applies.</p>

On behalf of our clients were object to the reclassification of the village of Upper Bucklebury so that it is outside of the hierarchy detailed in policy SP3 alongside the revision to its settlement boundary. The reasons for this are:

The Council's Settlement Hierarchy Topic Paper (November 2020) outlines the assessment of the district's towns and villages. This includes consideration of the availability of facilities like convenience store, primary school, village hall and public house together with access to employment and public transport services. Whilst this appraisal is noted, the NPPF (paragraph 79) is clear:

" To promote sustainable development in rural areas, housing should be located where it will enhance or maintain the vitality of rural communities. Planning policies should identify opportunities for villages to grow and thrive, especially where this will support local services. Where there are groups of smaller settlements, development in one village may support services in a village nearby."

This therefore emphasizes the importance of considering access to existing facilities which reflects the analysis within the Council's Topic Paper.

Alongside the advice in paragraph 79 of the NPPF, this also highlights the different context with regard to public transport provision in urban and rural areas. This is within paragraph 105 which confirms:

"The planning system should actively manage patterns of growth in support of these objectives. Significant development should be focused on locations which are or can be made sustainable, through limiting the need to travel and offering a genuine choice of transport modes. This can help to reduce congestion and emissions, and improve air quality and public health. However, opportunities to maximise sustainable transport solutions will vary between urban and rural areas, and this should be taken into account in both plan-making and decision-making."

The approach to settlement hierarchy as outlined in the draft plan is not considered to fully reflect paragraph 105 of the NPPF, as it does not acknowledge the clear differences in public transport services. Whilst the Council's "Settlement Hierarchy Topic Paper" references the need for a sufficiently frequent bus service to justify the classification of villages within the emerging plan. This is however considered to be overly onerous, especially given the changes in lifestyle which arose following the Covid pandemic and the ongoing energy cost challenges following the invasion of Ukraine. This is demonstrated by the very significant increase in home working as confirmed by the results of the 2021 Census compared to that within the 2011 version for the district. This is shown in the table below which indicates over a fivefold increase in the proportion of those who work at or mainly from home. Whilst this may have been influenced by the Government advice on containing the Covid pandemic, it is nevertheless a clear indication that access to public transport is a less significant factor, especially for the ability to work

[See page 3 of attachment 'PS1571 Woolf Bond (S. EcElhinney) LPR Rep' for table comparing 2011 and 2021 Census data]

Furthermore, the Council's approach also discounts the importance that growth within Upper Bucklebury will have in maintaining and enhancing the existing range of services to the residents of the community. The 2021 Census indicates that the core area of the village has a population of 1,036 – this is a very significant level for a location which is not proposed to be included within the Council's settlement hierarchy.

The population of Upper Bucklebury was derived from outputs of the Small Area Statistics for area referenced E00082171 and E00082174 – the combined area of these is shown on the map below

[see page 4 of attachment 'PS1571 Woolf Bond (S McElhinney) LPR Rep '].

With a very significant existing population in Upper Bucklebury (as confirmed by the 2021 Census) and a workforce within the district who can and do work from home, the Council's approach to the reclassification of settlements, especially the village of Upper Bucklebury is unjustified and inconsistent with National Policy.

Upper Bucklebury should therefore be retained as a "Smaller Village" within policy SP3 of the Draft Local Plan.

Furthermore, to provide greater clarity for other settlements where settlement boundaries are defined, this should be included as an additional tier "other village" with confirmation that these are also appropriate for development including infill and affordable exceptions housing.

<Further comments on Review of the settlement boundary can be found under Appendix 2>

Conclusions on Soundness of Draft Policy SP3

As detailed and explained in this response, the current approach in policy SP3 is neither justified nor consistent with national policy. Revisions to the policy are therefore essential.

<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>In summary it is that the following amendments are made to Policy SP3 together with the proposals map</p>

	<p>1. That Upper Bucklebury is included as a “Service Village” within the policy</p> <p>2. That the other settlements currently not listed in policy SP3 but where settlement boundaries are defined are listed as a four tier – “other village”. That the policy confirms that infilling and other similar developments together with rural exception housing is appropriate</p> <p>Changes to policy SP3 advocated</p> <p>That to address the soundness concerns, the following amendments to the policy are made.</p> <p>1. That Upper Bucklebury is included as a “Service Village” within the policy</p> <p>2. That the other settlements currently not listed in policy SP3 but where settlement boundaries are defined are listed as a four tier – “other village”. That the policy confirms that infilling and other similar developments together with rural exception housing is appropriate.</p> <p>3. That the settlement boundary of Upper Bucklebury is revised to both retain the existing open space east of Little Lane and include the dwellings of Byles Green.</p>

Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>[See attached Combined Appendices for appendices. For wider representation and Tables and Figures, see attached Representations on behalf of Croudace Homes]</p> <p>The Spatial Strategy and Settlement Hierarchy (Draft Policies SP1 and SP3)</p> <p>West Berkshire is a highly constrained District. As set out at paragraph 4.6 of the LPR, it contains a number of physical and environmental constraints which influence the location of development including the North Wessex Downs AONB (which covers 74% of the District), substantial areas liable to flooding, the presence of the AWEs at Aldermaston and Burghfield, areas constrained by nutrient neutrality and various other heritage and environmental designations. These are well represented in visual form at Figure 1 of the LPR, which is extracted below at Figure 5.</p> <p>In response to this, the LPR's spatial strategy is set out at draft Policy SP1. One of its key aims is to direct development to areas of lower environmental value.</p> <p>It splits the District into three spatial areas: 'Newbury and Thattham'; 'North Wessex Downs AONB'; and 'Eastern Area'.</p> <p>Newbury and Thattham</p> <p>As set out by Croudace's representations at the Regulation 18 stage (Appendices E, F and G), the decision to direct growth towards Thattham is strongly supported.</p> <p>Although Thattham is one of the 'top tier' sustainable settlements in West Berkshire, it was only allocated very modest levels of growth in the adopted Core Strategy and HSA DPD. The Council justified this at the time on the basis that Thattham had historically seen significant growth and was deemed to require a period of 'consolidation'. Again, the HSA DPD only contained a single allocation in Thattham.</p> <p>When the Core Strategy was examined between November 2010 and May 2012, the Inspector accepted the 'consolidation' strategy for Thattham, but recommended it should be reconsidered as an area for</p>

housing growth in any future review, acknowledging its position at the 'top tier' of the settlement hierarchy. An initial review was taken by the HSA DPD and so the LPR represents the second review since the Core Strategy's adoption in July 2012.

Therefore, by continuing to designate Thatcham as a 'top tier' settlement and by directing growth to the 'Newbury and Thatcham' spatial area, the Council has taken this advice on board. Accordingly, Croudace supports Thatcham's status as a 'top tier' settlement (Urban Area) in draft Policy SP3.

However, Croudace considers that the LPR has not gone far enough, and in order to propose a 'justified' strategy, considers directing additional levels of growth to Thatcham given its status in the hierarchy. This growth could be redistributed either through different allocations to meet the proposed housing requirement identified (538 dpa) or through additional allocations to meet an increased housing requirement which provides additional 'headroom' or uplift in flexibility (for example, takes into account Reading's existing and future needs that remain, or will be, unmet).

Alternatively, Croudace considers that in order to provide greater flexibility to the LPR, the Council should explore an approach which allows development to come forward on sites outside, but immediately adjacent to the settlement boundary, subject to meeting certain criteria. Such an approach may be useful in instances where, for example, there is no 5YHLS and/or the Housing Delivery Test has been failed, or where delivery rates on sites in the housing trajectory drop below a certain level.

In this regard, Croudace would like to highlight an example used by many local authorities, including Fareham Borough Council, where Policy DSP40 (Housing Allocations) and emerging Policy HP4 both support residential development on land outside the urban area where there is no 5YHLS. (Appendices H and I).

In summary, Croudace lends its tentative support to some of the principles established by draft Policies SP1 and SP3. However, it cannot fully support these policies without a mechanism for bringing forward land at Henwick Park for development, whether that be an allocation or other favourable policy.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? -	No

<p>Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>The overall settlement hierarchy, set out in draft LPR Policy SP3, also reflects the adopted Core Strategy. This includes continued identification of Burghfield Common, Mortimer and Theale as Rural Service Centres in the second tier of the hierarchy, which is supported. Each of these settlements scored consistently highly in the various stages of the settlement assessment (section 6 of the Settlement Hierarchy Review Topic Paper (November 2020)) and therefore this categorisation is justified and is supported. Table 1 of the LPR describes and emphasises the importance of Rural Service Centres as, ‘Settlements with a good range of key services and opportunities for employment, community and education. They serve a wide catchment area and contain reasonable accessibility and regular public transport provided to a number of destinations.’</p> <p>Parts h to j of Policy SP3 set out the types of development that may be considered appropriate in the Service Villages, including infill development, change of use, non-strategic allocations and rural exception schemes. It is not clear why the provision for ‘other minor development’ has been deleted, which could include appropriate residential / non-residential extensions or alterations for instance, and reference to First Homes exception sites (supported by Policy DM16) has also been omitted.</p> <p>It is noted that the settlement assessment considered only the settlements previously identified in the Core Strategy and Housing Site Allocations DPD (HSA DPD) and does not consider other smaller settlements (paragraph 4.2, Settlement Hierarchy Review Topic Paper (November 2020)). It is also notable that the Settlement Hierarchy Review Topic Paper (November 2020) has not been updated to accompany the current Regulation 19 consultation and therefore any subsequent changes to settlements, or representations to previous Local Plan consultations, have not been fully considered in the current evidence base informing the settlement hierarchy. Whilst the settlement hierarchy helps to inform the appropriate location of development, in order to account for changes to local services and facilities, it is important that the suitability of individual settlements to accommodate development is kept under constant review and that the hierarchy is not applied rigidly.</p> <p>Notwithstanding the above, it is important to ensure that the Settlement Hierarchy set out in Policy SP3 informs the spatial strategy for new development set out in Policy SP1, in order to ensure that the Plan is effective and justified and meets the tests of soundness in NPPF paragraph 35. It is noted that Policy SP3 states ‘The focus of development will follow the District-wide settlement hierarchy’, with Theale, Burghfield Common and Mortimer all identified as ‘Rural Service Centres’ within the Eastern Area. However as set out above, Policy SP1 states only that Theale will be a focus for development in the Eastern Area and includes no reference to the development potential of Burghfield Common and Mortimer.</p> <p>It is noted that the Council has also undertaken a review of settlement boundaries across the District, as set out in the Settlement Boundary Review Background Paper (December 2022) and summarised in the LPR Appendix 3. This has included consideration of settlements without an existing settlement boundary including Englefield.</p> <p>As set out in our previous representations, Englefield village has a range of local community services and facilities including St Mark’s Church, Englefield C of E Primary School, Englefield Stores and Tea Room, Englefield Garden Centre, market garden, social club and children’s nursery and local employment provision.</p> <p>Indeed the size of the village and its level of services and facilities exceeds that of other villages within the District with a settlement boundary. On this basis it is considered appropriate for a settlement boundary to be identified at Englefield to facilitate sustainable development.</p> <p>It is noted that the LPR does not however propose to introduce a settlement boundary at Englefield and it does not appear from the Settlement Boundary Review Background Paper (December 2022) that this has been fully considered. Paragraph 19 explains that ‘The informal nature of most of these settlements and the strong relationship they have as part of the wider rural landscape still means that the introduction of a boundary is still not considered the best way forward’. However, no specific assessment of Englefield is included and it is not therefore clear from this brief conclusion that the criteria for reviewing settlement boundaries (Appendix 1 of the Settlement Boundary Review Background Paper) has been followed.</p> <p>The NPPF (paragraph 79) is clear that local authorities should ‘promote sustainable development in rural areas’ and ‘identify opportunities for villages for villages to grow and thrive’. Accordingly, given the range of services and facilities and relative sustainability of Englefield, it is considered that a settlement boundary should be identified.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	<p>Policy SP3 as currently worded, based on the supporting evidence, does not meet the tests of soundness set out in NPPF paragraph 35. The following changes are thereby recommended in order to ensure the soundness of the Plan:</p> <ul style="list-style-type: none"> • Policy SP3 should be informed by an updated Settlement Hierarchy Review to include consideration of other smaller settlements beyond those currently identified in the Core Strategy and HSA DPD; • Policy SP3 should be used to inform the proposed spatial strategy set out in Policy SP1 to include Theale, Burghfield Common and Mortimer as the focus for development in the Eastern Area; • Policy SP3 should be informed by an updated Settlement Boundary Review to include full assessment of Englefield based on the assessment criteria; and • Parts h to j of Policy SP3 should be amended as follows: <ul style="list-style-type: none"> • “h. Infill or changes of use or other minor development within the settlement boundary; • Non-strategic sites allocated for housing and economic development through other policies in this Plan the LPR or neighbourhood plans; and • Rural exceptions affordable housing schemes; and • First Homes exception schemes.”
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	The Englefield Estate consider that the plan in its current version is not sound and would like the opportunity to set out how alterations could be made to the plan and its evidence base to enable it to be found sound and progress to adoption.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	<p>Some of the settlements have constraints meaning it is not appropriate for them to have non-strategic housing land allocations:</p> <ul style="list-style-type: none"> Burghfield Common and Mortimer are within the Burghfield AWE DEPZ Section 4.35 of the Core Strategy contained the following statement: "The Lakeside development has planning permission to provide 350 homes in a range of different sizes and types, which would become a well-integrated part of the Theale community. If this development goes ahead, Theale would need to undergo a period of consolidation to provide an opportunity for facilities and services to be upgraded". <p>Housing construction on this development has not yet commenced, although outline permission has been granted for up to 325 homes and Reserved Matters permission has been granted for part of the site.</p>

	<p>In addition, outline permission has been granted for 104 homes on the adjacent site between The Green and the A340 (LPR site RSA9). These two sites will increase the number of homes in Theale by almost 25% when built out. Therefore, that statement is still valid and Theale still needs that "period of consolidation".</p> <ul style="list-style-type: none"> Theale has outstanding planning permission for 429 dwellings as described above. Any further housing allocations would change the character of the village and over-burden local services, particularly health services. <p>The imposition of the DEPZs around AWE sites mean that housing site allocations can no longer be made at two of the Rural Service Centres: Burghfield Common and Mortimer. This means that other RSCs and Service villages are being asked to take more housing and thus stretching their infrastructure and services.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Point (f) of the policy needs to be qualified to take these constraints into account</p> <p>Modest-sized housing allocations should be made at larger villages (other than RSCs) that have services such as convenience stores, pubs, primary schools, churches, village halls and/or public transport. Such allocations would increase the viability of the services and help such villages become more sustainable.</p>

Please give reasons for your answer	<p>We support the identification of the Eastern Area as an urban area in the same hierarchy level as Newbury and Thatcham. Figure 2 of the plan does not suggest this definition includes only the existing built up urban areas of Tilehurst, Calcot, Purley on Thames as the urban area for the purposes of SP3. The statement in the policy that " the urban areas will be the prime focus for housing and economic development " omits the inclusion of words "to meet the existing needs of these communities".</p> <p>To minimise the need to travel and be consistent with this stated aim, SP3 must explicitly recognise the requirement to accommodate the needs of the eastern area within the eastern area policy. Yet the very limited amount of housing allocations in these areas means that much needed affordable housing in the east will not be accommodated there.</p> <p>For a more detailed discussion of affordable housing need see the representations to policy SP19 below and the Affordable Housing Statement attached as Appendix 7.</p> <p>Attachments:</p> <ul style="list-style-type: none"> • Full Rep

	<ul style="list-style-type: none"> Appendix 7 - Tetlow King report: Affordable housing representation
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	
4. Proposed Changes	<p>The requirement to allocate more sites in the Eastern Area would address many of these challenges to soundness. Whilst it is acknowledged that some constraints do exist, there are sites which are recognised as achievable and deliverable in the Council's evidence base supporting the LPR. Prime amongst these is site TIL13 at Pincent's Lane (see overleaf). Site TIL13 has a long planning history. By common consent, the problems with the 2011 appeal scheme have been resolved and no technical obstacles exist to development of the site for a scheme of up to 165 dwellings. By the LPA's own assessment, the concerns – and the reasons for not proposing it for allocation – are entirely “political”. No one would deny the validity of elected members making political choices where real choices exist, but the fact is that not allocating the site would leave the LPA without a single significant contribution to offer to meet either its own housing need in the Eastern Area or that arising from Reading, of which the Area is functionally part. The site should therefore be allocated.</p>

Please give reasons for your answer	We consider that land at NCGC [<i>Newbury and Crookham Golf Club</i>] is suitable for allocation as a residential site in the LPR, as it lies on the edge of the settlement of Newbury and is adjacent to an existing bus stop on an established bus route (Number 2 and 8 services). As such, the application site, the location of which and proposed site layout is provided within Appendix 1 [<i>see attachment 'Opus Works (NCGC & Chartfield) Appendix 1</i>] to this document, is a suitable and sustainable setting for residential development, according to this policy. Policy SP3 – Settlement Hierarchy is supported
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	

4. Proposed Changes	Request is made for the land identified for development at NCGC to be included within the revised settlement boundary of Newbury, particularly in light of the significant uplift and long-term retention of a Local Community Facility (Policy DM39) this would enable.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	To enable the Local Plan to recognise the further assistance needed for rural business and leisure facilities and to underpin a robust mechanism to allow enabling development to come forward to help realise this, where appropriate.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	Site Allocations have been selected and the plan finalised for consultation prior to finalisation of HELAA site assessments; decision of members to move forward to consultation on Reg 19 Plan taken in the absence of knowledge of the range of site assessments/ options available to accommodate development. Public comments invited until 3 March, in the knowledge of proposed meeting the evening of 2 March to decide whether to abandon the consultation/ draft strategy. This will inevitably have impacted decisions

	<p>taken on whether or not to spend time/ funds pursuing representations on the plan, leading to a flawed consultation process.</p> <p>Errors in evidence base contributing to flawed consultation process, with stakeholders unable to review/ comments on full assessment of the impact of the proposed development strategy.</p>
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>SP3 (Settlement Hierarchy) – Brimpton, where our client's land interest is situated, is classified as one of the smaller settlements (rather than a Service Village, Rural Service Centre or Urban Area). As such, any development outside the settlement boundary would be restricted to that allowed or under policy DM1. No allocations appear to be proposed in these settlements, contrary to the requirement in NPPF para 79 to plan for growth of rural villages. Rather, the villages would rely upon a limited number of infill or change of use/ windfall opportunities as allowed for within the settlement boundary under Policy SP1.</p> <p>The Settlement Hierarchy evidence base document allocated Brimpton 10 points, based on the centre of the village being within 1km of:</p> <ul style="list-style-type: none"> • Primary School (3 points) • Village Hall (3 points) • Superfast Broadband (1 point) • Community Transport Scheme (1 point) • Public House (1 point) • Place of Worship (1 point). <p>No recognition of the local sports facilities appears to have been given. Nor any points for being in close proximity (within 10km) of a Major Urban Centre.</p> <p>The methodology utilised in the Settlement Hierarchy is too heavily focused upon accessibility to public transport – without accounting for modes of active travel (walking, cycling).</p> <p>From Brimpton, it is a short cycle ride to many employment locations/ local services and facilities, including:</p> <ul style="list-style-type: none"> • Midgham Station: 10 minute cycle ride (1.9 miles) • Thatcham Station: 15 min cycle ride (2.7 miles) • Reading: 10 min cycle to Midgham followed by 17 minute commute by rail to Reading.

- Basingstoke: 10 minute (2.2 mile) cycle to Baughurst, then 25 min bus to Basingstoke Hospital/35 to centre/ railway station
- Aldermaston: 13 mins cycle (2.2 miles)
- Greenham Common: 10 min cycle (2.2 miles)
- Newbury: 38 min cycle (7.2miles)

The extensive network of rights of way is shown below. <for map see attachment>

Extract of Definitive Map showing rights of way supporting active travel from the site 40% of the Brimpton population at present is retired, and may therefore be more reliant on the private car than active travel/ cycling for daily needs; Younger working age residents may be more likely to work at home a portion of the week, and commute to work 2-3 days. The ONS has indicated that 84% of workers who had to work from home during the pandemic said they intended to carry out a mix of home working/ working in the office in future[1]. New housing in the village would be attractive to this younger cohort who wish to raise families in a village rather than an urban area – particularly given the presence of a primary school in the village. It is reasonable to assume that such households might have 1-2 occupants travelling to work in Newbury/ Thatcham/ Basingstoke/ Reading 2 or 3 times per week and could comfortably do so via active travel and public transport.

On this basis, we submit that smaller settlements such as Brimpton should be given more priority in the settlement hierarchy, to allow for some small scale development / extension of settlement boundaries so that the village can thrive and grow.

We note that a recent successful proposal for erection of 4 detached dwellings at Washoe Lodge in Brimpton Lane (reference 20/01825/FULD) attracted support from the community. Examples of the positive feedback provided, demonstrating a need for additional housing in the village, include:

“I think this is a great opportunity for the village, and the local primary school. I have young children myself and would be interested in moving my family to a village location like this, which I can still commute to work easily using the local facilities at Midgham/ Thatcham train stations. There is often little opportunity to buy in this village or similar and having the opportunity to buy on a modern development would be ideal for growing families like myself.”

“Nice village, needs more properties for families who commute with some good walks in the local area. Needs more developments with off road parking and garage space as local parking is not great. Would be keen to look at this development in the future once completed.”

“Great to see new development coming to Brimpton, I looked to move to this area recently but did not find any suitable new development.”

“As a local business owner and resident of Brimpton it is great to see more housing for Brimpton. It’s a well located village that seems to be slowly decaying through lack of investment, both the school and village facilities could do with more families in the area to help improve the village.”

Two potential allocations were assessed in the HELAA, these being BRIM1 and BRIM2, further north of our client’s site. (see figure <in attachment>).

Both BRIM1 and BRIM2 were assessed as being adjacent to the settlement, and being greenfield/ agricultural sites available for residential redevelopment. A density of 30dh was considered. The HELAA stage 2b assessment considered whether development of these sites would be appropriate in the context of the existing settlement form, pattern and character of the landscape. For BRIM1 it was noted that “the site is located adjacent to existing linear development on Brimpton Road...some frontage development along Brimpton Road would continue the existing settlement form, however development of the whole site would be inappropriate in the context of the existing settlement form and pattern.” A similar conclusion was reached in respect of BRIM2 – ie that “some frontage development on part of the site” may be acceptable subject to further landscape assessment. For both, the conclusion was that development would be dependent on a review (and realignment) of the settlement boundary. This is because the Stage 2a assessment (development potential) found that Brimpton falls outside the settlement hierarchy and is therefore suitable only for limited infill development within the boundary.

Therefore, the evidence base and early LPR work has shown that:

- There is some Parish Council support for realignment of the settlement boundary to include our client’s site, subject to public consultation and a suitable development proposal. This feedback was provide as part of consultation to the Settlement Boundary review;
- The parish Plan supports proposals for up to 10 additional houses in the village, particularly affordable housing or homes for downsizers;
- The public supported a recent proposal for 4 new homes in the village, demonstrating a need for housing for families and lack of suitable options;
- The HELAA demonstrates that the landscape could accommodate some infill development to the north of the site – a conclusion which must also rationally apply to our client’s site.
- Development on this site would amount to infill, based on the form and arrangement of the settlement. Brimpton Road features linear housing development opposite the site and to the north. This site could accommodate infill development along the road frontage in a manner which is respectful to the form and character of the settlement.
- Development on this site would amount to infill, based on the form and arrangement of the settlement. Brimpton Road features linear housing development opposite the site and to the north. This site could accommodate infill development along the road frontage in a manner which is respectful to the form and character of the settlement.

The only reason, it seems, for not allocating any additional housing in Brimpton, or altering the boundary to provide scope for infill, its rating in the Settlement Hierarchy. We have demonstrated above that the site is accessible by active transport to a number of services, facilities and employment centres. The Settlement Hierarchy review is overly focused upon public transport rather than other sustainable modes of transport, such as active travel (cycling and walking).

	In the Eastern Spatial Area, no sites of less than 1ha have been proposed for allocation for general housing. The NPPF recognises the role that small sites can play in quick delivery of housing and requires that 10% of allocations be of small/ medium size. Given the LPR's reliance on large strategic development locations, we urge the Council to consider including this site within the settlement boundary and/ or allocating it for development in the LPR before submission to Independent Examination.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	Allocate small sites less than 1ha in lower tier settlements such as Brimpton, to allow these rural villages to grow and thrive. In particular, allocate our client's site to the west of Brimpton Road, in the centre of Brimpton village which is immediately available for market and/or self and custom build housing to meet the needs identified by the Parish Council. <for map see attachment> Revisit the Settlement Hierarchy report, and decision to only allocate sites in top three tiers of the hierarchy.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>Policy SP3 (Settlement Hierarchy) – Whilst the Council's approach to growth in Rural Service Centres is appropriate and proportionate, detailed scrutiny of the existing allocations is necessary in order to ensure some housing is delivered in these locations. Relying on infill, rural exception schemes and windfall sites will have a detrimental impact on the vitality of these communities – particularly those constrained by AONB.</p> <p>The Council's view on the role and function of villages such as Lambourn, is confirmed by Table 1 which states that Rural Service Centres are: "<i>settlements with a good range of key services and opportunities for employment, community and education. They service a wide catchment area and contain reasonable accessibility and regular public transport provided to a number of destinations</i>".</p> <p>According to the statistics provided within Live Tables by the Department for Levelling up, Housing and Communities, as of 1 April 2021, West Berkshire had a total housing stock of 69,438 units. The 9,146 planned for across the plan period represents a 13% increase across West Berkshire as a whole. Comparably, it would therefore appear inconsistent that a Rural Service Centre such as Lambourn should only be given provision for a 3% increase in its housing stock.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore</p>

	on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
Please give reasons for your answer	<p>Local Plan Review Strategy</p> <p>3.15 Policy SP3 'Settlement Hierarchy' reiterates the focus of development on the settlement hierarchy which takes account of the function and sustainability of settlements across the District and promotes sustainable communities. Specific reference is made to the 'scale of development proposals will be expected to be relative to the existing or proposed level of facilities and services in the settlement, together with their accessibility.' Again, the principle of this approach is supported.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	Policies have not given appropriate regard to climate change, sustainability or delivering environmental enhancements.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an	No

<p>appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework.</p> <p>Policy SP3 lists the identified service villages, noting that smaller rural settlements may offer some limited and small scale development potential, appropriate to the character and function of the village, in order to meet local needs.</p> <p>Development is limited to infill or changes of use within settlement boundaries, non-strategic sites allocated for housing and economic development and rural exception affordable housing schemes.</p> <p>Policy SP3 does not provide any reference to the development of previously developed land. The settlement boundary review does not consider previously developed land, which does not reflect the overarching objectives of SP1. The settlement boundary review notes that a landscape led approach has been taken to the drawing of settlement boundaries; which would meet the key objectives (directing development to areas of lower environmental value), however no regard has been given to previously developed land.</p> <p>The settlement boundary review does not reflect the overarching objective of optimising previously developed land. Loose knit arrangements of buildings on the edge of settlements are excluded from settlement boundaries; however these sites could offer opportunities to develop previously developed land which is sustainably located and could deliver landscape enhancements.</p> <p>Furthermore, there is a missed opportunity to enhance the character of settlements through development. Whilst there are specific policies within the plan which seek to protect the landscape, given the settlement boundary review was entirely landscape led, and according to the Council, integral to defining areas suitable to development, Policy SP3 should seek to deliver landscape enhancements through new development within settlements.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>We suggest that Policy SP3 is updated with reduced emphasis on arbitrary development boundaries and more emphasis on sustainable development that improves landscape character, optimises opportunities to develop previously developed land and make the best use of suitable land.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No

<p>Please give reasons for your answer</p>	<p>These representations have been prepared by Nexus Planning on behalf of Pangbourne Beaver Properties Ltd, in response to the West Berkshire Local Plan Review 2022-2039 – Regulation 19 consultation (“the Plan”).</p> <p>We welcome the inclusion of a settlement hierarchy policy in the Local Plan as a way to ensure sustainable patterns of development.</p> <p>We also support the requirement for development in West Berkshire to comply with the spatial strategy set out in Policy SP1, and for the focus of development to follow the district-wide settlement hierarchy, which takes account of the function and sustainability of settlements across the district and promotes sustainable communities.</p> <p>We additionally support the categorisation of settlements as Urban Areas, Rural Service Centres and Service Villages.</p> <p>However, despite the very clear requirements of both Policies SP1 and SP3 for the focus of development in the district to follow the identified settlement hierarchy, and the requirement of Policy SP2 to ensure appropriate and sustainable growth in the North Wessex Downs AONB area, the Local Plan fails to do so.</p> <p>As set out in detail in our representations to Policy SP15, Pangbourne is identified in Policy SP3 as a Rural Service Centre. It is in fact the most sustainable of the four identified Rural Service Centres as it also benefits from a railway station.</p> <p>Notwithstanding this, and despite the clear and wholly logical requirements of Policies SP1 and SP3, Policy SP15 makes no development allocations at Pangbourne, despite its inherent sustainability and the availability of a suitable site (Site PAN8). Instead, a series of allocations is somewhat inexplicably proposed at demonstrably less sustainable Rural Service Centres and also at materially less sustainable Service Villages.</p> <p>This approach results, wholly unnecessarily, in an unsustainable pattern of development which does not have regard to the needs of Pangbourne and which conflicts with the clear and logical strategies identified in Policies SP1, SP2 and SP3 of the Local Plan.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>As set out in more detail in our representations to Policy SP15, the approach to housing provision in the North Wessex AONB area, which makes no provision for development at Pangbourne, is fundamentally unsound and should be reviewed, ensuring that an allocation is made at Pangbourne (Site PAN8) - as the most sustainable location for development in this spatial area.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes

5. Independent Examination	It is important for the Inspector to fully understand the existing flaws with the Plan with specific regard to Pangbourne. This can be best achieved by us presenting oral evidence to the Inspector.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>Pangbourne is identified by Proposed Policy SP3 as being a Rural Service Centre (the same designation as is currently has through ADPP1 of the Adopted Core Strategy). This is the second tier of settlements after the main urban areas of Newbury, Thatcham and the Eastern Urban Area. SP3 identifies Rural Service Centres as larger rural settlements offering development potential appropriate to the character and function of the settlement.</p> <p>Pangbourne has a mainline railway station offering direct high speed services to Oxford, Reading and London and has frequent bus services operating into Reading and to other surrounding towns and villages. Within the village centre there is a supermarket, bank, pharmacy, post office, doctors surgery, library, primary school, public houses, dental practices, places of worship, a protected employment area, convenience stores, restaurants and takeaways, and a village hall, as well as a youth / water sports centre, children's play areas and sports grounds.</p> <p>The LPR evidence base includes the settlement boundary review topic paper. Appendix 1 of the topic paper – the audit criteria for services and facilities states that:</p> <p>“A settlement's accessibility to services and facilities is defined by a 1 kilometre radius from the centre of the settlement and for access to railway stations and employment opportunities within 2 kilometres.</p> <p>These distances demonstrate a reasonable commutable walking distance as suggested by the Chartered Institution of Highways and Transportation (Providing for Journeys on Foot 2000)”</p>

Please give reasons for your answer	<p>This response to proposed policy SP4 is on behalf of Charlesgate Homes Limited who are promoting land in Sulhamstead for housing allocation for self and Custom build housing (SUL1)</p> <p>This proposed policy appears to suggest that the starting position for all planning applications is a no, which is clearly in conflict with the NPPF goals which is that there should be a presumption in favour for all new developments. It is understandable that there will need to control on development in this area so as to not cause a detrimental impact on a facility that aids national security.</p> <p>It is advised that throughout this proposed local plan review that currently any land within the AWE DPEZ zone in the Burghfield and Aldermaston will not be considered for ANY additional housing due to the WBC emergency planners advising that NO additional dwellings can be accommodated within the WBC emergency plan.</p>

	<p>There does not appear to have been any site assessment done on any of the sites that are being promoted in the emerging local plan, and looking at the updated HELLA document, any site within the out of date DPEZ zone has been immediately omitted without any further site by site assessment, and would suggest that WBC are seeking a moratorium on any additional houses or businesses within this DPEZ</p> <p>Charlesgate Homes Limited has instructed Mr Keith Pearce from Katmal limited to not only undertake a site assessment on SUL1 (land at Benhams Farm, Hollybush lane) but has also undertaken a risk assessment on the AWE burghfield site and its activities as well undertaking an assessment of the current DPEZ and policy SP4.</p> <p>This site assessment and assessment of the Burghfield AWE and the current DPEZ have been attached in appendix 1 [see attachment] which is entitled "AWE Burghfield emergency planning implications for a proposed development at Benham's Farm, Hollybush Lane, Burghfield Common, Reading RG7 3JS." Which is site SUL1 in the WBC HELLA report on promoted sites for residential housing</p> <p>This report is extremely detailed, but Mr Pearce has provided a summary to his findings in support of SUL1 as a site for residential development which is currently within the DPEZ;</p> <ol style="list-style-type: none"> 1 The proposed development site is outside the UPAZ where prompt protective actions (in this case shelter) are estimated to be able to provide a nett benefit if the postulated accident occurred on the AWE Burghfield site while the wind was blowing towards the proposed development site under relatively unlikely weather conditions. Therefore, no detailed emergency plan is required to enable urgent protective actions at this site. 2 The potential radiation dose to people living on the proposed development are so low and the probability of any such event affecting the site so low that we can assert with confidence that the AWE Burghfield site does not pose a significant risk to those who might live in the development. 3 The dose rates at the proposed development site during and after the postulated event would be sufficiently low as to allow life as normal, including home visits by emergency services and in-home service providers. 4 There are a number of sensible options to redefine the DEPZ such that the development site would be outside it. This would remove all the REPPIR-19 emergency planning requirements except those associated with severe accidents and outline planning. 5 The AWE Burghfield site will not be affected by external hazards resulting from a residential development this far away 6 The development will not affect the ability of the emergency services or others to gain access to, or egress from the site and so will have no impact on the ability to respond any event on the AWE Burghfield site. 7 This proposal does not raise serious safety concerns nor does it lead to a breach the ONR demographic criteria. 8 It is concluded that the proposal would not present a barrier to the ability of emergency services to safely carry out their duties, and nor would it affect the Council's ability to execute and manage its obligations under the REPPIR plan 9 Given the above, the local authority can provide the ONR with "adequate assurance that the proposed development can be accommodated within their existing off-site emergency planning arrangements (or an amended version)" allowing the ONR to approve the development. <p>The SP4 policy appears to not take a "each site considered on its own merits" and hugely constraints all additional net housing in this location and is therefore at odds with the NPPF which supports the delivery of sustainable development, especially being that Burghfield Common is a Rural service centre and a good location for much needed residential housing.</p> <p><i>Attachment: Response to AWE DEPZ zone.</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>The SP4 policies that limit development are not justified and not supported by evidence submitted by nuclear experts.</p> <p>The suggestion that the starting point for all applications submitted is a 'NO' goes against the NPPF policy to support sustainable development and there should be a presumption in favour of development, especially when the expert witness statement attached highlights the flaws in trying to enforce a housing monitorium in the DEPZ.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>the sole reason for SUL1 (benhams farm) not being allocated is based on the fact that the DEPZ has increased in size, but not to the RIPPAR 19 standards, and it maybe that we will need to rely on the expert Witness Dr Keith Pearce to support the statement attached.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes	

<p>* No</p> <p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>Aldermaston Parish Council (APC) reviewed WBC's draft Local Plan when it met on 14th February 2023, and wish to make the following observations.</p> <p>Under the current plan the advice is that AWE/Emergency Planning will likely advise against new residential development in the DEPZ.</p> <p>Policy SP4 now states that AWE/ONR/Emergency Planning will likely advise against development that could lead to an increase in residential or non-residential populations within the DEPZ. Aldermaston Parish Council has long argued that WBC should maintain a low-density of people around AWE in the interest of public safety, and have been particularly concerned that Emergency Planning does not have a record of approximate worker numbers in the area (we believe the number of workers travelling into our Parish greatly exceeds the number of residents living in the Parish) . It is therefore our view that Emergency Planning could not reasonably assess whether any new commercial developments could have been safely accommodated within the Off-Site Emergency Plan. We have also recognised that AWE require that external access routes (such as the A340) are kept clear to allow emergency responders to be able to deal with any situation that arises.</p> <p>The minutes from the AWE Local Liaison Committee meeting in November 2022 state: "AWE's position now is that it is very likely to object to any development inside the DEPZ which will increase the numbers of people or present a hazard or potential constraint on AWE. We are developing a process to make sure that we get to know all the planning applications and pre-apps which are coming into West Berkshire and the other local authorities. However, even if AWE/MoD does object, that doesn't mean that a planning application won't be granted. However, if we object along with WBC Emergency Planning and ONR then this is very possible the planning application will be refused."</p> <p>Aldermaston Parish Council requests that WBC Planning and Enforcement Officers are made fully aware of AWE's revised position, and that any persons seeking advice from the Duty Planning Officer is given clear warning that development opportunity within the DEPZ is severely limited and that past approvals should not be seen as an indication that future consents can be achieved.</p> <p>Apart from the above comments, Aldermaston Parish Council is supportive of the proposed Local Plan.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>

Please give reasons for your answer	On 22nd May 2019, the Government introduced REPPiR 19 to strengthen the national emergency preparedness and response arrangements for radiological emergencies. The new legislation replaced the Radiation (Emergency Preparedness and Public Information) Regulations 2001. All 36 UK nuclear sites working with 'ionising radiation' (as defined by the legislation) have one year to comply in full by 21st May 2020. The AWE Detailed Emergency Planning Zone (12th March 2020) set out and defined

	<p>the Outline Planning Zone (OPZ) for Aldermaston area as 15 km. WBC issued the emerging draft LPR in December 2020, under policy SP.4 section and the Outline Consultation Zone (OCZ) for Aldermaston is set at 8 km. The AWE Emergency Plan states:</p> <p>What is important and pertinent to our findings is that for both sites there has been no change in activity, safety or risk, but a change in criteria required to evaluate the risks against. The differences between the two sites with respect to the scale of change relates to what materials are on each site, the amounts involved and what processes are undertaken at each of the sites.</p> <p>Following and instruction from the ONR this was reduced to 5km. If the above is correct then why a reduction in the zone? furthermore, the OPZ has also been reduced from 15 km to 12 km.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

Please give reasons for your answer	Consultation with ONR: Reading the local plan review WBC clearly have failed to consult with the ONR, as they should have as the development is >500 homes and within 12KM of AWE Aldermaston. In SP4, there are lots of words but nothing to say that WBC have done anything more than read the ONR website (sections are cut and paste from the ONR). Clearly there is a massive impact to the population profile and rather than read a website, I would have expected WBC to have consulted with the ONR. This clearly reinforces that WBC have rushed LPR 19 and not consulted with one statutory body, how many other statutory bodies have not been consulted with? I believe that this lack of consultation demonstrates that WBC have rushed this consultation and hence it is unsound.

<p>Please give reasons for your answer</p>	<p>Our client has an agreement with the landowners of the site, known as 'Land to the rear of The Hollies' in the District, which currently forms part of an allocated site for approximately 60 dwellings under Policy HSA16 in the adopted Housing Site Allocations Development Plan Document (HSADPD) (May 2017).</p> <p>It is understood the 'emerging draft' Local Plan Review (LPR) no longer seeks to carry this allocation forward. This is despite part of the allocated site having already been built out and now occupied by residents. The Council say this is because the site now falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield. The DEPZ was extended as a result of the updated Radiation (Emergency Preparedness and Public Information) Regulations (REPPPIR) 2019.</p> <p>Our client does not support the removal of this allocated site from the Development Plan. Our client is keen to work collaboratively with the Council to secure the development of the remaining part of this currently allocated site. These representations therefore focus on responding to the removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield.</p> <p>These representations also seek to respond to the Council's development strategy (including Policies SP1 and SP3, SP12 and SP14) and decision-making in relation to an effective 'moratorium' on new development within Burghfield Common, despite the village remaining as a 'Rural Service Settlement', which offers 'development potential appropriate to the character and function of the settlement', according to the proposed Spatial Strategy.</p> <p>These representations also discuss Policy RSA12, which seeks the provision of approximately 100 dwellings within Burghfield Common1, within the extended DEPZ.</p> <p>In order to consider whether a Local Plan is sound, reference needs to be made to the National Planning Policy Framework (NPPF) (July 2021) paragraph 35. This identifies that a sound Plan is:</p> <p>a) Positively Prepared – 'providing a strategy which, as a minimum, seeks to meet the area's objectively assessed needs; and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development';</p> <p>b) Justified – 'an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence';</p> <p>c) Effective – 'deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground'; and</p> <p>d) Consistent with National Policy – 'enabling the delivery of sustainable development in accordance with the policies in this Framework'.</p> <p>It is in light of these criteria that the LPR (Regulation 19) version has been considered. We find the de-allocation of site HSA16 is not consistent with the Council's approach to its development strategy and the settlement hierarchy. In addition, its approach towards a 'moratorium' on further development within the parish of Burghfield Common is flawed.</p>

Policy SP4 – AWE Aldermaston and AWE Burghfield

With reference to Policy SP4 of the LPR, it is noted the site falls within the Atomic Weapons Establishment (AWE) Detailed Emergency Planning Zone (DEPZ) for AWE Burghfield, as identified by the maps in Appendix 3 of the Plan.

Policy SP4 explains that *“in the interests of public safety, and to ensure that any proposed developments do not pose an external hazard to the AWE sites, any new development... located in the Detailed Emergency Planning Zone (DEPZ) of... AWE Burghfield is likely to be refused planning permission by the Council, especially when the Office for Nuclear Regulation (ONR) and/or Ministry of Defence (MoD) have advised against that development and/or objection”*.

Within the DEPZ, the ONR is to be consulted on applications for *“any new development, re-use or re-classification of an existing development that could lead to an increase in residential... populations thus impacting on the off-site emergency plan”*.

We consider that as the site was allocated in the 2017 HSADPD and that only part of the allocation has been completed to date the site's development is in accordance with the allocation policy and can be accommodated without compromising the safe functioning of AWE Burghfield, public safety or impacting adversely on the function of the Emergency Plan.

Therefore, the principle of development remains plainly acceptable.

Prior to the submission of application 22/00244/FULEXT, correspondence with the Council's Principal Planning Officer on 14 January 2021 identified that:

“Our position is that the HSA DPD allocation remains in the Local Plan, so the principle of development is established. You will probably have seen our current consultation on the emerging Local Plan Review which proposes rolling forwards this [Policy HSA16] allocation”.

This provided confidence to our client to proceed with an application on the site for the remaining balance of 32 dwellings of the allocated 60 dwellings.

Following the refusal of 22/00244/FULEXT, our client submitted a request for Pre-application Advice (22/02010/PREAPP). Part of the Council's response was to indicate that from a planning policy perspective, 'senior officers' at the Council now considered there to be a 'moratorium' on all new development in the DEPZ in West Berkshire. However, we consider this was not, or never was, the intention of the DEPZ.

The updated REPPiR Regulations (2019) resulted in the extension of the DEPZ around AWE Burghfield to include the settlement of Burghfield Common. However, this has not prevented the delivery of development within the DEPZ. Indeed, the Annual Monitoring Report (AMR) (January 2023) shows at Table 3.7 that Phase 1 of Policy HSA16 was completed in 2021/2022, whilst Table 3.20 identifies there is an outstanding commitment for 114 dwellings within the DEPZ at Burghfield.

Further, Paragraph 3.34 of the AMR states that *“Due to the introduction of the new [REPPiR] that came into force in 2019, it extended the existing AWE land use planning consultation zone known as the DEPZ (Detailed Emergency Planning Zone). From 2020/21 onwards any development within the DEPZ will therefore be **monitored**”* (our emphasis).

The AMR is a significant and material consideration relating to the principle of development on this site. If the Council intended to prevent any further development in the DEPZ, then the AMR, published after the decision on application 22/00244/FULEXT was made, would have removed the site from Table 3.7 (Local Plan Housing Sites progress). It has not. In addition, the Council state that development within the DEPZ will be “monitored”. This is entirely different from placing a 'moratorium' on all development in the DEPZ. There is clearly therefore an inconsistency between the Local Plan evidence base and Appendix 7 of the LPA – the evidence base does not support the exclusion of this site from allocation in the LPR nor does it support that this site “is not deliverable at this time”. As above, the LPR is therefore unjustified on this basis.

The REPPiR-19 Regulations require the Council to prepare an off-site Emergency Plan to cover the DEPZ and to review and update the plan as necessary. It became clear at a Pre-application meeting held in October 2022 that a 'line in the sand' was drawn by the Council's Emergency Planning Officer, who personally decided that sites with outline planning permission should be included in the Emergency Plan's provisions and to exclude sites that were allocated for development. This personal view clearly does not take account of the definition of deliverable in the Framework.

The purpose of an allocated site is to establish the principle that a suitable form of development can be located on a particular site. Allocated sites should therefore automatically be included within the provisions of an Emergency Plan, regardless of whether they have achieved planning permission or not. The Emergency Planning Officer's decision was not based on any satisfactory legislative rationale or guidance, but on a personal judgement. It remains unclear as to why the provision of a further 32 dwellings on the remainder of the allocated site could not be accommodated in the Emergency Plan when the REPPiR Regulations accept that such plans will need to be amended to reflect changes over time. Indeed the original emergency plan has had to be updated to include the whole settlement of Burghfield and Burghfield Common as well as other settlements in Wokingham District, Basingstoke and Deane Borough and development on the edge of Reading. Therefore in 2019 the plan had to have a significant update and the Council has failed to provide any evidential reasoning as to why it could not accommodate this single allocated site but could accommodate all others.

At the time of preparation of the Regulation 18 draft Local Plan there had been no increase in risk at AWE Burghfield in the AWE Detailed Emergency Planning Zone Report dated 4 March 2020, prepared by the Council's Emergency Planning Officer for Members of West Berkshire Council. The Report stated in Section 3, under the heading 'Risk Management' that *“It is important to note that there are **no changes in activity on the AWE sites, and there is no greater risk to the public than before this legislation was introduced**”* (our emphasis). This is repeated in the conclusion at paragraph 7.1. Subsequently, a further *“declaration of no change”* for AWE Burghfield was issued in November 2022. Therefore, the 'risk' of an incident occurring has not increased and so development should not be restricted in the updated DEPZ. In the updated report prepared by the Council in January 2023, similarly it is stated that

there is no change in activity at AWE and no greater risk to the public. The change in the planning policy position in respect of this site between the Reg 18 consultation and this Reg 19 consultation is therefore not explained or evidence based.

Nevertheless, and importantly, the Regulations and the Guidance do not preclude development within the DEPZ. They do not state that development should be prevented from coming forward just because it is in the DEPZ. On the contrary, REPPiR-19 Regulations recognise that the population within the DEPZ will naturally change within the life of the emergency plan hence why Regulation 12 of REPPiR-19 Regulations require the Council to, at intervals not exceeding three years, review and revise the emergency plan.

The Regulations also envisage that development will come forward within the DEPZ, and there are many passages in the Guidance which acknowledge that development will take place in the DEPZ, particularly paragraph 250: *"In order to understand if a change in the local area necessitates a re-determination [of the DEPZ], the local authority should consider developments within or adjacent to the detailed emergency planning zone taking into account their potential impact on the effectiveness of the emergency plan"*.

As such, it is only the Council's role to *consider* whether proposed development can be accommodated within the off-site Emergency Plan, not to treat the DEPZ as an absolute constraint onto any development. The REPPiR-19 Regulations clearly do not support the Council's 'moratorium' on development in the DEPZ. Furthermore, in respect of the offsite Emergency Plan, paragraph 13 of the appeal decision at Boundary Hall, Tadley in 2011, confirms the Secretary of State's conclusion that *"that the Off Site Plan is designed to be **flexible and extendable** and that, while it is possible that the implementation of the application scheme would necessitate changes to the Plan, **the evidence does not lead to the conclusion that the Plan would fail**"* (our emphasis).

We are also aware of a recent (31 January 2023) Appeal Decision in Wokingham concerning a proposed residential development at Three Mile Cross. That appeal was allowed by PINS (**Appendix A**) with the Inspector accepting that:

[See attached document for ProVision obo Fisher & Sons Appendix A for Appendix A]

- the risk to a person being harmed by an incident at AWE Burghfield was one in many thousands or millions of years. The risk to public safety was therefore very low. (Para 12)
- if an incident were to occur, a person not sheltering (i.e. a person exposed to radiation from the plume) would receive a radiation dose less than the average annual dose received by residents in Cornwall. (Para 18)
- the proposal would not present a barrier to the ability of blue light services to safely carry out their duties, nor would it affect the Council's ability to execute and manage its obligations under the REPPiR Plan. (Para 22)

Whilst we appreciate that decision was not available at the time the Council published this LPR for consultation, it does serve to highlight that residential development in the DEPZ can be allowed and therefore further supports the case for carrying forward the allocation of this site into the LPR.

In summary, we consider that the Council's strategy for Burghfield is simply not justified or informed by the evidence, and that the Council's misguided approach to the role of the REPPiR- 19 Regulations has significant repercussions to the delivery of an allocated housing site and the objective of achieving sustainable development in this village.

Given the starting point for development should be a presumption in favour of sustainable development (NPPF Paragraph 10), we do not consider that Policy SP4 (particularly in reference to development likely being refused) is positively prepared. In addition, we consider the de-allocation of the site from the LPR on the grounds of it being within the extended DEPZ and its perceived impact on the function of the Emergency Plan is fundamentally incorrect. The LPR is therefore not sound and should not proceed to Examination.

Conclusion

These representations have been prepared by Pro Vision on behalf of our client, T A Fisher & Sons, in response to West Berkshire Council's consultation on its Local Plan Review 2022-2039 (Regulation 19) (January 2023).

Our client has an agreement with the landowners of the site known as 'Land to the rear of The Hollies' in the District, which currently forms part of allocated site 'HSA16', in the adopted HSADPD (May 2017).

We note the allocation for the site is no longer included within the 'emerging draft' LPR, as the site falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield, despite there being a remainder of 32 units still to be delivered.

Our client **does not** support the removal of this allocated site from the LPR.

	<p>These representations have therefore focused on responding to the unjustified removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield as well as the development strategy and spatial hierarchy proposed by the LPR.</p> <p>In particular, we consider the remaining number of dwellings should be carried forwards in the LPR as the development of the western part of the allocated site can be achieved and is deliverable now. We contend that the Emergency Plan can be updated to accommodate the delivery of 32 units without impacting adversely on the operation of AWE Burghfield, public safety or the functioning of the Emergency Plan. The LPR as currently drafted is unsound, as it is not justified, not consistent with the Framework and not positively prepared.</p> <p><i>(attachment)</i></p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>It is acknowledged that the DEPZ for AWE Burghfield was extended in 2020 and is now a greater constraint to future development in the Eastern Area. However, it is important to note that some recent development in the DEPZ has been considered to be appropriate. In January 2023, as referred to above, an Inspector allowed a residential development of 49 units within the DEPZ at Three Mile Cross (within Wokingham borough) (ref. 3304042), where he concluded based on detailed examination that there was a 'very small' risk of an incident and that 'there would be no harm with regard to the proximity of the AWE Burghfield site.' Whilst the potential hazards of the AWE sites are recognised, it remains important that a positive approach is taken to considered development proposals in line with NPPF paragraph 38, in order to ensure that suitable sustainable development can be accommodated where possible.</p> <p>Supporting paragraph 4.61 explains that, "During the plan period there may also be changes to the DEPZ as a result of the requirement under REPPPIR legislation to undertake formal reviews of the DEPZ at least on a 3 yearly basis or because of a material change in work with ionizing radiation. This may result in the DEPZ for either AWE site remaining the same, extending or reducing in size and geography over time. These will be kept under review."</p>

	<p>It is noted that the DEPZ for both AWE sites was recently reviewed in January 2023 and has already resulted in minor changes to the DEPZ for AWE Burghfield, which need to be reflected in Appendix 3 of the LPR.</p> <p>As set out in our previous representations, the potential for changes to the DEPZ is of major importance given the development potential of land currently located within the DEPZ, including for example land of strategic importance at Grazeley. We would therefore strongly support the need to maintain ongoing review throughout the plan period, as referred to at supporting paragraph 4.61. Should the DEPZ change, this should be a trigger for a review of the LPR and reconsideration of appropriate sites for residential development, such as at the Estate's land at Grazeley, Burghfield Common and Green Park.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	Yes
Please give reasons for your answer	
4. Proposed Changes	<p>The following changes are thereby recommended in order to ensure the soundness of the Plan in line with NPPF paragraph 35:</p> <ul style="list-style-type: none"> During the plan period there may be changes in the inputs to the ONR's process which may result in consequential changes to the consultation zones or criteria. These will be kept under review. During the plan period there may also be changes to the DEPZ as a result of the requirement under REPPiR legislation to undertake formal reviews of the DEPZ at least on a 3 yearly basis or because of a material change in work with ionizing radiation. This may result in the DEPZ for either AWE site remaining the same, extending or reducing in size and geography over time. These will be kept under review. Should there be a significant redrawing of the boundary of the DEPZ during the Plan period a full review of the Local Plan will be undertaken.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
5. Independent Examination	<i>The Englefield Estate consider that the plan in its current version is not sound and would like the opportunity to set out how alterations could be made to the plan and its evidence base to enable it to be found sound and progress to adoption.</i>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No</p>	Yes

Please give reasons for your answer

The policy explains that in the interests of public safety, and to ensure that any new developments do not pose an external hazard to the AWE sites, residential development (among others) located in the Detailed Emergency Planning Zone (DEPZ) of AWE Aldermaston and AWE Burghfield is likely to be refused planning permission by the Council, especially when the Office for Nuclear Regulation (ONR) and/or Ministry of Defence (MoD) (or their agents) have advised against that development and/or object. The Plan clarifies that the ONR will be consulted on, 'any new development, re-use or re-classification of an existing development that could lead to an increase in residential or non-residential populations thus impacting on the off-site emergency plan'.

Footnote 11 in relation to the consultation criteria notes that these criteria may change over time and that Policy SP4 reflects the Council's intention to follow the latest ONR guidance from time to time. Gleeson supports the Council following the ONR advice as and when it may change. Paragraph 4.61 sets out that under the Radiation (Emergency Preparedness and Public Information) Regulations 2019 (REPPPIR) legislation a formal review of the DEPZ is required on at least a 3 yearly basis, or if there is a material change in work with ionizing radiation. 'This may result in the DEPZ for either AWE site remaining the same, extending or reducing in size and geography over time. These will be kept under review.'

Should the area covered by the DEPZ change as a result of new modelling, or if the advice of the ONR changes, then it is considered that the Council's approach to new development within the currently affected areas should also change.

The Plan sets out that the ONR advice on a particular development will be influenced in part by whether or not they receive adequate assurance from the owner of the Off-Site Emergency Plan (the Council) that the development can be accommodated within that Plan. If it is considered that the AWE Off-Site Emergency Plan would be adversely affected with no viable and sustainable mitigation options public health would not be protected and then the West Berkshire District Council Emergency Planning Service would submit evidence against the development to the local planning authority. The ONR will also provide advice for developments that potentially pose an external hazard to the AWE sites.

The newly inserted text at paragraphs 4.57 to 4.61 further explain that 'given the potentially cumulative effects of any population increasing surrounding the AWE sites, it will be necessary to monitor committed and future approved but not built development in partnership with neighbouring councils. The Councils will monitor housing completions and commitments as part of the Annual Monitoring Report and send this information directly to the Emergency Planning Services in each council and the ONR for them to make informed judgements when assessing future development proposals.' This suggests that rather than all new residential development within the DEPZ being unacceptable, the acceptability of new development will depend on the capabilities of the Emergency Planning Services to respond to populations in the DEPZ. The capabilities of the Emergency Planning Services may change over time and if the capability of the Emergency Services improves then consideration should be given to whether any new residential development could come forward at Burghfield Common, without unduly affecting the off-site emergency plan for AWE Burghfield. If this potential does arise allocations should be made for residential development at Burghfield Common to support its important role as a Rural Service Centre. The Council should work alongside the emergency services to improve their capability to better respond to any off-site emergency arising from AWE Burghfield. The goal should be for additional response capacity that would enable a suitable amount of development to come forward to support the continued role of Burghfield Common as a Rural Service Centre. If future development within the DEPZ is completely curtailed this will have negative impacts on the existing population and stifle sustainable development.

Paragraph 6.35 states that 'If in the future the DEPZ is reviewed and the emergency planning arrangements be amended, then future reviews of the Local Plan will consider whether strategic allocations in the area would be suitable.' This provision is supported and it is considered that should a material change occur during the plan period to the DEPZ then a review of the plan should be commenced at the earliest opportunity. The Plan could be affected if the DEPZ expands or contracts. If the DEPZ expands it may encompass sites allocated for development. If these sites consequently become unviable there would be a negative effect on the Council's housing land supply and housing delivery that will need to be rectified. Alternatively if the DEPZ is reduced in size this may result in land previously within the zone becoming unrestricted and therefore potentially suitable for sustainable development. The Plan still recognises that Burghfield Common as a Rural Service Centre is a sustainable settlement, despite it now being wholly within the restrictions of the DEPZ. New development in sustainable locations has been proven to bring numerous social, economic and environmental benefits and if the DEPZ changes it is also considered that an early review of the Local Plan should be commenced at the earliest opportunity to enable the consideration and allocation of land that may then be outside of the DEPZ for development.

To summarise the above points, Gleeson Land supports the overall intentions of the Local Plan Review to deliver sustainable development for the district, the settlement hierarchy and the spatial strategy. However, it is considered that there should be a requirement for an earlier review of the Local Plan should any changes arise in the AWE Burghfield and AWE Aldermaston DEPZ's or the capabilities of the Emergency Planning Services that may change the acceptability of new residential development in areas currently covered by the DEPZ. In addition the housing target should be more clearly defined at the upper end of the given range. It should be clear throughout the whole Plan that the housing target is for 9,146 dwellings (538dpa), plus the 230 dwellings of unmet need from Reading Borough Council. This unmet need should be provided for in new site allocations now, rather than being left for a later review. Serious consideration should also be given to increasing the overall housing target further to support the delivery of more affordable homes given the very high need for such homes

2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<i>[See attached for Appendix A]</i> <u>Background</u>

Hope & Clay Construction Ltd are located to the north of the existing Easter Park site, which comprises a variety of employment uses including office (Class E(g)) (formerly B1), light industrial (Class B2) and warehouses (Class B8), as well as sui generis uses for vehicle repair and MOT. Prior to the development of the business park, the site, formed part of a saw mill and charcoal works. To the east of the site lies managed woodland and the Pinelands caravan park, whilst to the north, approximately 90 metres from the site are a line of residential dwellings along Padworth Common. To the north-west of the site is AWE Aldermaston, a nuclear research site.

Construction of the new Hope & Clay offices and warehouse finished in 2022 following approval by the Council in September 2014 for 1907 sqm of warehouse (B8) building and associated offices (B1a) for the storage of construction machinery and plant with associated access, parking and landscaping (ref. 14/01037/COMIND). At the time of approval, the council's Economic Development Officer considered that *"If Hope and Clay Ltd are able to consolidate onto one site, it is very likely that the business will be able to grow and develop further, employing more people and contributing to the local supply chain."*

Despite the site's long standing and existing use as an employment site, Easter Park is located in land outside of the defined settlement boundary and is not recognised within the adopted local plan as a Protected Employment Area as listed at Appendix G of the adopted Core Strategy. Currently, the adopted policy position for development at Easter Park is set out at Policy CS9 of the Core Strategy which states that, with regard to proposals outside of defined employment areas it states proposals for business/B8 uses will be assessed against compatibility with uses in the area surrounding the proposal and capacity and impact on the road network.

The Core Strategy Paragraph 5.46 also identifies a shortfall of B8 floorspace of approximately 24,000sqm in the district and a significant shortfall of 121,000 sqm of office space.

Housing and Economic Land Availability Assessment (HELAA) February 2020

Land adjacent to Easter Park ('Land off Benyon Road, Easter Park, Tadley') has been promoted for Employment (B1, B2 and B8) uses with an identified capacity of 8,400 sqm of floorspace. The assessment of the site was first set out within the Housing and Economic Land Availability Assessment (HELAA) in February 2020 (HELAA ref. ALD6).

Consistent with the methodology, the site was not automatically excluded from the site assessment at Stage 1b despite its noted location within the inner Atomic Weapons Establishment (AWE) Aldermaston planning consultation zone, with the document noting that *"Whilst the HELAA methodology identifies notified safety zones as an automatic exclusion criteria, it also states that the impact will be assessed on merits, taking into account the type of development and the nature of the hazard. This assessment will be undertaken in stage 2 of the HELAA."*

At Stage 2, the site's location adjacent to an existing employment (industrial) area was noted, as was the fact that this industrial estate is not a Protected Employment Area. Stage 2 concluded with: *"The proposed commercial use would have to be considered carefully with respect to management and control in an emergency due to its proximity to the AWE. Site is adjacent to an existing employment area, and so allocation would be dependent on a review of the District's employment needs through the Local Plan Review. Further information required on a number of matters, including highways and ecology, before a robust decision can be made." It was identified as being available, achievable and "potentially developable in part".*

Local Plan Review 2020-2037 Emerging Draft December 2020

In December 2020 the council published their Local Plan Review 2020-2037 Emerging Draft, informed by a number of evidence base documents, including the HELAA (2020), the Employment Land Review (2020) the Western Berkshire Functional Economic Market Area Assessment (FEMA) (2016) and the West Berkshire Economic Development Needs Assessment (EDNA) (2016).

Draft Policy SP20 made provision for 62,00 sqm of office (Class E) floorspace and 65,000sqm of industrial, storage and distribution floorspace in the District over the plan period, seeking to address the shortage as outlined in the Employment Land Review (2020), which stated:

"We estimate that as a minimum 65,000 sq m of new floorspace should be provided for office use in the next plan... The Council should scope the next generation of policies so that, if market demand for offices strengthens, it is clear that the 65,000 sq m requirement is a minimum and policy is flexible and supportive for all forms of office development." (Paragraphs 10 and 11); and

".. Demand is also more pressing given the current market shortage, and there is a need to frontload the plan with 16 ha of easily deliverable sites. Four or possibly five potentially suitable sites are identified through the HELAA that are capable of meeting the need for industrial floorspace. All of these sites are extensions to existing employment areas, and these are in the main area of market demand in the east of the District." (Paragraph 12)

The findings of the Employment Land Review document (dated August 2020) prepared by Stantec in relation to industrial, storage and distribution floorspace also reflect earlier findings of the Berkshire Functional Economic Market Area Assessment (FEMA) and Western Berkshire Economic Development Needs Assessment (EDNA) produced in 2016. The executive summary of the EDNA concluded that: *"Demand for industrial space remains strong and very low levels of vacancy reflect a limited supply of industrial accommodation (particularly modern, good quality space). Development of new industrial space in the FEMA has been limited in recent years, with much of the existing stock relatively dated and in need of refurbishment. Local commercial property agents report that demand for industrial premises is currently outstripping supply, and an upward trend in industrial rental values in recent years has led to new speculative industrial development being just about viable within the FEMA. The key issue going forward is a lack of new land and/or space to accommodate new development."*

Therefore it was clear that provision of additional floorspace proposed by draft Policy SP20, including through the creation of new Designated Employment Areas (DEAs) and extensions to existing DEAs, would go some way to meeting the overall demonstrated need.

Furthermore, the ELR (2020) made a series of recommendations to the council. This included to:

- Consider allocating the site for industrial uses ALD6 Land off Benyon Road, Easter Park, Tadley; and, furthermore;

Designate as (Protected Employment Areas (PEAs) Greenham Business Park, the Vodafone Campus, **Easter Park**, Langley Business Court, and the Old Mill Trading Estate. (Our emphasis added);

- It clarifies: “The PEAs are designated for B class use, and their boundaries and role should be reviewed to achieve a balanced portfolio to meet future requirements. There is a general presumption for employment generating uses within the PEAs and against non-employment uses”, and
- Para 4.155 of the ELR document recommends “Easter Park – is a modern business park to the south-east of AWE Aldermaston, and comprises office, light industrial and warehousing activity. There is one small remaining parcel that has permission for warehousing. **The Park should be designated as a PEA.** Land adjoining to the northeast is promoted through the Call for Sites (ALD6 2.1 ha), and is within an area of market attraction for employment uses, and we would support the inclusion of ALD6 within the Easter Park PEA designation.” (Our emphasis added).

As such, and following the recommendations of the EMR, Regulation 18 draft Local Plan Draft Policy SP21 ‘Sites allocated for economic development’ sought to a) classify formally Easter Park as an existing employment area by designating it as a ‘Designated Employment Area’ but also b) propose an extension of the site to achieve 8,400 sqm of new employment floorspace. The site was proposed as Site Allocation EMP3.

Draft Policy SP4 (and supporting Figure 3) identified that Easter Park in its entirety falls within the Detailed Emergency Planning Zone (DEPZ) of Atomic Weapons Establishment (AWE) Aldermaston, which are regulated by the Radiation (Emergency Preparedness and Public Information) Regulations 2019 (REPPiR). The draft policy stated that “In the interests of public safety, residential development in the Detailed Emergency Planning Zone (DEPZ) of AWE Aldermaston and AWE Burghfield is likely to be refused planning permission by the Council, especially when the Office for Nuclear Regulation (ONR) has advised against that development.” It went on to state that consultation arrangements for planning applications within the DEPZ, for any new development that could lead to an increase in residential or non-residential population (thus impacting on the off-site emergency plan) will be undertaken with the Office for Nuclear Regulation (ONR).

As such it is considered that the proposed allocation of the site adjacent to Easter Park under Draft Policy SP21 was made with full regard to site’s location within the DEPZ and the Government Regulations related to Radiation Emergency Preparedness.

In support of the proposed allocation of the site for employment development in the draft Local Plan, and to address points raised in the HELAA, Hope & Clay construction submitted the following information to further demonstrate that the site is suitable for development:

- Preliminary Ecological Appraisal.
- Illustrative Masterplan.
- Transport Assessment.

The submitted Illustrative Masterplan showed how the proposed expansion of Easter Park, on land adjacent to the existing Hope & Clay site, would deliver approximately 8,245 sqm of employment floorspace (GEA) (broadly in line with the proposed allocation), made up of 3,745 sqm of class E(g) (formerly B1) floorspace; 2,160 sqm of class B2 floorspace; and 2340 sqm of class B8 floorspace, across five units, ensuring an appropriate balance between site coverage and site constraints i.e. the required restoration area/buffers/wayleave.

Representations to Local Plan Review Proposed Submission (Regulation 19) Consultation

The purpose of a Regulation 19 consultation is to ensure that the plan is legally compliant and sound. To ensure the local plan is sound, it should be:

- Positively prepared - Provides a strategy which, as a minimum, seeks to meet West Berkshire Council’s objectively assessed needs and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development.
- Justified – ensuring that the Plan provides an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence;
- Effective – ensuring that it is deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground; and
- Consistent with national policy - Enabling the delivery of sustainable development in accordance with the policies in the National Planning Policy Framework (NPPF) and other statements of national planning policy, where relevant.

It is in light of these criteria that the Local Plan Review Proposed Submission (Regulation 19) version has been considered.

Policy SP4 ‘AWE Aldermaston and Burghfield’ / Draft Policy SP20 ‘Strategic Approach to Employment Land’ / SP21 ‘Sites Allocated for Employment Land’

Representation are made in regards to West Berkshire Council’s proposed amendments to Policy SP21 which have since removed Easter Park as a proposed Designated Employment Area, and therefore remove EMP3 Land off Benyon Road, Easter Park as a proposed Extensions to Designated Employment Area. In short, the consultation revisions to Draft Policy SP21 confirm that West Berkshire Council are no longer proposing to allocate Easter Park as designated employment site, nor are they considering its extension for additional employment floorspace.

The published updated Sustainability Appraisal (SA) / Strategic Environmental Assessment (SEA) November 2022, with regards to the site’s expansion, site ‘ALD6 Land off Benyon Road, Easter Park’, simply states that:

“The site will not be taken forward. The site is located within the AWE DEPZ and therefore, it is not considered suitable for development.”

As such, comments in respect of Draft Policy SP21 are interlinked with the council's approach to new development within the DEPZ of Atomic Weapons Establishment (AWE) Aldermaston, as set out at Draft Policy SP4, and so the two are considered together below.

On 22 May 2019, the government introduced the new Radiation (Emergency Preparedness and Public Information) Regulations (REPPPIR) 2019 to strengthen the national emergency preparedness and response arrangements for radiological emergencies. In essence, the regulations are designed to provide a framework for dealing with a potential radiation emergency arising from sites such as AWE Aldermaston. Regulation 8 requires that the local authorities are responsible for setting Detailed Emergency Planning Zones (DEPZ) for nuclear sites where there could be a radiation emergency with off-site consequences, on the basis of the operator's recommendations. Regulation 11 requires that the local authority must prepare an off-site emergency plan for responding to such an emergency, within the DEPZ area. It is not disputed that the site at Easter Park is within the DEPZ of AWE Aldermaston. West Berkshire Council's website indicates that an Off-Site emergency plan is being developed in the Spring of 2023, but also states that this document is **“not a public plan.”**

Paragraph 5.1.4 and Table 17 of the SA/SEA Environmental Report November 2022 provide the council's commentary on changes to Policy SP4 related to AWE Aldermaston (and Burghfield), including to suggest that any new development within the DEPZ will likely be refused (where previously this was limited to residential development), and state that changes *“reflect new information on DEPZ and off-site emergency plans”*. It summarises that the changes are likely to result in negative impacts on social sustainability as the policy seeks to restrict development (residential and employment) from taking place within the DEPZ, and therefore, there will be impacts on the provision of housing, affordable housing and new employment opportunities in the area. We therefore consider this to be a fundamentally flawed approach, for reasons set out below.

In the first instance, it is important to note that the only change in circumstance to the council's assessment of the site at Easter Park has been the submission by Hope & Clay Construction Ltd of additional supporting information in respect of ecology and highways, in addition to a masterplan demonstrating how additional employment floorspace on the site can be suitably and realistically achieved.

The updated HELAA (January 2023) once again confirms (paragraph 2.22) that sites within notified safety zones (eg AWE Aldermaston) will not automatically be excluded and instead *“the impact will be assessed on merits, taking into account the type of development and the nature of the hazard. Therefore sites within notified safety zones have gone through to Stage 2 of the HELAA (site assessment) and advice from the Ministry of Defence has been fed into the site assessments.”* Appendix 4 of the HELAA once again concludes that that the site is available, achievable and 'potentially developable'.

Therefore, it is evident the recommendation drawn by the SA/SEA 2022 is clearly inconsistent with the conclusions of the HELAA and the HELAA methodology, and **no clear reason has been provided by the council as to why this suitable employment site is ruled out purely because of its location within the AWE Aldermaston DEPZ.**

In respect of the site's location within the DEPZ, the Regulation 18 draft Local Plan was published for consultation after the REPPPIR Radiation (Emergency Preparedness and Public Information) Regulations 2019 were revised, and therefore it is reasonable to assume that the Council would have taken account of these Regulations in the preparation of that plan and in the formal allocation of Easter Park as an Designated Employment Site, and in the allocation of adjacent land for its expansion.

At the time of preparation of the Regulation 18 draft plan there had been no increase in risk at AWE Aldermaston: in the AWE Detailed Emergency Planning Zone Report dated 4 March 2020 prepared by the Council's Emergency Planner Ms Richardson for Members of West Berkshire Council it was stated in Section 3 under the heading *“risk management”*, that *“It is important to note that there are no changes in activity on the AWE sites, and there is no greater risk to the public than before this legislation was introduced.”* This is repeated in the conclusion at paragraph 7.1. Subsequently, a further 'declaration of no change' for AWE Aldermaston was issued in November 2022.

Nevertheless, and importantly, the Regulations and the Guidance **do not** preclude development within the DEPZ. They do not state anywhere that development should be prevented from coming forward just because it is in the DEPZ. On the contrary, REPPPIR Regulations recognise that the population within the DEPZ will naturally change within the life of the emergency plan hence why Regulation 12 of REPPPIR requires the Council to, at intervals not exceeding three years, review and revise the emergency plan. The Regulations also envisage that development will come forward within the DEPZ, and there are many passages in the Guidance which acknowledge that development will take place in the DEPZ, particularly Paragraph 250: *“In order to understand if a change in the local area necessitates a redetermination [of the DEPZ], the local authority should consider developments within or adjacent to the detailed emergency planning zone taking into account their potential impact on the effectiveness of the emergency plan.”*

As such, it is only the Council's role to consider whether the Proposed Development can be accommodated within the off-site emergency plan, not to treat the DEPZ as an absolute constraint to development. In short, the REPPPIR-19 does not support the Council's moratorium on development in the DEPZ.

In respect of the council's reference to new information regarding off-site plans, as this key piece of evidence has not been made publicly available, the approach to amending the local plan to prohibit development on this basis is unjustified. Nevertheless, Paragraph 13 of the appeal decision at Boundary Hall, Tadley in 2011 (a copy of the SoS decision is provided at Appendix A), confirms the Secretary of State's conclusion an off site plan is designed to be flexible and can be amended to accommodate the implementation of development proposals: *“the Off Site Plan is designed to be flexible and extendable and that, while it is possible that the implementation of the application scheme would necessitate changes to the Plan, the evidence does not lead to the conclusion that the Plan would fail”.* (paragraph 13).

As such, we consider that the strategy is simply not justified or informed by the evidence, and that the council's misguided approach to the role of the REPRIR has significant repercussions to the delivery of

	<p>much needed employment floorspace, and the objective of sustainable development, which includes balancing employment opportunities with providing new homes and conserving the environment. It is also considered that, given that the starting point for development should be that there is a presumption in favour of sustainable development (NPPF Paragraph 10), we do not consider that the Plan, particularly Policy SP4 (particularly in reference to development likely being refused) has been positively prepared.</p> <p>The Council's approach risks undermining the long term viability of this existing and established employment site. Without recognition of its existing status, or enabling suitable opportunities for growth, the site is restricted by countryside policy; furthermore if it becomes unviable that businesses cease to operate from the site, the result will be a vacant, sterilized, previously developed site.</p> <p>As stated above, the council have a long history of under-provision of employment floorspace, including offices and industrial uses. The council's most recently published evidence base documents, including the West Berkshire Employment Land Review (ELR) Addendum December 2022 and the Employment Background Paper January 2023, once again identifies a significant shortfall in provision against identified need.</p> <p>As drafted, Policy SP21 allocates four sites (ESA1; ESA2, ESA4; and ESA6) for B2/B8 industrial uses, and two sites (ESA3 and ESA5) for Egiii/B2 (office/industrial) uses. Assuming sites ESA3 and ESA5 adopt a 50%/50% split of these uses, the total quantum of new employment floorspace to be provided for across the plan period is as follows:</p> <ul style="list-style-type: none"> • B2/B8 = 63,001 sqm • Egiii = 5,800 sqm <p>This is significantly below the identified need for 91,109 sqm of industrial floorspace and 50,816 sqm of office space as set out at paragraphs 7.8 and 7.4 of the Draft LPR Proposed Submission Version respectively. The LPR is also clear that these demand figures are a minimum. As such, and at present, it is therefore considered that the plan does not meet the government's aims as set out within the NPPF to build a strong and competitive economy, particularly Paragraph 81 which states that Planning policies and decisions should help create the conditions in which businesses can invest, expand and adapt.</p> <p>Conclusion</p> <p>In conclusion Hope & Clay Construction Ltd object to the West Berkshire Council Regulation 19 submission version of the Local Plan Review (LPR) to 2039 on the basis that it has not provided an appropriate, evidence-based strategy for development. It is considered unsound for the following reasons:</p> <ul style="list-style-type: none"> • The LPR fails to recognise and support the growth of existing employment sites including Easter Park and risks undermining their success and viability, which is inconsistent with national planning policy; • There is a significant shortfall in employment land provision and the LPR does not identify sufficient additional employment sites to meet the district's employment needs in the context of a consistent under-supply. This is inconsistent with national planning policy; • The proposed removal of Easter Park and proposed extension (site ref. ALD6 - Land off Benyon Road, Easter Park) due solely to the location of these sites within the DEPZ of AWE Aldermaston, has been done so without due regard for the remit of the REPRIR (2019) regulations and is inconsistent with the available evidence base. We consider that complete change of position is not justified by the DEPZ issues, which does not represent a moratorium on development. We consider this strategy to be unjustified and draft Policy SP4 not to have been positively prepared. <p>As a result, the Plan is not sound and should be modified to address the concerns in this letter prior to submission. We trust this Statement clearly sets out our client's position at this stage and respectively request that the above is given due consideration as part of any examination into the West Berkshire Local Plan. Our client would like the option of participating in the examination of the plan to elaborate on these matters.</p>

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>The following submissions are made on behalf of the above three landowners who own part of the land allocated under Policy HSA 16 in the Adopted West Berkshire Local Plan 2017. The land in question is identified as Policy HSA16 'Land to the rear of The Hollies Nursing Home, Reading Road and Land opposite 44, Lamden Way, Burghfield Common'. Phase One of the site has already been implemented for some 28 dwellings. The second phase, owned by the above landowners is proposed for 32 dwellings. The allocation of that site was the result of many years of promotion by the landowners and the examination of that land for housing through a lengthy development plan preparation process. The allocation was followed by the optioning of the land by a reputable local developer and the submission of a detailed planning application in early 2022 under ref: 22/00244/FULEXT.</p> <p>Between the adoption of the Local Plan in May 2017 and the submission of this planning application in February 2022 there was a material change to the planning policy context to this site by the extension of the Detailed Emergency Planning Zone (DEPZ) at AWE Burghfield to cover all of the settlement of Burghfield Common, including this allocation site. This change occurred in March 2020. In December 2020 the Council consulted on this Local Plan Review Emerging Draft which commenced in December 2020, nine months after the DEPZ had changed, yet the site was still proposed for allocation in that Draft Plan. It is assumed that the Council's Emergency Planning Officer, AWE personnel and the Office for Nuclear Regulation (ONR) were consulted on this Draft Plan and had no objection to the inclusion of this housing allocation at that time despite the site now clearly inside the revised DEPZ area. There was therefore no necessity to challenge the Draft Plan's provisions at that time as far as this allocation was concerned. It was assumed, reasonably, that the Council had taken the DEPZ changes into account and had determined that the allocation should be maintained because of its statutory status and that the site was capable of accommodating new housing without adversely affecting the ability of the Council to implement the Emergency Offsite Plan.</p> <p>During consideration of the planning application the Council's Emergency Planning Officer objected to the proposed development and the application was subsequently refused, essentially the principle issue being the site's location within the DEPZ. That decision is awaiting an appeal decision by way of a Public Local Inquiry at the time of writing.</p> <p>The purpose of these submissions is therefore twofold. Firstly, to secure the reinstatement of this Housing Allocation in this Local Plan Review; and second, to seek a revision to Proposed Policy SP4 'Atomic Weapons Establishment (AWE) Aldermaston and Atomic Weapons Establishment (AWE) Burghfield'.</p> <p>The need for a Revised Policy SP4 'Atomic Weapons Establishment (AWE) Aldermaston and Atomic Weapons Establishment (AWE) Burghfield.</p> <p>A similar Policy to that now proposed, has been in place in both West Berkshire, Wokingham Borough, Reading Borough and Basingstoke and Deane District for some 15 years. It has led to serious inconsistencies in decision making depending on the LPA area involved; and to tensions, with Members often overriding Emergency Planning and ONR objections to allow the development concerned. Some applications have been required to submit a Radiological Impact Assessment (RIA) and have still been refused even when that RIA clearly demonstrated no adverse impact on the implementation of the Emergency Plan; while other applications have been allowed without being required to submit an RIA and with no objection from Emergency Planning or ONR. The result is that these DEPZ development restraint policies are being applied inconsistently and unreasonably and the credibility of the policies is being seriously undermined.</p> <p>A major problem is that none of the refused applications has been taken to appeal by way of a public local inquiry where detailed evidence could be examined. That situation has recently been resolved in relation to a site at Three Mile Cross, in Wokingham Borough, for 49 dwellings (Appeal Ref: APP/X0360/W/22/3304042 refers). The relevant Development Plan Policy states that development will only be permitted when the applicant demonstrates that the increase in the number of people living, working, shopping, and/or visiting the proposal can be safely accommodated having regard to the needs of 'blue light' services and the Emergency Plan for the AWE site. The Inspector notes, at para 11, that the risk of an incident is very small, with a risk assessment concluding that such an event could occur on a 1 in 10,000 year basis. Additional factors reduced that even further to a single event in many more thousand or millions of years. This was on a greenfield site which was:</p>

- outside of an adopted Settlement Policy Boundary, and not allocated in an Adopted or Emerging Local Plan;
- larger than this H16 site;
- and which was located north-east of AWE Burghfield and therefore downwind of the facility (prevailing wind being from the south-west) whereas H16 is upwind of that facility.

All of these are further mitigating factors in favour of the reinstatement of the H16 allocation.

The Inspector notes, at para 21, that other appeal decisions that have been refused have been the subject of appeals by way of 'written representations' where the Inspectors have rightly assumed a precautionary approach in the absence of detailed evidence. In comparison the evidence presented at the Three Mile Cross Inquiry was thoroughly examined and tested.

The Inspector concludes that the proposal (para 22 refers)

'...would not present a barrier to the ability of blue light services to safely carry out their duties, and nor would it affect the Council's ability to execute and manage its obligations under the REPPPIR Plan. Furthermore people living in or using the appeal site could be safely accommodated'

The facts of the matter and the reasoning undertaken by the Inspector on the basis of the evidence before him, make it clear that there must be some flexibility in the application of these AWE policies; that they can not reasonably be used to apply a blanket refusal to accept any further development within the DEPZ. Development proposals must rather be determined on the basis of the weighing of the factors in each individual case. These policies do not allow for this as proposed, and are therefore unreasonable, and are leading to inconsistent decision-making to the detriment of the proper comprehensive planning of the area.

As noted above similar policy inconsistencies are also occurring in the other three local planning authority areas impacted by the DEPZ designations at AWEs Aldermaston and Burghfield. Particularly, in respect of Basingstoke and Deane Borough whose Local Plan Review is also moving forward at the present time I made representations to that Review and proposed a revision to the relevant Policy (SS7 in that case) in November 2020. The intention was to revise the wording of the policy to facilitate the above-mentioned requirements. A similar policy wording is now set out here for consideration:

'Policy SP4 Atomic Weapons Establishment (AWE) Aldermaston and Atomic Weapons Establishment (AWE) Burghfield

The Council requires development in the land use planning consultation zones surrounding (1) Aldermaston and (2) Burghfield to be managed in the interests of public safety.

Development proposals will be required to be accompanied by a Radiological Impact Assessment (RIA) prepared by a recognised specialist. The RIA will evaluate the potential impact of the proposed development on the Offsite Emergency Plan, including the use and scale of development proposed, and the location of the development, against the following criteria:

- 1 **Warning and informing of the affected population;**
- 2 **Short-term and long term sheltering;**
- 3 **Evacuation and relocation/resettlement needs;**
- 4 **Access and egress for emergency vehicles;**
- 5 **Requirements for resettlement, decontamination and long-term recovery;**
- 6 **Any other notified appropriate issues.**

If the RIA demonstrates to the satisfaction of the Council that the Offsite Emergency Plan can accommodate the needs of the population in the event of an emergency then the proposed development will be considered acceptable under the terms of this policy'.

This revised policy wording is intended to enable policy SP4 to be clearer, criteria-specific and robust, whilst allowing for appropriate development which meets the policy tests. The above policy wording was prepared in close consultation with Dr. Mike Thorne, and acknowledged radiological impact expert, and who gave expert evidence at the recent Three Mile Cross Inquiry referred to above.

In conclusion, Proposed Policy SP4 and its predecessors are unreasonable and open to inconsistent application, to the detriment of the policy itself and good planning in general. The policy wording is too constraining, preventing new development in locations which are entirely appropriate; and unreasonably constraining fully sustainable settlements such as Burghfield Common from accommodating their share of new housing growth. Housing Allocation HSA16 is an example of such an appropriate location. Half of it has already been developed, it is allocated in a statutory Local Plan and its development will not adversely impact on the ability of the Council to implement the Emergency Offsite Plan. The allocation should properly be reinstated as a Housing Allocation in this Local Plan Review. Proposed Policy SP4 should be re-worded as set out above.

I would be grateful if you would take these comments into account in your further Local Plan Update preparations. If any additional information of clarification is required please do not hesitate to contact the writer.

<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is	

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>We have reviewed the policies and site allocations in relation to our remit (flood risk, biodiversity and conservation of fisheries and the water environment, groundwater quality and contaminated land, water quality and water resources) and have provided you with comments below. These comments are not soundness issues but will provide some clarity to the plan.</p> <p>We make no comments or suggest amendments to policies SP4 or DM33 of the draft plan. The Environment Agency is part of an offsite planning group who are consulted by West Berkshire District Council on any development proposals in the Detailed Emergency Planning Zone (DEPZ) of the AWE sites. We have permitted a number of activities and installations within AWE sites under our regulatory requirements and influences and would expect that AWE, or any other organisation undertaking new activities in developments considered under DM33 to consult with us if their activities would require environmental permits.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>

<p>cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>[See attachment 'Andrew Black Consulting (Bucklebury PC) Full Rep' for full consultation response]</p> <p>AWE Aldermaston and Burghfield (SP 4)</p> <p>The LPR contains very limited information regarding AWE Aldermaston and AWE Burghfield which is illogical given the significant impact this has had on the overall strategy for WBC including the site selection process.</p> <p>The changes to the Detailed Emergency Planning Zone for AWE Burghfield covers the area formerly identified for Grazeley Village and the allocation was subsequently dropped following objection from the Defence Nuclear Organisation.</p> <p>Paragraph 6.33 of the supporting text on Policy SP4 (Site Allocations in the Eastern Area) states that <i>if in future the DEPZ is reviewed and emergency planning arrangements are amended then future reviews of the Local Plan will consider whether strategic allocations in this area would be suitable</i>. Given the history of the DEPZ it is equally possible that the area could again be increased which would have a severe impact on the allocation for North East Thatcham and other allocations.</p> <p>BPC has identified that the approach taken to the DEPZ has been inconsistent and subject to significant changes in the period leading up to the regulation 19 consultation. BPC also has concern over the consultation process with AWE, particularly over the strategic allocation of a scale of development the size of North East Thatcham which is within the Outer Consultation Zone. There is a lack of compelling evidence that WBC has adequately consulted and considered the impact of AWE Aldermaston and AWE Burghfield in the preparation of the LPR.</p> <p>BPC will set out further information on this matter should the LPR reach the examination process.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>BPC has wider concerns around the way in which WBC has undertaken the consultation process for the LPR and the Duty to Cooperate in general. Failings with Duty to Cooperate are matters which are not capable of being remedied in advance of the plan being submitted for examination. BPC will set out further details of these failings to the inspector should the plan be submitted to the Planning Inspectorate by WBC.</p>
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	Yes
<p>5. Independent Examination</p>	<p>Bucklebury Parish Council wishes to participate in the examination process and will be presenting further evidence through the submission of matters statements and oral evidence from experts.</p> <p>To provide updated evidence to the examiner. For other relevant experts employed by parish council to give detailed technical views on matters.</p>

<p>Please give reasons for your answer</p>	<p>West Berkshire Local Plan Review to 2039 – Regulation 19 Proposed Submission Consultation</p> <p>We write on behalf of our client Green Park Reading No.1 LLP, which is the owner of Green Park. Green Park Reading No.1 LLP (“GPR”) is ultimately wholly owned by Mapletree Investments Pte Ltd (“Mapletree”). This response relates to the Regulation 19 Proposed Submission Consultation of the West Berkshire Local Plan Review (“the LPR”), which is open for comment until 3 March 2023. Deloitte previously responded to two Regulation 18 Consultations on behalf of GPR on 21 December 2018 and 5 February 2021.</p> <p>In writing this letter, we do so under the statutory provisions of a Regulation 19 consultation under the Town and Country Planning (Local Planning) (England) Regulations 2012.</p> <p>Background to Green Park</p> <p>Since acquiring GPR in 2016, Mapletree has been reviewing the Park’s potential, undertaking asset management and considering future opportunities. GPR is keen to support the Council in achieving sustainable development in the Borough.</p> <p>Green Park is a premier business park located in the Thames Valley area, serving the office needs of Reading, Wokingham and West Berkshire. It is situated on the border of the three local authority areas, covering a 79-hectare plot offering high quality office stock and associated amenities, located around a central body of water.</p> <p>Green Park is accessed from the A33 relief road and is located south of Reading town centre. The Park is home to a variety of office occupiers across a range of business sectors. A range of business accommodation is provided, ranging from larger corporate headquarter floorplates to smaller business start-up areas.</p> <p>The Park continues to be highly successful with ongoing interest from both global and smaller companies for office space. In 2016/17, Aukett Swanke undertook a refresh of the Fosters masterplan prepared in 1998 in order to update the development potential of the Park. Mapletree continue to look for opportunities to respond to market demand and manage the planned growth of the Park in a sustainable way. Securing an allocation for employment uses on land at 900 South Oak Way forms part of this ambition (referred to hereafter as the Site (see Figure 1 below)).</p> <p><i>[See attached map - Deloitte obo Green Park Reading No1 LLP_Figure 1]</i></p> <p>Previous Response to Regulation 18 Draft Local Plan</p> <p>On behalf of GPR, Deloitte submitted formal representations in response to the LBW Pre-Publication (Regulation 18) Draft Local Plan on 21 December 2018 and 5 February 2021. As part of the previous consultation, GPR proposed a series of changes, including the below:</p> <ul style="list-style-type: none"> • Requested that Green Park was included as a Designated Employment Area; • Requested an emphasis on the need for the continued enhancement of sustainable transport options and infrastructure, in particular the M4 corridor, which serves Green Park; • Requested support for Data Centres; and, • Requested clarification be added to Policy SP 4 that although the Office for Nuclear Regulation will be consulted, it is unlikely this will restrict non-residential development in the Detailed Emergency Planning Zone (DEPZ). <p>Local Plan Regulation 19 Response</p> <p><u>Policy SP4: Atomic Weapons Establishment (AWE)</u></p> <p>Aldermaston and Atomic Weapons Establishment (AWE) Burghfield Policy SP4 identifies Green Park within the Burghfield Atomic Weapons DEPZ. It is stated that residential development within this zone is likely to be refused planning permission, especially if the Office for Nuclear Regulation (ONR) objects to the development. It also identifies that any new development in the DEPZ that could lead to an increase in non-residential populations will be considered in consultation with the ONR. GPR notes the updated maps to take account of the revised consultation zones as of March 2020. The Site is also now located in the 12km consultation zone for the AWE Aldermaston which requires consultation for major hazard facilities and military uses.</p> <p>GPR recognises the need to consult the ONR for non-residential planning applications within the DEPZ. However, subject to appropriate emergency planning, it is not anticipated that non-residential development would have a significant impact on the off-site emergency plan for AWE Burghfield. Furthermore, it is</p>

	<p>considered that employment uses identified in either extant planning consents or established business park locations should also still be recognised as appropriate for further development of the same use. GPR therefore reiterates its request that clarification is added to Policy SP4 that although the ONR will be consulted, it is unlikely this will restrict non-residential development in the DEPZ subject to appropriate consideration of emergency planning.</p> <p>GPR notes that the ONR consultation zones will be reviewed every three years. In discussions with West Berkshire previously, it has been noted that there would be the publication of guidance for developers to refer to in relation to the consultation process and timescales with regard to applications impacted by the AWE facilities and related DEPZs. GPR requests an update on this guidance and that its principles are included within the Local Plan.</p> <p>Summary</p> <p>In summary, GPR welcomes the West Berkshire LPR and the published Regulation 19 document. However, GPR requests several modifications to the LPR as set out in this letter. In particular, GPR requests that the identified Site is classified as a Designated Employment Area to reflect its existing uses and its existing allocation, and that additional guidance is given in relation to the consultation process and considerations for development located within a DEPZ.</p>

Please give reasons for your answer	It is noted that policy SP4 of the draft Plan sets out planning policy requirements in respect of the Atomic Weapons Establishments at AWE Aldermaston and Burghfield, including details of the DEPZ, OCZ and 12km consultation zone. It is recognised that this policy is in response to the requirements of the Office for Nuclear Regulation. The council has ongoing concerns about how restrictions relating to the AWE are applied to the borough and, most notably, the limitations they place on future sustainable growth at Tadley. The council would like to continue to work proactively with Emergency Planners at West Berkshire to ensure a suitable approach is taken to future growth and change and that all options, including suitable housing allocations, are fully considered.

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<ul style="list-style-type: none"> • Bradfield College broadly supports the principles of Policy SP5 to deliver new developments which are more resilient to climate change. In particular, it supports the recognition that the application of the policy will depend on the nature and scale of the proposals. It is often impractical or inefficient in the case of small scale alterations or extensions to existing College buildings to overhaul the energy strategy for the building as a whole, or to introduce a separate energy strategy for the extension alone when the existing infrastructure remains fit for purpose and could support an enlarged building. Bradfield College acknowledges it has a significant part to play in reducing carbon emissions and is exploring opportunities to introduce renewable and low carbon infrastructure as part of a whole campus strategy. In accordance with NPPF, paragraphs 155 and 156, Policy SP5 should support employers and organisations to develop such strategies and for these to be taken into account when considering planning applications for individual development proposals on campus which may benefit from a longer term approach for lower carbon/renewable energy sources. • The following observations are made regarding the policy criteria: <ul style="list-style-type: none"> • In accordance with the National Planning Policy Framework (paragraph 154, 2021 Version), any local requirements for the sustainability of buildings should reflect the Government's policy for national technical standards. Accordingly, Policy SP5 can encourage but not require delivery of measures which would exceed the prevailing Building Regulation requirements. • Criteria c) and e) require new development to generate and supply of renewable, low and zero carbon energy and to supply local distribution networks. In the case of schools, colleges and other institutions, the policy should be positively prepared to support the delivery of energy strategies which could ultimately meet the whole campus needs through renewable and low carbon energy generation. This policy should recognise that it may not be feasible or practical for all individual developments to generate and supply energy but opportunities may exist to connect into existing or proposed "off-site" renewable/low carbon infrastructure as part of a whole campus energy strategy.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>

Please give reasons for your answer	Sandleford Park West (SPW) My client continues to support the principles of this policy which seeks to ensure new development responds appropriately to climate change. However, the introduction of the requirement to 'achieve net zero operational carbon development' poses a risk to the viability of new development which, in turn poses a risk to the delivery of new development and, ultimately, the delivery of the targets contained within the Council's Plan. The inclusion of the words '....will be <u>required to</u>' represents an excessively

	<p>onerous expectation at a time when development is already being challenged by the introduction of BNG later in (November) 2023. Since the Regulation 18 Plan was published, Part L of the Building Regulations has come in force. This provides a measurable benchmark against which new development could be considered. To futureproof the Policy, the wording should be amended to require new development to comply with the Building Regulations in force at the time the development is considered instead to requiring all new development to meet potential unattainable targets that render a development unviable. The deletion of the 'blue' infrastructure from 'k.' of the policy limits the valuable contribution new and existing water environments can make to the ability of new development to positively respond to climate change over time.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	No
Please give reasons for your answer	
4. Proposed Changes	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
5. Independent Examination	To make the relevant points before the Inspector and provide answers to any queries arising.
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No</p>	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	It is not clear why 'blue' has been removed at bullet point K. The plan refers to green and blue infrastructure numerous times within the plan.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>I propose that within Policy SP5 the objective of enabling and promoting the consumption of local goods and materials is added, and that favourable consideration is given to developments that aid this. This will ultimately reduce transport emissions, and aid the Net Zero goal while enabling local economic opportunities. Making West Berkshire a more robust to external risks, as the Covid Pandemic has shown us we can't continue to be wholly reliant on globalization to meet local demands.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No

Please give reasons for your answer	Herewith our response to the Local Plan 2022-2039: 11. SP5. The Plan proposes to build on Thames Water peat bog which is a flood plain. We strongly object to this as it would drastically increase the flood risk to Theale residents. The peat also helps address the importance of climate change due to the peat capturing carbon. The Plan conflicts with the identified site, policy RSA11. SP5 and SP6 therefore conflict each other.

Please give reasons for your answer	The principles of Policy SP5 are supported. Whilst the policy itself focuses on low and zero carbon technologies, it is suggested that reference is made to supporting infrastructure associated with renewable energy, specifically battery storage and the key role these provide in ensuring the national grid is stable. There is also a need for battery storage to be located in appropriate and suitable locations in close proximity to the renewable source and this element should be recognised within the policy and supporting text.

Please give reasons for your answer	<p><i>For Full Representation see attachment.</i></p> <p><i>By reference to Response Form Question 2, and in the absence of any wording in the LPR expressly supporting the growth of rail freight provision at Theale and wider omissions in respect of the Spatial Strategy, Climate Change Policy and Transport Policies, the LPR is not considered to meet the tests of soundness for the reasons identified above and summarised below.</i></p> <ul style="list-style-type: none"> • <i>The Plan is not positively prepared – it does not respond to identified need and it does not facilitate sustainable development.</i> • <i>The Plan is not justified – The Plan is not justified since it fails to be an appropriate strategy taking into account reasonable alternatives and based on proportionate evidence. The approach of not including either policy or supporting text to identify and support the growth of rail freight at Theale is not the most appropriate strategy when considered against the reasonable alternatives. There is no clear audit trail as to why this approach has been adopted and changed from earlier stages. The Sustainability Appraisal does not appear to consider how a different approach (supporting growth) would perform. As such it is not clear that the SA has been able to robustly inform the content of the LPR. The evidence points to the need to support the growth in rail freight provision both generally and in regional/local plan terms. The sound approach (and reasonable alternative) would be to at minimum provide supporting text which supports growth at Theale and/or to otherwise have this expressed within Policy text itself.</i> • <i>The Plan is not Consistent with National Policy – the LPR is not consistent with NPPF and other relevant national policy in particular with regard to: promoting a sustainable pattern of development; meeting the challenge of climate change; supporting sustainable transport (including supporting modal shift of freight from road to rail, wherever possible, to reduce emissions from the freight sector); and considering the specific locational requirements of different sectors in suitably accessible locations. The lack of consistency with National Policy is both in terms of site specific considerations of the Theale Rail-Road Transfer Site under Policy DM 43 and supporting text and more generally in respect of: Spatial Strategy Policy SP1, Climate Change Policy SP5, and Transport and Transport Infrastructure Policies SP23 and DM42.</i>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	No comment
4. Proposed Changes	<p><i><Proposed Changes shows as underlined for additions and strikethrough for deletions></i></p> <p>Policy SP5, Responding to Climate Change</p> <p><i>"The principles of climate change.....Depending on the nature and scale of proposals, development will be expected to satisfy the following criteria:</i></p> <ol style="list-style-type: none"> 1 To withstand... 2 To take advantage.... 3 To achieve net zero..... 4 To achieve the highest... 5 To generate and ... 6 To provide for sustainable forms of vehicular and personal transport... 7 <u>To demonstrate how opportunities to secure the sustainable movement of freight have been maximised and secured.</u> 8 To enable....

Please give reasons for your answer	<p><i>[For full response see attached document]</i></p> <p>SPS: Responding to Climate Change</p> <p>Since the previous iteration of the Local Plan Review, part c) has been added to the policy requiring all development to achieve net zero carbon operationally. Whilst it is clear that there is a transition towards zero carbon development, and rightly so, this transition will not happen instantaneously. It will take the development industry, including building suppliers, materials and technical design specifications, a period of adjustment to ensure the processes and products are in place to successfully facilitate zero carbon development nationally.</p> <p>It is our position therefore that the most effective way of achieving more energy efficient housing is through the application of building regulations and implementation of the Future Homes Standard. This provides a clear and universal set of requirements providing certainty to developers from the outset.</p> <p>We maintain our objection to the requirement of Policy SPS for all development to achieve the highest viable levels of energy efficiency (part d) as such an approach will require a viability assessment to be submitted with every planning application, leading to further delays due to negotiations regarding what level of efficiency can be achieved. The planning process already takes a considerable amount of time and it is our experience that even small-scale developments can take in excess of a year to be determined. The requirement for a viability assessment to assess the maximum energy efficiency measures that can be provided will delay the timescales of planning applications from date of submission to determination further.</p> <p>Whilst Rectory Homes are committed to responding positively to climate change and we strive to make improvements to the efficiency of our development schemes where possible, the requirements under Policy SPS as drafted provides no certainty to the applicant or the decision maker as to what is expected. This is contrary to Paragraph 16 of the NPPF which requires local planning policies to be unambiguous. In light of the above, parts c) and d) are unsound as they are not consistent with the Framework relating to technical building standards.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	As currently drafted the policy is not capable of giving the certainty required. It calls into doubt the accuracy of the whole plan viability assessment, which purports to assess the financial impact of a policy which is not clear on its scope of application.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes	No

* No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	The policy is not clearly drafted. Requiring development 'to contribute to' carbon neutrality by 2030 is an admirable aim, but the expectations are not clearly set out here. Of key concern is the fact that the detailed requirements of sub clauses a) to m) (setting out carbon neutrality measures) will be expected "depending on the nature and scale of proposals". The expectation should be set out clearly so that developers know what will be expected of them and can factor this into the development models. It is difficult to understand how the whole plan viability assessment has assessed the cost implications of policy SP5, when the policy itself does not give any indication what scale or type of development proposal will be subject to it. Our client supports efforts to improve building / energy standards and progress toward carbon neutrality; it simply wishes to ensure the expectations are clear, transparent, and applied equally so there is a level playing field.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Policy needs to be redrafted to make clear what scale of development will be subject to the requirements of the proposal. Remove words 'depending on the nature and scale of proposals' and replace with clear wording setting thresholds for application of the policy requirement.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the	Yes

<p>delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>While we broadly support the proposed policy, including the intention we infer underlies criterion m, there are ways other than reversibility and minimum intervention that could enable improved environmental performance. So, the criterion as worded could be unintentionally constraining. We suggest simplifying the criterion as shown.</p> <p>Further work the Council may decide to undertake on measures that could enable the District to reach its net zero ambitions could reveal other principles that the Council may find useful. We advise also referring to a 'whole building approach' as stated in paras 5.55 and 10.92 of the submission plan.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Depending on the nature and scale of proposals, development will be expected to satisfy the following criteria:</p> <p>m. To maintain the integrity of the historic environment and to respect the character and improve the environmental performance of heritage assets without compromising their significance, by adopting principles of reversibility and minimum intervention in accordance with Policy SP9. <u>This necessitates taking a whole building approach and use of appropriate materials.</u>"</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<i>c) Comments on other LPR Draft Policies (SP1, SP5, SP23, DM42 and supporting text)</i> In non-site-specific terms the LPR policies in respect of spatial strategy, climate change and transport considerations also raise concerns in the context of the tests of soundness. The spatial strategy, climate change policy and transport policy should equally be consistent with National Policy requirements with regard to supporting and promoting sustainable transport.

Across the LPR there are concerns that opportunities for policies to support sustainable development and specifically to encourage modal shift (to ensure the plan is positively prepared and consistent with national policy) have not been included. This again raises issues of soundness.

The LPR as currently drafted is not consistent with NPPF requirements in terms of meeting the challenge of climate change (paragraphs 152-154). Neither is it consistent with wider national policy

d) Consideration of Tests of Soundness

By reference to **Response Form Question 2**, and in the absence of any wording in the LPR expressly supporting the growth of rail freight provision at Theale and wider omissions in respect of the Spatial Strategy, Climate Change Policy and Transport Policies, the LPR is not considered to meet the tests of soundness for the reasons identified above and summarised below:

- **The Plan is not positively prepared** – it does not respond to identified need and it does not facilitate sustainable development.
- **The Plan is not justified** – The Plan is not justified since it fails to be an appropriate strategy taking into account reasonable alternatives and based on proportionate evidence. The approach of not including either policy or supporting text to identify and support the growth of rail freight at Theale is not the most appropriate strategy when considered against the reasonable alternatives. There is no clear audit trail as to why this approach has been adopted and changed from earlier stages. The Sustainability Appraisal does not appear to consider how a different approach (supporting growth) would perform. As such it is not clear that the SA has been able to robustly inform the content of the LPR. The evidence points to the need to support the growth in rail freight provision both generally and in regional/local plan terms. The sound approach (and reasonable alternative) would be to at minimum provide supporting text which supports growth at Theale and/or to otherwise have this expressed within Policy text itself.
- **The Plan is not Consistent with National Policy** – the LPR is not consistent with NPPF and other relevant national policy in particular with regard to: promoting a sustainable pattern of development; meeting the challenge of climate change; supporting sustainable transport (including supporting modal shift of freight from road to rail, wherever possible, to reduce emissions from the freight sector); considering the specific locational requirements of different sectors in suitably accessible locations. The lack of consistency with National Policy is both in terms of site specific considerations of the Theale Rail-Road Transfer Site under Policy DM 43 and supporting text and more generally in respect of: Spatial Strategy Policy SP1, Climate Change Policy SP5, and Transport and Transport Infrastructure Policies SP23 and DM42.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate?
 * Yes
 * No

Please give reasons for your answer

4. Proposed Changes

e) Changes required to make the West Berkshire Proposed Submission (Reg 19) Local Plan Sound

By reference to **Response Form Question 4** changes are identified as being required to make the West Berkshire Proposed Submission Local Plan sound. Specifically, the changes are required to ensure the plan is positively prepared, justified, and consistent with National Policy.

To address the concerns raised with regard to soundness and specifically the failure of the LPR to appropriately identify and support modal shift in the context of transshipment of freight changes are sought in the context of spatial strategy, climate change and transport policies. Additionally, in site specific terms express support for growth of the Rail-Road Transfer Site at Theale is sought. The specific changes required to make the plan 'sound' are as follows: (Changes required shown in red underlined/struck through). It is confirmed that the schedule of required changes has been jointly drafted and agreed between NR, Bampton and the Englefield Estate.

Schedule of Required Changes

(b) Policy SP5, Responding to Climate Change

"The principles of climate change.....Depending on the nature and scale of proposals, development will be expected to satisfy the following criteria:

- a. To withstand...
- b. To take advantage....
- c. To achieve net zero.....
- d. To achieve the highest...
- e. To generate and ...
- f. To provide for sustainable forms of vehicular and personal transport...

g. To demonstrate how opportunities to secure the sustainable movement of freight have been maximised and secured.

gh. To enable....

Early discussion with West Berkshire Council with regard to the representations made and suggested changes would be welcomed.

5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

Please give reasons for your answer	5.3 Policy SP5 'Responding to Climate Change – We support the general aim of this policy, however the wording should require conformity with Building Regulations in force at the time of development coming forward due to the period of time covered by the plan period. There is vagueness within the policy relating to the viability of energy efficiency levels. This provides uncertainty for developers and should be re-worded.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No
Please give reasons for your answer	
4. Proposed Changes	
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Our position is that the site should be included as a proposed residential allocation and that the LPR does not provide enough sites to provide sufficient housing supply.

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Object. Bloor Homes supports the Council's objective to ensure development responds positively to the challenges of climate change but an amendment is required to Policy SP5 to ensure it is effective and, therefore, sound.</p> <p>Policy SP5 sets out the Council's overarching policy with respect to climate change which directly supports the NPPF and specifically Paragraph 153, which states; 'Plans should take a proactive approach to mitigating and adapting to climate change, taking into account the long-term implications for flood risk, coastal change, water supply, biodiversity and landscapes, and the risk of overheating from rising temperatures.</p> <p>Furthermore Paragraph 154(b) states; 'New development should be planned for in ways that can help to reduce greenhouse gas emissions, such as through its location, orientation and design. Any local</p>

	<p>requirements for the sustainability of buildings should reflect the Government's policy for national technical standards.'</p> <p>In addition to a range of requirements which consider the climate resilience and adaptability of development, the Policy includes criteria c., d, and e., which relate to energy and carbon emissions.</p> <p>These are set out below:</p> <p>c. To achieve net zero operational carbon development by applying the energy hierarchy, achieving the highest viable levels of energy efficiency, generating and supplying renewable, low and zero carbon energy, and as a last resort carbon offsetting in accordance with Policy DM4;</p> <p>d. To achieve the highest viable levels of energy efficiency;</p> <p>e. To generate and supply renewable, low and zero carbon energy for its own use and/or local distribution networks in accordance with Policy DM4;</p> <p>Para 6.55</p> <p>Object. The supporting wording is not justified or consistent with national policy guidance. Supporting paragraph 6.55, which specifies that additional policy criteria will be added as the Local Plan Review progresses. Now the plan is at consultation stage, this caveat should be removed. The policy needs to be clear and sound, giving certainty to the developers.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Proposed amendment 1.</p> <p>Criterion c. should also be amended to reflect the reality that the energy solution for a site must be viable to be deliverable. This will assist in ensuring that the policy is effective as it will facilitate sustainable delivery of the development strategy for housing and other development set out in the plan.</p> <p>c. Where viable and practical, To achieve net zero operational carbon development by applying the energy hierarchy, <u>achieving the highest viable levels of</u> enhancing energy efficiency, generating and supplying renewable, low and zero carbon energy, and as a last resort carbon offsetting in accordance with Policy DM4;</p> <p>Proposed amendment 2.</p> <p>To ensure that SP5 provides an over-arching strategy policy approach to climate change and to provide consistency with the requirements of Policy DM4 (and Bloor Homes' representations to DM4), criteria d. and e. of Policy SP5 should be removed. Criteria d and e are appropriately included in the more detailed climate change development management policy (DM4).</p> <p>d. To achieve the highest viable levels of energy efficiency;</p> <p>e. To generate and supply renewable, low and zero carbon energy for its own use and/or local distribution networks in accordance with Policy DM4;</p> <p>Para 6.55 - Remove</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>Yes. To provide the Inspector with further explanation of the need for appropriate policy wording to ensure a deliverable approach towards the delivery of climate change resilient development in West Berkshire.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>

4. Proposed Changes	<See attached report for full representation - DPDS obo TVCC_attachment_full rep_redacted> <u>Policy SP5 Responding to Climate Change</u> The Chamber supports the Council's commitment to responding to the ongoing climate emergency, and agrees with the criteria set out within this policy. This is in line with the Chamber's stated Local Plan Priority of promoting "initiatives that support a green recovery, and proposals that are helping to build a

	<p>local economy centred around net-zero, sustainability principles and social purpose". However, the policy could provide greater clarity on the thresholds for each criteria.</p> <p>Conclusion</p> <p>These representations have outlined West Berkshire Chamber of Commerce's concerns as to the soundness of the Local Plan preparation process. The primary concern of WBCC is that the proposed policies regarding designated employment areas, in particular SP20 as exemplified by the Council's approach to LRIE, are unsound and do not go far enough to ensure that the development or redevelopment of DEAs across the district is sustainable and creates the best conditions for attracting inward investment. This is as well as the policies potentially not being appropriately justified. As they are, the policies run the risk of enabling piecemeal development at Designated Employment Areas which would result in a lower quality of land available for business use as well as potentially resulting in vital environmental investigation not being able to take place.</p> <p>As such, various modifications have been proposed to ensure the soundness of the Local Plan. Most importantly, a development-plan and SEA led framework of criteria-based site specific policies for each DEA should be adopted which would guarantee that development or redevelopment is sustainable and can create the best conditions for inwards investment and regeneration. There have also been several wider minor comments and representations on other policies throughout the Local Plan.</p> <p>To conclude, these representations have concluded that the Proposed Local Plan is potentially unsound and we therefore respectfully request that the sentiments of these representations be fully considered and reflected in further Modification to the submitted Local Plan.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>5. Independent Examination</p>	We believe it is necessary as we are proposing significant modifications and the content of our representations is important.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	Policies have not given appropriate regard to climate change, sustainability or delivering environmental enhancements.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework. Policy SP5 sets out a number of criteria for new developments requiring climate change mitigation and adaptation to be embedded into new development. These criteria are to be applied 'depending on the nature and scale of the proposals' and the level of information provided should be 'proportionate to the scale and nature of the development proposed'. This policy is vague and unclear for applicants as to what exactly the Council are expecting developments to deliver and what supporting information needs to be provided with applications. This could very easily result in an entirely ineffective policy. The policy is entirely open to interpretation, there is no clarity as to what 'baseline' sustainability is expected or indeed what weight and support will be afforded to development that goes beyond the level of sustainability that the Council are expecting to be delivered. Policy SP5 misses the opportunity to encourage sustainable development by its vague nature.

	It is suggested that the policy is amended to provide clarity on what is expected to be provided as part of a planning application. The policy should also note that weight and support will be afforded to development which exceeds sustainability standards.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Policy SP5 should be amended to include: 'Positive weight will be afforded to development that demonstrates to the Authority that exceeds the required sustainability standards'
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	<p>The Council's commitment to meeting both its and the UK Government's target of net zero carbon emissions by 2040 is commendable and detailed at length in the justification to <i>Policy SPS</i>.</p> <p>The wording of the policy requires all new development to achieve 'net zero operational carbon' from the point of adoption.</p> <p>It is our view that the stepped approach to net zero in the Building Regulations is more pragmatic, as it allows developers appropriate time to suitably amend their designs and specifications in an efficient way and for the cost of energy efficiency technologies to fall.</p> <p>Were the Council to seek net zero from new development from the point of the Local Plan's adoption then we would respectfully remind the Council that the PPG states that "<i>The role for viability assessment is primarily at the plan making stage. Viability assessment should not compromise sustainable development but should be used to ensure that policies are realistic, and that the total cumulative cost of all relevant policies will not undermine deliverability of the plan</i>" (Paragraph: 002 Reference ID 10-002-20190509)</p> <p>Appropriate uplift to build costs for delivering net zero embodied carbon should be allowed for in the forthcoming Local Plan Viability Assessment.</p>

<p>Please give reasons for your answer</p>	<p>[See attached document for full accompanying statement - PSPconsulting obo Beftonforth Ltd REDACTED]</p> <p>Please refer to Section 3 and Section 4 of the accompanying statement prepared by PSP on behalf of Beftonforth Ltd – Ref PER109 Dated March 2023.</p> <p>SECTION 3 - POLICY REVIEW INCLUDING DRAFT POLICIES DM43 AND DM42</p> <p>National Planning Policy Framework (NPPF July 2021)</p> <p>The National Planning Policy Framework (NPPF) has a presumption in favour of sustainable development at its heart. Of particular relevance to the potential for growth in rail use at the Theale Railhead, Beftonforth have highlighted below particular elements of National Policy which support the Government's intention to increase the use of rail freight to assist in achieving national decarbonisation targets and deliver net-zero.</p> <ul style="list-style-type: none"> • At NPPF paragraph 106(c), planning policies should: <ul style="list-style-type: none"> “identify and protect, where there is robust evidence, sites and routes which could be critical in developing infrastructure to widen transport choice and realise opportunities for large scale development;” • At NPPF paragraph 106(e) planning policies are also required to: <ul style="list-style-type: none"> “provide for any large scale transport facilities that need to be located in the area, and the infrastructure and wider development required to support their operation, expansion and contribution to the wider economy...” • Footnote 44 on page 31 confirms that: <ul style="list-style-type: none"> “Policies for large scale facilities should, where necessary, be developed through collaboration between strategic policy-making authorities and other relevant bodies. Examples of such facilities include ports, airports, interchanges for rail freight,” [our underlining]. • NPPF paragraph 83 is clear that in the context of building a strong, competitive economy: <ul style="list-style-type: none"> “Planning policies and decisions should recognise and address the specific locational requirement of different sectors. This includes making provision for clusters or networks of knowledge and data-driven, creative or high technology industries; and for storage and distribution operations at a variety of scales and in suitably accessible locations.” [our underlining]. • At NPPF paragraph 152 In the context of meeting the challenge of climate change, the planning system should help to: <ul style="list-style-type: none"> “shape places in ways that contribute to radical reductions in greenhouse gas emissions...” • And NPPF paragraph 153 requires that: <ul style="list-style-type: none"> “Plans should take a proactive approach to mitigating and adapting to climate change...” • Similarly, NPPF paragraph 154 confirms that new development should be planned in ways that: “can help reduce greenhouse gas emissions...”

	<p>The consultation on the December 2022 proposed updates to the NPPF, which run to March 2023, do not propose any material change to the NPPF paragraphs quoted above.</p> <p>The Planning Practice Guidance (PPG) on Climate Change gives advice at paragraph 003 on “How the challenges of climate change can be addressed through the Local Plan”. The Guidance states that “there are many opportunities to integrate climate change mitigation and adaptation objectives into the Local Plan. Sustainability appraisal can be used to help shape appropriate strategies in line with the statutory duty on climate change and ambition in the Climate Change Act 2008.</p> <p>Examples of mitigating climate change by reducing emissions:</p> <ul style="list-style-type: none"> • Reducing the need to travel and providing for sustainable transport;” <p>Draft Policies SP1 ‘Spatial Strategy’; SP5 ‘Responding to Climate Change; and SP23 ‘Transport’</p> <p>Consistent with the above National Policy advice, Bectonforth consider that the following Draft Local Plan Policies should be amended as below:</p> <ul style="list-style-type: none"> • Draft Policy SP1 ‘Spatial Strategy’ should be extended to include opportunities to increase and expand the provision for the movement of freight by sustainable means. • Draft Policy SP5 ‘Responding to Climate Change’ listed criteria should also include an item to demonstrate how opportunities to secure the sustainable movement of freight have been maximised and secured. • Draft Policy SP23 ‘Transport’ should similarly include a requirement for development that generates a transport impact to demonstrate that all options to secure modal shift from road to more sustainable transport means have been explored. • The Supporting Text to Draft Policy SP23 should include a new paragraph encouraging modal shift for the movement of freight from road to rail.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>All as set out in detail in the Local Plan Review Documentation</p>
<p>4. Proposed Changes</p>	<p>Please refer to Section 4 of the accompanying statement prepared by PSP on behalf of Bectonforth Ltd – Ref PER109 Dated March 2023.</p> <p>SECTION 4 - REQUIRED CHANGES TO MAKE THE PLAN SOUND</p> <p>With reference to Response Form Question 2, in the absence of any wording in the Regulation 19 Submission Draft Local Plan expressly supporting the growth of the Theale Railhead, and with wider omissions with respect to the Spatial Strategy, Climate Change Policy and Transport Policies, the Submission Draft Local Plan is not considered to meet the tests of Soundness for the reasons identified above and summarised below:</p> <p>The Submission Draft Local Plan is not positively prepared since it does not respond to identified need and it does not facilitate sustainable development in accordance with National and Regional Policy.</p> <p>The Submission Draft Local Plan is not justified since it fails to deliver an appropriate strategy taking into account reasonable alternatives and based on proportionate evidence. The approach of not including either policy or supporting text to identify and support the growth of rail freight at Theale is not the most appropriate strategy when considered against the reasonable alternatives.</p> <p>There is no clear audit trail as to why this approach has been adopted and changed from the adopted Development Plan and from earlier stages of the current Local Plan Review. The Sustainability Appraisal fails to consider the increased use of rail freight consistent with National and Local Policy, when the evidence points to the need to support the growth in rail freight provision. The Sound approach and reasonable alternative would be to provide supporting text which supports the growth of rail freight at Theale and to have this expressed within the Policy itself.</p> <p>The Submission Draft Local Plan is not Consistent with National Policy in particular with regard to: promoting a sustainable pattern of development; meeting the challenge of climate change; supporting sustainable transport (including supporting modal shift of freight from road to rail, wherever possible, to reduce emissions from the freight sector); considering the specific locational requirements of different sectors in suitably accessible locations. The lack of consistency with National Policy is both in terms of site-specific considerations of the Theale Rail-Road Transfer Site under Policy DM43 and supporting text and more generally in respect of: Spatial Strategy Policy SP1, Climate Change Policy SP5, and Transport and Transport Infrastructure Policies SP23 and DM42.</p> <p>Changes required to make the West Berkshire Regulation 19 Proposed Submission Draft Local Plan Sound</p> <p>With reference to Response Form Question 4 changes have been identified below which are considered necessary to make the Submission Draft Local Plan Sound. The changes are required to ensure that the Submission Draft Local Plan is positively prepared, justified, and consistent with National Policy.</p> <p>To address the concerns raised in these representations with regard to Soundness, and specifically the failure of the Submission Draft Local Plan to appropriately identify and support modal shift in the context of the movement of freight, changes are sought below with respect to spatial strategy, climate change and transport policies. Additionally, in site specific terms, express support for growth of the Rail-Road</p>

	<p>Transfer Site at Theale is sought. The specific changes required to make the plan 'Sound' are shown below in red underline or strike through.</p> <p>It is confirmed that the schedule of required changes set out below, has been jointly drafted and agreed between Network Rail, Bectonforth and the Englefield Estate.</p> <p>(b) Policy SP5, Responding to Climate Change</p> <p>"The principles of climate change.....Depending on the nature and scale of proposals, development will be expected to satisfy the following criteria:</p> <p>a. To withstand... b. To take advantage.... c. To achieve net zero.... d. To achieve the highest... e. To generate and ... f. To provide for sustainable forms of vehicular and personal transport... <u>g. To demonstrate how opportunities to secure the sustainable movement of freight have been maximised and secured.</u> g.h. To enable</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	To explain in detail to the Inspector, the importance of the Local Plan Review including the opportunity for the growth of rail freight at the Theale Railhead.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Gleeson supports the Council's intention to improve the resilience of land, buildings and existing future communities to the opportunities and impacts arising from climate change. However it is considered that the most effective way for this goal to be achieved will be through following the national Future Homes Standard that will be delivered through building regulation changes, which will require new homes to be zero carbon ready by 2025. There is no need to replicate this requirement in Policy SP5 (c) and (d), and it is therefore considered that these points should be removed from Policy SP5.</p> <p>To summarise the above points, Gleeson Land supports the overall intentions of the Local Plan Review to deliver sustainable development for the district, the settlement hierarchy and the spatial strategy. However, it is considered that there should be a requirement for an earlier review of the Local Plan should any changes arise in the AWE Burghfield and AWE Aldermaston DEPZ's or the capabilities of the Emergency Planning Services that may change the acceptability of new residential development in areas currently covered by the DEPZ. In addition the housing target should be more clearly defined at the upper end of the given range. It should be clear throughout the whole Plan that the housing target is for 9,146 dwellings (538dpa), plus the 230 dwellings of unmet need from Reading Borough Council. This unmet need should be provided for in new site allocations now, rather than being left for a later review. Serious consideration should also be given to increasing the overall housing target further to support the delivery of more affordable homes given the very high need for such homes</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	

<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>We support the ambitions set out in Policy SP5</p> <p>We do however note that the minimum parking standards set out in Policy DM44 entirely conflicts with this policy which requires that:</p> <p><i>The principles of climate change mitigation and adaptation will be required to be embedded into new development, improving the resilience of land, buildings and existing and future communities to the opportunities and impacts arising from climate change. All development should contribute to West Berkshire becoming and staying carbon neutral by 2030.</i></p> <p>Requiring minimum parking standard even in highly sustainable locations clearly conflicts with the above statement, and particularly bullet point f which seeks to reduce car usage.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Regarding the Spatial Strategy, a Strategic Environmental Assessment (SEA) has been carried out, as part of the Local Plan appraisal process to promote sustainable environmental considerations in the preparation of the local plan.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an	

<p>appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>We have reviewed Policy SP5 - Responding to Climate Change and make the following comments.</p> <p>Firstly, to ensure flood risk is assessed against climate change we ask that an additional point is included in the criteria that all developments will be expected to satisfy. This should be added before point i):</p> <p><i>'To assess any future increase in flood risk because of climate change in accordance with policy SP6'</i></p> <p>This is to ensure the policy is fully compliant with National Planning Policy and the associated Planning practice guidance.</p> <p>Secondly, there should be a bullet point about protecting and conserving the water environment - not just in terms of water quality and resources (as in bullet point h), but in terms of protected and important species and habitat this is particularly relevant due to the includes the River Kennet Site of Special Scientific Interest (SSSI), the River Lambourn SSSI and Special Area of Conservation (SAC) status'. We suggest the following:</p> <p><i>'To manage and conserve adequate water resources and avoid harming important biodiversity species and habitat.'</i></p> <p>Thirdly, there should be a point about BNG and to have at least 10% at every site to help mitigate against climate change mitigation effects. For instance, Natural Flood Management (NFM) techniques could be used, for example by re-connecting rivers to their floodplains when and where possible. This is to ensure that development provides suitable mitigation and adaptation to climate change, considering the long-term implications for flood risk as well, and safeguards the future resilience of communities and infrastructure to climate change impacts. This is in accordance with Paragraph 149 of the National Planning Policy Framework (NPPF).</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	<p>The Council (Under Section 33A of the Planning and Compulsory Purchase Act) in its Duty to Cooperate with other prescribed bodies/key agencies when preparing the LPR in order to address strategic planning issues relevant to their areas has engaged generally with the Environment Agency during the Plan making process.</p>
<p>4. Proposed Changes</p>	<p>We ask that additional points are included in the criteria that all developments will be expected to satisfy. We suggest the points below.</p> <p><i>To assess any future increase in flood risk because of climate change in accordance with policy SP6.</i> This should be added before point i)</p> <p><i>To manage and conserve adequate water resources and avoid harming important biodiversity species and habitat.</i> This should be added before point h)</p> <p>Thirdly, there should be a point about having at least 10% BNG at every site to help mitigate against climate change mitigation effects.</p> <p>Policy SP5 We reviewed policy SP5 and note Paragraph 5.1 states - <i>The gases emitted such as carbon dioxide, methane and nitrous monoxide have added to our atmosphere and the greenhouse 'blanket' accelerating global temperatures and affecting the climate in ways that could change how we live and our long term behaviours.</i> We believe 'nitrous monoxide' should be 'nitrous oxide'. This should be amended.</p>

5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	We wish to attend the examination for an opportunity to explain the need to adequately assess and mitigate against impact of climate change in the plan. The suggested wording for example will ensure developments are not at risk of flooding as well as ensure the protection important biodiversity species and habitat.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that	

<p>unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Policy SP5 (Responding to Climate Change) – Thakeham supports the need to respond to climate change and we have set out own targets in this regard that exceed Government objectives, as highlighted above. However, Thakeham does not support the creation of bespoke policies and suggests the most effective way of achieving the national ambition to be net zero by 2050, alongside delivering the homes required to meet the needs of the country, is through the application of building regulations and the Future Homes Standard, and any opportunities for developers to exceed this. Creating bespoke policies which may require different building techniques is likely to only restrict the delivery of homes, therefore Thakeham does not support parts C and D of Policy SP5.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p>	<p>Yes</p>

* No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>4. Comment on DM policies</p> <p>4.1 Policy SP5 'Responding to Climate Change – we support the general aim of this policy, however the wording should require conformity with Building Regulations in force at the time of development coming forward due to the period of time covered by the LPR period. There is vagueness within the policy relating to the viability of energy efficiency levels. This provides uncertainty for developers and should be re-worded.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	Yes
<p>5. Independent Examination</p>	Our position is that the site should be included as a proposed residential allocation and that the LPR does not provide enough sites to provide sufficient housing supply.
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes * No</p>	Yes

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No

Please give reasons for your answer	<u>Part c and d are unsound as they are not consistent with national policy relating to technical building standards.</u> Our detailed concerns regarding the requirement for new residential to achieve net zero operational carbon are set out in our comments on DM4 which sets out the Council's policy approach to achieving this. The HBF recognises the need for new homes to be more energy efficient and support the national ambition to be net zero by 2050. However, we consider that the most effective way of achieving this alongside delivering the homes required to meet the needs of the country is through the application of building regulations and the Future Homes Standard. This will ensure that new homes are zero carbon ready from 2025 with net zero being achieved through the decarbonisation of the national grid. We would therefore suggest that SP5 is amended to remove point c and d which the HBF does not consider to be consistent with national policy.

<p>Please give reasons for your answer</p>	<p>Regarding the proposed and reduced plan to develop an area of North East Thatcham with 1,500 houses up to the year 2039. Thatcham has had many developments over the years (from 1972 when we moved here); in all these developments infrastructure has been sorely lacking, roads such as Tull Way and Floral Way can hardly be called infrastructure, yet they are there to ease the movements from the most recent developments, yet in Policy SP17 it is stated that the mitigation of the development impact on the highways network - this is not shown and at the February 2019 meeting there was going to be no improvement to Harts Hill Road, which already carries a heavy amount of traffic.</p> <p>Your policy also states that priority habitats and ecological features will be protected, and yet you also state that all people will have access to the area's land, very hard to achieve both.</p> <p>Policy SP6 states that flood risk for the site will not be increased, but does not state that flood risk to surrounding areas will not be increased, which is almost impossible to achieve with such a huge number of hard standings with houses on. It is also stated that the benefit to the community will outweigh the risk of flooding. That is hardly something that will endure you to all the people whose houses flooded in previous years and who either can no longer insure or pay increased premiums.</p> <p>Floral Way was supposed to be the boundary of North East Thatcham. It would be preferable to build a new secondary and primary school, with leisure centre on part of the proposed site and develop the current Francis Bailey Primary School, Kennet Secondary School and the Kennet Leisure Centre on what is a brownfield site that is much closer to the heart of Thatcham.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>

<p>* No</p>	
<p>Please give reasons for your answer</p>	<p>Schedules (Sections) 3 (SUDS) & 42 (Sewers). Flood & Water Management Act 2010.</p> <p>You will be aware from past correspondence of my efforts to get the Government to implement the above legislation. I have now exhausted all the direct contact with departments, agencies & organisations to pressure DEFRA to ABIDE by Government original intentions, & the Parliamentary Scrutiny Cilee's recommendations (2017), & the Food & Rural Affairs dee. (HC1 70— Sept. 2020) conclusions; & show some "Duty of Care" to home owners. The LGA will not accept my representations as an individual, but only from one of its local authority members.</p> <p>Therefore, I am formally requesting that West Berks Council makes representations to the LGA to pressure Government to implement this legislation immediately. This will enable the mandatory adoption of SUDS & Sewers, & close the loophole in planning procedures, which large developers are using to the legal, financial & environmental detriment of homeowners.</p> <p>Bracknell-Forest Council have gone some way in their policy towards SUDS provisions on new developments. Therefore why can not WBC do likewise. G.Eaton (Dept.for Levelling-up, Hsg. &Communities) has said in correspondence that LA's & Water Co.'s should be more robust at the early planning stages to require infrastructures to be adopted.</p> <p>This is not only a serious National issue, but of particular concern to the Thatcham Flood Forum. They are concerned that unregulated design, construction & future maintenance of private SUDS & sewer infrastructures on proposed developments north of the town on the rising escarpments up to Cold Ash & Bucklebury could in the future compromise & prejudice the integrity of the recent Flood Alleviation schemes being undertaken by WBC.</p> <p>I have spoken informally to some Thatcham & Newbury Town Councillors, who are sympathetic to the implementation of this legislation.</p> <p>There are many nuances & unintended legal, financial & environmental consequences to the delays in the Government's inaction on these issues, which have been outlined in previous correspondence. Therefore, I would be willing to discuss these issues with yourself & members.</p> <p>Recent correspondence from the Dept. for Levelling Up, Housing & Communities suggest that Councils should be expected to be more robust in their policies for the provision of infrastructures including flood risk management & sewerage infrastructures.</p> <p>An opportunity of the SUDS infrastructures is that they could be used as an integrated part of open space areas, developed to provide planting & biodiversity. Hence the need for such areas to be adopted & maintained by the Council.</p>

Please give reasons for your answer	With respect to run-off on pre-developed sites the maximum discharge rate equivalent to 50% of the exiting 1 in 100 year runoff rate is not acceptable. There is normally an logarithmic relationship between probability and run-off data. Thus 50% of the existing runoff rate has a priority of about 0.1 i.e. is a 1 in 10 year event. This is unacceptable and could lead to relatively frequent flooding. A 1 in 50 year runoff rate would be much more appropriate

Please give reasons for your answer	<p>Holybrook Parish Council would like to see the floodplain in the Eastern Area protected and, ideally, made into conservation areas. It is noted that the plan encourages Flood Risk mitigation measures but, in practise, these are rarely upheld. Many roads are flooded and stay that way for long periods of time because drainage trenches are not dug and those that are, are not maintained often being overgrown and full of litter. The north side of the A4 Bath Road being a perfect example of this issue.</p> <p>The Holy Brook is owned by several private landowners but part is also owned by West Berkshire Council. The Holy Brook river is integral to the history of the Parish and is a highly valued asset yet the management and protection of this asset is not mentioned or referenced in the Plan.</p> <p>Preserving the floodplain and maintenance of the Holy Brook should be an integral part of WBC's Climate Change Policy.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No

Please give reasons for your answer	The Parish Council has previously raised concern with lack of mention of the floodplain and Holy Brook river in the Parish of Holybrook and this has not been added to or addressed in the Local Plan.
4. Proposed Changes	Include the Holy Brook river and floodplains in Holybrook to the plan.

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>In relation to flood risk, the National Planning Practice Guidance (NPPG) states that a sequential approach should be used by local planning authorities in areas known to be at risk from forms of flooding other than from river and sea, which includes "Flooding from Sewers". Flooding from sewers should therefore also be referenced in Policy SP6 for clarity.</p> <p>When reviewing development and flood risk it is important to recognise that water and/or sewerage infrastructure may be required to be developed in flood risk areas. By their very nature water and sewerage treatment works are located close or adjacent to rivers (to abstract water for treatment and supply or to discharge treated effluent). It is likely that these existing works will need to be upgraded or extended to provide the increase in treatment capacity required to service new development. Flood risk sustainability objectives should therefore accept that water and sewerage infrastructure development may be necessary in flood risk areas.</p> <p>Flood risk policies should also make reference to 'sewer flooding' and an acceptance that flooding can occur away from the flood plain as a result of development where off site sewerage infrastructure and capacity is not in place ahead of development.</p> <p>With regard to surface water drainage it is the responsibility of the developer to make proper provision for drainage to ground, watercourses or surface water sewer in accordance with the drainage hierarchy. It is important to reduce the quantity of surface water entering the sewerage system in order to maximize the capacity for foul sewage to reduce the risk of sewer flooding.</p> <p>Limiting the opportunity for surface water entering the foul and combined sewer networks is of critical importance to Thames Water. Thames Water have advocated an approach to SuDS that limits as far as possible the volume of and rate at which surface water enters the public sewer system. By doing this, SuDS have the potential to play an important role in helping to ensure the sewerage network has the capacity to cater for population growth and the effects of climate change.</p> <p>SuDS not only help to mitigate flooding, they can also help to: improve water quality; provide opportunities for water efficiency; provide enhanced landscape and visual features; support wildlife; and provide amenity and recreational benefits.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	With regard to surface water drainage, Thames Water request that the following paragraph should be included in Policy wording or supporting text: <u><i>"It is the responsibility of a developer to make proper provision for surface water drainage to ground, water courses or surface water sewer. It must not be allowed to drain to the foul sewer, as this is the major contributor to sewer flooding."</i></u>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	

Please give reasons for your answer	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
Please give reasons for your answer	<p>See attachment 'Paula Saunderson response REDACTED' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP6 – FLOOD RISK (and Sustainable Drainage – SuDS)</p> <p>Like many other Local Plans, I would prefer SuDS to have its own SP, rather than being a DM or SPD. My research is too long to go into here but suffice to say Planning Officers have had little attention to Flood Risk and SuDS, with the SuDS SPD often not quoted as a Material Consideration.</p> <p>The LLFA has been under resourced and does not look at Minor Developments, even though Newbury is identified by the EA as a Flood Risk Area, and the SuDS SPD 2018 states that ALL Planning Applications in Newbury should include a Surface Water Drainage Statement or Strategy (SWDS) these are often Not demanded at Validation Stage and were not on the list of Documents required at Validation. NB. The link to this within the Submission Document does not work.</p> <p>The EA Map system for Developers/Planning to look up flood risk does <u>not include</u> the Surface Water Risk Maps or Groundwater Risks Maps so having a deficient search tool is not helpful.</p> <p>Hence many developers do not take RoFSW from Upstream into account when calculating SuDS and groundwater impacts are often a mystery. As it is quite possible to get more than 10 units on less than 1 hectare sometimes Flood Risk from Pluvial, Groundwater & Sewage can go un-discovered or un-challenged.</p> <p>Many Planning Officers are not fully aware of the SuDS SPD 2018 and comment on Flood Risk in Officers Reports is often sketchy, and until I started to raise awareness local Councillors had little knowledge.</p> <p>The Actual Policy seems to repeat much of which is, thankfully, now part of the NPPF & the Flood Risk PPG so if change is made will this Policy need updating? The Policy does not give an indication on the absent Methodology for Cumulative Impact Assessment from ALL SOURCES, that is required by the NPPF Chpt 14 Para 160. Assessing Cumulative Impact Of Developments On Flood Risk In (a) Catchment Area – CIOD OFRICA – is covered under recent addition to the SFRA Level 1 – via Addendum 1-</p>

	however it does not include the Methodology. The absence of this caused residents not to be able to move into new properties at Shaw Valley.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

<p>Please give reasons for your answer</p>	<p>The site Promoters have commissioned Civic Engineers to undertake a review of the Strategic Flood Risk Assessment published by West Berkshire Council given the recent changes in advice under the National Planning Policy Framework 2021 (paragraphs 161- 162); together with a review of the very recent Sequential Test Report (2023). Civic Engineers' study is entitled Review of West Berkshire Council Local Plan 2022-2039 Proposed Development Sites Against Flood Risk and is attached at Appendix 8.</p> <p>The Civic Engineers study highlights a number of errors in the production of the Strategic Flood Risk Assessment and Sequential Test, including:</p> <ul style="list-style-type: none"> • No consideration is given as to whether sites are in Flood Zone 2 as distinct to Zone 1 or Zone 3 plus climate change; • The use of percentile limits (less than 10% and 75% of area of site at risk from certain flooding events) which have been used without any clear quantitative explanation of how these figures have been discerned ,as they are not referenced in the Planning Policy Guidance (PPG). <p>Furthermore, the "...sequential test found that four proposed residential development sites proposed allocated in the local plan were highlighted as having flood risks from one or more sources. The proposed development site at Pincents Lane, Tilehurst was found to have no flood risks. This is in itself demonstrates that these allocated sites do not comply with the sequential test in accordance with the NPPF. Moreover Pincents Lane is another site with a lower probability of flood risk which should be allocated in the local plan ahead of high risk sites."</p> <p>This failure to demonstrate the allocations comply with the sequential test is a significant error which demonstrates that the R19 LPR plan should not be found sound, since it is inconsistent with NPPF 161 & 161. As such fails the tests of soundness set out in NPPF paragraph 35. Moreover NPPF para 11 b) i) makes clear that flood risk policy is one which provides a strong reason for restricting the overall scale, type or distribution of development. The evidence base does not demonstrate that such an exercise has been undertaken to show for example how levels of flood risk at North East Thattham ought properly to restrict the physical extent or quantum of development.</p> <p>Attachments:</p> <ul style="list-style-type: none"> • Full Rep • Appendix 8 - Civic Engineers: Review of Proposed Development Sites Against Flood Risk

Please give reasons for your answer	It is noted that Policy SP6 requires that the Sequential Test is strictly applied in all areas of flooding. We have no objection to this policy in principle however a large part of Newbury is located within the Flood Zone, including part of the Kennet Centre. As such, a Sequential Test is required for its redevelopment, and for any other sites within the Flood Zone.

	<p>However, the policy also notes that allocated sites will have been subject to the Sequential Test at the plan-making stage. Given the importance of the Kennet Centre to Newbury town centre, in respect of its size, current under-use and potential, alongside its highly sustainable location, it is entirely suitable to be allocated, as a large, town centre site within a predominantly rural local authority.</p> <p>The requirement for a Sequential Test as part of the planning application process, when a site allocation would forgo such need, on a site which is wholly suitable for redevelopment (with no objection to the recent application from the Environment Agency) results in additional and unnecessary bureaucracy and results in a Local Plan that fails to meet the over-arching soundness requirements of the NPPF in terms of delivery.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	Policies have not given appropriate regard to climate change, sustainability or delivering environmental enhancements.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework. This policy sets out a clear intention to reduce the impact of flood risk: this links to Policy SP5 which seeks climate change mitigation and adaptation to be embedded into new development. However, as with Policy SP5, Policy SP6 does not set out that weight should be afforded to development that improves flood risk on site or improves flood risk on neighbouring sites. Developments are required to mitigate flood risk but there is a missed opportunity to encourage new developments to reduce flood risk overall. Weight should be afforded to developments that can reduce flood risk.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Policy SP6 should be amended to include: 'Positive weight will be afforded to development that reduces flood risk on site and/or to land outside the development boundary'

5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Regarding the Spatial Strategy, a Strategic Environmental Assessment (SEA) has been carried out, as part of the Local Plan appraisal process to promote sustainable environmental considerations in the preparation of the local plan.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where	

<p>practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>We have reviewed Policy SP6 - Flood Risk and to ensure the policy adequately complies with national policy, a few amendments will need to be made to the policy text.</p> <p>Please refer to section 4 for the suggested changes/amendments to policy text</p> <p>We reviewed Policy SP6 and the penultimate paragraph of Policy SP6 states "...in accordance with the SuDS Supplementary Planning Document, best practice, and the Non-statutory Technical Standards for Sustainable Drainage (19)()." It appears there a reference missing at the end of this sentence hence the empty brackets.</p> <p>Regarding policy SP6, we appreciate the use of Natural flood management (NFM), measures as it will ensure that development provides suitable mitigation and adaptation to climate change, taking into account the long-term implications for flood risk. It would also assist in safeguard the future resilience of communities and infrastructure to climate change impacts. This is in accordance with Paragraph 149 of the National Planning Policy Framework (NPPF).</p> <p>Developments should encourage NFM measures and look at opportunities for river restoration and enhancement, and projects which reconnect rivers with their floodplains. NFM measures such as backwater creation, de-silting, de-culverting and naturalising the channel through inchannel habitat enhancements and removal of structures should be sought. These concepts should be incorporated into plans for new development from an early stage.</p> <p>Irrespective of the above stated benefits, it should be understood however that NFM measures may not always be appropriate/possible. This should be acknowledged.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	<p>The Council (Under Section 33A of the Planning and Compulsory Purchase Act) in its Duty to Cooperate with other prescribed bodies/key agencies when preparing the LPR in order to address strategic planning issues relevant to their areas has engaged generally with the Environment Agency during the Plan making process.</p>
<p>4. Proposed Changes</p>	<p>We have reviewed Policy SP6 - Flood Risk and to ensure the policy adequately complies with national policy a number of amendments will need to be made to some of the policy Texts and we suggest the following changes/amendments to policy texts.</p> <p>We suggest adding the text below to Point 'd' of Policy SP6 <i>'The development will be safe for its lifetime' and not increase flood risk elsewhere.'</i></p> <p>We suggest Paragraph 6 of Policy SP6 should be reworded from: <i>"In applying the Sequential Test, where development has to be located in flood risk areas, it should be demonstrated that..."</i></p>

	<p>To; <u>'If the sequential test shows that it isn't possible for an alternative site to be used and therefore development has to be located in a flood risk area, it should be demonstrated that:..'</u></p> <p>Paragraph 8 of Policy SP6 states "Where an Exception Test is required, in accordance with national policy and guidance, this should demonstrate how flood risk would be managed on site, including that the sustainability benefits of the site outweigh the flood risk and that the development will be safe for its lifetime, taking into account the vulnerability of its users and that it will not increase flood risk elsewhere."</p> <p>We suggest this is reworded to the following text for clarity:</p> <p><u>'In addition to the sequential test, the exception test must be applied in certain situations according to national policy. This includes highly vulnerable development in flood zone 2, essential infrastructure in flood zone 3a or 3b, and more vulnerable development in flood zone 3a. The exception test should demonstrate how flood risk would be managed on site so that the development is safe taking into account the vulnerability of its users, and that it will not increase flood risk elsewhere. The exception test will also need to show that the sustainability benefits of the development to the community outweigh the flood risk.'</u></p> <p>Point 'p' of Policy SP6 states "Natural flood management measures can be implemented".</p> <p>While we support the implementation of Natural flood management measures, it may not always be appropriate/possible to provide these. We suggest this is reworded and suggest the following text;</p> <p><u>'Natural flood management measures can be implemented wherever possible.'</u></p> <p>Paragraph 5.17 of Policy SP6 states: "The sequential approach to the layout of a development site can reduce the risk of flooding from all sources and not increase flood risk overall, both off and on site. This approach also ensures that the most vulnerable development is located within the areas of lowest risk of flooding."</p> <p>We suggest this is reworded and suggest the following text; <u>'The sequential approach should be taken when determining the layout of a development site, meaning the most vulnerable development should be sited in the areas of lowest flood risk within the site.'</u></p> <p>We reviewed Policy SP6 and paragraph 1 states "Within Flood Zones 2 and 3 (and also on sites of 1 hectare or more in size, and in other circumstances as set out in the NPPF)". We note a minor typo in the form of an omitted closed bracket as above.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>We wish to attend the examination for an opportunity to explain the need to include the suggested wording to ensure developments in West Berkshire are not at risk of flooding as well as adheres to national policy.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No</p>	<p>Yes</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	We believe that the Plan accords with the requirements of the relevant legislation.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	<p>Point c of paragraph 130 of the NPPF requires planning policies and decisions to ensure that developments are sympathetic to local character and history, including the surrounding built environment and landscape setting, while not preventing or discouraging appropriate innovation or change (such as increased densities).</p> <p>Accordingly, whilst we support the requirement to strengthen a sense of place through high quality locally distinctive design and place shaping, we do not consider it is appropriate to refer to the National Design Guidance (2021).</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	We believe that the Plan sufficiently addresses strategic planning issues relevant to the area.
<p>4. Proposed Changes</p>	We would suggest that local level design guidance is referenced and the now deleted design principles shown in the tracked changes version of the draft policy are re-inserted to ensure that design reflects local character, in accordance with the NPPF.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	No
<p>5. Independent Examination</p>	N/A
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes * No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes * No</p>	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	We support the amendment to Policy SP7 which sets out that new development should reflect the National Design Guide (2021).
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	

5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	HPC welcomes this policy but would like to see it strengthened to state: <i>“cut and paste” design of substantial housing developments will not be permitted</i> . By way of example, the Bellway sites at Dorking Way, Calcot and Old Forest Road, Wokingham are identical in format and yet are in very different localities. In addition, the permitted Dorking Way development is in stark contrast to the existing character and design of Holybrook detracting from the Parish’s previous distinctive design and it changes the shape and character of the area.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	The Parish Council has raised many concerns with cut and paste design and this style of planning is strongly opposed to in the NPPF. These concerns have not been addressed or mitigated.
<p>4. Proposed Changes</p>	Include the following wording: <i>“cut and paste” design of substantial housing developments will not be permitted</i>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	No

Please give reasons for your answer	5.30f Refers to local communities taking responsibility for the upkeep of their public spaces. This would appear to be a move from the usual maintenance by local authorities. If parish councils are to lead such maintenance, there needs to be consultation on how this is to be achieved and financed

<p>Please give reasons for your answer</p>	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP7 – DESIGN QUALITY / DESIGN CODES</p> <p>Again, not clear whether they will adopt the <u>National Design Codes</u> AND the <u>NEW National MODEL Design Codes</u> in full or whether they are going to write their own as demanded by the July 2021 NPPF.</p> <p>And whether the Old Design SPD and incumbent individual policies of 2006 will become defunct? Likewise the fact that the Newbury Conservation Area Appraisal is still under negotiation puts parts of this Policy in the 'sheep' category, especially as some of the links don't work and 5.35 there is no list of Documents required at Validation stage of a PA. When I last gave feedback the Validation List of Documents did not include a Surface Water Drainage Statement which the SuDS SPD 2018 says should be submitted with every planning application etc. etc</p> <p>The Newbury Society were cut out of the process for Designing the revised Newbury Conservation Area when Consultants came onboard. And the deadline for rushing through the Newbury Conservation Area Appraisal is not conducive to good decision making and one can only assume the rush after years of non-action is so that it can feature in this plan?.</p> <p>As a minimum this SP7 should state which of the new and old National Codes it is going to comply with, what will happen to old Policy, and list the other Policies within the Plan that will input into overall Design Quality.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>

<p>Please give reasons for your answer</p>	<p><i>[For full response see attached document]</i></p> <p>We support the amendments which streamline the policy including removal of a long list of separate design criteria. We agree that development proposals should refer to the National Design Guide, National Design Codes, or any local design guidance documents when seeking advice during the initial design phase of a scheme. As long as the adopted design guides are clear and justified in terms of the advice that is presented, it is considered this is a more effective way of assessing development proposals. This will also assist the Government's ambition to streamline local plans.</p>

Please give reasons for your answer	This policy has been amended to remove the design criteria; some design criteria would be useful in helping developers to ascertain the design approach that is expected by the LPA. Notwithstanding this comment, our client, T A Fisher, delivers a very high-quality product. Their philosophy is to build to a standard, not to a price. This quality can be seen in their existing scheme in Mortimer, which has been well-received locally. Working with the local community to achieve a scheme we can all be proud of, is something that T A Fisher would seek to replicate at MOR005.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an	

<p>appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>DEVELOPMENT MANAGEMENT POLICIES</p> <p>The comments set out in this section are intended to assist the Council in developing an approach that is consistent with national planning policies and the tests of soundness. Some comments have been included to assist the Council in developing a series of policies that are both effective and robust. Where possible, suggested amendments have been set out in the response.</p> <p>Sovereign broadly supports the West Berkshire Local Plan Review (2022 - 2039). However, the comments set out below are intended to identify opportunities to improve the effectiveness of the proposed policies.</p> <p>As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document substantially.</p> <p>Policy SP7: Design Quality</p> <p>Reference within this policy to 'relevant community planning documents' is problematic, as the phrase is not considered to relate to any specific identified set of considerations.</p> <p>Furthermore, Sovereign notes the Council's commitment to creating a 'sense of place' in new developments, which 'is about ensure that development responds in a holistic way'. Sovereign, as an organisation, is fully committed to the same approach, which is borne from our own Homes and Place Standard ('HPS'). Sovereign's HPS marks the organisation's commitment to building and maintaining good quality homes and better places to live. Whilst we have always striven for high standards in our developments, this new approach will underpin how we invest in our homes and how we build new communities.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p><i>3. The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation</p>

	of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities. Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.
4. Proposed Changes	It is recommended that the second paragraph of this policy is amended in accordance with the below: i) Development proposals will be expected to show how they have responded positively to both national and local design guidance. At a national level this includes the characteristics of a well-designed place as set out in the National Design Guide (2021), or as superseded, and at a local level, this includes neighbourhood plans and relevant material considerations community planning documents that identify the local character and distinctiveness of an area which is valued by local communities.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	Policies have not given appropriate regard to climate change, sustainability or delivering environmental enhancements.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable	No

<p>alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework.</p> <p>New development is expected to be high quality, however there is no reference to the weight that should be afforded to good design in decision marketing. The Framework identifies that great weight should be afforded to good design; adding significant emphasis to the importance of high quality 'beautiful' design. Policy SP7 does not go far enough to encourage developments to deliver excellent design and improve the visual quality of sites/developments.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Policy SP7 should be amended to include:</p> <p>'Positive weight will be afforded to development that delivers excellent design and improves the overall visual quality of the site.'</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	No
<p>5. Independent Examination</p>	
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes</p> <p>* No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes</p> <p>* No</p>	Yes

2. Do you consider the Local Plan Review is sound? - Consistent with national policy:	Yes

<p>the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>We concur with the importance of 'sense of place', but feel that there is scope to be more ambitious in stating acceptable design quality. The term 'high quality' is used in this policy, but needs specific definition in order to enable enforcement. In addition, under paragraph 5.30 sub paragraph h, we feel that there needs to be specific mention of increased home working within the area of 'functionality'</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Regarding the Spatial Strategy, a Strategic Environmental Assessment (SEA) has been carried out, as part of the Local Plan appraisal process to promote sustainable environmental considerations in the preparation of the local plan.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? -	No

<p>Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>We reviewed Policy SP7 and paragraph 5.31 states “<i>New waterside development adjacent to the Kennet & Avon Canal should seek to positively address the water, integrate the towing path and open up access to the water, link the waterside space to the water, make use of the water itself, incorporate access improvements, engage with the benefits of being by the water, and reflect the scale of the local waterway to the wider neighbourhood.</i>”</p> <p>Whilst this is a beneficial placemaking concept, however this appears to contradict the Policy SP6 – Flood Risk on page 29 of having an undeveloped buffer of 10m alongside and on both sides of main rivers (the Kennet & Avon Canal). We suggest that reference is made to this requirement in Policy SP6 in this section of Policy SP7.</p> <p>This is to ensure the provision of ecological corridors and protection of species and habitat which use the riverbanks and the water as required by national policy</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>The Council (Under Section 33A of the Planning and Compulsory Purchase Act) in its Duty to Cooperate with other prescribed bodies/key agencies when preparing the LPR in order to address strategic planning issues relevant to their areas has engaged generally with the Environment Agency during the Plan making process.</p>
<p>4. Proposed Changes</p>	<p>The provision of an undeveloped buffer of 10m alongside and on both sides of main rivers should be stated in paragraph 5.31 of Policy SP7 as highlighted in the policy text of Policy SP6 to ensure consistency.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>We wish to attend the examination for an opportunity to explain the need to ensure consistency where the issue of providing an undeveloped buffer zone of 10 m alongside and on both sides of main rivers. This is to ensure the provision of ecological corridors and protection of species and habitat which use the riverbanks and the water as required by national policy.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes * No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes * No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes * No</p>	<p>Yes</p>

Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	(i) Maintenance of the landscape will depend on the long term on the owners having both the income and the desire to do so. For major and public landscapes, this is straightforward. For small parcels of land attached to housing estates, diversified ownership is not likely to produce this result.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	A common policy for maintenance of all publically used landscape is needed.
5. Independent Examination - If your representation is seeking a change, do you consider it	

necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	We believe that the Plan accords with the requirements of the relevant legislation.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.	Yes

* Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	Whilst we support the objective of conserving and enhancing the diversity and local distinctiveness of the landscape character of the District, we do not consider it necessary for an appropriate landscape assessment to accompany all proposals for development. This would add further cost to householder and small-scale developments which could result in schemes being unviable.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	We believe that the Plan sufficiently addresses strategic planning issues relevant to the area.
4. Proposed Changes	We therefore suggest that this requirement is amended to state "proposals for major development or in areas within or adjacent to protected landscape designations (i.e., the AONB) should be accompanied by an appropriate landscape assessment carried out in accordance with the current guidance from the Landscape Institute and IEMA Institute of Environmental Management & Assessment".
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	N/A
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes

6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	Sandleford Park West (SPW) The principle of Landscape led development outlined in Policy SP8 is generally supported however, reference to the 2019 West Berkshire Landscape Character Assessment could become outdated during the lifetime of the Plan. As such, the wording of the Policy should be amended so that, after the words 'set out in the West Berkshire Landscape Character Assessment (2019)', the words 'or landscape character assessment relevant at the time the application is determined'. This will avoid any ambiguity for developers in terms of which benchmark development is being assessed against.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	No

Please give reasons for your answer	Herewith our response to the Local Plan 2022-2039: 14. SP8, c. We object to this as Theale already has a 57.3% increase in development and is over scale. 15. SP8, 5.39. We object to this as Theale already has a 57.3% increase in development and this affects the landscape so this conflicts.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer

<p>Please give reasons for your answer</p>	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP8 - LANDSCAPE CHARACTER APPRAISALS</p> <p>I am not sure that Town & Parish Councils have had input into these Appraisals, and I personally have concerns that the influences that prevail around the Boundaries between Newbury Clayhill & Cold Ash Parish Council & Shaw-cum-Donnington Parish Council may have come into play.</p> <p>Within the Evidence Base there appears to be no Landscape Character Appraisal for Site Allocation RSA3 – Land at Coley Farm, Stoney Lane, Newbury. As the Site is up on the hillside and currently agricultural land there could be impacts on the views of the hillside. IF LCA has taken place within the Planning Application or for the Appeal then the pages of the WBC web site could do with updating.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	Policies have not given appropriate regard to climate change, sustainability or delivering environmental enhancements.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable	No

development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework. This policy supports landscape led development, however there is no reference to the weight that should be afforded to developments that provide enhancements to the landscape. This is a missed opportunity to encourage landscape enhancements. The supporting text highlights that one of the key issues facing West Berkshire is the conservation and enhancement of the distinctive local character of both the natural and built historic environment. However, this policy does not support proposals that go beyond 'no landscape harm' again, it is a missed opportunity to deliver landscape enhancements through new development.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Policy SP8 should be amended to include: 'Positive weight will be afforded to development proposals that can demonstrate enhancements to the landscape character of the site over the existing'
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	DEVELOPMENT MANAGEMENT POLICIES The comments set out in this section are intended to assist the Council in developing an approach that is consistent with national planning policies and the tests of soundness. Some comments have been included to assist the Council in developing a series of policies that are both effective and robust. Where possible, suggested amendments have been set out in the response. Sovereign broadly supports the West Berkshire Local Plan Review (2022 - 2039). However, the comments set out below are intended to identify opportunities to improve the effectiveness of the proposed policies.

	<p>As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document substantially.</p> <p>Policy SP8: Landscape Character</p> <p>As currently formulated, the policy requires that all development, of any scale, would need to be supported by an appropriate landscape assessment. This is considered to be unduly burdensome on minor forms of development and may not be appropriate in all cases where major development is proposed.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p><i>3. The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities.</p> <p>Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.</p>
<p>4. Proposed Changes</p>	<p>To introduce greater flexibility within the policy and avoid unnecessary delays further in the planning process, the following amendments are recommended:</p> <p>i) <u>Where appropriate</u>, Pproposals for development <u>major</u> should be accompanied by an appropriate landscape assessment carried out in accordance with the current guidance from the Landscape Institute and Institute of Environmental Management & Assessment.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy:	Yes

<p>the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>We note and agree with the Landscape Character Assessment (LCA) that supports this Policy. In particular, the LCA supports no development west of the A34 in Speen Parish. The LCA states 'Conserve the dispersed settled character along the ridge [B4000 from A34 to Stockcross]. Seek to avoid linear development and ensure settlements retain their distinct character and identities. Development should be in-keeping with existing settlement form and vernacular, and should respect the role wider rural landscape makes to Benham Park Conservation Area in particular'.</p>

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	As currently formulated, the policy requires that all development, of any scale, would need to be supported by an appropriate landscape assessment. This is considered to be unduly burdensome on minor forms of development and may not be appropriate in all cases where major development is proposed.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	

Please give reasons for your answer	
4. Proposed Changes	<p>To introduce greater flexibility within the policy and avoid unnecessary delays further in the planning process, the following amendments are recommended:</p> <p>i) <u>Where appropriate</u>, Pproposals for development <u>major</u> should be accompanied by an appropriate landscape assessment carried out in accordance with the current guidance from the Landscape Institute and Institute of Environmental Management &</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Darcliffe have specific land interests within West Berkshire District, which are promoted to be allocated for residential development (Land to the east of Long Lane & south Blackthorn Close, Tilehurst, and Land east of Sulham Hill between Barefoots Copse & Cornwell Copse, Sulham Hill, Tilehurst). In representing Darcliffe, Boyer are well-placed to advise on the appropriateness of the land promoted for development
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>The general tenor of SP9 is welcomed. A proposal to update the HEAP has been submitted to the Heritage Service, and a response is awaited.</p> <p>The value of each Conservation Area lies in direct proportion to the extent that a Conservation Area Appraisal has been prepared and approved for it. Little or no progress in this regard has taken place. If it is to be rectified, considerably more attention and time will be need to be allocated by the Council, in collaboration with the Heritage Forum, than has been apparent to date.</p> <p>The support of the Council in extending local listing under the agreement with the Heritage Forum is welcomed. This would be assisted by pointing local parish councils towards the Forum when issues are raised regarding planning permission or proposed developments which may impact on heritage assets.</p>

Please give reasons for your answer	Herewith our response to the Local Plan 2022-2039: 16. SP9. Planning application 16/02850/OUTMAJ for the old sewerage works in Theale. The Archaeological Officer stated "No development/site works/development shall take place within the application area until the applicant has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted to and approved in writing by the Local Planning Authority. Thereafter the development shall incorporate and be undertaken

	<p>in accordance with the approved statement." The Plan does not mention this. It should be included. It also conflicts with SP9.</p> <p>17. SP9. "Development that would lead to substantial harm.....". Theale High Street is a conservation area and more development would have a detrimental effect on that in regards to pollution, additional traffic etc.</p>

<p>Please give reasons for your answer</p>	Although the role of the HER (Historic Environment Record) receives attention in the Local Plan, we do not see any detail included here to support the role of the council's conservation officers, which (for us) appears crucial if this "positive action" for conservation of "heritage assets" is to take place.

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Our comments to the Regulation 18 Consultation on the Local Plan Review 2020 – 2037: Emerging Draft (December 2020) raised that Policy SP9 did not accord with para 203 of the NPPF. Although we note that part of this Policy was revised, we remain of the view that this policy does not meet the test of soundness because it is not consistent with national policy.</p> <p>Policy SP9 lists the heritage assets to which it should be applied. We note that points f) and g) relate to Local Heritage Assets and, on this basis, Policy SP9 is interpreted as affording the same level of protection to designated and non designated heritage assets. In particular, we note that Policy SP9 states that 'development that has an impact upon a heritage asset, whether designated or non-designated, will be expected to maximise opportunities to preserve, enhance, or better reveal the asset's significance and/or setting, and make a positive contribution to local character and distinctiveness through high standards of design in accordance with Policy SP7'.</p>

	<p>This does not accord with paragraph 203 of the NPPF which, for applications which directly or indirectly affects non-designated heritage assets requires a 'balanced judgement [...] having regard to the scale of any harm or loss and the significance of the heritage asset'. We note that there is no requirement within the NPPF for development that has an impact upon a non-designated heritage asset to maximise opportunities to preserve or enhance it.</p> <p>As such, the Draft Local Plan sets a higher standard than the NPPF on development that affects non-designated heritage assets, which could inhibit the delivery of sustainable development.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	<p>Based on our comments above, we request that Policy SP9 is revised as detailed below (additions shown underlined deletions shown with a strikethrough). For ease of review we have only included the paragraphs that, in our view, should be subject to change so that Policy SP9 is in line with the NPPF.</p> <p>[...] These heritage assets include:</p> <p>a. Listed Buildings;</p> <p>b. Scheduled Monuments and archaeological sites of national importance;</p> <p>c. Registered Parks and Gardens;</p> <p>d. Registered Battlefields;</p> <p>e. Conservation Areas;</p> <p>f. Buildings, monuments, sites, places, areas and landscapes that have been added to the West Berkshire Local List of Heritage Assets; and</p> <p>g. Other places, spaces, structures and features which may not be formally designated but are recognised as significant elements of West Berkshire's heritage and are positively identified on the West Berkshire Historic Environment Record, or through the development management or other planning processes.</p> <p>Development that has an impact upon a <u>designated</u> heritage asset, whether designated or non-designated, will be expected to maximise opportunities to preserve, enhance, or better reveal the asset's significance and/or setting, and make a positive contribution to local character and distinctiveness through high standards of design in accordance with Policy SP7.</p> <p>[...]</p> <p>Weight will be given to the conservation of the District's designated heritage assets in a manner according to their importance. Any harm to the significance of a designated or non-designated heritage asset must be justified. Proposals will be weighed against the public benefits of the proposal: whether it has been demonstrated that all reasonable efforts have been made to sustain the existing use, find new uses, or mitigate the extent of the harm to the significance of the asset; and whether the works proposed are the minimum required to secure the long term use of the asset.</p> <p>[...]</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy:	No

<p>the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>Our comments to the Regulation 18 Consultation on the Local Plan Review 2020 – 2037: Emerging Draft (December 2020) raised that Policy SP9 did not accord with para 203 of the NPPF. Although we note that part of this Policy was revised, we remain of the view that this policy does not meet the test of soundness because it is not consistent with national policy.</p> <p>Policy SP9 lists the heritage assets to which it should be applied. We note that points f) and g) relate to Local Heritage Assets and, on this basis, Policy SP9 is interpreted as affording the same level of protection to designated and non designated heritage assets. In particular, we note that Policy SP9 states that ‘development that has an impact upon a heritage asset, whether designated or non-designated, will be expected to maximise opportunities to preserve, enhance, or better reveal the asset’s significance and/or setting, and make a positive contribution to local character and distinctiveness through high standards of design in accordance with Policy SP7’.</p> <p>This does not accord with paragraph 203 of the NPPF which, for applications which directly or indirectly affects non-designated heritage assets requires a ‘balanced judgement [...] having regard to the scale of any harm or loss and the significance of the heritage asset’. We note that there is no requirement within the NPPF for development that has an impact upon a non-designated heritage asset to maximise opportunities to preserve or enhance it.</p> <p>As such, the Draft Local Plan sets a higher standard than the NPPF on development that affects non-designated heritage assets, which could inhibit the delivery of sustainable development.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Based on our comments above, we request that Policy SP9 is revised as detailed below (additions shown underlined deletions shown with a strikethrough). Please give reasons for your answer	We have concerns about the soundness of policy SP9 on the historic environment. We assert that "enabling development" should not appear in the Local Plan, in policy or supporting text, because it deals with circumstances when a proposal for development conflicts with planning policies. If criteria on enabling development were included, a proposal could align with planning policies, thereby

no longer representing enabling development. We recommend deleting the Plan's text on enabling development, or risk being unsound due to conflict with national policy (paragraph 208 of the NPPF).

Also, there is a missing "and" in policy SP9, which should be added or risk the policy being unsound and, again, in conflict with national policy (paragraph 201); see Appendix A for details.

Finally, on policy SP9, as the Council knows, we expressed concern in our response to the Council's Regulation 18 consultation in 2021 that it had only 2 Conservation Area Appraisals (CAAs) for the plan area's 53 conservation areas (CAs). We welcome the Council outlining a programme for CA Appraisals and Management Plans (CAAMPs) in its Local Plan, in paragraph 10.81; but we are very concerned by the resourcing that accompanies this, and the progress made since we highlighted our concerns. Additionally, this matter connects with policy DM9 on conservation areas and has the potential to undermine implementation of policy DM9. To be clear, when read in isolation, we do not regard policy DM9's wording as unsound. However, the Council's commitment to CAAs/CAAMPs needs to be strengthened, which we believe could most effectively be done via policy SP9.

While significant detail on preparing CAAs/CAAMPs is beyond the plan's scope, we propose two steps that the Council could take in its Local Plan which would help to address our concerns (in so far as the Local Plan can influence this matter):

- 1 Currently the Council's programme for CAAs/CAAMPs is outlined in the section on Development Management, as text supporting policy DM9 on Conservation Areas. We recommend moving this (specifically paragraph 10.81) to support policy SP9, as this is a strategic issue about the Council's strategic approach to conservation areas, rather than a development management issue;
- 2 Also, we advise including additional text in policy SP9 that relates to this programme, underlines the Council's commitment to action and supports the implementation of policy DM9. We share the following wording for consideration, expanding on the opening lines in policy SP9, and reinforcing other elements of the Council's positive strategy for the historic environment:

"Positive action will be taken to ensure that opportunities for the conservation and enjoyment of the historic environment are maximised. For example, this will include, but not be limited to:

- 1 producing and adopting conservation area appraisals and management plans;
- 2 maintaining a local list of non-designated heritage assets; and
- 3 maintaining a list of local heritage assets which are at risk, but which do not meet the criteria for inclusion on the national Heritage at Risk

The historic character, sense of place, environmental quality and local distinctiveness of West Berkshire will also be sustained and enhanced through new development, including promoting heritage-led regeneration where appropriate and delivering public benefits from the District's archaeological resources."

Our detailed comments on the plan's policy framework are included in Appendix A and on the proposed allocations in Appendix B. Also we provide some further comments on the Sustainability Appraisal in Appendix C.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate?
* Yes
* No

Yes

Please give reasons for your answer

4. Proposed Changes

Positive action will be taken to ensure that opportunities for the conservation and enjoyment of the historic environment are maximised. For example, this will include, but not be limited to:

- 1 producing and adopting conservation area appraisals and management plans;
- 2 maintaining a local list of non-designated heritage assets; and
- 3 maintaining a list of local heritage assets which are at risk, but which do not meet the criteria for inclusion on the national Heritage at Risk

The historic character, sense of place, environmental quality and local distinctiveness of West Berkshire will also be sustained and enhanced through new development, including promoting heritage-led regeneration where appropriate and delivering public benefits from the District's archaeological resources.

- 1 No viable use of the asset can be found in the medium term through appropriate marketing that will enable its conservation; and

Development proposals for enabling development which would otherwise conflict with other policies in the Local Plan but which would secure the future conservation of a heritage asset will be permitted where:

- 1 the proposals will not materially harm the heritage value of the asset or its setting; ii. it can be demonstrated that alternative solutions have failed;
- the proposed development is the minimum necessary to protect the significance of the heritage asset;
- 1 it meets the tests and criteria set out in Historic England guidance GPA4: Enabling Development and Heritage Assets;
- 2 it is subject to a legal agreement to secure the restoration of the asset prior to completion of the enabling development; and

	<p>3 it enables public appreciation of the saved heritage</p> <p><u>Supporting text</u></p> <p>5.57 The long-term conservation of a small minority of heritage assets can sometimes present particular problems. Enabling development is a planning mechanism which, in extreme cases, permits a departure from planning policies in order to enable the conservation of a relevant heritage asset in cases where the future of that asset would not otherwise be secured. Where planning applications propose enabling development, the Council will use the detailed and rigorous tests set out by Historic England in order to determine whether planning permission would be appropriate.</p>

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is	

<p>consistent with achieving sustainable development.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	<p>We have the following comments and concerns in relation to Policy SP9. Generally, the policy should be divided into designated and non-designated heritage assets. They are dealt with collectively in parts of the policy, which is confusing, and would have the effect of artificially elevating the status of NDHAs beyond what is intended by statute or the NPPF. This is illustrated by 5.45 of the supporting text which gives great weight to all assets.</p> <p>The policy contains a section on substantial harm which states:</p> <p><i>Development which would lead to substantial harm to, or loss of, the significance of a designated heritage asset or its setting will not be permitted, unless...</i></p> <p>This statement is incorrect as it refers to harm to the setting of an asset. The setting of a LB or CA is not a designated heritage asset in itself and so harm to setting is not a test in the NPPF and one cannot substantially harm 'setting'. Harm arising from development in a setting needs to be understood as harm to the significance of that asset, where setting contributes to that significance.</p> <p>Similarly, the bullet points h-l comprise the re-wording of bullet points a-d of para 201 of the NPPF. For example, the following NPPF wording:</p> <p><i>conservation by grant-funding or some form of not for profit, charitable or public ownership is demonstrably not possible;</i></p> <p>has been changed to:</p> <p><i>Conservation by grant funding or some other form of charitable or public ownership is demonstrably not possible;</i></p> <p>The wording of para 201 of the NPPF should be used, there is no point in altering it and it means that the wording in the local plan is not entirely sound.</p> <p>Similarly, with regards to less than substantial harm, the local plan states: <i>Development which would lead to less than substantial harm to the significance of a designated heritage asset or its setting will not be permitted, unless this harm is outweighed by the public benefits of the proposal, including securing its optimum viable use.</i></p> <p>This should be reworded so that it copies the wording of paragraph 202 of the NPPF, otherwise this is unsound.</p> <p>Again, and for the same reasons, the following paragraph:</p> <p><i>Development that has an impact upon a heritage asset, whether designated or non-designated, will be expected to maximise opportunities to preserve, enhance, or better reveal the asset's significance (including that contribution to its significance by its setting), and make a positive contribution to local character and distinctiveness through high standards of design in accordance with Policy SP7.</i></p> <p>Should be amended to read:</p> <p><i>Development that has an impact upon a heritage asset, whether designated or non-designated, will be expected to maximise opportunities to preserve, enhance, or better reveal the asset's significance and/or setting, and make a positive contribution to local character and distinctiveness through high standards of design in accordance with Policy SP7.</i></p>

	<p>ii. 'Proposals will be weighed against the public benefits of the proposal'. When one is dealing with DHAs it is not a simple balance, but one that accords great weight to the conservation of DHAs (see para 199 of the NPPF). This paragraph therefore does not reflect the provision of the NPPF and needs to be amended.</p> <p>iii. The proposed policy wording introduces additional tests for the assessment of development affecting DHAs and NDHAs (<i>whether it has been demonstrated that all reasonable efforts have been made to sustain the existing use, find new uses, or mitigate the extent of the harm to the significance of the asset; and whether the works proposed are the minimum required to secure the long term use of the asset</i>) These are unnecessary – development proposals for DHAs should be considered in accordance with the suite of NPPF policies in paras 199-202 of the NPPF, and NDHAs in accordance with para 203.</p> <p>iv. The tests are themselves problematic. How does one comply with the limbs of the policy referring to 'use' when dealing with development proposals that affect a CA?</p> <p>v. The tests cloud and add complexity to the approach set out in the latter part of the policy (which as above should be amended to accurately reflect the NPPF).</p> <p>The section on enabling needs to be re-written in accordance with the guidance set out in HEAN4 (Enabling Development and Heritage Assets). For example (i) should refer to the balance of benefits (as enabling development may itself create some harmful effects that might on balance be outweighed by benefits elsewhere.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>The following paragraph is superfluous, internally inconsistent and conflicts with the NPPF: <i>Weight will be given to the conservation of the District's heritage assets in a manner according to their importance. Any harm to the significance of a designated or non-designated heritage asset must be justified. Proposals will be weighed against the public benefits of the proposal: whether it has been demonstrated that all reasonable efforts have been made to sustain the existing use, find new uses, or mitigate the extent of the harm to the significance of the asset; and whether the works proposed are the minimum required to secure the long term use of the asset.</i></p> <p>This should be deleted for the following reasons:</p> <p>i. It refers to the justification of harm to designated and non-designated assets in the same sentence. This is liable to confuse as statute and the NPPF treat DHAs and NDHAs differently. While para 200 of the NPPF states that harm to a DHA should require clear and convincing justification, this is no more than demonstrating the requirements of paras 201 or 202. In contrast, para 203 requires that: <i>"The effect of an application on the significance of a non-designated heritage asset should be taken into account in determining the application. In weighing applications that directly or indirectly affect non-designated heritage assets, a balanced judgement will be required having regard to the scale of any harm or loss and the significance of the heritage asset."</i></p> <p>This distinction is blurred by the policy wording.</p> <p>ii. 'Proposals will be weighed against the public benefits of the proposal'. When one is dealing with DHAs it is not a simple balance, but one that accords great weight to the conservation of DHAs (see para 199 of the NPPF). This paragraph therefore does not reflect the provision of the NPPF and needs to be amended.</p> <p>iii. The proposed policy wording introduces additional tests for the assessment of development affecting DHAs and NDHAs (<i>whether it has been demonstrated that all reasonable efforts have been made to sustain the existing use, find new uses, or mitigate the extent of the harm to the significance of the asset; and whether the works proposed are the minimum required to secure the long term use of the asset</i>) These are unnecessary – development proposals for DHAs should be considered in accordance with the suite of NPPF policies in paras 199-202 of the NPPF, and NDHAs in accordance with para 203.</p> <p>iv. The tests are themselves problematic. How does one comply with the limbs of the policy referring to 'use' when dealing with development proposals that affect a CA?</p> <p>v. The tests cloud and add complexity to the approach set out in the latter part of the policy (which as above should be amended to accurately reflect the NPPF).</p> <p>The section on enabling needs to be re-written in accordance with the guidance set out in HEAN4 (Enabling Development and Heritage Assets). For example (i) should refer to the balance of benefits (as enabling development may itself create some harmful effects that might on balance be outweighed by benefits elsewhere.</p>

Please give reasons for your answer	In reference to para 5.45:

	It may be misleading to state the Council is solely responsible for identifying assets as non-designated heritage assets. As stated in the PPG, and indeed supported by para 5.48 in the proposed Local Plan, there are a number of processes through which non-designated heritage assets may be identified.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Heritage assets include designated heritage assets and assets identified <u>as</u> by the Council; 'non-designated' heritage assets.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

<p>Please give reasons for your answer</p>	<p>I have gone through the Local Plan a few times and I am extremely disappointed about the lack references to formal sport facilities and playing fields.</p> <p>West Berkshire has an up to date robust playing pitch strategy and it identifies short falls in provision across the borough which the plan could have addressed.</p> <p>The Local Plan should be using this evidence base not to just to protect playing field sites, but to enhance them where required and provide more. For example, Henwick Worthy Sports Ground is a constrained site and needs to expand. Colleagues from leisure are investing in a masterplan, but there may not be enough land to meet all the sporting requirements on this site. The obvious solution is to allocate land the other side of Tull Way for relocating the sports hub and to allocate the current site for housing, to pay for it.</p> <p>An example of where the local plan fails to recognise the benefits of sport is 5.64 <i>Examples of GI assets</i>. In every other local plan I have dealt with which has a similar supporting policy statement or policy, playing fields are identified as an asset.</p> <p>Therefore I do not consider the Local Pan to be sound as currently written.</p> <p>However if there was a policy referring to the PPS and the need to enhance and provide playing fields, we would reconsider our position.</p> <p>Given the work Sport England and some your colleagues from a number of departments across WBC including development management, have been involved in over the past few years, this situation is very disappointing.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	RBC generally supports this policy, but it lacks recognition of the need to link into identified green links or corridors within adjoining areas. In particular, much of the boundary with Reading is within the urban area, and the Reading Borough Local Plan has identified Green Links that connect to the boundary.

	Criterion g of the proposed policy particularly recognises the importance of wildlife connectivity in urban areas, and this could therefore benefit from a reference to connections beyond the boundary.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	The following change is suggested: <i>“Enhance the natural environment and natural processes to improve biodiversity and increase natural capital whilst seeking opportunities to use green infrastructure to extend wildlife corridors and provide habitat connectivity, particularly in urban areas, including where it crosses authority boundaries, and where it contributes to nature recovery networks;”</i>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP10 – GREEN INFRASTRUCTURE</p> <p>It is very disappointing that there is no proper Evidence work within this Plan as the promises made under OLD Policy CS 18 of a Green Infrastructure SPD never materialised. It is obvious from looking at the new development which has taken place that significant opportunities have been missed due to the lack of a GI Strategy, Categorisation, and mapping by typology.</p> <p>And there has been no attempt to Categorise or give typologies to Public Open Spaces which has led to confusion over the Categorisation of the Old Football Ground with a grass pitch at Faraday Road at the end of the LRIE and next to the Kennet SSSI. At one stage I identified it was within the Brownfield BR/2017/29 Boundary which was incorrect. The Old Newbury Town Football site should be allocated as a separate site within the Plan and given some policy that clearly states its Status and value as an Asset of Community Value. What its final use can be must be determined after a holistic Flood Risk Assessment & Surface Water Drainage Strategy for the wider site (NEW1 – LRIE or larger DEA) has been produced. It may be needed as a Wetland!!</p> <p>Likewise, without this Work and Categorisation of POS the Playing Pitch Strategy has become dominant and led to the possibility of the Manor Park NATURE-BASED Field with No Buildings and significant wildlife (Bats, Badgers & Slowworms) near the Coley Farm (RSA3) being turned into a Football Pitch. The Manor Park field also forms part of the SuDS for the houses down the hills in Turnpike – it is on a</p>

	<p>slope and is often water-logged and a small kiddies play-park has been agreed as part of the POS Off-site provision for the Coley Farm development.</p> <p>Without the presence of a Green/Blue Infrastructure or BAP or a Leisure & Culture Strategy the Playing Pitch Strategy is dominating, and it should be demanding more Playing Pitch space within Developments rather than trying to pinch what is already there for other purposes – such as walking and Nature preservation and recovery.</p> <p>This new Policy is not strong enough as it does not clearly articulate how much the buffer zones should be,</p> <p>There is no DM for the Canal Corridor.</p> <p>The Old Newbury Town Football Ground Public Open Space</p> <p>Again this is an old problem which is still seeing much discontentment over its future and as a separate Recreational Space next to the Kennet SSSI it needs a Sita Allocation and some DPD Policy behind it to protect and reform its future. Whilst it sits in limbo it is under utilised as a recreational space, its buffering function is not being enhanced for Nature Recovery or as part of the Wildlife Corridor.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	The policies do not follow national advice
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	Our client supports the commitment to protecting and enhancing existing Green Infrastructure assets across the District, especially where it states that proposals involving the loss of green spaces "will not be supported unless there is no longer a need for the existing infrastructure or an alternative is provided to meet the local needs that is both accessible and of equal or greater quality and benefit to the community". Our client also supports the inclusion of amenity green space, such as outdoor sports facilities, as green infrastructure assets.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes

Please give reasons for your answer	
4. Proposed Changes	However, it is noted that Natural England's (NE) Green Infrastructure Framework (which was emerging at the time, but has now been released) was referenced within the policy's supporting text. The Proposed Local Plan should provide further clarity on how the NE Framework has informed the policy.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	We believe it is necessary as we are proposing significant modifications and the site which is the subject of our core representations is both important and controversial.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p><See attached report for full representation - PS1577 DPDS obo TVCC_attachment_full rep></p> <p>Specific details within the attached rep relating to SP10 are below: Policy SP10 Green Infrastructure The Chamber supports the commitment to protecting and enhancing existing Green Infrastructure assets across the district, recognising the value that they can bring on a range of factors.</p> <p>The Chamber particularly supports the inclusion of amenity green space, such as outdoor sports facilities, as a type of green infrastructure asset, as maintaining and improving the health and happiness of the district's citizens is a mutually beneficial process which also helps local businesses.</p> <p>Again, using LRIE as an example, the Chamber is aware of the ongoing controversy surrounding the Faraday Road Football Ground (including its inclusion as a site for development in the Refresh Report), and would like to highlight it as a great example of important green infrastructure of considerable merit. The Chamber therefore fully supports the retention of the football ground for community sport use and as a key green infrastructure asset. This would also be a further example where a site specific policy would give certainty of the retention of this highly valued community facility.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes</p>	<p>Yes</p>

* No	
Please give reasons for your answer

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant.

<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>DEVELOPMENT MANAGEMENT POLICIES</p> <p>The comments set out in this section are intended to assist the Council in developing an approach that is consistent with national planning policies and the tests of soundness. Some comments have been included to assist the Council in developing a series of policies that are both effective and robust. Where possible, suggested amendments have been set out in the response.</p> <p>Sovereign broadly supports the West Berkshire Local Plan Review (2022 - 2039). However, the comments set out below are intended to identify opportunities to improve the effectiveness of the proposed policies.</p> <p>As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document substantially.</p> <p>Policy SP10: Green Infrastructure <i>See proposed changes below.</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p>3. <i>The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or</p>

	<p>would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities.</p> <p>Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.</p>
4. Proposed Changes	<p>To avoid introducing potential delays in the planning process, it is recommended that additional clarification is necessary to support the final paragraph of this policy, in accordance with the below:</p> <p>i) Proposals involving the loss of green or blue spaces and other natural features will not be supported unless there is no longer a need for the existing infrastructure or an alternative is provided to meet the local needs that is both accessible and of equal or greater quality and benefit to the community <u>at the time of the determination of any planning application (with the exception of Reserved Matters where details of appropriate green infrastructure provision may be fixed as part of the outline planning permission)</u>.</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	It is beyond the remit of the Forum to give an opinion on this question.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring	

<p>areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Paragraph 100 of the NPPF (July 2021) states: "Planning policies and decisions should protect and enhance public rights of way and access....".</p> <p>In the Regulation 18 consultation, the Forum proposed the addition of a specific policy on Public Rights of Way, based closely on the policy on Public Rights of Way in the West Berkshire Minerals and Waste Local Plan (version adopted by the Council on 1 December 2022, Policy 23; page 47 – reproduced below). In its response, the Council said:</p> <p>"The Council has considered the inclusion of a standalone policy on public rights of way but feels there is adequate legislation for rights of way outside of the Local Plan process." (see pages 638 and 640 of the Consultation Statement).</p> <p>The Forum believes that this conclusion is unsound, for two reasons:</p> <ol style="list-style-type: none"> 1 This is inconsistent with the Minerals and Wastes Local Plan; if there is "adequate legislation for rights of way", then there would be no need for a policy in the Minerals and Waste Local Plan. 2 The legislation relevant to public rights of way provides only limited protection of the ability to use that route (i.e. to 'pass and repass'), and in general no protection to maintaining the character of the right of way – the surrounding environment and the views from it. <p>The principal legislation relevant to public rights of way (PROW) is:</p> <ul style="list-style-type: none"> • Sections 41 and 130 of The Highways Act 1980: Section 41 places a duty on the highway authority to maintain the surface of a PROW, and Section 130 gives it a duty to prevent it from being obstructed. However, these duties only extend to the legal width of the PROW. • Part XIII of The Highways Act 1980: This contains provisions for the diversion, extinguishment or 'stopping up' of a public right of way. • The Town and Country Planning (General Permitted Development) (England) Order 2015: This gives permitted development rights for erection of a fence of up to 2m height, immediately adjacent to a PROW. <p>There are several locations in West Berkshire where a public right of way has been subsumed into the road network of a development, and has in effect become an urban footway. The photograph shows one example in Thatcham, where public footpath THAT/8/3 runs along the footway of Cowslip Crescent.</p> <p><i>[See attachment PS852 MWBLAF - Photo]</i></p> <p><i>[See attachment PS852 MWBLAF - Policy 23 M&W Local Plan]</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p>	

* Yes * No	
Please give reasons for your answer	It is beyond the remit of the Forum to give an opinion on this question.
4. Proposed Changes	<p>A specific policy on Public Rights of way should be added to the Local Plan: Public Rights of Way</p> <p>Development proposals will be permitted where the proposals do not adversely affect the Public Right of Way (PROW) network and, where possible, enhance it. When considering the adverse impacts consideration will be given to whether:</p> <ul style="list-style-type: none"> • The proposal maintains the character of the PROWs within the development or adjacent to it; • The proposal maintains the existing route during construction or, when this is impossible, propose an acceptable alternative route; • PROW should be reinstated as soon as is practicable; and • Opportunities are proposed that would secure appropriate, improved access, to the countryside. <p>The text that has been added to Policy SP10 (Green Infrastructure) complements this proposal for a new policy, and should be retained.</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	<p>The Forum wishes to have the opportunity to explain the importance of public rights of way, and how a specific policy is necessary to have a specific policy in order to protect their character. This is particularly important for any new sites that are proposed during the plan period, as these will not have a site policy in the Local Plan that addresses concerns that are specific to that site.</p> <p>We might also wish to comment on any West Berkshire Council response to the Forum's submission relating to the legislation applicable to Public Rights of Way.</p>
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant?	No
* Yes	
* No	
Please give reasons for your answer	Policies have not given appropriate regard to climate change, sustainability or delivering environmental enhancements.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.	No
* Yes	
* No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.	No
* Yes	
* No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.	No
* Yes	
* No	

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Essentially we believe the spatial strategy is flawed and there are inconsistencies within the plan. The plan does not wholly conform to the policies of the Framework.</p> <p>The supporting text to the policy notes that green infrastructure is 'integral to successful place making'. However policy itself is vague and open to interpretation. The policy does not encourage development proposals to provide enhancements to green infrastructure that is over and above the baseline. For something which is, in the Council's own words; integral to successful place making, there is a distinct missed opportunity to encourage developments to deliver enhancements to green infrastructure.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Policy SP10 should be amended to include: 'Positive weight will be afforded to development that can demonstrate enhancements to Green Infrastructure'</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	No
<p>5. Independent Examination</p>

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Draft LPR Policy SP10 requires development proposals to protect and enhance green infrastructure across the District. It is noted that supporting paragraph 5.63 has been updated to include reference to the NPPF definition of green infrastructure and supporting paragraph 5.64 sets out 'examples of GI assets'.</p> <p>However, further clarification is required to specify land which is GI and subject to this policy. This is based on the Estate's experience where the relevant Core Strategy policy (Policy CS18) relating to GI has previously been misapplied to restrict development in rural areas. The NPPF glossary defines GI as land which can provide 'a wide range of environmental, economic, health and wellbeing benefits...for local and wider communities' and therefore it is clear that such land must be publicly accessible. As</p>

	such, it should be made clear that GI excludes for example open countryside, agricultural land and garden land, in line with the NPPF.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Policy SP10 and the supporting text as currently worded does not meet the tests of soundness set out in NPPF paragraph 35. The following changes are thereby recommended in order to ensure the soundness of the Plan: <ul style="list-style-type: none"> Supporting paragraphs 5.63-5.64 should be updated to state that 'GI assets exclude open countryside, agricultural land and garden land.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	<i>The Englefield Estate consider that the plan in its current version is not sound and would like the opportunity to set out how alterations could be made to the plan and its evidence base to enable it to be found sound and progress to adoption.</i>
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	<p>We have reviewed Policy SP10 - Green Infrastructure and suggest that the title is changed to - Blue Green infrastructure.</p> <p>We understand that the NPPF defines Green Infrastructure as “A network of multi-functional green and blue spaces and other natural features, urban and rural, which is capable of delivering a wide range of environmental, economic, health and wellbeing benefits for nature, climate, local and wider communities and prosperity.” However, the use of the terminology ‘blue’ is to capture the fact that blue infrastructure elements – such as water bodies (rivers, ponds, streams etc) are also being considered as is the case with this policy.</p> <p>In bullet point ‘o’, the provision of 'buffer strips' is mentioned. This should be changed to buffer zones to match with the rest of the wording in the plan. It will be useful to also state that these buffer zones need to be at least 10m wide and should be planted with primarily local native species of UK genetic provenance and used to provide habitat and corridors for species which use the riverbanks and the water.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	We believe that the Plan accords with the requirements of the relevant legislation.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	We support the requirement to deliver Biodiversity Net Gain however we note that the required minimum gain will be imposed under the Environment Act 2021. This requirement is not yet in force, and it is expected to be required from November 2023.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	We believe that the Plan sufficiently addresses strategic planning issues relevant to the area.
<p>4. Proposed Changes</p>	<p>We therefore suggest that this policy is amended to state “development proposals will be required to demonstrate how they conserve and enhance biodiversity and/or geodiversity including their long-term future management and deliver Biodiversity Net Gain in accordance with the Environment Act 2021”. This would ensure that planning policy takes account of new and evolving requirements under the Act.</p> <p>The sub-text of the policy in para 5.87 indicates that householder and minor applications would need to be supported by a Preliminary Ecological Appraisal. This would incur additional costs to planning applications for even small-scale developments which could result in such developments becoming unviable. We therefore suggest that para 5.87 is amended to require a Preliminary Ecological Appraisal to be dealt with via planning condition if the site is considered to be ecologically sensitive to avoid potentially abortive costs for small-scale applications in the event the proposals are considered unfavourably.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes * No</p>	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<i>It does not comply with NPPF policies 174 (by not fully protecting biodiversity), 179 (by not having a policy to specifically promote the identification of LWS sites or cover sites of biodiversity importance that have yet to be designated as such, or provide protection pending the formulation of a Local Nature Recovery Strategy) and 180 (by not making it clear that applications that do not comply with biodiversity policies and result in net loss of (or overall adverse impact on) any protected habitat or species, where such loss is not either prevented on-site or in exceptional circumstances by other mitigation for such habitat or species will be refused).</i>

	<p><i>In applying a sequential test to applications possibly affecting designated sites, there is no requirement that the biodiversity feature for which the site has been designated should be the primary consideration in assessing whether any mitigation to be considered in "last resort" cases is acceptable – if the mitigation does not fully address the biodiversity feature or features for which the site is designated it should be refused.</i></p> <p><i>There are two particular problems locally. Our experience is that there has not been an adequate (and consistently maintained) review of LWSs, so sites which are discovered to have wildlife value remain unprotected pending their promotion, assessment and designation. The formulation of a Local Nature Recovery Strategy is still in its very early stages, and pending its completion and adoption there will be an important gap in the basis upon which the policies will be based. Unless there are policies that cover these gaps the plan cannot achieve compliance with the NPPF.</i></p>
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p><i>Because it does not satisfy the requirements of the NPPF as set out in section 1 above.</i></p> <p><i>In relation to effectiveness, there is currently no Local Nature Recovery Plan, which will be formulated in conjunction with the other Berkshire unitary authorities.</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	Yes
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>To cover our objections we suggest-</p> <p>1 - An overriding policy on a precautionary basis to cover the position pending adoption of the LNRS and in respect of species and sites for which conservation management plans have yet to be formulated or LWS designation has not been concluded by-</p> <p>1.1. - amending para (h) of policy CP11 as follows (addition shown underlined) –</p>

	<p><i>Is compatible with any Biodiversity Action Plan, Local Nature Recovery Strategy and /or other strategic conservation management plans or <u>site designations</u> for species or habitats that have been formally adopted by the Council,</i></p> <p>1.2 - adding a further para (i) to policy CP11 as follows-</p> <p><i>(i) where such plans, strategies or designations referred to in para (h) have yet to be formulated, completed or adopted, it does not adversely affect any fauna or flora on the site or habitat or that is potentially affected by the proposed development which has been identified as having an adverse conservation status (a) by JNCC designation as having red- or amber-list status, or (b) under any emerging local conservation management plan as a species or habitat requiring conservation measures.</i></p> <p>2 - To deal with our concerns about ensuring that any mitigation offered and implemented in exceptional cases protects the species for which the affected site is important, add a further paragraph to the end of the policy as follows-</p> <p><u>Mitigation or Compensation in exceptional cases</u></p> <p><i>Any mitigation or compensation measures proposed as referred to in paras (l), (q) and (t) above must fully mitigate the effect of the proposed development on the habitats and species which are either those for which the impacted site has been designated, or for which the site has have been identified as being significant, and should they not satisfy the council (applying a precautionary approach) that they will do so, permission will be refused.</i></p> <p>3 - To deal with our concerns about the problems of keeping the list of LWSs up-to-date, by adding a sentence to the end of para 5.83 as follows – <i>The council recognises that the process of designating such sites is a continuing process, and that sites discovered by new investigations and surveys as having value, and the changing conservation status of species over time as disclosed by national and local monitoring schemes will result in further sites qualifying for consideration for designation. It will seek to review its list of sites, and take evidence of potential qualification for designation into account when considering the impact of proposed development on biodiversity.</i></p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>SP 11 appears to be in direct conflict with the NPPF 180 c, especially regarding what defines "exceptional" circumstances. Government guidance infers this to be Nationally important infrastructure (HS2 for example). I do not believe a local housing estate is a nationally important project, and if it were, then ANY ancient woodland would fail to be protected by the NPPF.</p> <p>"c) development resulting in the loss or deterioration of irreplaceable habitats (such as ancient woodland and ancient or veteran trees) should be refused, unless there are wholly exceptional reasons 63 and a suitable compensation strategy exists;</p> <p>SP11 states.</p>

	<p>Proposals which are likely to result in the loss or deterioration of an irreplaceable habitat (such as ancient woodland, ancient or veteran trees, ancient hedgerows, traditional unimproved meadows/ancient grasslands and lowland fens) will only be permitted for wholly exceptional reasons where:</p> <ol style="list-style-type: none"> 1 The need and benefits of the development in that location clearly and unambiguously outweigh the loss; 2 It has been adequately demonstrated that the irreplaceable habitat cannot be retained with the proposed scheme; and 3 Appropriate compensation measures are provided on site wherever possible and off site where this is not feasible. The scale and quality of the compensation measures required will be commensurate to the loss or deterioration of the irreplaceable habitat and will be considered on a site by site basis, including long term management and maintenance.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer

Please give reasons for your answer	Sandleford Park West (SPW) Like Policy SP5, my client supports the principles outlined in Policy SP11 – Biodiversity and Geodiversity , however reference within the policy to the requirement for '10% Biodiversity Net Gain' is currently unlawful – the Environment Act 2021 sets out that this requirement will be mandatory from a yet to be confirmed date, in November 2023. As such, at the time of drafting, the Council does not have the legal basis upon which to require applicants to provide this requirement. Accordingly, Policy SP11 should be amended to reflect the relevant, national requirement for Biodiversity Net Gain in force at the time an application is considered.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<p>Policy SP11 states the following;</p> <p>"Biodiversity Net Gain</p> <p>All proposals should demonstrate a minimum biodiversity net gain of 10% via a Biodiversity Net Gain Plan using the most up to date biodiversity accounting metric developed by Natural England and provide details of the long-term maintenance and management of the net gain. <i>This should be delivered on site in the first instance, or through biodiversity off setting where appropriate.</i>"</p> <p>The above highlighted statement and in particular the emphasis on, on-site delivery in the first instance, is contrary to other guidance in the NPPF (see below) which has a greater ambition for the local plan area and biodiversity. On-site delivery will often be compromised by the nature of the development and/or the short/medium/long term pressure and harmful impacts over 30 years of people/children recreation and pets. In many instances off-site provision will be better managed over the 30 year period and will provide longer lasting higher quality biodiversity gains.</p> <p>NPPF 174</p> <p>Planning policies and decisions should contribute to and enhance the natural and local environment by:</p> <p>d) minimising impacts on and providing net gains for biodiversity</p> <p>175 Plans should:</p> <p>plan for the enhancement of natural capital at a catchment or landscape scale across local authority boundaries.</p> <p>1 To protect and enhance biodiversity and geodiversity, plans should: b) identify and pursue opportunities for securing measurable net gains for biodiversity.</p> <p>To comply with the above NPPF guidance the wording in SP11 needs to allow the use of off-site BNG, not as a last resort, but where BNG will positively contribute to habitat creation, and significant biodiversity enhancements in the wider local countryside over the 30 year period.</p> <p>Wording such as below would comply more closely with NPPF guidance: <i>This should be delivered on site where possible or through local biodiversity offsetting where a better result for biodiversity would be achieved over the contracted 30 year period and beyond.</i></p>
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.	

* Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	To comply with the above NPPF guidance the wording in SP11 needs to allow the use of off-site BNG, not as a last resort, but where BNG will positively contribute to habitat creation, and significant biodiversity enhancements in the wider local countryside over a minimum of a 30 year period. Wording such as below would comply more closely with NPPF guidance: <i>This should be delivered on site where possible or through local biodiversity offsetting where a better result for biodiversity would be achieved over the contracted 30 year period and beyond.</i>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	To comply with the above NPPF guidance the wording in SP11 needs to allow the use of off-site BNG, not as a last resort, but where BNG will positively contribute to habitat creation, and significant biodiversity enhancements in the wider local countryside, in accordance with emerging Local Nature Recovery Strategies. Wording such as below would comply more closely with NPPF guidance: <i>This should be delivered on site where possible or through local biodiversity offsetting where a better result for biodiversity would be achieved over the contracted 30 year period and beyond.</i>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	The WBC method of managing biodiversity seems to mainly involve policing on-site habitat activity which the Biodiversity Metric may score well in the first instance but would in fact be severely negatively impacted by 30 years of domestic/residential/business activities and pressures on and around the site. We believe there is an opportunity to make real benefits and gains in the wider countryside to reverse biodiversity loss but this needs the proactive help of planners encouraging local off-site high quality habitat creation and linkage schemes, as is happening in other local authority areas.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes

6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	<p>See attachment 'Paula Saunderson - Full LPR Rep' for full consultation response. Comments on each chapter/policy can be found at the specific consultation point.</p> <p>SP11 – BIODIVERSITY & GEODIVERSITY</p> <p>There is little work within the Evidence Base to allow us to think this has been a priority for WBC. Ecological Reports are not listed within Planning Documents, and the Public are not allowed to view them which means the work of the various Mammal Societies is inhibited. Relocation of species on sites underway is not monitored, and snakes and slowworms are just thrown over fences.</p>

	<p>The recently arrived Ecologist is buried under the Planning Department rather than taking on a strategic role within the Organisation.</p> <p>Despite the Climate Emergency being declared in Spring 2019 there has been little concentration on Nature Recovery or trying to ensure local Wildlife Corridors can still exist and operate.</p> <p>The examples of Coley Farm and Sims Metal yard and their proximity to Ancient Woodlands is a classic example where it would have been possible to consider these aspects but the opportunity is lost as will the wildlife be lost.</p> <p>Planning Committee Councillors never bring up these aspects in their debates just concentrating on making sure Humans are provided for. There are much better examples of Biodiversity & Geology Policies out in other plans.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	N/A
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>The use of the word "will" where it is intended to refer to the placing of a constraint on development should be replaced by "must". For example, in the first line of SP11, instead of "development proposals will be required to demonstrate", it should say "must". Otherwise the sentence could be argued to merely mean that the policy predicts that such proposals will "conserve and enhance ..." so that developers could argue that in a particular circumstance their proposals need not comply with the policy.</p> <p>This is supported by central government guidance from The Office of Parliamentary Counsel: Drafting Guidance'; June 2020 (Footnote: https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/892409/OPC_drafting_guidance_June_2020-1.pdf (retrieved 12/02/2023)) Conserving biodiversity and where possible enhancing it is an existential matter for the Planet and there can be no easy exemptions. There may be many and/or complex ways to achieve it but no development can be allowed that has not been subject to a rigorous examination of how this will be achieved. The policy and its supporting text needs to be reviewed in this light.</p>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes	Yes

* No	
Please give reasons for your answer	N/A
4. Proposed Changes	"Will" should be replaced with "must" in the following places: Line 1; line 2 of 'a'; line 1 under "Internationally Designated Sites"; line 2 of 'q'.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	We would expect the normal legal meaning of the words "will", "must" and "shall" are accepted during Examination of the Plan. In the context of imposing an obligation on a developer, "must" is essential, whereas "will" is merely a prediction. There are other uses of "will" in other policies in the draft Plan which we would hope are scrutinised by the Inspector. This is just the most important Policy of all as it affects all forms of life.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes
Event Name	Proposed Submission (Reg 19) West Berkshire Local Plan Review 2022-2039

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes

Please give reasons for your answer	The draft policy complies with the NPPF requirement to protect irreplaceable habitats, including ancient woodland, except in exceptional circumstances and with compensation commensurate to the loss or deterioration of the irreplaceable habitat to be considered on a site by site basis, including long term management and maintenance.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	As noted above, the draft policy is consistent with NPPF policy on protection of irreplaceable habitats. This is made more effective by the wording in the supporting text in para 5.80 which clarifies that compensation measures for irreplaceable habitats will not be considered acceptable where the replacement habitat provided results in a neutral impact, that compensation will be based on the nature or extent of damage or loss, and will be assessed on a site by site basis in consultation with the relevant conservation body. The Woodland Trust supports this approach
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	n/a
4. Proposed Changes	n/a
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No

Please give reasons for your answer	All proposals demonstrating biodiversity gain of 10% minimum “ if intended to mean ALL planning proposal would seem to be impractical as this would include every house extension requiring planning permission. That this is the intention is reinforced in 5.87 by “The assessment should be proportional to the scale of the development and so for householder and most minor applications this will initially involve a Preliminary Protected Species Survey or Preliminary Ecological Appraisal”. It is unlikely there are sufficient ecologists available to produce such surveys for every planning application.

Please give reasons for your answer	BBOWT welcomes the policy on biodiversity and geodiversity aimed at conserving and enhancing biodiversity and delivering a net gain and the addition of wording to protect main rivers. We would suggest this include all rivers and stream corridors. Biodiversity Net Gain The government consulted on the introduction of mandatory biodiversity net gain into the planning system in late 2018 and confirmation of this was announced in spring 2019. The Environment Bill passed in 2021 and the New Environment Act (2021) was adopted. The adopted Environment Act sets out the statutory obligations of this decision in detail. The legislation sets the minimum gain required in biodiversity units at 10% over base value. However, several leaders in this policy area have already adopted a 20% minimum gain, with robust justification for doing so (See; Lichfield District Council Biodiversity & Development: Supplementary Planning Document 2016, (p.17) & Oxfordshire's Biodiversity Advisory Group proposals for the Oxfordshire Plan 2050).

Relevant findings from Defra’s Impact Assessment document (See; Biodiversity Net Gain Consultation Impact Assessment, Defra 2018 (21/11/2018) include:

- “..In simple terms, [10%] is the lowest level of net gain that [Defra] could confidently expect to deliver genuine net gain, or at least no net loss, of biodiversity and thereby meet its policy objectives.”
- “..Advice from some Natural Capital Committee members suggests that a level of net gain at or above 10% is necessary to give reasonable confidence in halting biodiversity losses.”
- “..The department therefore favours as high a level of net gain as is feasible... The analysis undertaken in this Impact Assessment indicates that the level of requirement makes relatively little difference to the costs of mitigating and compensating for impacts.”

BBOWT’s position is therefore to support and actively encourage the universal adoption of a required minimum 20% biodiversity net gain within policy in West Berkshire.

Irreplaceable Habitats

Paragraph 180 (c) NPPF states that “development resulting in the loss or deterioration of irreplaceable habitats (such as ancient woodland and ancient or veteran trees) should be refused, unless there are wholly exceptional reasons and a suitable compensation strategy exists” BBOWT believe that irreplaceable habitats should not be developed on and that no amount of a mitigation measures or compensation can never really be adequate when irreplaceable habitat is lost.

q. Appropriate compensation measures are provided on site wherever possible and off site where this not is feasible. The scale and quality of the compensation measures required will be commensurate to the loss or deterioration of the irreplaceable habitat and will be considered on a site by site basis, including long term management and maintenance.

BBOWT are concerned about the way this is worded using the term commensurate. There is a danger that commensurate could be interpreted as meaning the same area e.g. some definitions of commensurate use terms such as “corresponding or equal in size or extent or amount”. Whilst this may not be what is intended there is a risk that this is taken to mean that if 1ha of ancient woodland is lost, then 1 ha should be replaced. This would be a vast under expectation compared to what is widely accepted as being needed in terms of compensation measures for irreplaceable habitats. These habitats are, by definition, irreplaceable and where lost then very large amounts of replacement habitat are needed to even begin to compensate for the loss. For example, in the Natural England report to HS2 on the net gain metric, Natural England stated the opinion: “23. For a project of this scale, it is the judgement of Natural England that HS2 Ltd should aim to create 30 hectares of new woodland for every hectare lost, where ancient woodland is to be replaced by new woods.” Therefore we consider that alternative wording should be used or else a definition should be attached to commensurate to make clear it is not meaning the same in area but instead compensation of a considerable scale that reflects the huge impact resulting from the loss of irreplaceable habitats.

Please give reasons for your answer	<p>Policy SP11 (Biodiversity and Geodiversity) – Thakeham is supportive of the Council's requirement for all proposals to demonstrate a minimum of 10% biodiversity net gain, within the development at the first instance, or via off setting where not viable. This is in line with Thakeham's own internal commitment to achieving a 10% biodiversity net gain across all of our developments, which will increase to 20% from 2025.</p> <p>Thakeham supports the creation of the Reg 19 Local Plan and looks forward to engaging further. Currently however we have concerns in relation to the wording of the policies, their evidence base and therefore on the overall soundness of the Reg 19 Local Plan as drafted. Whilst the Council's evidence underpinning certain policies is strong, in others it is notably weak.</p>

1. Do you consider the Local Plan Review is legally compliant?	Yes
* Yes	
* No	
Please give reasons for your answer	Regarding the Spatial Strategy, a Strategic Environmental Assessment (SEA) has been carried out, as part of the Local Plan appraisal process to promote sustainable environmental considerations in the preparation of the local plan.
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.	
* Yes	
* No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.	No
* Yes	
* No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters	

<p>that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	<p>We have reviewed Policy SP11, Biodiversity and geodiversity and have concerns regarding this policy most of which we mentioned previously. Currently the policy does not satisfactorily adhere to the requirements of national policy – NPPF section 15.</p> <p>There is no inclusion on the size of the buffer zone and as stated in other places, this needs to be 10 metres. Bullet point 'd' states that development will be permitted where it: <i>“Provides or retains appropriate buffer zones between development proposals and designated sites, habitats for protected or priority species or main rivers, which are informed by detailed site-based assessment.”</i></p> <p>The use of 'appropriate' as stated is ambiguous and could end up with a buffer which is not sufficient. As we stated previously, some watercourses require even be more than a 10m buffer provided at either size of the watercourse due to the importance of the designated rivers in West Berkshire, the River Kennet SSSI and River Lambourn SAC. As well, habitats of principle importance also need a buffer zone, not just designated sites.</p> <p>We reiterate that a standalone policy specifically about the water environment to provide more protection for the water environment is required. This is particularly important given the nationally and internationally protected sites that includes the River Kennet Site of Special Scientific Interest (SSSI), the River Lambourn SSSI and Special Area of Conservation (SAC) and a number of SSSI and SAC wetland habitats within the Kennet floodplain. We have made a separate representation regarding this.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>Please give reasons for your answer</p>	<p>The Council (Under Section 33A of the Planning and Compulsory Purchase Act) in its Duty to Cooperate with other prescribed bodies/key agencies when preparing the LPR in order to address strategic planning issues relevant to their areas has engaged generally with the Environment Agency during the Plan making process.</p>
<p>4. Proposed Changes</p>	<p>We suggest that the policy text point 'd' is amended to include the requirement for 10 buffer zone and we suggest the following;</p> <p><i>‘Provides or retains appropriate at least 10m buffer zones between development proposals and designated sites, habitats for protected or priority species or main rivers, which are informed by detailed site-based assessment. Due to the importance of the designated rivers in West Berkshire (i.e. the River Kennet SSSI and River Lambourn SAC), some watercourses require even be more than a 10m buffer provided at either size of the watercourse.’</i></p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>	Yes
<p>5. Independent Examination</p>	<p>We wish to attend the examination for an opportunity to explain the need for Policy SP11 - Biodiversity and geodiversity to be further strengthened to provide more protection for the water environment.</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination</p> <p>* Yes</p> <p>* No</p>	Yes
<p>6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination</p> <p>* Yes</p> <p>* No</p>	Yes

6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	Furthermore, Sovereign considers that the Proposed Submission West Berkshire Local Plan Review (2022 – 2039), as currently formulated, is Legally Compliant
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need	

<p>and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>DEVELOPMENT MANAGEMENT POLICIES</p> <p>The comments set out in this section are intended to assist the Council in developing an approach that is consistent with national planning policies and the tests of soundness. Some comments have been included to assist the Council in developing a series of policies that are both effective and robust. Where possible, suggested amendments have been set out in the response.</p> <p>Sovereign broadly supports the West Berkshire Local Plan Review (2022 - 2039). However, the comments set out below are intended to identify opportunities to improve the effectiveness of the proposed policies.</p> <p>As a general principle, the plan would benefit from consistent numbering, in relation to the paragraphs, policy criteria, and sub-criteria. This would assist the accessibility and the useability of the draft plan, improving the effectiveness of the document substantially.</p> <p>Policy SP11: Biodiversity and Geodiversity</p> <p><i>See proposed changes below.</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Sovereign considers that in preparing the emerging local plan, the Council have sufficiently complied with the Duty-to-Cooperate.</p> <p><i>3. The Duty-to-Cooperate</i></p> <p>Section 33a of the Planning and Compulsory Purchase Act (2004) ('PCPA') requires that local planning authorities should co-operate with other relevant local authorities, the County Council, prescribed bodies, and other persons, in relation to the preparation of a Local Plan. The Duty requires the Council to engage constructively, actively, and on an on-going basis, in the preparation of the Plan, insofar as it relates to a strategic matter. Strategic Matters include the sustainable development and use of land that has, or would have, a significant impact on at least two planning areas, such as the amount and distribution of housing.</p> <p>Furthermore, the NPPF confirms, at paragraph 26, that government policy comprises that the effective and ongoing working between strategic policy-making authorities and relevant bodies is integral to the production of a positively prepared and justified strategy. It goes on to confirm that, in particular, joint working should help to determine where additional infrastructure is necessary and whether development needs that cannot be met</p>

	<p>wholly within a particular authority area could be met elsewhere. As such, cooperation clearly relates to maximising the effectiveness of plan preparation.</p> <p>Demonstrated within the effective and on-going joint working undertaken by West Berkshire District Council with the other Western Berkshire HMA authorities, in particular illuminated through the preparation of the SoCG, Sovereign considers that the West Berkshire Local Plan Review is <i>positively prepared</i> and the product of an <i>effective</i> and robust process of cooperation between the authorities.</p> <p>Sovereign therefore considers that the Duty-to-Cooperate has been sufficiently demonstrated in the plan-making.</p>
4. Proposed Changes	<p>To future-proof the policy, it is recommended that additional wording is included to provide for greater flexibility in the use of an appropriate metric to measure Biodiversity Net Gains which is not specifically the current metric developed by Natural England:</p> <p>i) All proposals should demonstrate a minimum biodiversity net gain of 10% via a Biodiversity Net Gain Plan using the most up-to-date an appropriate biodiversity accounting metric, either developed by Natural England or an agreed alternative, and provide details of the long-term maintenance and management of the net gain. This should be delivered on site in the first instance, or through biodiversity off setting where appropriate.</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	Sovereign benefit from a specific land interest within West Berkshire District, which is proposed to be allocated for residential development under the emerging Policy RSA23: Land Adjoining The Haven, Kintbury. In representing Sovereign, Boyer are well-placed to advise on the appropriateness of the land allocated for development.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>This consultation response has been prepared by Fisher German on behalf of our clients Mr M Musgrave and Mr W Begley in respect of their land adjacent to Oxford Road, Chieveley, as illustrated in the attached.</p> <p>The land, which extend to circa 6.58ha, is located to the east of Chieveley. The site is defined by residential development and Graces Lane to the south, Oxford Road to the east, residential development and East Lane to the north and a field to the west. The site benefits from mature boundary planting and forms a logical infill location close to the centre of Chieveley.</p> <p>These representations follow the order of the policies within the Submission Plan, wherein we have not commented we have no specific comments at this stage. If you have any questions regarding these representations, please contact the author.</p> <p><i>Extract of response relevant to consultation point:</i></p> <p>The Council set out that their Local Housing Need (LHN), as derived from the Standard Method, at the time of publication is 513 dwellings per annum. This forms the Council's proposed baseline housing requirement.</p> <p>The PPG is clear that when establishing a housing requirement "the standard method for assessing local housing need provides a <i>minimum starting point</i> in determining the number of homes needed in an area... Therefore, there will be circumstances where it is appropriate to consider whether actual housing need is higher than the standard method indicates." [our emphasis] (Paragraph: 010 Reference ID: 2a-010-20201216). Examples of scenarios which may justify an increase of housing requirement include growth strategies, the delivery strategic infrastructure improvements or the requirement of an authority to take on unmet need from a neighbouring authority.</p> <p>It is important to note that the PPG sets out that the consideration of whether uplifts to the housing requirement from local housing need are necessary should be undertaken prior to and independently from any consideration of the ability of an area to meet that need.</p> <p>It is therefore noticeable that independent studies commissioned by West Berkshire suggests strongly that the housing requirement should be higher to ensure economic growth ambitions can be realised, equating to 600 dwellings per annum at a minimum – some 87 dpa higher than the LHN.</p> <p>The Icen West Berkshire Updated Housing Needs Assessment insinuates at paragraph 4.46 that households will form at a rate of 1,002 dwellings per annum, with two-fifths of these being unable to afford private market housing. Whilst some of these forming households will be able to purchase or rent existing housing stock, it has not been demonstrated that the delivery of only 513 dwellings per annum will be sufficient to ensure that there is an adequate housing supply to meet household formation rates. This may result in overcrowding or people being forced out of the area due to unavailable housing. Post-recession this will result in disproportionate house price growth.</p> <p>In respect of affordable housing, it is apparent from the Council's evidence (West Berkshire Updated Housing Needs Assessment) that there is a significant affordable need in the District (between 223-330 dwellings per annum) and within the AONB specifically. Whilst the evidence document concludes that it is not practicable to directly link affordable housing need and overall housing need, it is clear given the high numbers involved that it would be proportionate to uplift housing need beyond LHN to at least ensure that the issue can be reduced as far as reasonably practicable.</p> <p>This issue is particularly significant in the AONB, with an annual residual need for affordable housing equating to as much as 150 dwellings per annum, but also where major housing sites are to be largely restricted, despite these forming the bulk provider of affordable housing. This demonstrates the acute need for some form of policy allowance for a pragmatic approach to housing delivery in the AONB.</p> <p>It is imperative that the Council can demonstrate clearly that the Plan will contain sufficient sites, including sufficient lead in times, to deliver a robust five-year housing land supply at the time of adoption and also the overall quantum of housing required over the entire Plan period.</p> <p>The Council proposes a 5% buffer, reduced from the 10% previously suggested. The Council justify this approach at paragraph 2.33 of the Housing Background Paper (January 2023) by stating this strikes the appropriate balance between "<i>boosting housing supply in the district while considering the limitations and constraints of a largely rural district</i>". The Paper then considers the Written Ministerial Statement of the 5th December 2022 which sets out that LHN is an advisory starting point, not mandatory and that local authorities will have some autonomy to deviate from LHN. It is noticeable however that this does not materially alter the established Standard Method which always enabled deviation if circumstances justified. It is also noted that current actions and rhetoric undertaken by the Government are likely politically motivated. It is clear from the Council's own evidence that the requirement, including the proposed buffer as discussed below, is likely to be insufficient, to the detriment of local people, particularly those in affordable housing need, maintaining balanced communities, particularly in the AONB and will not deliver economic growth. In the current economic climate, such outcomes will be particularly undesirable. Furthermore, Paragraph 60 of the NPPF confirms that the national objective is to boost <u>significantly</u> the supply of housing.</p> <p>It is noted that the proposed 5% buffer results in headroom of just 421 dwellings over the Plan period, or 24 dwellings per annum. This would leave the Plan highly vulnerable and is not at all robust. We</p>

	<p>consider that a buffer of at least 10% is more appropriate and would more suitably safeguard the Plan from issues of non-delivery or slower than anticipated delivery of strategic sites. This approach would also serve to contribute to additional affordable housing and economic growth if delivered.</p> <p>It is noted that a significant amount of supply relied upon by this Local Plan is derived from extant allocations. Clearly given the amount of time a number of these sites have been allocated for, approximately six years, it is not clear if they are deliverable. Particularly the non-strategic sites which would have reasonably expected to commence by now. Significant evidence would be required to demonstrate that all sites relied upon are actually deliverable having regard for the non-delivery to date.</p> <p>Further concern is raised in that the Council's assumptions for windfall development, and that past trends of windfall delivery can accurately predict future supply, where logically every windfall development delivered removes a potentially suitable site from future supply. It does not stand to reason that within the settlement boundaries which are not extended, the number of windfalls will remain consistent, unless there is clear and compelling evidence that there remains enough suitable land available for such delivery.</p> <p>Whilst we would always support appropriate development within the settlement boundary, due regard must be had for the contribution that green spaces and open gaps make within settlement boundaries. Encouraging their development can urbanise settlement centres, having a damaging impact on their form and character. As set out previously, this approach places weight on the approval of windfall schemes, which ultimately may be harmful to settlement character, such as garden grabbing or the intensification of housing delivery within existing curtilage plots. We do not consider the Council's approach to windfall development is sound, and we do not consider the methodology used is justified in light of the above, nor is likely to be effective. The expected rate of windfall delivery should be reduced on the above basis. Moreover, as set out previously, a strong reliance on windfall delivery logically will reduce the level of affordable housing delivered which is not appropriate given the evidenced acute need.</p> <p>We therefore consider for the various reasons set out above that the Policy is not sound, as it is not effective, justified or consistent with national policy.</p> <p><i>For full response please see attachent.</i></p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	It forms the basis for the requirement for such a document
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	Some of the policies are very old and do not fit today's requirements as laid down in the NPPF

<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Policy SP12</p> <p>New homes will be located in accordance with Policy SP1: Spatial Strategy, Policy SP3: Settlement hierarchy and Policy DM1: Development in the Countryside amongst the West Berkshire strategic Objectives should provide a range of sites to ensure that the District's housing needs and aspirations are met by providing a range of market, affordable and specialist housing types, tenures and sizes in appropriate and sustainable locations.</p> <p>Policy SP12, identifies that several sources will ensure a continuous supply of land for housing across the plan period. That said, there is a note within SP12 that there may be a requirement that West Berks could have to support a shortfall of 230 homes in the period to 2036 that have been identified in the Reading Local Plan</p> <p>Windfall sites are covered as sites not specifically identified in the Local Development plan but those that will come forward through the development management process in accordance with policies set out in the Local Plan and through the use of permitted development rights. There will also be identified within that section new sites allocated in the LPR and also new sites to be allocated in identified neighbourhood plans once these are established. The council have declared that they are looking for over 1,958 units on windfall sites.</p> <p>The local Plan proposal says, [quote]: "<i>The NPPF states that local planning authorities should support the development of windfall sites through their policies and decisions – giving great weight to the benefits of using suitable sites within existing settlements for homes (Para.68). Policies within the LPR identify the most sustainable settlements and direct development to the built up areas within settlement boundaries. The Council also publishes and maintains a register of brownfield sites that are available and potentially suitable for residential development across the District.</i>"</p> <p>This is a slight stretch given what the NPPF actually says in Para 68. The NPPF policy indicates that councils should produce a strategic housing land availability assessment. There is no mention, as identified in the local plan proposal, for land availability only within settlements. It clearly states the number of deliverable sites within the plan period on developable sites or broad locations for growth. The NPPF does however identify in Para 69(c) that councils should support the development of windfall sites and give great weight to the use of suitable sites within existing settlements. However the weighting does not determine that locations for new sites should be exclusively grouped within those settlements. It should also be noted that there is no mention of formal boundaries to settlements within the NPPF so this would suggest that there is intended to be some flexibility towards sites which are adjacent but not isolated from the settlements. In fact Para 72(b) is clear that sites could be allocated on land adjacent to settlements as long as they are proportionate in size to them. The footnote 35 goes on to clarify that this land should not be larger than one hectare in size or exceed 5% of the size of the existing settlement.</p> <p>SP1 determines that the focus of development in each spatial area will be required to follow the District-wide settlement hierarchy which takes account of the function and sustainability of settlements and promotes sustainable communities. Development and redevelopment within the settlement boundaries of those settlements will be supported. Outside of settlement boundaries, land will be treated as open countryside.</p> <p>This is not what the NPPF identifies as within that framework, there is no reference to settlement boundaries although it is clear however that isolated homes in the countryside should be avoided. A development which is small in nature but adjacent to a settlement or in West Berks terms a settlement boundary, should be supported.</p> <p>Within SP1 the Local plan does say that "Developments on the edge of defined settlements are generally expected to secure a net density of 30 dwellings. However, lower density developments will be appropriate in certain areas of the District that are particularly sensitive to the impact of intensification and redevelopment. This may be because of the prevailing character of the area, the sensitive nature of the surrounding countryside or built form, and/or the relative remoteness from public transport." This appears to go against the policy of virtually no development outside a settlement boundary as identified in policy DM1. Further within SP1 the Local Plan identifies the opportunity for smaller non-strategic sites allocated in the LPR and in some neighbourhood plans, together with infill development, including that on windfall sites within settlement boundaries. Here once again the policy precludes any location outside a settlement boundary even those identified in the NPPF as being acceptable when adjacent to a settlement. Once again the word boundary is not included.</p> <p>Policy SP3 deals with;</p> <p>Urban Areas: Newbury, Thatcham, Eastern Urban Area (Tilehurst, Calcot, Purley on Thames)</p> <p>Rural Service Centres: Burghfield Common, Hungerford, Lambourn, Mortimer, Pangbourne, Theale</p> <p>Service Villages: Bradfield Southend, Chieveley, Cold Ash, Compton, Great Shefford, Hermitage, Kintbury, Woolhampton</p> <p>Both Urban and Rural locations have limited development opportunities and must meet the requirement for infill or changes of use within the settlement boundary.</p> <p>Development in smaller settlements with settlement boundaries, and which are not included in the settlement hierarchy, will be delivered in accordance with Policy SP1. Development outside of these settlements, in other rural hamlets and in isolated groups of development will be restricted to that which is appropriate in a rural area as set out in Policy DM1.</p>

	<p>Policy DM1 within the Local Plan proposal, will refuse any application for small potential windfall developments that do not meet that policy. This policy virtually precludes any development outside what the council identifies as a settlement boundary</p> <p>SP12 therefore is particularly restrictive and does not meet the requirements for development as provided for in the NPPF. This is mainly due to the heavy reliance and stated locations for developments within the Local Plan definition of "Settlement Boundaries". This restriction is reinforced with Policy DM1. This however does not comply with the directives of the NPPF and it therefore makes policy SP12 inconsistent with National Policy.</p>

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? -	

<p>Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p>I should like to register my objection to West Berkshire Council's LPR of 2023 for several reasons. The most basic reason is that updated guidance on these matters is due to be published later this year by the government and if this plan is proceeded upon it may become outdated and open to legal challenges if implemented leading to delays and missed targets. It is anticipated that the government's required numbers of houses in each area will be reduced, which is most significant. The plan also contradicts the national guidelines on impact on AONBs.</p> <p>There is insufficient information about who provided the information used in preparing this report, who paid the costs and who put it together. The plan has no explanation as to how it will be enacted in the time span covered by the report.</p> <p>The LPR lacks detailed and transparent supporting evidence to the assumptions used. This is particularly vital regarding the numbers and types of housing needed in the future. With the lack of substantive detail, it must be assumed that the any new estates will be the usual, high profit mix of executive and middle management houses. Given the current and foreseeable situation the biggest requirement must be affordable and social housing, true vision would provide a lot more of these types. The plans talk of a percentage of affordable housing but experience shows that the number of these reduce as developers find unforeseen profitability problems, the WBC roll over and a reduction in number is agreed. We should be catering for a high percentage of the types of housing all of the community need not just those with the income to buy.</p> <p>In the LPR there is no effective detail on mitigating the effects of the extra housing on the social, physical and environmental infrastructure. With the existing pressures on all of these no LPR can ignore this matter. The effects on traffic, schools, doctors, care homes, drainage, water supplies, education, countryside etc will be very significant. The plan does not address the need and cost for extra schools, GP surgeries, care provision, road improvements, new paths in local villages as commuting traffic increases. The roads around Newbury are already very busy and these plans will put extra traffic on all of the C roads as new rat runs to the motorway junctions become used.</p> <p>Any LPR should be looking at alternatives to simple large estates and there is no detailed confirmation this has been done. The capacity of smaller developments, brownfield sites, unbuilt planning permissions, and utility of other areas should all be quantified.</p> <p>All development plans should take into account their effect on the immediate and local communities. To provide large estates means smaller communities become one big urban sprawl to the detriment of living standards generally. For instance to enlarge Thatcham by 1500 to a potential 2500 would mean Thatcham,</p>

	Newbury and local villages like Cold Ash and Upper Bucklebury run one into another. Having resisted closing the green gap between Thatcham and Newbury for this reason it is ridiculous to propose this many houses around North Thatcham.

Please give reasons for your answer	<p><i>Extract of full response relevant to consultation point:</i></p> <p>These representations have been prepared by Southern Planning Practice on behalf of The Saunders Family who own the land east of Stoney Lane, Newbury, in response to West Berkshire's Regulation 19 Local Plan Review to 2037 Consultation.</p> <p>The site is located to the east of Stoney Lane which is in the north-eastern area of Newbury. The site is both closely related to the main urban areas of West Berkshire: Newbury and Thatcham.</p> <p>A small section of southern part of the site was submitted to the West Berkshire Housing and Economic Land Availability Assessment (HELAA) (2020) and was considered under site CA9 to be suitable, available and achievable. The site, land east of Stoney Lane, as a whole has not been previously assessed by the Council for its development potential. However, it is of note that the land immediately to the south west of the site, Land at Coley Farm, has been allocated through the Local Plan for the development of circa 75 homes. In fact, this site has full planning permission for 75 homes, this is set out in further detail under Policy</p>

RSA3 below. It is understood that Cala Homes has recently purchased this site and construction will commence in the near future. It is also understood that the land to the north of the site has developer interest and it was considered under site CA8 of the HELAA.

Southern Planning Practice submitted representations on behalf of the Saunders Family to the Regulation 18 version of the draft Plan published in February 2021. In addition to the responses, the representations set out the opportunity presented by the site whilst demonstrating the site is available, suitably located and achievable, considered against the definitions contained in the NPPF 2021, that would help meet West Berkshire's housing need.

The comments made in the previous representations are still relevant and these representations seek to provide comments on the changes made to the Regulation 19 Plan.

All references in these representations are to the revised National Planning Policy Framework (NPPF) published on 20 July 2021.

For full response see attachment.

Conclusion - Section 3 of the NPPF sets out that the planning system should be genuinely plan-led. Paragraph 16 makes it clear that plans should be prepared in a way that is aspirational but deliverable.

Paragraph 35 of the NPPF sets out the four tests for plans to be considered 'sound'. One of these tests is that the plan should be 'positively prepared'. As currently drafted, particularly in light of the inclusion of allocations which already benefit from planning permission and the reduction in housing provision, the local plan is not positively prepared and is unlikely to assist the Government in its objective to significantly boost the supply of new homes as it carries forward previous allocations which have failed to deliver and proposes new allocations which also may not deliver new homes or take a long time to provide new homes, when the need is now.

As highlighted throughout our representations to the Regulation 18 consultation, the council should be looking to allocate further sites of a range of sizes to provide a flexible, responsive and deliverable housing land supply. The land east of Stoney Lane is a suitable, sustainable site which, through allocation, would deliver homes within the first five years of the plan period.

Please give reasons for your answer	<p>Please see accompanying statement for our full representations.</p> <p>In summary, it is considered that the level of housing currently proposed is:</p> <ul style="list-style-type: none"> • insufficient to support the Government's objective of significantly boosting the supply of housing; • significantly below the Council's aspirations to achieve and address the affordability problem / affordable housing need within West Berkshire; • does not take account of potential unmet need from neighbouring authorities (particularly from Reading) given the changes in local housing needs; and • The buffer is too low, given the level of constraint and variables in the district that affect delivery of new homes, and taking account of the level of available sites in identified in the HELAA. <p>In addition, there is concern that the Council expected housing supply is not sufficient to meet the minimum LHN and will lead to a significant housing shortfall across the plan period.</p> <p><u>Affordable Housing and Affordability Uplift</u></p> <p>The Vision at Chapter 3 of the Plan states that the Council will ensure that delivering "...housing of different types, sizes, tenures and affordability will be a priority in order to provide West Berkshire residents with homes and environs at sustainable locations in towns and villages that meet their needs, whatever their income, stage of life and ability" [our emphasis].</p> <p>The Updated Housing Needs Assessment (dated, July 2022) prepared by Icenii (on behalf of the Council) confirms that there is a "notable need for affordable housing, and it is clear that provision of new affordable housing is an important and pressing issue across the District" [our emphasis]. The conclusion adds that "the evidence does however suggest that affordable housing delivery should be maximised where opportunities arise" [our emphasis].</p> <p>The report advises that the scale of affordable housing need is 697 dpa (a 188% increase on need following the Council's Housing Needs Assessment in 2020). This is also 136% of the standard method minimum LHN. Accordingly, the report advises that theoretically if 40% of all new housing delivered was for affordable housing around 1,740 dpa would be needed to meet West Berkshire's affordable housing need in full (paragraph 3.24). The Council's affordable housing position is clearly worsening.</p> <p>It is acknowledged that the delivery of housing in line with the standard method figure may over time improve the affordability of market housing (and thus reduce affordable housing needs) through the affordability uplift in the standard method. However, West Berkshire's past housing delivery rates have generally been in line - if not greater - than the current minimum LHN and yet affordability problems/affordable housing need remains pressing. As a result, not positively addressing the affordability problems and affordable housing need across West Berkshire in this plan period could have significant social and economic consequences which do not appear to have been appropriately considered, including in the Sustainability Appraisal (SA/SEA) for Policy SP12.</p> <p>For this reason, the calculation of affordable housing need supports an increase in the overall housing requirement. Further, the current proposed level of housing is not aspirational and will not help the Council deliver its Local Plan 'Vision'. The Council's Vision provides the context of the Local Plan and, therefore, we observe that the strategic policies and housing requirements do not deliver these principles of the Plan and it will inevitably fail in meeting this key priority.</p> <p><u>The Buffer/Uplift</u></p> <p>The Council provide for a 5% buffer/uplift on the minimum LHN. The Council argue that this is to boost supply and have some built-in flexibility.</p> <p>The Council should be concerned that limiting the housing supply to only a 5% buffer will significantly restrict the delivery of new homes and therefore, amongst other issues, will further raise house prices to levels which create cost barriers to local residents and workers. There are many factors and variables that can affect housing supply, especially in such a constrained district, therefore there is clear justification for a significantly larger buffer. And the recent phosphates issue associated with the River Lambourn is a recent example of unforeseen issues affecting delivery of new homes.</p> <p>In addition, an appropriate buffer will support greater flexibility in the Plan if the anticipated housing supply does not deliver. This is considered further at Section 3 below.</p> <p>An appropriate uplift to the housing requirement is likely to fall between 10-20%. This would increase the Council's target housing requirement to 564 - 616 dpa, which would equate to finding a supply of 9,588 – 10,472 dwellings up to 2039. This follows the approach in other recently adopted Local Plans, including South Oxfordshire (c. 27% buffer), Maidenhead (c. 12% buffer), and North Herts (c. 13% buffer). Further, the draft Wokingham Local Plan currently includes a 20% buffer.</p> <p>The Regulation 18 version of the West Berks LPR included a 10% buffer/uplift. However, it is noted by the Council in the Housing Background Paper that they reduced this figure to 5% to provide a balance between boosting housing supply in the district while considering the limitations and constraints of a largely rural district (paragraph 2.33). This appears to be counter-intuitive; the greater level of constraint, the greater level of buffer is required to provide greater prospect of meeting the housing need, especially</p>

where one of the Plan's priorities is to improve affordability. Furthermore, the SA/SEA undertakes an analysis, at Appendix 4 Section 2.1, between LHN+ 5% and LHN+ 10%. The LHN + 10% scores significantly better with 'overall positive, with some significantly positive effects'. However, the SA/SEA concludes at Table 26 of the report that this would put the rural nature of the district at undue pressure. The SA/SEA therefore takes forward a flawed approach that does not fit with the objectives of the Plan.

The Council does not provide any justification that a 10% buffer/uplift (or greater) to the housing requirement could not be accommodated within the district. Indeed, none of the key environmental constraints (e.g AONB) in the district or the rural nature of the district preclude the principle of residential development (different to floodplain, Green Belt, internationally protected habitats etc.), but instead will shape the form and direction of growth across the district via the broad spatial strategy. As such, there is no justification to identify such a reduction in the buffer, particularly as there is clear evidence of many more available sites in the HELAA to accommodate further growth.

Conclusion

Overall, it is considered that the level of housing currently proposed is:

- 1 insufficient to support the Government's objective of significantly boosting the supply of housing;
- 2 significantly below the Council's aspirations to achieve and address the affordability problem / affordable housing need within West Berkshire;
- 3 does not take account of potential unmet need from neighbouring authorities (particularly from Reading) given the changes in local housing needs; and d) The buffer is too low, given the level of constraint and variables in the district that affect delivery of new homes, and taking account of the level of available sites identified in the HELAA.

It is considered that this justifies that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10 - 20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039. This level of housing will ensure sufficient flexibility to deliver the minimum local housing need, but also provides for choice and contingency to the market and reflect current and future demographic trends and housing market signals and affordability in West Berkshire.

Accordingly, the Council's housing target does not meet the following tests for soundness: positively prepared, effective or consistent with national policy.

Meeting Housing Need

Housing Supply

The Framework, at paragraph 11 b), confirms that "strategic policies should, as a minimum, provide for objectively assessed needs for housing...". The LPR identifies several sources of housing supply across the plan period at Table 2 of the Plan. These include: retained allocations; existing commitments on unallocated sites; windfall sites; and through new allocations in the Local Plan Review and Neighbourhood Plans.

Existing allocations

The history of some of these sites identified in the supply that do not currently have planning permission (around 95 units, excluding Sandleford Park West) or only have outline permission (392 units, excluding Sandleford Park East) or where a site's delivery has been continually delayed clearly does not support confidence in their timely delivery. As such, it is considered that a 10% non-implementation rate is factored in to, at least, some of this supply would provide a more robust strategy

Non-allocated Sites with planning permission

Table 2 shows that nearly 1,958 dwellings are provided on un-allocated sites (including prior approvals) with planning permission. Again, a 10% non-implementation rate should be applied to this figure to provide a more robust strategy as it is unlikely that all these permissions will be delivered.

Windfall allowance

The housing supply includes a windfall allowance of 1,949 dwellings (or 26.6% of the total housing supply) up to 2039. It has been based on the average annual delivery on small sites of less than 10 units (excluding prior approvals for permitted development) between 2006 – 2022.

However, it is recommended that the Council remove or significantly reduce this windfall allowance to provide greater surety of supply through allocations and without having to rely on the use of a windfall allowance which by its nature is uncertain. The latest consultation on the revised Framework and the draft Levelling Up and Regeneration Bill also place a greater emphasis and need to provide a genuinely plan-led system.

The Council contend that delivery of windfalls has been consistent and reliable. The Council has not provided any evidence however about future supply to justify such an approach. There also appears to be a recent trend that opportunities for windfalls are reducing on small sites. As set out at Table 3.1 of the Housing Background Paper the delivery over the last three years 2019/20 to 2021/22 has reduced to an annual average of 97 completions. Indeed, in the last five years the annual average is also only 112 completions, notably lower than LPRs anticipation of 140 dpa.

In addition, it is also worth noting the windfall allowance is taken from smaller sites (i.e. less than 10 new homes) and, therefore, a reliance on sites for potentially between 1-4 dwellings in the housing supply will not deliver any affordable housing and further exacerbate affordable housing need within West Berkshire, contrary to the LPR's priority to improve affordability of housing for its existing and future residents.

As a result, the windfall allowance of around 140 dpa should be removed completely or significantly reduced given recent trends.

The implications of this are important. Even a relatively modest but more realistic reduction to 100 dpa would reduce immediately the total housing supply by, at least, 549 dwellings. The remedy is for more positive planning by taking forward more of the available sites from the HELAA. This will reduce the

reliance on windfall sites and provide greater surety of supply through allocations and improve overall affordable housing provision.

Future Supply

Notwithstanding the above comments regarding housing supply, the Plan explains that there is a need to identify sites for a further 1,809 dwellings to meet the 538 dpa target (or 9,146). The Plan allocates some 1,720 homes (which includes 1,500 at NE Thatcham) and a further 80 dwellings to come forward through Neighbourhood Plans.

Housing Trajectory

The Council are already slightly (9 dwellings) short of their housing target figure (LHN + 5%) rather than ahead of the target. However, it is considered that the housing trajectory during the plan period is unrealistic, particularly relating to the strategic allocations.

Sandleford Park (as allocated at Policies SP13 and SP16)

The Housing Background Paper, at Appendix 2, sets out the housing trajectory including the phasing of individual sites. The Council contend that Sandleford East (which benefits from outline planning permission) will begin delivering 100 dpa from 2025/26 through to 2034/35, with 80 dwellings provided during the year 2035/36.

This appears an optimistic timetable, particularly given the previous planning delays with the site (allocated in 2012), that a reserved matters application has yet to be submitted for any phase(s) and the need to address several planning conditions prior to commencement of construction. The start date of 2025/26 for first completions therefore seems very much a 'best case scenario'.

It is understood that the site is being delivered by a single housebuilder. This therefore could lead to a lower absorption rate due to lack of variety of housing product in accordance with the findings of Letwin's Independent Review of Build Out (October 2018). The 100 dpa across the plan period therefore is likely to be impractical and affect site delivery over the plan period.

With regards to Sandleford West, this site does not have any planning permission despite an outline application being submitted in April 2018. It appears that the Council are awaiting an amended package of information and revised plans. Therefore, first completions in 2027/8 is simply conjecture. There will also be a need to submit and agree reserved matters and address conditions ahead of that time.

With the above in mind, it is considered that the Council should take a cautious approach with the delivery of Sandleford Park during the plan period. The Regulation 18 Consultation on the LPR noted that Sandleford Park was expected to deliver 1,000 dwellings across the plan period. This seems a more robust figure than the 1,580 dwellings now proposed, and a more realistic basis for the LPR's development strategy.

Scale and timescales for Housing Delivery

Notwithstanding the above, the Council's assumptions on the expected housing supply from NE Thatcham are also clearly unreasonable.

The Housing Background Paper demonstrates that the Council expect NE Thatcham to start delivering 150 dpa from 2029/30 to 2038/2039. On the face of it, this appears to be overly optimistic.

The market evidence demonstrates that for schemes of 1,500 dwellings, the lead-in time from validation of an application through to first completions is approximately 7 years (Source: Lichfield's Start to Finish (2nd Edition), dated February 2020). As such, given the timescales for the adoption of the Plan (i.e. late 2024 in the LDS) and taking a view that the planning application for this site is submitted by the end of 2024/2025, first completions cannot be projected before 2031/2032. This timescale may be optimistic given there is a need to prepare and agree to a coherent masterplan or development framework, if prior mineral extraction is required and/or there are delays to the adoption of the Plan. In addition, as noted with Sandleford Park, the Council has a previous poor record of delivering strategic sites within their expected timescales.

Furthermore, market evidence suggests that for sites of 1,500, a realistic average annual build out rate is c.100-120 dpa (Source: Lichfield's Start to Finish (2nd Edition)). As such, delivering completions from 2031/32 at 120 dpa would therefore equate to, at best, 960 dwellings over the plan period. A shortfall of 540 dwellings.

Conclusion

The Housing Background Paper, at Table 3.4, sets out the housing supply and future supply for the Council during the plan period. The table below sets out a comparison with our analysis and findings above:

<table see attachment pg.12>

With the above in mind, it is considered that currently the Council's housing supply is not sufficient to meet the minimum LHN (8,721 dwellings). Indeed, even by just discounting the expected housing shortfall from NE Thatcham during the plan period, this would decimate any headroom built in by the 5% buffer/uplift and the Council's housing supply would fail to meet the minimum LHN (9,137 – 540 = 8,597).

Accordingly, the Council's approach to housing delivery does not meet the following tests for soundness: positively prepared, effective or consistent with national policy.

As a result, it is concluded that the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy, and noting that many available sites in the HELAA including at 'land south of Newbury Racecourse' have been overlooked. The level of housing shortfall (potentially around 2,363 - 3,247 dwellings when providing a 10 - 20% buffer to the LHN in accordance with comments at Section 2) is substantial and, therefore, should be addressed through allocations in this Plan rather than any early/immediate review of the Local Plan, which would be to defer difficult, strategic planning decisions rather than demonstrating positive planning now.

	<Accompanying statement attached>
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	Please see accompanying statement for our full representations. In summary, it is considered that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10-20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039. <accompanying statement attached>

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>I should like to register my objection to West Berkshire Council's LPR of 2023 for several reasons. The most basic reason is that updated guidance on these matters is due to be published later this year by the government and if this plan is proceeded upon it may become outdated and open to legal challenges if implemented leading to delays and missed targets. It is anticipated that the government's required numbers of houses in each area will be reduced, which is most significant. The plan also contradicts the national guidelines on impact on AONBs.</p> <p>There is insufficient information about who provided the information used in preparing this report, who paid the costs and who put it together. The plan has no explanation as to how it will be enacted in the time span covered by the report.</p> <p>The LPR lacks detailed and transparent supporting evidence to the assumptions used. This is particularly vital regarding the numbers and types of housing needed in the future. With the lack of substantive detail, it must be assumed that the any new estates will be the usual, high profit mix of executive and middle management houses. Given the current and foreseeable situation the biggest requirement must be affordable and social housing, true vision would provide a lot more of these types. The plans talk of a percentage of affordable housing but experience shows that the number of these reduce as developers find unforeseen profitability problems, the WBC roll over and a reduction in number is agreed. We should be catering for a high percentage of the types of housing all of the community need not just those with the income to buy.</p> <p>In the LPR there is no effective detail on mitigating the effects of the extra housing on the social, physical and environmental infrastructure. With the existing pressures on all of these no LPR can ignore this matter. The effects on traffic, schools, doctors, care homes, drainage, water supplies, education, countryside etc will be very significant. The plan does not address the need and cost for extra schools, GP surgeries, care provision, road improvements, new paths in local villages as commuting traffic</p>

	<p>increases. The roads around Newbury are already very busy and these plans will put extra traffic on all of the C roads as new rat runs to the motorway junctions become used.</p> <p>Any LPR should be looking at alternatives to simple large estates and there is no detailed confirmation this has been done. The capacity of smaller developments, brownfield sites, unbuilt planning permissions, and utility of other areas should all be quantified.</p> <p>All development plans should take into account their effect on the immediate and local communities. To provide large estates means smaller communities become one big urban sprawl to the detriment of living standards generally. For instance to enlarge Thatcham by 1500 to a potential 2500 would mean Thatcham, Newbury and local villages like Cold Ash and Upper Bucklebury run one into another. Having resisted closing the green gap between Thatcham and Newbury for this reason it is ridiculous to propose this many houses around North Thatcham.</p>

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>A Local Housing Need figure of 513 dpa has been used (using a 2022 base date), equating to a minimum need of 8,721 dwellings over the plan period. If a 5% flexibility is added, this would increase the LHN to 538 (or 9,146 dwellings over the plan period). As such, proposed Policy SP12 includes a range of 8,721-9,146 dwellings.</p> <p>It is assumed that the LPR is meeting in full the general housing need for West Berks, and that there is no unmet need.</p> <p>Both BFC and West Berks are in the same housing market area (HMA) as Reading Borough, along with Wokingham (forming the Western Berkshire HMA). There is a signed Memorandum of Understanding with these authorities in relation to unmet need from Reading (dated August 2021), which sets out that this need will be met within the HMA. This relates to 230 dwellings in Reading's current Plan. It is noted that this is referred to within the LPR (paras. 6.5-6.7), however it is not stated how West Berks is intending (if at all) to help address this unmet need.</p> <p>The Inspector's post hearing letter relating to the BFLP, includes the following Main Modification in order to make the Plan sound:</p> <p>There is an unmet need within Reading Borough's adopted local plan (covering the period 2021 to 2036) of 230 dwellings, which is projected to arise in the second half of the plan period. As agreed by Western Berkshire HMA authorities [insert footnote], this unmet need will be accommodated in the HMA area.</p>

	<p>New footnote: Reading's housing needs: Memorandum of Understanding between the authorities in the Western Berkshire</p> <p>The Inspectors note that the BFLP demonstrates a housing supply of 10,780 dwelling, meeting the housing requirement of 10,438, which would include a buffer to contribute to Reading's housing needs if required.</p> <p>As yet, it is unclear how the unmet need is to be addressed by other authorities within the Western Berkshire HMA. Given that Reading Borough Council wishes the unmet need in its Plan to be met as close as possible to where the need arises (which includes parts of West Berks, being an adjacent authority to Reading, and encompassing part of wider urban area of Reading), it is considered that this matter should be reflected within the current LPR.</p> <p>Currently it does not appear to do so, and it is therefore considered that the LPR is unsound. This has implications for Duty to Co-operate, and it is therefore requested that further consideration is given to this matter.</p>

Please give reasons for your answer	Given that only a small percentage of land in West Berkshire is free of planning restrictions, this places an enormous burden on the area and its residents of the small area that can be developed. New developments will fundamentally change the nature of the area in a way residents do not welcome, plus bring disturbance not only during building phases but forevermore because of the significantly increased population. This expansion is manifestly unfair on the residents of Newbury and Thatcham whilst the West Berkshire population outside of the two towns are unscathed. Surely the number of new houses required should be proportional to the area that is free of restrictions to take them? We should not be fitting the number of houses specified for a large district into such a small part of it. The result will be widening the divide between town and countryside that is not so great at the moment and will irrevocably change the ambience of West Berkshire. It should be taken into account that unless a considerable part of West Berkshire land is released from planning restrictions in the future there will be further pressure to build large number of houses around Newbury and Thatcham in the plan beyond 2039, and thus the size of new development needs to smaller and taken slower - in proportion to the amount of land free of planning restrictions.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	The plan will become sound if the amount of development is proportional to the ratio of land available for development compared to the overall area of the district.

<p>Please give reasons for your answer</p>	<p>Please see accompanying statement for our full representations.</p> <p>In summary, it is considered that the level of housing currently proposed is:</p> <ul style="list-style-type: none"> • insufficient to support the Government's objective of significantly boosting the supply of housing; • significantly below the Council's aspirations to achieve and address the affordability problem / affordable housing need within West Berkshire; • does not take account of potential unmet need from neighbouring authorities (particularly from Reading) given the changes in local housing needs; and • The buffer is too low, given the level of constraint and variables in the district that affect delivery of new homes, and taking account of the level of available sites in identified in the HELAA. <p>In addition, there is concern that the Council expected housing supply is not sufficient to meet the minimum LHN and will lead to a significant housing shortfall across the plan period.</p> <p><i>Extract from full representation relevant to consultation point (full response attached):</i></p> <p>Policy SP12 explains that provision will be made for 8,721 to 9,146 net additional homes for the period 1st April 2022 to 31st March 2039. It is acknowledged that the target figure of 538 dwellings per annum (dpa) does not constitute a ceiling or cap to development.</p> <p>The target figure of 538 dpa is a 5% uplift on the local housing need (LHN), as calculated using the standard method.</p> <p>However, it is considered that there is clear justification for higher housing growth in West Berkshire to meet the level of need identified in the evidence, not least in respect of addressing affordability.</p> <p>The Housing Requirement</p> <p><u>The Duty to Co-operate</u></p> <p>The Council, at paragraphs 6.5 to 6.8 of the Plan, note that there is a current unmet need from Reading Borough Council of around 230 dwellings up to 2036 and that there will be a need to consider any further unmet need given the housing needs generated by the standard method (i.e. the 35% uplift to Reading as one of the largest urban areas in England).</p> <p>The Council also notes that the distribution of any unmet need has not been agreed and will be subject to a further review through the plan making process before the need arises.</p>

Reading has identified that a five year review of its Plan is required by 2024. This will need to include an urban capacity assessment. A revised future unmet need figure is therefore likely to be available shortly. It is anticipated that the future unmet need from Reading will be significant – the housing requirement increases to 907 dpa from Lichfield’s analysis of the standard method for local housing need, dated April 2022 (from 689 dpa in the current Reading Borough Local Plan). However, at this stage without further evidence there is no certainty on what the unmet need will be or how it will be redistributed. However, it is widely accepted that Reading has limited land capacity to deliver these additional housing requirements in full and, therefore, highly likely that neighbours, including West Berkshire will be required to deliver in meeting some of this unmet need.

To address this expected significant future unmet need from Reading, it is considered that the Plan should include additional flexibility to address this future unmet need.

Affordable Housing and Affordability Uplift

The Vision at Chapter 3 of the Plan states that the Council will ensure that delivering

“... **housing of different types, sizes, tenures and affordability will be a priority** in order to provide West Berkshire residents with homes and environs at sustainable locations in towns and villages that meet their needs, whatever their income, stage of life and ability” [our emphasis].

The Updated Housing Needs Assessment (dated, July 2022) prepared by Icenii (on behalf of the Council) confirms that there is a “notable need for affordable housing, and it is clear that provision of **new affordable housing is an important and pressing issue across the District**” [our emphasis]. The conclusion adds that “the evidence does however suggest that **affordable housing delivery should be maximised where opportunities arise**” [our emphasis].

The report advises that the scale of affordable housing need is 697 dpa (a 188% increase on need following the Council’s Housing Needs Assessment in 2020). This is also 136% of the standard method minimum LHN. Accordingly, the report advises that theoretically if 40% of all new housing delivered was for affordable housing around 1,740 dpa would be needed to meet West Berkshire’s affordable housing need in full (paragraph 3.24). The Council’s affordable housing position is clearly worsening.

It is acknowledged that the delivery of housing in line with the standard method figure may over time improve the affordability of market housing (and thus reduce affordable housing needs) through the affordability uplift in the standard method. However, West Berkshire’s past housing delivery rates have generally been in line - if not greater - than the current minimum LHN and yet affordability problems/affordable housing need remains pressing. As a result, not positively addressing the affordability problems and affordable housing need across West Berkshire in this plan period could have significant social and economic consequences which do not appear to have been appropriately considered, including in the Sustainability Appraisal (SA/SEA) for Policy SP12.

For this reason, the calculation of affordable housing need supports an increase in the overall housing requirement. Further, the current proposed level of housing is not aspirational and will not help the Council deliver its Local Plan ‘Vision’. The Council’s Vision provides the context of the Local Plan and, therefore, we observe that the strategic policies and housing requirements do not deliver these principles of the Plan and it will inevitably fail in meeting this key priority.

The Uncertainty Buffer/Uplift

The Council provide for a 5% buffer/uplift on the minimum LHN. The Council argue that this is to boost supply and have some built-in flexibility.

The Council should be concerned that limiting the housing supply to only a 5% buffer will significantly restrict the delivery of new homes and therefore, amongst other issues, will further raise house prices to levels which create cost barriers to local residents and workers.

There are many factors and variables that can affect housing supply, especially in such a constrained district, therefore there is clear justification for a significantly larger buffer. And the recent phosphates issue associated with the River Lambourn is a recent example of unforeseen issues affecting delivery of new homes.

In addition, an appropriate buffer will support greater flexibility in the Plan if the anticipated housing supply does not deliver. This is considered further at Section 3 below.

An appropriate uplift to the housing requirement is likely to fall between 10-20%. This would increase the Council’s target housing requirement to 564 - 616 dpa, which would equate to finding a supply of 9,588 – 10,472 dwellings up to 2039. This follows the approach in other recently adopted Local Plans, including South Oxfordshire (c. 27% buffer), Maidenhead (c. 12% buffer), and North Herts (c. 13% buffer). Further, the draft Wokingham Local Plan currently includes a 20% buffer.

The Regulation 18 version of the West Berks LPR included a 10% buffer/uplift. However, it is noted by the Council in the Housing Background Paper that they reduced this figure to 5% to provide a balance between boosting housing supply in the district while considering the limitations and constraints of a largely rural district (paragraph 2.33). This appears to be counter-intuitive; the greater level of constraint, the greater level of buffer is required to provide greater prospect of meeting the housing need, especially where one of the Plan’s priorities is to improve affordability. Furthermore, the SA/SEA undertakes an analysis, at Appendix 4 Section 2.1, between LHN+ 5% and LHN+ 10%. The LHN + 10% scores significantly better with ‘overall positive, with some significantly positive effects’. However, the SA/SEA concludes at Table 26 of the report that this would put the rural nature of the district at undue pressure. The SA/SEA therefore takes forward a flawed approach that does not fit with the objectives of the Plan.

The Council does not provide any justification that a 10% buffer/uplift (or greater) to the housing requirement could not be accommodated within the district. Indeed, none of the key environmental constraints (e.g AONB) in the district or the rural nature of the district preclude the principle of residential development (different to floodplain, Green Belt, internationally protected habitats etc.), but instead will shape the form and direction of growth across the district via the broad spatial strategy. As such, there

is no justification to identify such a reduction in the buffer, particularly as there is clear evidence of many more available sites in the HELAA to accommodate further growth.

Conclusion

Overall, it is considered that the level of housing currently proposed is:

- 1 insufficient to support the Government's objective of significantly boosting the supply of housing;
- 2 significantly below the Council's aspirations to achieve and address the affordability problem / affordable housing need within West Berkshire;
- 3 does not take account of potential unmet need from neighbouring authorities (particularly from Reading) given the changes in local housing needs and
- 4 The buffer is too low, given the level of constraint and variables in the district that affect delivery of new homes, and taking account of the level of available sites identified in the HELAA.

It is considered that this justifies that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10 - 20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039. This level of housing will ensure sufficient flexibility to deliver the minimum local housing need, but also provides for choice and contingency to the market and reflect current and future demographic trends and housing market signals and affordability in West Berkshire.

Accordingly, the Council's housing target does not meet the following tests for soundness: positively prepared, effective or consistent with national policy.

Meeting Housing Need

Housing Supply

The Framework, at paragraph 11 b), confirms that "strategic policies should, as a minimum, provide for objectively assessed needs for housing...". The LPR identifies several sources of housing supply across the plan period at Table 2 of the Plan. These include: retained allocations; existing commitments on unallocated sites; windfall sites; and through new allocations in the Local Plan Review and Neighbourhood Plans.

Existing allocations

The history of some of these sites identified in the supply that do not currently have planning permission (around 95 units, excluding Sandleford Park West) or only have outline permission (392 units, excluding Sandleford Park East) or where a site's delivery has been continually delayed clearly does not support confidence in their timely delivery. As such, it is considered that a 10% non-implementation rate is factored in to, at least, some of this supply would provide a more robust strategy

Non-allocated Sites with planning permission

Table 2 shows that nearly 1,958 dwellings are provided on un-allocated sites (including prior approvals) with planning permission. Again, a 10% non-implementation rate should be applied to this figure to provide a more robust strategy as it is unlikely that all these permissions will be delivered.

Windfall allowance

The housing supply includes a windfall allowance of 1,949 dwellings (or 26.6% of the total housing supply) up to 2039. It has been based on the average annual delivery on small sites of less than 10 units (excluding prior approvals for permitted development) between 2006 – 2022.

However, it is recommended that the Council remove or significantly reduce this windfall allowance to provide greater surety of supply through allocations and without having to rely on the use of a windfall allowance which by its nature is uncertain. The latest consultation on the revised Framework and the draft Levelling Up and Regeneration Bill also place a greater emphasis and need to provide a genuinely plan-led system.

The Council contend that delivery of windfalls has been consistent and reliable. The Council has not provided any evidence however about future supply to justify such an approach. There also appears to be a recent trend that opportunities for windfalls are reducing on small sites. As set out at Table 3.1 of the Housing Background Paper the delivery over the last three years 2019/20 to 2021/22 has reduced to an annual average of 97 completions. Indeed, in the last five years the annual average is also only 112 completions, notably lower than LPRs anticipation of 140 dpa.

In addition, it is also worth noting the windfall allowance is taken from smaller sites (i.e. less than 10 new homes) and, therefore, a reliance on sites for potentially between 1-4 dwellings in the housing supply will not deliver any affordable housing and further exacerbate affordable housing need within West Berkshire, contrary to the LPR's priority to improve affordability of housing for its existing and future residents.

As a result, the windfall allowance of around 140 dpa should be removed completely or significantly reduced given recent trends.

The implications of this are important. Even a relatively modest but more realistic reduction to 100 dpa would reduce immediately the total housing supply by, at least, 549 dwellings. The remedy is for more positive planning by taking forward more of the available sites from the HELAA. This will reduce the reliance on windfall sites and provide greater surety of supply through allocations and improve overall affordable housing provision.

Future Supply

Notwithstanding the above comments regarding housing supply, the Plan explains that there is a need to identify sites for a further 1,809 dwellings to meet the 538 dpa target (or 9,146). The Plan allocates some 1,720 homes (which includes 1,500 at NE Thatcham) and a further 80 dwellings to come forward through Neighbourhood Plans.

Housing Trajectory

The Council are already slightly (9 dwellings) short of their housing target figure (LHN + 5%) rather than ahead of the target. However, it is considered that the housing trajectory during the plan period is unrealistic, particularly relating to the strategic allocations.

Sandleford Park (as allocated at Policies SP13 and SP16)

The Housing Background Paper, at Appendix 2, sets out the housing trajectory including the phasing of individual sites. The Council contend that Sandleford East (which benefits from outline planning permission) will begin delivering 100 dpa from 2025/26 through to 2034/35, with 80 dwellings provided during the year 2035/36.

This appears an optimistic timetable, particularly given the previous planning delays with the site (allocated in 2012), that a reserved matters application has yet to be submitted for any phase(s) and the need to address several planning conditions prior to commencement of construction. The start date of 2025/26 for first completions therefore seems very much a 'best case scenario'.

It is understood that the site is being delivered by a single housebuilder. This therefore could lead to a lower absorption rate due to lack of variety of housing product in accordance with the findings of Letwin's Independent Review of Build Out (October 2018). The 100 dpa across the plan period therefore is likely to be impractical and affect site delivery over the plan period.

With regards to Sandleford West, this site does not have any planning permission despite an outline application being submitted in April 2018. It appears that the Council are awaiting an amended package of information and revised plans. Therefore, first completions in 2027/8 is simply conjecture. There will also be a need to submit and agree reserved matters and address conditions ahead of that time.

With the above in mind, it is considered that the Council should take a cautious approach with the delivery of Sandleford Park during the plan period. The Regulation 18 Consultation on the LPR noted that Sandleford Park was expected to deliver 1,000 dwellings across the plan period. This seems a more robust figure than the 1,580 dwellings now proposed, and a more realistic basis for the LPR's development strategy.

North East Thatcham (as allocated at Policies SP13 and SP17)

The Council has reduced the delivery of NE Thatcham from a total of 2,500 dwellings to 1,500 dwellings. Notwithstanding this, the Council anticipate that NE Thatcham will deliver 1,500 homes over the plan period (compared to 1,250 dwellings expected at the Regulation 18 stage). For reasons we discuss below, this appears to be unjustified.

Scale and timescales for Housing Delivery

Notwithstanding the above, the Council's assumptions on the expected housing supply from NE Thatcham are also clearly unreasonable.

The Housing Background Paper demonstrates that the Council expect NE Thatcham to start delivering 150 dpa from 2029/30 to 2038/2039. On the face of it, this appears to be overly optimistic.

The market evidence demonstrates that for schemes of 1,500 dwellings, the lead-in time from validation of an application through to first completions is approximately 7 years (Source: Lichfield's Start to Finish (2nd Edition), dated February 2020). As such, given the timescales for the adoption of the Plan (i.e. late 2024 in the LDS) and taking a view that the planning application for this site is submitted by the end of 2024/2025, first completions cannot be projected before 2031/2032. This timescale may be optimistic given there is a need to prepare and agree to a coherent masterplan or development framework, if prior mineral extraction is required and/or there are delays to the adoption of the Plan. In addition, as noted with Sandleford Park, the Council has a previous poor record of delivering strategic sites within their expected timescales.

Furthermore, market evidence suggests that for sites of 1,500, a realistic average annual build out rate is c.100-120 dpa (Source: Lichfield's Start to Finish (2nd Edition)). As such, delivering completions from 2031/32 at 120 dpa would therefore equate to, at best, 960 dwellings over the plan period. A shortfall of 540 dwellings.

Conclusion

The Housing Background Paper, at Table 3.4, sets out the housing supply and future supply for the Council during the plan period. The table <see table at 3.25 in Full Response attachment> sets out a comparison with our analysis and findings above

With the above in mind, it is considered that currently the Council's housing supply is not sufficient to meet the minimum LHN (8,721 dwellings). Indeed, even by just discounting the expected housing shortfall from NE Thatcham during the plan period, this would decimate any headroom built in by the 5% buffer/uplift and the Council's housing supply would fail to meet the minimum LHN (9,137 – 540 = 8,597).

Accordingly, the Council's approach to housing delivery does not meet the following tests for soundness: positively prepared, effective or consistent with national policy.

As a result, it is concluded that the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy, and noting that many available sites in the HELAA including at 'land at New Road, Newbury' have been overlooked. The level of housing shortfall (potentially around 2,363 - 3,247 dwellings when providing a 10 - 20% buffer to the LHN in accordance with comments at Section 2) is substantial and, therefore, should be addressed through allocations in this Plan rather than any early/immediate review of the Local Plan, which would be to defer difficult, strategic planning decisions rather than demonstrating positive planning now.

Conclusion

Rivar has concerns that the Council's Local Plan Review is currently unsound having regard to the tests of soundness at paragraph 35 of the Framework.

It is considered that there are a number of matters that indicate that the proposed strategy is not robust and, therefore, liable to fail in its objectives. There is justification to increase the housing requirement, to address these issues including:

	<ul style="list-style-type: none"> • The Plan's priority to improve affordability and to deliver additional affordable homes; • The need to boost supply significantly and to build in greater flexibility in the Plan if the anticipated housing supply does not deliver; and • Unmet need from neighbouring authorities (e.g Reading); <p>With the above in mind, it is considered that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10-20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039.</p> <p>In addition, the Council's housing supply would fail to meet the minimum LHN. This is particularly due to reliance on windfall sites and large strategic sites (e.g Sandford Park and NE Thatcham) that are questionable in terms of timescales for housing delivery and annual rate of completions. The Council's justification for the allocation NE Thatcham is also potentially unsound, particularly given the lack of updated evidence and reduction in housing numbers.</p> <p>As a result, and noting the significant amount of available land in the HELAA that has been overlooked, it is concluded that the remedy is for the LPR is to allocate more sites for housing over the plan period, consistent with the broad spatial strategy i.e. focusing development on the most sustainable settlements, including Newbury, in accordance with the settlement hierarchy (Policy SP3/Table 1 District Settlement Hierarchy).</p> <p>Accordingly, we are of the view that the Council should consider 'land adjacent New Road, Newbury', in addition to other sites that have been overlooked in suitable locations, for allocation in the Local Plan Review. We contend that the site is suitable, available and achievable and therefore the Council has been premature and unjustified in declaring it undevelopable over the plan period and removing the allocation from the Plan. Its allocation would, in principle, be consistent with the settlement hierarchy. Alternatively, in this instance there is also an opportunity to simply amend the settlement boundary as part of the Council's review to provide additional opportunities for growth to help meet the Council's housing targets during the plan period.</p> <p>We trust this Statement clearly sets out our client's position at this stage and respectfully request that the above is given due consideration as part of the West Berkshire Local Plan Review.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Please see accompanying statement for our full representations.</p> <p>In summary, it is considered that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10-20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039.</p> <p>As a result, it is concluded that the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy, and noting that many available sites in the HELAA including at 'land at New Road, Newbury' have been overlooked. The level of housing shortfall (potentially around 2,363 - 3,247 dwellings when providing a 10 - 20% buffer to the LHN in accordance with comments at Section 2) is substantial and, therefore, should be addressed through allocations in this Plan rather than any early/immediate review of the Local Plan, which would be to defer difficult, strategic planning decisions rather than demonstrating positive planning now.</p> <p><Full response attached></p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>
<p>5. Independent Examination</p>	<p>We wish to appear at the examination to present our evidence and technical information to support these representations</p>
<p>6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No</p>	<p>Yes</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.	

* Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>We strongly object to the reduction in the number of homes to be delivered over the plan period. The housing provision has been reduced from 8,840 to 9,775 net additional homes to 8,721 to 9,146. This equates to a reduction of 119 – 629 homes over the plan period. Whilst we acknowledge that the target figure per annum ‘does not constitute a ceiling or cap to development’, as acknowledged previously the policy should be worded to set out that the objectively assessed housing should be a minimum (our emphasis) figure in accordance with paragraph 11 b) of the National Planning Policy Framework and the Planning Practice Guidance.</p> <p>It is noted at paragraph 6.23 that whilst the number of dwellings per annum over the plan period has reduced from 575 to 538, the number of dwellings which need to be found has increased from 1,661 homes to 1,809. In addition paragraph 6.28 of the consultation documents sets out that the Council’s 5 year housing land supply has fallen from 7.67 years to 6.4 years. Such a dramatic fall in supply, whilst still above the 5 year requirement, indicates that further development sites should be allocated to bolster this supply.</p>

<p>Please give reasons for your answer</p>	<p>The Planning and Highways Committee of this Council considered the above matter on Monday 20 February.</p> <p>The meeting considered Policy SP 12 in the LPR " Approach to housing delivery" and expressed concern that the Brownfield Register and allowances for windfall sites around Newbury were significantly understated in the LPR. This in turn was increasing the allocation of greenfield sites, contrary to guidance and policy in the NPPF. The Committee estimated that there was a shortfall in the region of 500 dwellings including the LRIE site, the lands adjacent to Bayer, the Kennet Centre redevelopment, Mayfield Point, the Magistrates Court and the Phoenix Centre. It was felt that excluding these larger sites and the number of new dwellings they most likely would deliver during the Plan period was unreasonably modest.</p> <p>The meeting resolved that Newbury Town Council requests that the site allocations in the Newbury Settlement Area in the LPR be reviewed having regard to increased housing supply through the Brownfield sites and in particular the known larger windfall sites.</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	<p>Regulation 12 of The Environmental Assessment of Plans and Programmes Regulations 2004 states: “(1) Where an environmental assessment is required by any provision of Part 2 of these Regulations, the responsible authority shall prepare, or secure the preparation of, an environmental report in accordance with paragraphs (2) and (3) of this regulation. (2) The report shall identify, describe and evaluate the likely significant effects on the environment of— (a) implementing the plan or programme; and (b) reasonable alternatives taking into account the objectives and the geographical scope of the plan or programme.”</p> <p>The SA/SEA Environmental Report describes how only a single alternative was considered in the Interim SA/SEA for the Regulation 18 consultation. For the Regulation 19 Consultation, two alternatives are considered, for 1,500 homes and 2,500 homes. No explanation is given as to why other alternatives with fewer than 1,500 homes were not considered.</p> <p>One ‘reasonable alternative’ that should have been considered is to divide the required number of homes between two sites (or perhaps even more). The SA/SEA states that “A large strategic site can deliver a number of positive benefits”. This is undoubtedly true, but the opposite is not inherently false, as evidenced by the analysis in Section 2-Soundness below:</p> <ul style="list-style-type: none"> -The NE Thatcham site would have two primary schools, so two smaller sites could have one school each. -The provision of a GP surgery is not related to the number of houses; it would be provided by the proposal for 1,500 houses but not the one for 2,500 houses. -The site is stated to have “local centres providing local retail facilities and small-scale employment for community use”. If there are several local centres, then they could be distributed. Issue: SA/SEA Appraisal for Policy SP17 – number of homes <p>Section/paragraph: 6.61 Policy: SP17 – number of homes Appendix: Policies Map: Other: Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) November 2022</p> <p>between several smaller sites.</p> <ul style="list-style-type: none"> -A site of either 1,500 or 2,500 homes is not sufficient by itself to support the provision of secondary education. <p>The SA/SEA for Policy SP13 states: “Due to the proposed strategic allocation in Thatcham, it is not considered appropriate to allocate any further sites in Thatcham and therefore, no other sites have been assessed.”</p> <p>The Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) for Policies SP1 and SP13 are therefore not legally compliant, because they have not considered all of the ‘reasonable alternatives’ to a single development of 1,500 homes.</p>
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area’s objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an	

<p>appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes</p> <p>* No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes</p> <p>* No</p>	No
<p>Please give reasons for your answer</p>	As the sustainability appraisal is not legally compliant, the Local Plan cannot be in accordance with Paragraph 32 of NPPF.
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	
<p>Please give reasons for your answer</p>	N/A
<p>4. Proposed Changes</p>	A review of Table 30 should be part of a wider review of the Sustainability Appraisal / Strategic Environmental Assessment (SA/SEA) in relation to North East Thatcham.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)?</p> <p>* Yes</p> <p>* No</p>

Please give reasons for your answer	<p>I object to the West Berkshire Local Plan Review 2022-2039 proposed submission as it is unsound, due to the following reasons:</p> <p>West Berkshire Council needs to understand that this is a rural county, not a built up conurbation. This is how the A4 will end up if Policy RSA13: Land north of A4 Bath Road, Woolhampton (Site Ref MID4); Policy SP17 HSA17 RSA13 North East Thatcham Strategic Site Allocation and Policy RSA9 Land between A340 and The Green, Theale (Site Ref: HSA 14) are allowed to go ahead. Being a rural council, and due to the landscape, West Berkshire is never going to be a rich council due to the number of inhabitants. But it must remember that each and every one of its inhabitants is entitled to a decent quality of life, easy and acceptable access to work; home; food provision; activities in the open air; decent healthcare provision for both health and dentistry; and schooling for all ages, and in my view this plan does not support that.</p> <p>Brownfield sites should be used first and not just built to make up government target numbers.</p> <p>In addition, what also needs to be considered is the change to planning rules/guidance which is due to come from the Government in 2023, after Michael Gove (Secretary of State for Levelling Up, Housing and Communities) released a Written Ministerial Statement (https://questions-statements.parliament.uk/written-statements/detail/2022-12-06/hcws415) detailing that the housing number should now be an advisory starting point and not mandatory.</p> <p>This plan is unsound and should be looked at in more detail before the next submission.</p>

Please give reasons for your answer	The Plan appears to be based on an outdated concept of housing targets. These targets were previously binding, but recent policy changes announced by Housing Secretary Michael Gove mean they are now advisory. West Berkshire Council therefore had the opportunity to set their own more enlightened target of allowing building only on brownfield, previously developed land, of which there are over 45 hectares in the district, which could accommodate over 2,500 homes. Given that so many GP surgeries are no longer accepting new patients, and other similar examples of overstretched local resources, 2,500 new homes would be a stiff target to meet but at least one based on the logic of not removing farmland from food production or harming the countryside in general.

<p>Please give reasons for your answer</p>	<p>Thank you for the opportunity to comment on the West Berkshire Council Local Plan Review 2022-2039 Proposed Submission Reg 19 draft – January 2023. McCarthy Stone is the leading provider of specialist housing for older people in the UK.</p> <p>Policy SP12 identifies that ‘Provision will be made for 8,721 to 9,146 net additional homes in West Berkshire for the period 1 April 2020 to 31 March 2039; 513 to 538 dwellings per annum. The target figure of 538 dwellings per annum does not constitute a ceiling or cap to development’. Para 11.18 of the Local Plan review identifies that ‘The need for specialist housing for older people in the District is estimated to be around 1,710 units over the 2021-39 period (95 per annum) (West Berkshire Local Housing Needs Assessment (LHNA), 2012, Table 5.8).’ Specialist housing for older people therefore makes up between 18.7% and 19.6% of the total housing requirement. This is a significant proportion of the housing requirement, and the emerging plan must emphasise and be more supportive of delivering specialist housing for older people to be in accordance with national policy and effective.</p> <p>Government’s policy, as set out in the revised NPPF, is to boost significantly, the supply of housing. Paragraph 60 reads:</p> <p><i>“To support the Government’s objective of significantly boosting the supply of homes, it is important that a sufficient amount and variety of land can come forward where it is needed, that the needs of groups with specific housing requirements are addressed and that land with permission is developed without unnecessary delay.”</i></p> <p>The revised NPPF looks at delivering a sufficient supply of homes, Paragraph 62 identifies within this context, the size, and type and tenure of housing needed for different groups in the community should be assessed and reflected in planning policies including older people.</p> <p>In June 2019 the PPG was updated to include a section on Housing for Older and Disabled People, recognising the need to provide housing for older people. Paragraph 001 Reference ID: 63-001-20190626 states:</p> <p><i>“The need to provide housing for older people is critical. People are living longer lives and the proportion of older people in the population is increasing. In mid-2016 there were 1.6 million people aged 85 and over; by mid-2041 this is projected to double to 3.2 million. Offering older people a better choice of accommodation to suit their changing needs can help them live independently for longer, feel more connected to their communities and help reduce costs to the social care and health systems. Therefore, an understanding of how the ageing population affects housing needs is something to be considered from the early stages of plan-making through to decision-taking” (emphasis added)</i></p> <p>Paragraph 003 Reference ID: 63-003-20190626 recognises that:</p> <p><i>“the health and lifestyles of older people will differ greatly, as will their housing needs, which can range from accessible and adaptable general needs housing to specialist housing with high levels of care and support.”</i></p> <p>Thus, a range of provision needs to be planned for. Paragraph 006 Reference ID: 63-006-20190626 sets out:</p> <p><i>“plan-making authorities should set clear policies to address the housing needs of groups with particular needs such as older and disabled people. These policies can set out how the plan-making authority will consider proposals for the different types of housing that these groups are likely to require.”</i></p>

	<p>Therefore, the Local Plan should, especially given the substantial need identified within para 11.18 of the draft plan, recognise that housing for older people has its own requirements and should be given more emphasis within the Plan. For the Local Plan review to be consistent with national policy SP12 should be amended to include the provision of specialist housing for older people.</p> <p>Recommendation</p> <p>For the plan to be consistent with national policy, the following text should be added to para 1 of Policy SP12:</p> <p><u>'This includes the provision of 1,710 units (95 units per annum) to meet the specialist housing needs of older people'.</u></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes</p> <p>* No</p>	Yes
Please give reasons for your answer	
4. Proposed Changes	<p>For the plan to be consistent with national policy, the following text should be added to para 1 of Policy SP12:</p> <p><u>'This includes the provision of 1,710 units (95 units per annum) to meet the specialist housing needs of older people'.</u></p>

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	The AONB does not consider it appropriate to take some of the un met need from a neighbouring authority given the existing constraints of the Local Authority which limits the areas available for development.
3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	Yes
Please give reasons for your answer	
4. Proposed Changes	Follow a reduced figure of 513 max.
5. Independent Examination - If your representation is seeking a change, do you consider it	No

necessary to participate at the examination hearing session(s)? * Yes * No	
5. Independent Examination	
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>In summary, it is considered that the level of housing currently proposed is:</p> <ul style="list-style-type: none"> • insufficient to support the Government's objective of significantly boosting the supply of housing; • significantly below the Council's aspirations to achieve and address the affordability problem / affordable housing need within West Berkshire; • does not take account of potential unmet need from neighbouring authorities (particularly from Reading) given the changes in local housing needs; and • The buffer is too low, given the level of constraint and variables in the district that affect delivery of new homes, and taking account of the level of available sites in identified in the HELAA. <p>In addition, there is concern that the Council expected housing supply is not sufficient to meet the minimum LHN and will lead to a significant housing shortfall across the plan period.</p> <p>Policy SP12 explains that provision will be made for 8,721 to 9,146 net additional homes for the period 1st April 2022 to 31st March 2039. The target figure of 538 dpa is a 5% uplift on the local housing need (LHN), as calculated using the standard method.</p> <p>However, it is considered that the level of housing currently proposed is:</p> <ul style="list-style-type: none"> • insufficient to support the Government's objective of significantly boosting the supply of housing; • significantly below the Council's aspirations to achieve and address the affordability problem / affordable housing need within West Berkshire; • does not take account of potential unmet need from neighbouring authorities (particularly from Reading) given the changes in local housing needs; and • The buffer is too low, given the level of constraint and variables in the district that affect delivery of new homes, and taking account of the level of available sites in identified in the HELAA. <p>It is considered that this justifies that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10 - 20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039.</p> <p><u>Housing Supply</u></p> <p>There is concern that the Council expected housing supply is not sufficient to meet the minimum LHN and will lead to a significant housing shortfall across the plan period due to:</p> <ul style="list-style-type: none"> • need to apply a 10% non-implementation rate to the 'committed' housing supply where appropriate. • the over-reliance on a windfall provision, which by its nature is uncertain; • the need to undertake further evidence to justify the deliverability and viability of NE Thatcham; and • the unrealistic housing provision/trajectory during the plan period for the strategic allocations at both Sandleford Park and NE Thatcham. <p>The level of housing shortfall (potentially around 2,363 - 3,247 dwellings when providing a 10 - 20% buffer to the LHN in accordance with the comments above) is substantial and, therefore, should be addressed through allocations in this Plan rather than any early/immediate review of the Local Plan, which would be to defer difficult, strategic planning decisions rather than demonstrating positive planning now.</p> <p>As a result, it is concluded that the LPR should be allocating more sites for housing over the plan period that is consistent with the broad spatial strategy.</p>

3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No	
Please give reasons for your answer	
4. Proposed Changes	<p>In summary, it is considered that West Berkshire's housing target should be increased to between 564 - 616 dpa (i.e. a 10-20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 – 10,472 dwellings up to 2039.</p> <p>In the context of the concerns about the vulnerability of the submitted development strategy, and the obvious remedy to identify a greater yield of new homes from the available sites in the HELAA, we turn to our client's land which was overlooked ('Land south of the Recreation Ground, Boxford (HELAA Ref: BOX1)').</p>
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	We wish to appear at the examination to present our evidence and technical information to support these representations
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

Please give reasons for your answer	<p>Sandleford Park West (SPW)</p> <p>Policy SP12 – Approach to Housing Delivery: Table 2 which supports this Policy identifies that Sandleford Park will deliver 1,580 units within the Plan period. This target is considered to be a robust prediction which my client supports. There is however, conflict with the following Policy in the Plan (Policy SP13 – Sites allocated in Newbury and Thatcham), between the figures cited for Sandleford Park Strategic Site whereby Policy SP13 identifies a figure of only 1,500, 80 units less than SP12. On the basis the Secretary of State has already approved 1,080 on land controlled by Sandleford Farm Partnership/Bloor Homes, the figure contained in Policy SP12 is the correct figure to include within the submission plan.</p> <p>As a point of consistency Policy SP13 refers to Sandleford Park as just that ('Sandleford Park') whereas, Table 2 of Policy SP12 refers to it as 'Sandleford Park Strategic Site'. To further confuse matters, in Policy SP16 which actually allocates the site, it is referred to as 'Sandleford Park Strategic Allocation'. The Plan should be consistent throughout in its reference to the name given to each site to ensure that the Plan is clear and consistent.</p>

<p>Please give reasons for your answer</p>	<p>*LATE RESPONSE*</p> <p>Housing need</p> <p>We note that the West Berkshire Local Plan Review Proposed Submission consultation proposes to provide for between 8,721 and 9,146 houses within the district (Policy SP12), meeting the identified local housing need of 513 homes per annum (para 6.10). We note that the upper end of the housing range exceeds the local housing need figure and that it is not a maximum figure for development (Policy SP12). We support the proposal for West Berkshire to meet its identified housing requirement in full within the district.</p> <p>Slough Borough Council is not in the same housing market area as West Berkshire. Slough Borough Council is unable to meet its housing need in full and is cooperating with a neighbouring authority to seek to address the provision of housing to meet Slough's unmet housing need.</p> <p>Should West Berkshire reduce its housing land provision as the West Berkshire Local Plan progresses, such that it would not be seeking to accommodate its housing need in full within the district. This would potentially increase the unmet needs that will need to be accommodated and could exacerbate development pressures across the sub-region.</p>

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>The strategic objectives and housing requirement set out in the Submission Plan are addressed in the Representations to the West Berkshire Local Plan Review Consultation (Regulation 19) Matters Relating to Housing Needs and Supply, prepared by Pegasus Group (January 2023) (Appendix A) and are not, as a result, repeated here.</p> <p>The analysis by Pegasus Group highlights the shortcomings of the Submission Plan with reference to housing provision:</p> <ul style="list-style-type: none"> • An insufficient buffer to allow for flexibility and to ensure that the local housing need (LHN) is met in full over the Plan period. • A larger buffer could be provided with no additional negative affects against the Sustainability Appraisal objectives and would provide additional positive benefits. • The current unmet need of Reading is not adequately provided for. • The likely future unmet need of Reading should be planned for now, and the Submission Plan should include flexibility to provide for that need as part of the Duty to Co-operate. • There is a clear case for an uplift to the housing provision to account for the identified affordable housing need of the area. • The reliance on a single, large strategic site for the delivery of most of the residual housing requirement, emphasises the need for a sufficient buffer to offset the potential under-delivery of the Plan. • A potential shortfall in the five-year housing land supply from the intended date of adoption of the Plan. <p>It is clear, as a result, that there is an urgent need for more housing in West Berkshire and, therefore, a need to increase the housing requirement within the Submission Plan.</p> <p>Should the Council not take this opportunity to address the urgent need for more housing, it is likely that the Submission Plan will fail to meet the necessary test of soundness in terms of providing an effective and justified housing delivery strategy, which meets the needs of the community over the Plan period.</p> <p>Of fundamental importance is the issue of unmet need from Reading. The failure of the Council to address the unmet need arising from Reading, now and in the future, puts the Submission Plan at risk of failing the necessary Legal Compliance test. A failure in terms of Legal Compliance cannot be addressed retrospectively through modifications in the same way that a matter of soundness can. If the Submission Plan fails the Legal Compliance test, the examination cannot continue, and the plan making process must recommence.</p> <p>The unmet need arising from Reading must, therefore, be fully addressed now.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>The primary amendments necessary for the Submission Plan to be found found and to meet the Legal Compliance tests are summarised as:</p> <ul style="list-style-type: none"> • An increase in the housing requirement to fully account for the local housing need across West Berkshire.

	<ul style="list-style-type: none"> • Inclusion of a buffer to the housing requirement to insulate against non-delivery during the Plan period. • Reconsider the Spatial Strategy to direct more housing to settlements, such as Hungerford, to ensure a better distribution of development, more reflective of the needs of the community. • Fully addressing the unmet need arising from Reading to ensure the Legal Compliance test is met. • The allocation of further sites to enable a rolling five-year housing land supply, maintained over the Plan Period, of which Donnington New Homes' promotion site at Smitham Bridge Road for approximately 34 new homes and Marsh Lane for allotments, is a prime example of the suitable, available, and achievable sites that can come forward.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes

<p>Please give reasons for your answer</p>	
<p>2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No</p>	<p>No</p>
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>Objection</p> <p>The overall housing requirement of between 8,721 to 9,146 between 1 April 2022 and 31 March 2039 or 513 to 538 dwellings per annum is unlikely to be inadequate to meet housing needs.</p> <p>It is appreciated that the Government's final method for calculating the housing requirement is in a state of flux currently</p> <p>Whilst it is understood that these figures used by the Council are not a ceiling or cap, nevertheless as a minimum requirement reflecting need they are unlikely to be adequate. The LPR itself states that the PPG requirement may be higher and the needs from adjoining Authorities need to crystallise.</p> <p>There are two principal reasons for this being inadequate,</p> <p>The first is that (as we have stated elsewhere) there is no final information on the housing requirement likely to have to be met from adjoining Boroughs such as Reading, Wokingham or Swindon through the Duty to Cooperate etc and where this would be located.</p> <p>Secondly it is appreciated that the Council made the housing needs calculation based upon the mechanism appertaining at the time but of course the Government's new mechanism for housing need calculation is likely to result in a higher figure.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>Please see other submissions on this specific point <See Rep ID: PS1170></p>

4. Proposed Changes	Update the overall housing requirement to meet the need arising from the duty to cooperate when this is established and based upon the Government's latest mechanism for calculating housing need.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	We do not consider the LPR is sound and would like to participate in the examination.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	Yes
Please give reasons for your answer	N/A
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need	No

<p>and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	No
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>If “achieving sustainable development” requires a Plan to provide new housing as far as possible within settlements and on previously developed land, then the allocation of 2,500 homes in North East Thatcham (SP17), of which a minimum of 1,250 are to be delivered by 2039 in this Plan period, shows the Plan is not Positively Prepared.</p> <p>6.16 states that there were 1,958 units already approved on windfall sites – presumably of all sizes – as at 31 March 2022. 6.19 cites NPPF 68 “giving great weight” to such sites and 6.20 links to local evidence in the Council’s Register of Brownfield Sites and admits that already they “have consistently played an important role in” the District’s housing supply.</p> <p>However, by only taking account of small windfall sites, despite there being several large and medium sites within settlements with planning consent and featuring in the Register of Brownfield Land, the Policy’s supporting text (6.19) takes far too cautious an approach to contribution of windfall to housing supply in the Plan period under review. This is what seems to result in the choice of NET and it makes the Plan (as we set out in more detail in SP17) unsustainable in all three dimensions:</p> <ul style="list-style-type: none"> • Environmental. In particular: <ul style="list-style-type: none"> • The NET site will be a typical car-dependent community, more so than a development closer to the town centre and/or south of the A4, let alone sites within urban settlements on brownfield land. • Placing development on this hillside is likely to add to the surface water drainage problems and potential for flash flooding. • Social <ul style="list-style-type: none"> • Residents of NET will be further from town centre facilities and opportunities for social engagement. This will likely create mental health and anti-social behaviour issues as the development is built out. • Economic <ul style="list-style-type: none"> • The gross under-estimate of the cost of a new secondary school (from £38m to only £5m – apparently across the whole District - in Jan23 IDP) will put economic pressure on the LEA to provide for education and on the wider CIL capital funding across the District. <p>We believe there is evidence that at least 500 of the 1,250 homes allocated in this Plan period for NET could be instead more sustainably be located within settlements, mainly on two large sites in Newbury. These two alone could deliver at least 340 units between them and easily be expected to achieve full build-out by 2039, with relatively little need for off-site infrastructure.</p> <p>In addition to these urban sites in or adjacent to Newbury town centre with a planning history indicating they are deliverable, there are several other medium/large sites listed in the Register and included in the Five Year Housing Supply that have planning permission or are deemed deliverable and could between them</p>

	<p>deliver over 250 dwellings just in the five year period to 2027 within other settlements. These are assumed to be part of the 1,958 figure in Table 2, although that is not clear in the current draft Local Plan, which does not refer to a full breakdown of the figure.</p> <p>Since the definition of ‘windfall site’ has been significantly broadened to include “Sites not specifically identified in the development plan”, not just sites “that unexpectedly became available”, we can see no justification for asserting there is no need for a significant windfall allowance from medium/large sites that are known to the LPA as potentially deliverable over the remainder of the Plan period, if such sites are included in the Five Year Land Supply. Small windfall sites have only accounted for about one third of the total actual windfall numbers over the current Plan period, so will almost certainly not deliver most of the windfall in future.</p> <p>We believe that tackling the Climate Emergency really is top priority for any LPA, so the definition of “exceptional” designs and circumstances (in policies SP2, SP11 & DM1) with respect to new development in the countryside and in villages throughout the District must include proposals for minor housing developments to meet local community and business needs, especially where these can be shown to be zero carbon. It should also include brownfield sites adjacent to but not yet within larger settlements, some of which have been included in the HELAA.</p> <p>In addition, we would expect more NDPs to be declared by parishes across the District and for these to produce a significant number of housing sites. We would be encouraging this.</p> <p>We estimate that the combination of planned (through NDPs) and medium/large windfall could amount to at least 200 additional homes per year within, adjacent to or near settlement areas, thereby improving the sustainability, in economic and social dimensions, of rural communities – and in all three dimensions of sustainability (through reducing the need to use the private car) of urban areas.</p> <p>The ways in which rural communities access services now involve far less travel by private car. As the roll-out of 5G broadband, EV charging infrastructure, online consultations and learning etc. proceeds, it must be assumed that there will less need for large suburban housing estates favoured by the small number of national homebuilders who have come to dominate the housing market. So the choice of a 2,500 homes strategic site (NET) is not Justified.</p> <p>We comment on several other policies in the Plan in a similar vein but for policy SP12 we believe there need only be minor changes in the supporting text and in the tables (see below).</p> <p>As regards consistent with national planning policy and the NPPF, this version of our Plan was published just after a Ministerial Letter on 6th December from the SoS, a letter sent by him to LPAs at the same time and publication by DLUHC on 22nd December of a draft new NPPF for consultation ending on 2nd March at around the same time as this LPA’s Reg19 consultation. Furthermore there is another “fuller update” of the NPPF, thought to be specifically in the light of the Climate Emergency declared by Government in 2018, due before the end of the year, according to the Chief Planner’s January 2023 newsletter.</p> <p>So it is not surprising that LPAs at a similar stage with Plan making as this Council – including Mr Gove’s own – are pausing their process. The Liberal Democrat Group, which forms the main opposition at this time but could be in control of Council policy by the time there is an Inspector appointed to examine our Plan, is also minded to pause the process for West Berkshire’s Plan until national policy becomes clearer.</p> <p>While national policy seems internally inconsistent, it is very difficult for all those involved in housing development to understand it. The remarkable churn in senior post holders, from Minister and Chief Planner downwards, does not help the development industry plan for the future and seems to reflect (or perhaps cause) uncertainty. Nevertheless it appears most likely that Plan submission will have occurred before an entirely new Council for West Berkshire is elected in May.</p> <p>On windfall numbers, we have said that the extremely modest figure seemingly based on an outdated definition of windfall also demonstrates that this policy is not consistent with national policy.</p> <p>Our comments here and elsewhere are therefore submitted in the hope that the Inspector will consider requiring changes broadly in accordance with them to be made as Modifications to the Plan in order to make it sound. There is much in the Plan as submitted that finds the support of the Liberal Democrat Group, in particular the fact that tackling Climate Change is the top strategic priority.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>In respect of SP12 only. See comments on SP17 <Comment ID: PS1269></p>
<p>4. Proposed Changes</p>	<p>In 6.20, delete all from “<i>The windfall allowance of 140....</i>” in line 3 and replace with: <i>“The windfall allowance of 340 dwellings per annum is consistent with the figures for windfall sites on brownfield land within settlements, as listed in the Register of brownfield sites. The figure includes all sites in the Register that are not already completed or under construction but that have planning consent and are shown as deliverable, plus other windfall sites of all sizes that based on recent local historical evidence may come forward through the development management system during the Plan period. The windfall figure for actual completions per annum during the current Plan period (from 2006/7) is 383.”</i></p> <p>In Table 2 on the same page, replace the last two figures (1,949 and 7,337) with 3,225 and 8,613 respectively.</p> <p>In 6.21, replace the figures 1,809 and 7,337 with 533 and 8,613 respectively.</p> <p>In 6.22, replace the figures 1,720 and 1,500 with 720 and 500 respectively.</p>

	Appendix 8 (Housing Trajectory) will need reviewing.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	We would wish to clarify the changes in the light of the latest evidence. This is probably the most significant of all changes we are proposing to the current emerging Plan. In particular we wish to explain why we believe the two large brownfield sites in Newbury that are both largely in fluvial flood zone 2 should be regarded as deliverable in the Plan period and should be included as windfall.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>Please give reasons for your answer</p>	<p>The policy proposes meeting the identified local housing need for West Berkshire in full, and expresses a range with local housing need at the lower end of the range. There is therefore flexibility to deliver housing over and above local housing need. RBC therefore supports the policy.</p> <p>As recognised in the supporting text, the Reading Borough Local Plan includes a small unmet housing need of 230 homes over the plan period to 2036, based on the level of need assessed during the Strategic Housing Market Assessment. This matter is subject to a Memorandum of Understanding between WBDC, RBC, Wokingham Borough Council and Bracknell Forest Council signed in August 2021. This plan does not specifically make any allowance for meeting these unmet needs, but we recognise that the flexibility inherent in the dwelling range expressed, in combination with the plans of other authorities, will enable these unmet needs to be met. This matter will however need to be revisited as part of RBC's Local Plan Review, due to commence in 2023, given that the standard methodology would significantly increase Reading's housing need. It should therefore be noted that the matter of unmet housing need will need to be revisited in a future Local Plan review.</p>

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	
<p>Please give reasons for your answer</p>	<p><i>[For full response see attached document]</i></p> <p>Rectory Homes have a number of concerns regarding Policy SP12 as currently drafted and also the evidence supporting the policy. Firstly, the policy sets a range of homes to be delivered within the Plan period of between 8,721-9,146 new dwellings. It is therefore unclear what is the minimum housing requirement to be delivered through the Plan. The housing requirement should be presented as a single figure so that decision makers are aware what is the minimum requirement when determining accurately the housing land supply position within the District.</p> <p>Secondly, as highlighted earlier within these representations, there is an identified unmet housing need from Reading Borough Council that is not currently accounted for within the emerging local plans for any other LPAs within the wider West Berkshire HMA. The unmet need from Reading Borough Council amounts to 230 dwellings which is a relatively low level to be accommodated elsewhere within the HMA. The emerging Bracknell Forest Local Plan has already been through examination in public and is proceeding towards main modifications which will secure the adoption of the Plan. The Plan does not allocate any additional sites to accommodate the unmet need from Reading Borough Council.</p> <p>This unmet need will therefore have to be met either within the emerging West Berkshire Local Plan Review or the emerging Wokingham Borough Local Plan. The Council have halted preparation on the emerging Wokingham Borough Local Plan whilst the proposed changes to national planning policy (NPPF3) are subject to consultation. As such, at this stage there is no indication that the unmet need will be met within the emerging Wokingham Borough Local Plan. To ensure Reading Borough Council's unmet need is met, West Berkshire Council and Wokingham Borough Council should provide a memorandum of understanding committing to deliver these homes through either one individual local plan, or a combination of the two.</p> <p>Thirdly, based on the Council's anticipated trajectory of housing supply, upon expected adoption of the Plan in 2024/25 the housing land supply will be marginal - allowing very little margin for any delays in deliverability. Currently, the Council are proposing to introduce a 5% buffer. However, given the possibility that the Plan may be out-of-date shortly after adoption, it is clear that a larger buffer should be incorporated to account for any unforeseen delays to the delivery of housing and therefore ensure the housing land supply remains greater than five years.</p> <p>Fourthly, approximately 20% of the Council's supply is anticipated to comprise the delivery of windfall sites. This is based on a windfall allowance of 140 dwellings per annum. There is no certainty that this level of windfall sites will be delivered, particularly given the requirements for acceptable development on windfall sites outlined in Policy CP3 as currently drafted. As per our comments, we consider the criteria specified too restrictive to deliver a meaningful level of housing outside of the top tier settlements.</p> <p>Paragraph 69 of the NPPF states local planning authorities should identify land to accommodate at least 10% of their housing requirement on sites no larger than a hectare in size. Whilst it is commendable that the Council are seeking to deliver a greater proportion of their supply on smaller sites beyond the minimum specified in the Framework, we are concerned that reliance on windfall sites alone to meet this requirement is not a reliable source of delivery. As a SME, the ability to secure the planning permission of and deliver schemes on small sites is crucial to the success and sustainability of our business. Due to their scale and low infrastructure costs, such sites can be delivered quickly to assist the Council's housing land supply position and can deliver tangible benefits to local communities, such as enhancing and maintaining the vitality of local services and facilities in accordance with Paragraph 78 of the NPPF.</p> <p>It is our recommendation that more small and medium sized sites should be allocated for development within the emerging Local Plan in order to provide a more reliable source of housing delivery.</p> <p>Finally, the proposed plan period spans 17 years from 2022 - 2039. Paragraph 22 of the NPPF states that strategic policies should look ahead over a minimum 15 year period from adoption. On the basis of a plan end of 2038/39, the Plan will need to be adopted by 2023/24. As the Council expect the Plan to be submitted for examination in Autumn 2023, based on a 12 month examination which is typical, the Plan would not provide a 15-year minimum strategy for West Berkshire. In this respect, we suggest that the Plan period is extended by a further year.</p> <p>In summarising our comments on Policy SP12, we consider the policy to be contrary to Paragraphs 11, 16, 61 and 69 of the NPPF. For these reasons, the policy is unsound.</p>

<p>Please give reasons for your answer</p>	<p>Specific Objection: WBC's timings on the Local Plan Review Consultation</p> <p>On 6th December, Michael Gove (Secretary of State for Levelling Up, Housing and Communities) released a Written Ministerial Statement setting out forthcoming amendments to the National Planning Policy Framework (NPPF). The Statement set out the following (inter alia): <i>I will retain a method for calculating local housing need figures, but consult on changes. I do believe that the plan-making process for housing has to start with a number. This number should, however, be an advisory starting point, a guide that is not mandatory. It will be up to local authorities, working with their communities, to determine how many homes can actually be built, taking into account what should be protected in each area - be that our precious Green Belt or national parks, the character of an area, or heritage assets. It will also be up to them to increase the proportion of affordable housing if they wish.</i> <i>My changes will instruct the Planning Inspectorate that they should no longer override sensible local decision making, which is sensitive to and reflects local constraints and concerns. Overall this amounts to a rebalancing of the relationship between local councils and the Planning Inspectorate, and will give local communities a greater say in what is built in their neighbourhood.</i></p> <p>The NPPF consultation was launched just prior to Christmas 2022 and will run until 2nd March, 2023. The Consultation Version of the NPPF sets out that the Standard Method for calculating the housing requirement (as used by West Berkshire for the regulation 19 version of the plan) will be advisory not mandatory and should only be the starting point for local plan. There is a particular focus within the consultation NPPF on taking into account the character of an area when assessing how much housing can be accommodated.</p> <p>Government Consultation for NPPF currently underway</p> <ul style="list-style-type: none"> • Likely to reduce overall housing requirement for councils. • Will take into account historic oversupply – evidence that WBC has overdelivered on housing in recent years. • Unlikely to need to take into account unmet need from Reading Borough Council (230 dwellings) • Likely that development of North East Thatcham would not be required. <p>On the back of this announcement, several Local Authorities have paused their plan making process whilst they await the outcome of the consultation on the basis that a lower housing requirement could be applicable to the plans than the one currently being planned for. On this basis, it is unclear why West Berkshire are continuing to consult on the current version of the local plan and also why councillors did not require the final version of the plan to be brought back to them for approval (i.e. at the 2nd December vote at the full council meeting) before it is</p>

	submitted to the Planning Inspectorate for examination. I feel that the council should take the opportunity, as others have, to pause the plan making and to bring forward a revised plan in line with updated planning guidance when this comes in later in 2023.

2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>A priority of Local Plan Review, set out in the Vision (paragraph 3.2) is to improve the affordability of housing in the district. We have concerns however that the proposed strategy if unlikely to be effective in achieving this priority with the housing requirement proposed.</p> <p>The proposed supply of housing relies significantly on existing permissions without any allowance/buffer for non-delivery.</p> <p>There is a significant reliance on windfall development. Recent rates of windfalls are dropping well below the anticipated 140 windfalls per annum assumed over the plan period.</p> <p>The buffer of up to 5% on the Local Housing Requirement is too low, noting precedents in other local authorities including South Oxfordshire (27%). The Council's justification for reducing the buffer from 10% is due to the level of constraint in the district. It is because of this constraint that a greater buffer is needed, to ensure that as much of the housing requirement is delivered in the plan period to address strategic objectives such as the priority of affordable housing.</p> <p>It is likely that there will be a greater level of unmet need arising from neighbouring authorities, notably Reading Borough, which as a major urban centre, is subject to the uplift on the standard method.</p> <p>Delivery rates for the strategic development site at Sandleford Park are overly ambitious, noting that the site only has outline permission as at March 2023. First completions in 2027/2028 is very ambitious.</p> <p>The vast majority of the additional homes needed to meet the housing requirement (1,809) are expected to come from one site allocation (1,500 dwellings at North East Thatcham). There appear to be significant question marks over the delivery of North East Thatcham, including in terms of its actual capacity (at Regulation 19 stage it was 2,500 homes) and its viability to deliver the infrastructure, including a new secondary school. Therefore, notwithstanding concerns of the scale of new homes needed, over 80% of the LPR strategy for additional homes is tied up in one site.</p> <p>If the intention is for North East Thatcham to grow to 2,500 homes, stretching beyond this plan period, a strategic vision is need (in accordance with NPPF 22). There is a strategic vision in the evidence base,</p>

	<p>looking ahead to 2050, but this has not been mentioned in the Local Plan Review, nor has it been subject to full Regulation 18 consultation. Its status and relevance is unclear.</p> <p>The Council has overlooked development opportunities within existing settlement boundaries. For example, Feltham Properties is seeking to deliver a mixed-use development, including housing, food store and care accommodation, with a public EV charging station, on underutilised, previously developed land at Newbury College, Monks Lane. A hybrid application was made in 2021, and while that is now subject to a S78 appeal under non-determination, the principle of development is confirmed as it is (almost entirely) within the settlement boundary. However, the Council's evidence base (the Housing and Economic Land Availability Assessment) has not considered this 'within settlement' land, while the development strategy is allocating greenfield sites beyond settlement boundaries.</p> <p>It is inevitable that greenfield sites and sites beyond existing settlement boundaries will be required as part of the strategy to meet development needs over the plan period, but this example indicates that there is likely to be greater yield from within the existing boundaries. Such sites, especially those in the top tier settlements should be prioritised, given their accessible locations, and brought forward through site allocations.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>We consider that there are potentially significant weaknesses with the development strategy that would require a significant rethink in strategy rather than minor modifications.</p>
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	<p>Yes</p>

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	
Please give reasons for your answer	<p>*LATE RESPONSE*</p> <p>We wish to express our support for the CPRE assessment regarding the ability to deliver more of the required housing on brownfield sites.</p> <p>In particular the reservation of the land adjacent the A34/339 south of junction 13 to mineral purposes fails to recognise that once minerals have been extracted the land is free for other uses and this area is already blighted by the roads so is suitable for commercial development adjacent the roads and housing on the perimeter.</p> <p>There is also a lack of emphasis on the better use of height in increasing density, the Victorian approach, as implemented in Cadugan Place in Reading, has much to recommend it in terms of visual aspect, thermal efficiency, potential for natural ventilation in the summer and reduced footprint.</p>

	I hope you will accept these observations despite their being a few hours late, principally due to the unreliability of the post in our area we only received the CPRE analysis today and did not arrive home until 20:00 to read it.

Please give reasons for your answer	<p>Object. The policy is not justified or effective. (in relation to Gorse Covert)</p> <p>The policy directs development to be located in accordance with Policies SP1 Spatial Strategy, SP3 Settlement hierarchy and DM1 Development in the Countryside. This is justified, effective and consistent with national policy. However, Table 2 in the reasoned justification includes the Sandelford Park site, setting out net units outstanding as 1580 homes. There is scope to increase the Sandelford Park site by up to circa 200 units with the inclusion of Land to the South of Gorse Covert.</p> <p>Consequently, reasonable alternatives have not been properly considered: a site in a location recognised to be the most sustainable in the District has been dismissed from inclusion in the plan. See representations to Policies SP13 and SP16 for further site information details of Land South of Gorse Covert.</p> <p>Windfalls are proposed to make up 20% of the housing requirement. It is considered that the level of dependency on windfalls could result in insufficient development coming forward within the plan period. This could be particularly pronounced in the latter half of the plan period due to reliance on the North East Thatcham Strategic Allocation and windfalls. It would also potentially risk shortfalls in the Council's five year housing land supply, resulting in permissions being sought on less sustainable sites. The five-year land supply on adoption in 2024/25 is estimated to be marginal at around 5.38 years.</p> <p>It would be preferable to allocate additional sites to provide supply certainty. Land South of Gorse Copse is an available site in a sustainable location for development, being in Newbury and adjacent to an allocated site. There are no site constraints which prevent it from being developed. It should be included in the Plan as a housing site. Further site details can be found in representations to Policies SP13 and SP16.</p> <p>Additionally, there is a need for clarity on the Council's housing requirement figures. The Council has set a minimum annual figure of 513 homes and a target of 538. This is likely to lead to confusion and</p>

	<p>resultant decision making delays. It would be preferable if the plan was amended to incorporate an additional buffer, with the 538 figure adopted as the minimum.</p> <p>Support. (in relation to Sandlesford Park)</p> <p>The policy directs development to be located in accordance with Policies SP1 Spatial Strategy, SP3 Settlement hierarchy and DM1 Development in the Countryside. Table 2 in the reasoned justification includes the Sandlesford Park site, setting out net units outstanding as 1580 homes.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	
<p>Please give reasons for your answer</p>	
<p>4. Proposed Changes</p>	<p>Proposed amendment 1.</p> <p>Approach to Housing Delivery</p> <p>Provision will be made for 9,146 net additional homes in West Berkshire for the period 1 April 20202 to 31 March, 538 dwellings per annum. The target 538 dwellings per annum does not constitute a ceiling or cap to development.</p> <p>Proposed amendment 2.</p> <p>Table 2 to be amended to reflect the allocation of circa 200 homes on Land South of Gorse Copse, adjacent to Sandlesford Park or the increase in the Sandlesford Park site to include the circa 200 homes that can be delivered on Land South of Gorse Copse.</p> <p>Table 2</p> <p>Supply Category Site/Net Units</p> <p>Land South of Gorse Copse/200</p>

Please give reasons for your answer	Our client has an agreement with the landowners of the site, known as 'Land to the rear of The Hollies' in the District, which currently forms part of an allocated site for approximately 60 dwellings under Policy HSA16 in the adopted Housing Site Allocations Development Plan Document (HSADPD) (May 2017).

It is understood the 'emerging draft' Local Plan Review (LPR) no longer seeks to carry this allocation forward. This is despite part of the allocated site having already been built out and now occupied by residents. The Council say this is because the site now falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield. The DEPZ was extended as a result of the updated Radiation (Emergency Preparedness and Public Information) Regulations (REPPiR) 2019.

Our client does not support the removal of this allocated site from the Development Plan. Our client is keen to work collaboratively with the Council to secure the development of the remaining part of this currently allocated site. These representations therefore focus on responding to the removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield.

These representations also seek to respond to the Council's development strategy (including Policies SP1 and SP3, SP12 and SP14) and decision-making in relation to an effective 'moratorium' on new development within Burghfield Common, despite the village remaining as a 'Rural Service Settlement', which offers 'development potential appropriate to the character and function of the settlement', according to the proposed Spatial Strategy.

These representations also discuss Policy RSA12, which seeks the provision of approximately 100 dwellings within Burghfield Common1, within the extended DEPZ.

In order to consider whether a Local Plan is sound, reference needs to be made to the National Planning Policy Framework (NPPF) (July 2021) paragraph 35. This identifies that a sound Plan is:

- a) **Positively Prepared** – 'providing a strategy which, as a minimum, seeks to meet the area's objectively assessed needs; and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where it is practical to do so and is consistent with achieving sustainable development';
- b) **Justified** – 'an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence';
- c) **Effective** – 'deliverable over the plan period, and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground'; and
- d) **Consistent with National Policy** – 'enabling the delivery of sustainable development in accordance with the policies in this Framework'.

It is in light of these criteria that the LPR (Regulation 19) version has been considered. We find the de-allocation of site HSA16 is not consistent with the Council's approach to its development strategy and the settlement hierarchy. In addition, its approach towards a 'moratorium' on further development within the parish of Burghfield Common is flawed.

Policy SP12 seeks the provision of 8,721 to 9,146 net additional homes in West Berkshire for the period 1 April 2022 to 31 March 2039, where new homes will be located in accordance with Policy SD1: Spatial Strategy, Policy SP3: Settlement Hierarchy and Policy DM1: Development in the Countryside.

Again, this appears to conflict with the approach taken towards development under Policy SD4 where sites fall within the extended DEPZ. The remaining allocation of 32 dwellings would, however,

contribute to the District’s housing supply in a modest, but important way.

Table 2 sets out the Housing Supply as at March 2022 and confirms there are 990 net units outstanding on HSADPD Sites. The remaining 32 dwellings on the site should be included within this figure.

Conclusion

These representations have been prepared by Pro Vision on behalf of our client, T A Fisher & Sons, in response to West Berkshire Council’s consultation on its Local Plan Review 2022-2039 (Regulation 19) (January 2023).

Our client has an agreement with the landowners of the site known as ‘Land to the rear of The Hollies’ in the District, which currently forms part of allocated site ‘HSA16’, in the adopted HSADPD (May 2017).

We note the allocation for the site is no longer included within the ‘emerging draft’ LPR, as the site falls within the extended Detailed Emergency Planning Zone (DEPZ) of AWE Burghfield, despite there being a remainder of 32 units still to be delivered.

Our client **does not** support the removal of this allocated site from the LPR.

These representations have therefore focused on responding to the unjustified removal of the allocated site from the LPR and the changes proposed to Policy SP4 in relation to AWE Aldermaston and AWE Burghfield as well as the development strategy and spatial hierarchy proposed by the LPR.

In particular, we consider the remaining number of dwellings should be carried forwards in the LPR as the development of the western part of the allocated site can be achieved and is deliverable now. We contend that the Emergency Plan can be updated to accommodate the delivery of 32 units without impacting adversely on the operation of AWE Burghfield, public safety or the functioning of the Emergency Plan. The LPR as currently drafted is unsound, as it is not justified, not consistent with the Framework and not positively prepared.

1. Do you consider the Local Plan Review is legally compliant? * Yes * No	No
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	No
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	No
2. Do you consider the Local Plan Review is sound? -	No

<p>Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Policy SP12 of the draft Local Plan makes provision for 8,721 to 9,146 net additional homes for the period 1 April 2022 to 31 March 2039. This equates to 513-538 dwellings per annum (dpa), although the policy confirms that <i>“The target figure of 538 dwellings per annum does not constitute a ceiling or cap to development.”</i></p> <p>The supporting text (paragraph 6.2) sets out that the Local Housing Need (LHN) for the District is 513 dwellings per annum (dpa). Supporting text (paragraph 6.10) sets out that in order to support the government’s objective of significantly boosting the supply of homes the upper end of the range (538) allows for approximately 5% buffer additional homes on top of the 2022 LHN. Supporting text (paragraph 6.23) sets out that the 5% buffer and the <i>“relatively modest windfall allowance”</i> add flexibility to ensure housing targets can be met.</p> <p>The aim to boost supply complies with paragraph 59 of the NPPF. Furthermore, built-in flexibility ensures that the Local Plan is sufficiently flexible to adapt to rapid change (paragraph 11(a) of the NPPF). However, to ensure that decisions regarding new development can remain Plan-led (paragraph 15) and land is brought forward at a sufficient rate (paragraph 23), it is necessary to ensure that there is enough flexibility in the Plan.</p> <p>We note that there is already a shortfall of 310 dwellings against the Core Strategy requirement, and delivery has fallen below the Core Strategy housing requirement in over half of the years during the Plan period to date (AMR, Table 3.4). Clearly this is significant, and should be factored in in establishing the housing requirement.</p> <p>The Regulation 18 version of the draft Local Plan included a 10% buffer. The Housing background paper6 paragraph 2.33 states that <i>“ The decision to reduce the buffer from 10% to 5% is considered to provide a balance between boosting housing supply in the district while considering the limitations and constraints of a largely rural district”</i>. The HELAA demonstrates that there are plenty of available sites that respect the limitations and constraints of a <i>“largely rural district”</i> for example our clients land at West End Road, Mortimer HELAA Ref: SM2 and therefore a 5% buffer is not necessary and there should be a higher buffer of at least 10% as set out in the Regulation 18 version of the draft Local Plan to add sufficient flexibility to ensure housing targets can be met and to boost supply to comply with paragraph 60 of the NPPF. Such a contingency is particularly important as the Council is relying upon two complex, large sites (Sandleford Park and North East Thatcham) to deliver a large proportion of the District’s housing need.</p> <p>A 10% buffer would result in an upper range of 564 dpa which would result in the need for another 442 dwellings across the Plan period.</p> <p>Appendix 4 of the Council’s Sustainability Appraisal (SA) Report (November 2022) provides a SA of each of the policy options considered in the draft Local Plan. In relation to the approach to housing delivery, the following options were assessed:</p> <ul style="list-style-type: none"> • Option 1: Baseline LHN. • Option 2a: Boosting supply option a (LHN + 10%). • Option 2b: Boosting supply option b (LHN + 5%) 2.51 The SA assesses each option against the same ten sustainability objectives. It is concluded that Options 1 and 2b would result in overall positive effects, while Option 2a would result in overall positive effects, with some significantly positive effects. This provides further support for a higher buffer. <p>The PPG7 sets out that <i>“the standard method for assessing local housing need provides a minimum starting point in determining the number of homes needed in an area”</i> and that <i>“there will be circumstances where it is appropriate to consider whether actual housing need is higher than the standard method indicates (our emphasis).”</i></p> <p>The Council’s Updated Housing Needs Assessment8 confirms that there is a pressing need for affordable housing in the District. It sets out a requirement of 330 dpa rented affordable homes and 367 dpa affordable home ownership homes. This equates to 136% of the standard method local housing need figure. The Housing Needs Assessment sets out that <i>“it is inappropriate to use a mechanical relationship to consider how affordable housing provision and overall housing need relate to one another. The affordable housing need is a point-in-time assessment based on current housing costs relative to earnings and takes account of current supply. The reality is that many households with an affordable housing need, including those who aspire to own a home, are existing households living in the private rented sector.”</i> This in part is agreed, however there should be more flexibility built into the LHN to ensure that</p>

affordable housing need is met, especially given the high reliance on small windfall sites (10 or less dwellings) to deliver a large proportion of the District's housing need (small sites do not bring forward as much affordable housing).

In line with paragraphs 24-27 of the NPPF, the Council has a duty to co-operate with other Local Planning Authorities (along with other prescribed bodies), on strategic matters that cross administrative boundaries.

The duty to co-operate has the potential to significantly influence the Local Plan Review, particularly the number of homes that the Council is required to accommodate. If neighbouring authorities are unable to meet their needs in full, they should ask West Berkshire to assist them, which could increase the District's housing requirement.

Paragraph 6.5 of the draft Local Plan states that "*Reading Borough Council has identified a shortfall of 230 dwellings that is anticipated to arise in the latter part of their current Local Plan period. The Reading Local Plan considers the period through to 2036.*" Paragraph 6.8 sets out that "*Reading has identified that a five yearly review is required by 2024 and that will need to consider how to deal with the housing needs generated by the standard methodology. Though the principle of meeting any unmet need within the Western Berkshire HMA is accepted, the distribution of that unmet need within the HMA has not been agreed and will be subject to further review, through the plan-making process, before the need arises.*"

The standard methods applies a 35% uplift to the 20 largest cities and urban centres in England, which includes Reading and therefore their five yearly review required by 2024 that will need to consider how to deal with the housing needs generated by the standard methodology is likely to result in a significant increase in their housing requirement.

It is likely that the evidence of the unmet need will emerge before/at a similar time that the LPR is adopted. If this evidence is not forthcoming then more flexibility is required in the Plan (i.e more housing site allocations).

Accordingly, the Council's housing target fails to meet the test for soundness in the NPPF (2021) as the LPR is not positively prepared, justified, effective or consistent with national policy.

Housing Delivery

Windfall allowance

There is a high reliance on small windfall sites (10 or less dwellings) to deliver a large proportion of the District's housing need. Table 2 in the draft Local Plan shows a windfall allowance of 1,949 with a total supply requirement of 9,146; the windfall allowance therefore represents 21% of the total supply. There should not be such a high reliance on small windfall allowance as it is not proactive planning, and will deliver less affordable housing than larger allocated sites.

Table 3.1 in the Housing Background Paper9 provides net windfall completions from 2006-2022 with an annual average of 140.9 dwellings for small sites (less than 10 dwellings); this Figure has been used for the windfall allowance in the draft Local Plan. However Table 3.1 shows that the annual windfall has significantly dropped in the last three monitoring years (109, 87 and 95) and therefore 140.9 dwellings may be an overestimate.

Existing planning commitments on unallocated sites

There is also a high reliance on existing planning commitments on unallocated sites to deliver a large proportion of the District's housing need. Table 2 in the draft Local Plan shows 1,958 existing planning commitments with a total supply requirement of 9,146 therefore representing 21% of the supply.

A 10% Non - Implementation Rate should be applied to the existing planning commitments to provide a more robust position. This would mean that another 196 homes would need to be found to meet the total supply.

North East Thatcham

The housing delivery approach is over reliant on North East Thatcham. Paragraph 6.23 of the draft Local Plan sets out that out of the 1,809 new dwellings that need to be found (requirement of 9,146 minus supply of 7,337) 1,500 are allocated at North East Thatcham Furthermore the housing trajectory in the Housing Background (footnote 10) paper seems unrealistic as it estimates that 1,500 homes would be built out during the plan period based on 150 dpa build out rate starting from 2029/30. Lichfields evidence (footnote 11) on average build out rates is 100- 120 dpa for sites of 1,500 homes. Taking the higher 120 dpa means that 1200 would be built out during the Plan; this is similar to the 1,250 which were expected to be built out during the Plan period at The Regulation 18 stage of the draft Local Plan.

Sandleford

The housing trajectory in the Housing Background paper seems unrealistic as it estimates 100 dpa from 2025/26; outline permission was granted for Sandleford East in 2022 and no reserved matters application has been made yet. Therefore the estimated 1,500 homes during the plan period seems unrealistic; indeed only 1000 homes were estimated to be built out during the Plan period at The Regulation 18 stage of the draft Local Plan.

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>The Council's use of a range between two potential housing targets of between 8,721 and 9,146 dwellings, or between 513 to 538 dwellings per annum is not specific or clear. The National Planning Policy Framework (NPPF) at Paragraph 16 (d) states that Plans should 'contain policies that are clearly written and unambiguous, so it is evident how a decision maker should react to development proposals'. A housing delivery range is not clear or unambiguous. A range could result in time wasted in future planning determinations or appeals, debating which end of the range should be used when calculating the Council's five year housing land supply and in calculating past the housing delivery against the target. NPPF Paragraph 66 sets out that 'Strategic policy-making authorities should establish a housing requirement figure for their whole area, which shows the extent to which their identified housing need (and any needs that cannot be met within neighbouring areas) can be met over the plan period.' The NPPF does not refer to identifying a range for a housing target it requires a specific figure. Furthermore, NPPF Paragraph 60 refers to the Government's objective of significantly boosting the supply of homes. Given this overarching aim it is considered that the housing target should be set at the upper figure of 9,146 dwellings or 538 dwellings per annum.</p> <p>The Local Plan also at paragraph 6.6 recognises that Reading Borough Council has an identified shortfall of 230 dwellings. Whilst the Plan confirms that this need should be met within West Berkshire it stops short of actually agreeing the distribution of this unmet need, and states this will be subject to further review. If the unmet need has been identified, and that it will be accommodated within West Berkshire has been established, there is no reason to delay meeting this need and it should be included in the Council's housing requirement now and not put off for a further review. Sites should also be allocated now to meet this identified need.</p> <p>To summarise the above points, Gleeson Land supports the overall intentions of the Local Plan Review to deliver sustainable development for the district, the settlement hierarchy and the spatial strategy. However, it is considered that there should be a requirement for an earlier review of the Local Plan should any changes arise in the AWE Burghfield and AWE Aldermaston DEPZ's or the capabilities of the Emergency Planning Services that may change the acceptability of new residential development in areas currently covered by the DEPZ. In addition the housing target should be more clearly defined at the upper end of the given range. It should be clear throughout the whole Plan that the housing target is for 9,146 dwellings (538dpa), plus the 230 dwellings of unmet need from Reading Borough Council. This unmet need should be provided for in new site allocations now, rather than being left for a later review. Serious consideration should also be given to increasing the overall housing target further to support the delivery of more affordable homes given the very high need for such homes</p>

<p>Please give reasons for your answer</p>	<p>The Royal Borough notes that West Berkshire can currently demonstrate a 6.4 years' housing supply and welcomes the intention of West Berkshire to accommodate its housing need in full. We acknowledge that this is expressed as a range, with the upper end of the range allowing for approximately 5% additional homes on top of the 2022 Local Housing Need. We support the inclusion of a buffer to allow for delays and non-implementation that may occur during the plan period.</p> <p>In conclusion, the Royal Borough of Windsor and Maidenhead has no concerns or objections to the Regulation 19 version of the Local Plan Review.</p>

<p>2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	
<p>Please give reasons for your answer</p>	<p><u>Housing Delivery</u></p> <p>Policy SP12 seeks to provide a housing requirement for West Berkshire as a range of between 8,721 and 9,146 dwellings over the plan period 2022-2039, equivalent to 513 to 538 dwellings per annum (dpa). The figure of 513dpa has been calculated using the standard methodology and represents the Local Housing Need (LHN). The policy states that the target figure of 538dpa has been calculated by applying a 5% buffer to the LHN and expresses the housing requirement as a range. It is not clear from the policy or the supporting text whether the lower end or the higher end of the requirement would be used for the purposes of future five-year housing land supply calculations. The use of a range is inherently unclear and ambiguous and is in direct conflict with the NPPF (footnote: NPPF (2021) Paragraph 16)).</p> <p>This matter was considered at the Fylde Local Plan Examination in Public by Inspector Wright in 2018. As part of their Local Plan Review the Council wanted to replace the housing requirement figure with a range (the lower figure being derived from the standard methodology). The Inspector clearly rejected this approach between paragraph 32 and 34, which stated:</p> <ol style="list-style-type: none"> <i>Policy H1 in the FLP32 sets the minimum annual housing requirement as 415 dwellings. Policy DLF1 sets the overall requirement as 8,715 new homes over the 21 year plan period. The Plan revises both policies to include the lower housing requirement figure of 275 dpa and 6,895 dwellings overall, as assessed through the standard method. However, it also keeps the existing figures and identifies the housing requirement as a range. As proposed, Policy H1 therefore identifies 275-415 dpa as the housing requirement for the period 2019-2032, with the earlier years 2011-2019 remaining at 415 dpa. Policy DLF1 provides for a minimum of 6,895-8,715 new homes over the whole plan period.</i> <i>Identifying the housing requirement as a range lacks clarity, is not effective and implies there is a maximum figure. Whilst I note that the Plan does not specifically state that the top of the range is a ceiling, it can be implied, and it is critical that the housing requirement is set out unambiguously. Accordingly, it is necessary for the housing requirement to be identified as a single minimum figure within the Plan for the period 2019/20 to 2031/32 and as a single figure for the total plan period requirement.</i> <i>Therefore, in order to meet the housing needs identified in paragraph 30 above, it is necessary to modify Policy DLF1 so that the minimum total housing requirement for the plan period is 7,275 dwellings. Similarly, Policy H1 requires modifying so that the minimum annual housing requirement is 305 dwellings for the period 2019- 2032.... (emphasis added)</i> <p>The ongoing Central Lincolnshire Local Plan Review examination has also grappled with housing requirement ranges. In response to the Inspectors' Matters, Issues and Questions the Central Lincolnshire Joint Strategic Planning Committee agreed that expressing the housing requirement as a range could lead to confusion and a main modification was needed for the effectiveness of this element of the Plan (footnote: Central Lincolnshire Local Plan Review: Inspectors' Port Hearing Letter (EX034) https://www.nkesteven.gov.uk/_resources/assets/attachment/full/0/140406.pdf).</p> <p>Similarly, the issue was considered during the examination of the Darlington Local Plan 2016-2036, whereby Policy H1 set a minimum housing requirement of 422 dwellings per annum (dpa) and also an annual target of 492 dpa over the plan Period. The Inspector concluded that the 492 dpa figure was justified and positively prepared being consistent with the economic aspirations of the Plan. However, it was noted that the lower 422 dpa figure should be deleted as it served no purposes and creates ambiguity, including how the five-year housing requirement will be calculated in line with national policy (footnote: Darlington Local Plan 2016 – 2036: Inspector's Report https://microsites.darlington.gov.uk/media/2277/inspectors-reportdblp.pdf).</p> <p>In addition, Gladman have serious concerns that progressing the proposed housing requirement in its current form will further exacerbate the significant shortage of affordable homes within West Berkshire.</p> <p>As part of its plan preparation, the Council commissioned Icen Projects and Justin Gardiner Consulting to update elements of the housing needs evidence which was originally produced in May 2020. Responding to the wider definition of affordable housing as set out in the Framework, the report includes an updated assessment of the affordable housing need in West Berkshire. The report identifies that there is a 'high' overall need of 697 affordable homes per annum in order to fully address the affordable housing needs of West Berkshire.</p>

	<p>The PPG sets out that an increase in the total housing figures included in a plan may need to be considered where it could help deliver the required number of affordable homes (footnote: PPG ID: 2a-024-20190220). The Housing Needs Assessment Update outlines that the affordable need represents 136% of the Local Housing Need calculated using the standard methodology. It states that if the Council were to provide for the affordable housing need in full, taking into consideration the affordable housing policy of 40%, then the overall housing requirement would be equal to around 1,740dpa.</p> <p>Gladman agree in part with Iceni's conclusion in that providing for the full affordable need would be unrealistic in terms of how many market homes would need to be delivered. That being said though, given the chronic shortage of affordable homes available in West Berkshire, and the real-world implications for not delivering a sufficient number of affordable homes, we believe there would be significant social and economic benefits from an increased overall housing requirement. This in turn would deliver greater levels of affordable homes and help to address the well documented shortfall within West Berkshire. The East Riding of Yorkshire's Proposed Submission plan includes an uplift of almost 20% from the baseline local housing need figure in order to support the delivery of affordable housing, resulting in a housing requirement of 1,100dpa. Gladman urge West Berkshire Council to consider the application of a similar uplift in order to ensure a greater quantum of affordable housing is delivered.</p> <p>Finally, the supporting text for SP12 outlines a number of sources which will be used in order to deliver the housing requirement through to 2039, these include, but are not limited to retained allocations, existing planning commitments, windfall sites and new sites allocated in the Local Plan Review.</p> <p>Gladman notes that 80% (or 7,337 dwellings) of the growth expected to come forward over the plan period to 2039 is from completions since the start of the plan period, permitted sites, windfall and existing allocations carried forward from the Core Strategy and the Housing Sites Allocations DPD (adopted in 2012 and 2017 respectively). While a further 1,809 dwellings need to be identified for the deliverable supply to meet the housing requirement of 9,146 (upper end of range).</p> <p>Gladman acknowledges that a proportion of these sites already benefit from planning permission however raise some concern over the deliverability of the sites. Gladman has specific concerns that the levels of housing proposed will not be delivered on these existing allocations, many of which have been allocated for six years and have not yet come forward. Gladman questions whether any further analysis or evidence has been provided to understand why these sites have not delivered and to demonstrate clearly that these sites will realistically be delivered within the plan period to 2039.</p> <p>The Council acknowledge that there needs to be further flexibility built into the housing supply to allow for phasing issues and an element on non-delivery. The ongoing Levelling-up and Regeneration Bill: reforms to national planning policy consultation also notes that their analysis suggests 15% of planning permissions are not progressed or are revised.</p> <p>In this regard, Gladman consider that an additional supply flexibility of 15% above the housing requirement should be identified to safeguard against the non-implementation and delivery of housing proposals and to ensure the Plan is effective and positively prepared in line with paragraph 35 of the NPPF.</p>

<p>the statement of common ground. * Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No</p>	<p>No</p>
<p>Please give reasons for your answer</p>	<p>Is it not considered that the plan as draft is sound under these matters as:</p> <ol style="list-style-type: none"> 1 It is not positively prepared as it does not seek to contribute sufficiently to the Government's wider objective of significantly boosting the supply of housing; 2 It is not justified with regard to the timeframe that the examination of the Local Plan will take resulting in a delayed adoption of the document; 3 It is also inconsistent with national policy in the failure to both boost housing supply and make a contribution towards addressing the housing needs of neighbouring authorities as required by paragraphs 60 and 61 of the NPPF. <p>CEG has a strong belief in the principle of the plan-led system. In setting out our representations upon the Regulation 19 Draft Submission West Berkshire Local Plan, we hope to be able to work with the Council in order to ensure the final Local Plan is fit for purpose in seeking to facilitate sustainable development that can deliver the much-needed new homes whilst also securing the provision of supporting infrastructure to ensure the creation of places where people will want to live and work in locations that are truly sustainable.</p> <p>CEG has considerable experience and expertise in dealing with and realising development schemes through the planning system.</p> <p>In this context, we welcome the publication of the Regulation 19 draft Local Plan. However, and as our representations explain, the Local Plan should provide a strategy consistent with national policy to deliver the growth across the Plan area that addresses both District's needs as well as unmet needs from neighbouring authorities.</p> <p>CEG has a controlling interest in circa 40ha of land to the north of Newbury, identified as part deliverable in the Council's Housing and Economic Land Availability ("HELAA") Study under Site Ref: SCD4.</p> <p>Deliverable Opportunity for Housing Growth on land to the north of Newbury, on either side of the A339 (HELAA Site Ref: SCD4)</p> <p>Since the Draft Submission Document fails to include our client's site as a housing allocation, we highlight the failures of the Council's assessment and the reasons why it should have been included.</p> <p>Our representations highlight the suitability, availability and achievability of the land HELAA Site Ref: SCD4.</p> <p>The locational context for the site is formed by the extant planning permission for 401 dwellings, local centre and primary school that was allowed at appeal in March 2017 (LPA Ref: 14/02480/OUTMAJ).</p> <p>Subsequent reserved matters permission has been granted and work has commenced to implement the development. The residual land to which these representations relate represents a sustainable location in seeking to meet housing needs within West Berkshire, at the principal settlement of Newbury.</p> <p>Policy SP12: The Approach to Housing Delivery</p> <p><i>The Plan Period</i></p> <p>Policy SP12 covers the period April 2022 to March 2039.</p> <p>The Council's Local Development Scheme (January 2023) outlines the timetable for the remaining stages in the preparation of the Local Plan. It envisages submission of the draft Plan for examination by the Secretary of State in March 2023, with the examination starting in July 2023 and adoption by September 2024. Such a timeframe for the preparation of the document, especially post consultation on the draft submission plan is not considered realistic.</p> <p>This is especially noticeable as submission to the Secretary of State is expected within under a month after the consultation period ends on 3rd March 2023. There is seemingly little if any prospect of the Local Plan being submitted, examined and adopted by September 2024.</p> <p>Although it is noted that the Government is contemplating refinements to plan making procedures through the Levelling Up and Regeneration Bill and updates to the NPPF (footnote 2), a review of the time taken for the examination of Strategic Local Plans submitted since 24th January 2019 (as referenced in paragraph 220 of the current NPPF) indicates (footnote 3) that for the 32 plans found sound, the examination period was 526 days (or over 17 months). The same analysis also indicates that the period from commencement of the consultation on a draft submission plan through to receipt of the Inspector's Report was on average 742 days (or over 2 years).</p> <p>Furthermore, applying the national averages for preparing the Local Plan indicates that allowing the minimum 2 years from commencement of consultation on the draft submission Plan indicates that the Inspector's Report could be received in January 2025 with adoption thereafter.</p> <p>As the NPPF (paragraph 22) is clear that strategic policies (including those for housing) should look forward at least 15 year post adoption, the current Plan period to March 2039 does not achieve this.</p>

In the circumstances, **the Plan should cover the period to at least March 2040. This would add a further years' housing requirement.**

The Housing Requirement

Although the District's housing requirement in Policy SP12 is derived from the Local Housing Need (consistent with NPPF paragraph 61), no allowance has been made for an uplift to address the acknowledged shortfall arising in the neighbouring authority of Reading Borough.

Policy H1 of the adopted Reading Borough Local Plan identifies a shortfall of 230 dwellings in the plan period that cannot be met in the Borough.

Neighbouring authorities, especially those within the Western Berkshire Housing Market Area like West Berkshire Council consistent with NPPF paragraph 61 should contribute towards addressing this shortfall. This shortfall is referenced in paragraph 6.5 of the Draft Submission Local Plan.

Whilst the Draft Submission Plan is clear it should only consider unmet need as outlined in the adopted Reading Borough Local Plan (paragraph 6.6), as Reading is one of the 20 largest urban areas in England, once Reading Borough commences a review of its local plan it will be required to deliver a 35% uplift on the minimum Local Housing Need (footnote4).

Consistent with the obligations at paragraph 73 of the NPPF, Reading Borough will need to undertake a review of its current housing requirement to establish the feasibility of achieving the requirements as derived through LHN. This will therefore include an assessment of LHN including all the relevant adjustments.

Whilst it is noted that Reading Borough's shortfall is currently, set at 230 dwellings over the plan period, paragraph 61 of the NPPF does not discount future unmet needs which are expected to arise in neighbouring areas. This is because paragraph 61 is clear that "any needs that cannot be met within neighbouring areas should also be taken into account". As the preceding sentence of the paragraph references current and future demographic trends, this logically also applies to the consideration of needs in neighbouring areas i.e. both current and future.

Although the Draft Submission Local Plan discounts the potential application of LHN in Reading Borough, it does not consider the development needs that have and will continue to arise in both West Berkshire and Reading, as confirmed in the results of the 2021 Census.

Tables 1 and 2 below provide comparisons of the population and household projections alongside the results of the Census.

The comparison indicates that the population growth for both authorities within the 2021 Census were significantly above each of the forecasts, and for households, this also applies for Reading Borough.

The actual household growth in 2021 is marginally below that projected in the 2014 projections whereas it is higher than both the 2016 and 2018 projections.

<table 1 and 2 in attachment>

Alongside the comparisons of the projections with the Census results, the implications for the expectations on average household size (based upon population / households) is shown in Table 3.

Table 3 confirms for both West Berkshire and especially for Reading, the average household size has not reduced to the extent envisaged. In fact, Reading Borough has seen a significant increase in household size. Whilst this might be a result of slowing in societal changes and the expected growth in especially single person households, it could also be a result of constrained housing delivery both nationally and locally which has impacted upon household creation with associated impacts upon over-crowding and wider social needs. This is one of the matters that indicate why the approach of determining LHN results in a minimum requirement.

There are clear signs within West Berkshire and Reading that there are constraints for housing delivery which are affecting the wider society as illustrated by the household size not reducing to the extent envisaged.

This will therefore raise doubts over the realism that the expected future reductions will occur and therefore a boost to the housing requirements is therefore necessary. This is therefore a reason for delivering additional homes across the plan area above the minimum set through LHN.

<table 3 in attachment (footnote 5)>

Table 3 indicates that for West Berkshire, the changes in household size implied by the analysis of the 2016-based sub-national and population projections is the best fit with the outcome of the Census.

Table 4 confirms the accuracy of the 2016 based household and population projections with the 2021 Census, in contrast to both the 2014 and 2018 based projections.

<table 4 in attachment>

As the 2016 based projections are closer to the results of the Census for West Berkshire, the Council should also consider whether a refined LHN assessment which includes these as the input, rather than the 2014 based figures would be appropriate.

Whilst Table 4 indicates that the average household growth in the 2016 based projections from 2021 to 2031 was 480pa, the equivalent for the 2022 to 2032 period is shown in Table 5 below. Table 5 also includes a comparison with the 2014 based projections to reflect the approach of the PPG (within Step 1).

<table 5 in attachment>

Applying the same affordability adjustment as with the LHN (an increase of 1.358125) (footnote 6) would result in an annual need for 563 dwellings (footnote 7) rather than 513 dwellings (footnote 8) as required by the Plan.

This adjustment would be additional to an increase for the housing requirements to ensure West Berkshire makes a contribution towards housing needs in Reading Borough.

	<p>Whilst the derivation of LHN as detailed in the PPG (footnote 9) results in a minimum figure, Government guidance is clear that there are circumstances where it is appropriate and responsible to plan for higher levels. Whilst examples of this are detailed in the PPG (footnote 10), this is not an exhaustive list.</p> <p>The above analysis illustrating the consistency of the outputs of the 2021 Census with the 2016 based population and household projections for West Berkshire is therefore an appropriate alternative for using to derive the District's housing target.</p> <p>The derivation of a housing need based upon the 2016 based projections should be reviewed alongside the outputs of the Berkshire SHMA (one of the specific examples referenced in the PPG11). The Berkshire SHMA (Feb 2016) indicated that West Berkshire's annual need was for 665 dwellings from 2013-36. This is therefore a further indication that a higher housing target should be included in the plan.</p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate? * Yes * No</p>	Yes
Please give reasons for your answer	
<p>4. Proposed Changes</p>	<p>As drafted, Policy SP12 fails the NPF tests of soundness for the following reasons:</p> <ol style="list-style-type: none"> 1 It is not positively prepared as it does not seek to contribute sufficiently to the Government's wider objective of significantly boosting the supply of housing; 2 It is not justified with regard to the timeframe that the examination of the Local Plan will take resulting in a delayed adoption of the document; 3 It is also inconsistent with national policy in failing to both boost housing supply and make a contribution towards addressing the housing needs of neighbouring authorities as required by paragraphs 60 and 61 of the NPPF. <p>To address these matters of soundness, several amendments are proposed. The proposed revisions to policy SP12 are:</p> <ol style="list-style-type: none"> 1 ensure that the plan period is extended to March 2040; and 2 The housing requirement is increased to a minimum of 563dpa (10,134 dwellings over the plan period) with a further uplift as a contribution towards unmet needs arising in Reading Borough.
<p>5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No</p>	Yes
<p>5. Independent Examination</p>	To explain why the plan is unsound and requires the inclusion of the allocation of land north of Newbury (either side of A339) for housing.

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<i>[See attached Mortimer Vision Document]</i> Hallam control land at Mortimer in the east of the District that is eminently suitable for housing development, both in terms of the Plan's spatial strategy and its specific characteristics.

As drafted, the consultation document does not afford a role to Mortimer in providing additional housing over that which is allocated in the current Stratfield-Mortimer Neighbourhood Plan. Yet, that Neighbourhood Plan was prepared in the context of the 2012 West Berkshire Core Strategy and covered the period to 2026.

By simply rolling forward the current allocation to meet the new housing requirement to 2039, the growth of Mortimer is proportionately lower over the longer term.

The Neighbourhood Plan describes particular socio-economic characteristics that are prevalent locally; the affordability of housing; a shortage of certain types of housing in the parish; an ageing population and an under-representation of young persons and families.

Given that the existing allocation was to be developed by 2026 to assist in ameliorating these issues, the fact it is now proposed to be the only new housing over a much longer period will undermine its contribution. Those characteristics will endure and worsen unless a greater amount of new housing is provided in addition to the existing allocated site.

Moreover, whilst the delineation of Settlement Boundaries has been considered in the process of preparing the Local Plan Review, an objective examination of that drawn at Mortimer illustrates it is drawn tightly around the existing built-up area of the settlement. Consequently, there are no genuine opportunities for windfall development.

For these reasons, we consider the Local Plan should increase the amount of housing to be provided at Mortimer. This would be consistent with paragraph 66 of the NPPF.

In this context, our representations consider the following matters:

- Chapter 4 The Development Strategy and the role of Mortimer in the east of the District
- Chapter 6 Delivering Housing and the approach to Mortimer
- The suitability of land at Kiln Lane, Mortimer

Delivering Housing

The Local Plan should, as a minimum, provide for objectively assessed needs for housing and other uses. It should be prepared with the objective of contributing to the achievement of sustainable development. In the context of the social element of sustainable development the planning system should support strong, vibrant and healthy communities, by ensuring that a sufficient number and range of homes can be provided to meet the needs of present and future generations. (§8, §11b, §16 of the NPPF refer).

At the outset it is necessary to consider the **plan period** itself; referred to as 2022-2039 and extending 17 years (§22). The NPPF indicates that Local Plans should cover a minimum of 15 years from adoption. In this instance, that would require the Local Plan to be adopted in 2024 to meet the bare 15 years. Experience suggests that the remaining stages of the plan making process are unlikely to be complete within that period of time, particular, if has been suggested, this consultation has to be revisited.

Consequently, the plan period should be extended. This has the effect of increasing the amount of future development land that needs to be identified.

A Local Plan's **strategic policies** should set out an overall strategy for the pattern, scale and design quality of places, and make sufficient provision for: a) housing (including affordable housing), employment, retail, leisure and other commercial development. (§18 refers)

We agree that the Local Plan should consider an **amount of new housing** which reflects the Government's Standard Method (i.e., 513 dwellings per annum). We also note that Policy SP12 expresses the housing requirement as a range, with a minimum requirement of 513 dwellings per annum meeting the 2022 LHN and the upper end of the range allows for approximately 5% additional homes (rounded to 538) on top of the 2022 LHN. This is said to support the government's objective of significantly boosting the supply of homes, which is set out in the NPPF.

Over the course of the 17 years of the Local Plan period, the upper end of the range amounts to an additional 425 new homes over the minimum requirement derived from 513 dwellings per annum.

To help understand the material benefit of the higher of the two requirements, the Council's evidence as to the **need for affordable housing** is instructive. This indicates a need for at least 330 affordable and social rented homes per annum. This is over 60% of the suggested housing requirements. On the basis that the delivery of affordable homes is through the allocation of market housing there is plainly a justification for adopting a higher housing requirement.

Already it is known that **Reading** is not able to provide sufficient housing land to meet its requirement (§6.5 of the consultation document refers). This is calculated by reference to the current Local Plan and SHMA and not the more recent Standard Method requirement which is higher, with almost 300 additional homes each year. On this basis the extent of unmet need from Reading is likely to be significantly higher than the current 230 dwellings which the consultation document refers to.

Given the circumstances associated with Grazeley referred to in the previous Section, the existing settlements that shared those locations characteristics but are not constrained by the Emergency Planning Zone could contribute an amount of housing towards that. For this reason, additional housing to the residual 82 houses should be directed to Mortimer.

It is also instructive that the housing trajectory at Appendix 8 illustrates that over the plan period there is a continuous decline in housing completions over the longer term. This is likely to be exacerbated in the event Sandleford Park does not achieve the 1500 new homes allocated to it in Policy SP16 or that North Thatcham similarly fails to deliver 1,500 new homes allocated to it in Policy SP17.

Sandleford Park comprises two areas of land in separate ownership. Planning permission has been granted for 1000 new homes on the main body of the site, but an application for the residual area, seeking permission for 500 new homes has not progressed for a number of years – the most recent submissions to the planning file appear to be from 2020.

North Thatcham is similarly afflicted by a multiplicity of landownerships which requires a collaborative and comprehensive approach to its future development. We doubt it will therefore achieve the 1500 new homes intended to be provided in the plan period.

The spatial distribution of the allocations is shown in Table 4.2 of the Housing Background Paper; this illustrates that a very similar amount of new housing is proposed in the AONB in comparison with the Eastern Area. As the NPPF advises, great weight should be given to conserving and enhancing landscape and scenic beauty of such a designated landscape and the scale and extent of development should be limited. One would expect a material difference in the amount of housing to be provided between these two spatial areas. In fact, contrasting Policies SP14 and SP15 indicates that more "new" homes are allocated to the AONB than the Eastern Area.

When considered across the Eastern Area, Table 4.2 and Appendix 10 of the Housing Background Paper reveal that all housing sites are expected to be completed by 2031/32 with no housing completions after this year until the end of the plan period. Again, this aspect of the Local Plan is not "positively prepared".

For these reasons, the amount of new housing in the Eastern Area, and at Mortimer specifically, should be increased

Summary

This response to the West Berkshire Local Plan 2022-2039 has been prepared on behalf of Hallam Land Management Limited.

We have identified that, irrespective of the current consultation relating to the NPPF, it is firmly the case that Local Plans should continue to provide a sufficient supply of housing land to meet identified needs.

In this regard, we agree with the Council that there is no basis to reduce the number of new homes that is planned for on the basis of the Government's Standard Method. In fact, because of the inevitable situation where unmet need will arise from Reading, the higher end of the range is still too low and should be increased.

Turning to spatial strategy and the distribution of new housing, to manage the pattern of growth and achieve the most sustainable pattern of development, an additional amount of housing should be provided in the Eastern Spatial Area. For the reasons set out herein, Mortimer is an eminently suitable location categorised as a Rural Service Centre and outside the Emergency Planning Zone which constrains other locations. It is not within the Area of Outstanding Natural Beauty which is subject to a high level of protection.

The notion of no additional housing at Mortimer to that allocated in 2017 and to be developed by 2026, fails to consider longer term needs to the end of this current plan period. In these terms, the Local Plan is not positively prepared.

Located to the east of the Kiln Lane and west of The Avenue, the land which Hallam control measures 7 hectares in size, and is comprised of a horse paddock and a single arable field. The Site could accommodate some 75 new homes which is consistent with the scale and role and function of a rural service centre. In addition, there is potential for elderly persons accommodation and the provision of a new early years facility, which reflects identified needs in the Neighbourhood Plan. Alongside new development would be accessible green space, potentially comprising children's / teenage play space, and allotment provision. These community facilities seek to compliment existing green spaces within the village.

Accordingly, the Local Plan should either allocate land at Kiln Lane or set out an additional amount of housing to be provided by additional allocations in a new Stratfield-Mortimer Neighbourhood Plan.

Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on	Yes

<p>cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.</p> <p>* Yes * No</p>	
<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	<p>Policy SP12 - Approach to Housing Delivery</p> <p>This policy states that 8,721 to 9,146 net additional homes are required for the period 1 April 2022 to 31 March 2039, equating to 513 to 538 dwellings per annum. It is noted that the higher figure provided does not constitute a ceiling or cap to development. New homes will be located according to policies SP1, SP3 and DM1. It is important for the council to ensure that the reference to the housing target figure not being a “ceiling or cap to development” is retained in the policy. This is because, this is a positive message to send out, whilst there is a nationally recognised shortage of housing in the UK and any policy that seeks to facilitate additional housing provision at this time is to be encouraged.</p> <p>The policy states that new housing will be focused in and adjoining the larger settlements, including the three growth areas, of which the Eastern Area is relevant to CPGC. Therefore, a development of c.72 dwellings on land at CPGC, on the eastern edge of Tilehurst, will comply with policies SP1 and SP3, which will enable housing to be provided to meet the Council’s housing requirements, as set out in policy SP12. The proposed dwellings will make a valuable contribution to the housing needs of the district (potentially including affordable housing, depending on agreed development quantum and subject to viability). The allocation of land at CPGC within the Eastern Urban Area will comply with this policy, by helping to provide much needed new housing in a sustainable location, where the impacts of development can be satisfactorily mitigated.</p> <p>Policy SP12 – Approach to Housing Delivery is supported. However, it is considered that the text should not be amended to remove reference to the delivery of housing over and above the “target figure” of 538 dwellings per annum.</p> <p><i>[For table 2 see attachment 'PS1272 Opus Works (Calcot Park Golf Club' Table 2']</i></p> <p>Paragraph 6.12 states that the requirement of 9,146 dwellings minus the supply of 7,337, means that sites for a further 1,809 homes need to be found. In addition, there needs to be some built-in flexibility to allow for phasing issues and to allow for non-delivery, particularly of larger sites, which need a great deal of up-front investment in roads and other infrastructure. Therefore, it is important to make it clear that the current shortfall of 1,809 dwellings should also be a minimum and not a ceiling or a cap to development, as required by policy SP12 (see above).</p> <p>It is likely that larger sites will have some problems with delivery. It is unlikely that they will deliver the housing numbers predicted in the suggested timescales, because larger sites are more likely to encounter issues with such matters as site assembly, ownership and title issues, capital funding, infrastructure costs and delivery, planning permissions and legal undertakings, such as section 38, 106 and 278 agreements. Some larger sites, such as North-East Thatcham, are also the subject of vehement objections from residents and may not actually come forward in the local plan period, particularly as sales enquiries and corresponding build rates start to recognisably decline. Overall, it should be expected that the larger sites will not deliver the housing numbers needed in a timely fashion and there is a real need for more medium-sized and smaller sites, of less than 100 dwellings, to help to fill the gaps. Smaller sites can be delivered in shorter time frames, as they do not have the depth of issues that the larger sites have. Therefore, the Council should allocate more smaller sites to ensure that housing needs are met in the short to medium-term.</p> <p><i>Table 2 and Paragraph 6.12 – Housing Supply at March 2022 is supported.</i></p>
<p>3. Do you consider the Local Plan Review complies with the Duty to Co-operate?</p> <p>* Yes * No</p>	<p>Yes</p>
<p>Please give reasons for your answer</p>	

4. Proposed Changes	However, it is considered that it should be made very clear that the current shortfall of 1,809 dwellings is a <u>minimum</u> provision and not a ceiling or cap on development.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	Yes
5. Independent Examination	To enable the Local Plan to recognise the further assistance needed for underpin the long-term retention of leisure facilities and to underpin a robust mechanism to allow enabling development to come forward to help realise this, where appropriate.
6. Notification of Progress of the Local Plan Review - The submission of the Local Plan Review for Independent Examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The publication of the report of the Inspector appointed to carry out the examination * Yes * No	Yes
6. Notification of Progress of the Local Plan Review - The adoption of the Local Plan Review * Yes * No	Yes

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>Policy SP12 identifies that "Provision will be made for 8,721 to 9,146 net additional homes in West Berkshire for the period 1 April 2022 to 31 March 2039; 513 to 538 dwellings per annum. The target figure of 538 dwellings per annum does not constitute a ceiling or cap to development".</p> <p>The target figure of 538 dpa constitutes a 5% uplift on the local housing need (LHN), as calculated using the standard method.</p> <p>However, it is considered there is clear justification for higher housing growth in West Berkshire, required to meet the level of need identified in the evidence, not least in respect of addressing affordability.</p> <p><i>Housing Requirement</i></p> <p>1) <i>The Duty to Co-operate</i></p> <p>The Council, at paragraphs 6.5 to 6.8 of the Plan, acknowledge there is a current unmet need from Reading Borough Council (RBC) of around 230 dwellings, up to 2036 and that there will therefore be a need to consider any further unmet need, given the housing needs generated by the standard method (i.e. the 35% uplift to Reading as one of the largest urban areas in England).</p> <p>The Council also acknowledges the distribution of unmet need has not been agreed and will be subject to further review through the plan-making process, before the need arises.</p> <p>RBC has identified a five year review of its Local Plan is required by 2024, which will need to incorporate an urban capacity assessment. A revised future unmet need figure is therefore likely to be available in the near future. It is anticipated the future unmet need from Reading will be significant as the housing requirement increases from 689 dpa in the current RBC Local Plan to 907 dpa from Lichfield's analysis of the standard method for local housing need (April 2022).</p> <p>At this stage, however, and without further evidence there is no certainty on what the unmet need will be, or how it will be distributed. It is widely accepted that RBC has limited land capacity to deliver the additional housing requirements in full. Therefore, it is highly likely that neighbouring authorities, such as West Berkshire, will be required to assist with meeting a portion of the unmet need.</p> <p>To address this incoming significant future unmet need from RBC, we consider the LPR should allow for a higher degree of flexibility as part of its housing strategy.</p> <p>2) <i>Affordable Housing and Affordability Uplift</i></p>

We note the Vision at Chapter 3 of the LPR sets out the Council will ensure that delivering “housing of different types, sizes, tenures and affordability will be a priority in order to provide West Berkshire residents with homes and environs at sustainable locations in towns and villages that meet their needs, whatever their income, stage of life and ability”.

The Updated Housing Needs Assessment (July 2022) confirms there is a “notable need for affordable housing, and it is clear that provisions of new affordable housing is an important and pressing issue across the District”. The conclusions drawn identify “the evidence does.... suggest that affordable housing delivery should be maximised where opportunities arise”.

The Assessment advises the scale of affordable housing need is 697 dpa (a 188% increase on need, following the Council’s Housing Needs Assessment in 2020). This equates to 136% of the standard method minimum LHN. Accordingly, the Assessment advises that, theoretically, if 40% of all new housing delivered was for affordable housing, around 1,740 dpa would be needed to meet the Council’s affordable housing need in full (paragraph 3.24). The Council’s affordable housing position is therefore undeniably deteriorating.

It is acknowledged the delivery of housing in line with the standard method figure may over time improve the affordability of market housing (and therefore reduced affordable housing needs) through the affordability uplift in the standard method. However, the Council’s past housing delivery rates have generally been in line, if not greater, than the current minimum LHN, yet affordability issues and affordable housing need remains.

As a result, by failing to positively address the affordability issues and affordable housing need across the District within this plan period could give rise to significant social and economic consequences. These do not appear to have been given full consideration by the Council, including as part of the Sustainability Appraisal for policy SP12.

For this reason, the calculation of affordable housing need supports an increase in the overall housing requirement for the District. The current proposed level of housing is not ambitious enough and will likely be unable to deliver on the Council’s ‘Vision’, which provides the context of the LPR. Therefore, we advise the strategic policies and housing requirements are inadequate and will not deliver on the principles or key priorities of the LPR.

3) The Uncertainty Buffer/Uplift

2.23 The Council provide for a buffer/uplift on the minimum LHN of 5%, arguing that this is to boost supply and to provide for some built-in flexibility.

We contend the Council should be concerned that limiting the housing supply to such a small buffer will significantly restrict the delivery of new homes. Therefore, amongst other issues, it will result in further housing prices increases to levels which create cost barriers to local residents and workers. There are many factors and variables which can affect housing supply, particularly where “about 90% of the District is rural in character” (LPR paragraph 2.1), therefore there is clear justification for a significantly larger buffer. A prime example of unforeseen circumstances affecting housing delivery include the recent issues relating to phosphates associated with the River Lambourn.

We consider an appropriate buffer will provide the LPR with greater flexibility to adapt to circumstances, should the anticipated housing supply fail to be delivered as expected. This is considered further in Section 3.

An appropriate uplift to the housing requirement is likely to fall between 10% and 20%, which would increase the Council’s housing target requirements to 564 to 616 dpa. This equates to finding a supply of 9,588 to 10,472 dwellings up to 2039 and follows the approach taken by other local authorities who have recently adopted Local Plans (South Oxfordshire c. 27% buffer, Maidenhead c. 12% buffer and North Herts c. 13% buffer. In addition, the draft Wokingham Local Plan currently provides for a 20% buffer.

We note the Regulation 18 version of the LPR included a 10% buffer/uplift. However, this figure was reduced to 5% in the Housing Background Paper (January 2023) to provide a balance between boosting housing supply in the District and considering the limitations and constraints of a largely rural District (paragraph 2.33).

This approach appears to be counter-intuitive as the greater the level of constraint, the greater the need for a higher buffer to provide for reasonably prospects of meeting the housing need. This is particularly the case where one of the LPR’s priorities is to improve affordability in the District. Furthermore, the SA/SEA undertaken identifies at Appendix 4, Section 2.1 that between LHN+5% and LHN+10%, the LHN+10% scores significantly higher, with an ‘overall positive, with some significantly positive effects’. However, the SA/SEA concludes at Table 26 of the report that this would put the rural nature of the district at undue pressure. The SA/SEA therefore takes the more precautionary and seemingly flawed approach which is unsuitable when considered against the LPR’s objectives.

The Council has failed to provide any justification to say what a 10% buffer/uplift (or greater) to the housing requirement cannot be accommodated within the District. None of the key environmental constraints (i.e. AONB) in the District, or the rural nature of the District preclude the principle of residential development (different approach to floodplain, Green Belt, internationally protected habitats etc.). Instead, the broad and high level spatial strategy will be used to shape the form and direction of growth across the District. There is therefore no justification to identify such a reduction in the buffer, particularly where clear evidence exists to show many more sites are available in the HELAA to accommodate the District’s future growth.

Summary

Overall, it is considered the level of housing currently proposed by the LPR is insufficient to support the Government’s objective of significantly boosting the supply of housing, is significantly below the Council’s aspirations of achieving and addressing the affordability problem and affording housing need issues within the District.

Further the strategy proposed fails to take into account the potential for unmet need arising from neighbouring authorities (particularly from RBC), given the changes in local housing needs.

We consider the buffer is too low, given the level of constraint and the variables across the District that affect the delivery of new housing, taking into account the level of available sites which have been identified in the HELAA.

It is considered this justified increasing the Council's housing target to between 564 and 616 dpa (i.e. a 10% to 20% buffer/uplift to the minimum LHN). This would equate to finding a supply of between 9,588 and 10,472 dwellings up to 2039. This level of housing will ensure a sufficient degree of flexibility is incorporated into the LPR to deliver the minimum LHN, whilst providing for choice and contingency to the market, reflective of the current and future demographic trends and housing market signals and affordability in West Berkshire.

Accordingly, the Council's housing target fails to meet the test for soundness in the NPPF (2021) as the LPR is not positively prepared, effective or consistent with national policy.

Meeting Housing Need

Housing Supply

The NPPF, at paragraph 11(b) identifies that "strategic policies should, as a minimum, provide for objectively assessed needs for housing...". The LPR sets out several sources for the provision of its housing supply over the plan period, summarised in Table 2 of the Plan. These sources include: retained allocations; existing commitments on unallocated sites; windfall sites; and through new allocations in the LPR and Neighbourhood Plans.

Existing Allocations

The history of some of the sites identified in the supply which do not currently have planning permission (around 95 units, excluding Sandleford Park West), or only have outline permission (392 units, excluding Sandleford Park East), or where a site's delivery has been continually delayed clearly fails to provide confidence in their timely delivery. It is therefore considered that a 10% non-implementation rate should be factored into at least some of this supply to provide a more robust strategy for delivery.

Non-allocated Sites with planning permission

Table 2 of the LPR identifies that around 1,958 dwellings are to be provided on un-allocated sites (including prior approvals), with planning permission. Again, it is considered a 10% nonimplementation rate should be applied to this figure to provide a more robust delivery strategy, particularly as it is unlikely that all these permissions will be delivered.

Windfall Allowance

A windfall allowance of 1,949 dwellings (equating to 26.6% of the total housing supply) up to 2039 has been included. This has been based on the average annual delivery on small sites of less than 10 units (excluding prior approvals for permitted development) between 2006 and 2022.

It is recommended the Council removes, or significantly reduces, this windfall allowance as this will provide greater certainty over the supply of housing through allocations, without having to rely on the use of a windfall allowance, which by its very nature can be ambiguous. The most recent consultation on the revised NPPF and the draft Levelling Up and Regeneration Bill (LURB) both place a greater emphasis on the need to provide a genuinely plan-led system.

We note the Council consider the delivery of windfall sites has been consistent and reliable, but have failed to provide any evidence about future supply to justify such an approach.

There appears to be recent trend that opportunities for windfalls are reducing on small sites. Table 3.1 of the Housing Background Paper identifies that delivery over the last three years (2019/2020 to 2021/2022) has reduced to an average of only 97 completions, whilst in the last five years the annual average is also only 112 completions. This is notably lower than the LPR's anticipated 140 dpa.

In reviewing the figures quoted above, the Council is planning to deliver 7-25 dpa above its LHN, which equates to an additional 119-425 dwellings over the 17 year plan period. As a result the windfall allowance of around 140 dpa should be removed altogether, or replaced with a significantly reduced figure, given recent trends.

The implications of this are significant as even a relatively modest, but more realistic reduction to 100 dpa would reduce the total housing supply by at least 549 dwellings. The solution is for a far more positive approach to planning by taking forward more of the sites available in the HELAA. This will reduce the reliance of windfall sites and provide greater certainty over the supply of housing through allocations. It will also improve overall affordable housing provisions.

Furthermore, paragraph 6.22 of the LPR explains that "approximately 74% of completions in the period 2006-2022 were on unallocated, windfall sites". This suggests that a high proportion of planning decisions in West Berkshire have not been plan-led, which conflicts with NPPF paragraph 15, despite the Council's assertion that the windfall allowance of 140 dpa is relatively modest.

To ensure that planning decisions remain plan-led, alongside providing greater certainty over housing supply, we consider it prudent to reduce the windfall allowance and increase the number of housing allocations. The inclusion of additional allocations for residential development now would assist with the aim to plan holistically, instead of relying on 'piecemeal' developments through windfall sites.

Future Supply

Notwithstanding the above comments regarding the LPR's approach to housing supply in the District, the LPR explains there is a need to identify sites for a further 1,809 dwellings to meet the 538 dpa target (or 9,146). The LPR allocates approximately 1,720 homes (including 1,500 at North East Thatcham) and a further 80 dwellings are expected to come forward through Neighbourhood Plans.

Paragraph 6.11 explains that "The allocation of sites in the LPR aims to meet delivery of a higher number of homes in order to both boost supply and have some built-in flexibility. The upper end of the range is

a target but should not be considered a maximum amount. It is not intended to be a cap on development that would otherwise be acceptable”.

The aim to boost supply complies with NPPF paragraph 60. Furthermore, built-in flexibility ensure the LPR is flexible and adaptable to change (paragraph 11(a) of the NPPF). However, to enable decisions regarding new development to remain plan-led (NPPF paragraph 15) and see that land is brought forwards at a sufficient rate (NPPF paragraph 23), it is necessary to ensure there is enough flexibility in the LPR.

Such a contingency is important, particularly as the Council is relying upon two large complex sites at Sandleford Park and North East Thatcham, discussed below, to deliver a significant proportion of the District's housing needs (3,000 dwellings in total).

Housing Trajectory

3.16 The Council are already short of their housing target figure by 9 dwellings (LHN+5%). However, it is considered the housing trajectory during the plan period is not realistic. This is particularly with regard to the strategic allocations identified.

Sandleford Park (Policies SP13 and SP16)

This is an allocated site which was first allocated in 2012 and makes up a significant portion of the LPR's delivery of housing across the plan period. The site is split into two parcels, known as 'Sandleford East' and 'Sandleford West'.

Appendix 2 of the Housing Background Paper identifies the housing trajectory, including the phasing of individual sites. The Council content that Sandleford East, which benefits from outline planning permission, will begin delivery 100 dpa from 2025/2026 through to 2034/2035, with 80 dwellings to be provided during the years 2035/2036.

This trajectory appears to be overly optimistic, particularly given the previous planning delays over the site and that a reserved matters application has yet to be submitted for any phase(s) of the development. There is also a need to address several pre-construction planning conditions. As such, the start date of 2025/2026 for first completions to be achieved by seems to be a 'best case scenario', although unlikely to be accomplished.

It is understood the site is to be delivered by a single housebuilder. This could therefore lead to a lower absorption rate due to a lack of variety of housing product, in accordance with the findings of Letwin's Independent Review of Build Out (October 2018). The 100 dpa expected across the plan period is considered to be impractical and will affect the site's delivery over the plan period.

In relation to Sandleford West, this site does not have any planning permission. This is despite an outline application being submitted in April 2018. It appears the Council are awaiting an amended package of information and revised plans. Therefore, first completions in 2027/2028 are purely speculative. There will also be a requirement to submit and agree reserved matters and address any pre-commencement conditions ahead of ground being broken.

As such, it is considered the Council's reliance on the delivery of Sandleford Park during the plan period should be approached with caution. The Regulation 18 Consultation on the LPR identified that Sandleford Park was expected to deliver 1,000 dwellings across the plan period. This seems to be a more robust figure than the 1,580 dwellings currently proposed and a more practical basis for the LPR's housing delivery strategy.

North East Thatcham (Policies SP13 and SP17)

This is another major allocated site being relied on heavily by the Council for the delivery of housing over the plan period, however the Council have reduced the delivery of site from a total of 2,500 dwellings to 1,500 dwellings. Notwithstanding this, the Council anticipate the site will deliver 1,500 homes over the plan period (although this has increased from 1,250 dwellings expected at the Regulation 18 stage of the LPR). This appears to be unjustified for the following reasons:

Justification for North East Thatcham

The supporting evidence base for the allocated site, including the Thatcham Strategic Growth Study (which includes a Vision and Concept Plan) still refers to the delivery of 2,500 homes. It has not been updated to reflect the position in the current version of the LPR. This also includes Viability Testing, which tested 2,300 to 2,500 new homes. This work would need to be updated to allow for the LPR to be found sound.

In addition, the site allocation policy refers to the delivery of a secondary school. However there is no updated viability appraisal to confirm this is deliverable for a site of 1,500 new homes in total, raising the following concerns:

- The Thatcham Growth Study (TGS) (Stage 3) acknowledges that strategic development at this scale (for 2,500 new homes) is the only approach likely to deliver an additional secondary school for the town, without which any growth would cause issues in provision.
- The TGS (Stage 3) notes the scale of development (2,500 new homes) would not create the need for a secondary school development on its own. Therefore, is only half-funded by developer contribution. A reduction to 1,500 homes further undermines this and is likely to increase the funding gap further, with no indication of how this would be resolved.
- A secondary school would internalise a significant number of trips from the proposed development. The Access and Movement Report for North East Thatcham, within the TGS (Stage 3) assumes a secondary school will have 50% internal trips. Therefore, with questions surrounding the potential delivery of a secondary school for a site of only 1,500 new homes, the sustainability credentials of North East Thatcham are unclear.

As a result, the identification of North East Thatcham is potentially not justified as there are significant gaps in the evidence to support the allocation of the site for 1,500 new homes. In particular, the lack of delivery of a secondary school and reduction in housing numbers would remove the key justification for growth at this location to help deliver new education provisions and additional community infrastructure.

Appendix 4 of the SA/SEA acknowledges this, however the Council still seek to proceed on this bases as it is considered that 2,500 new homes in Thatcham is too great.

Scale and timescales for Housing Delivery

In addition to the above, the Council's assumptions on the expected housing supply from North East Thatcham are also unreasonable. The Housing Background Paper demonstrates the Council expect the site to start delivering 150 dpa from 2029/2030 to 2038/2039. We consider this to be overly optimistic.

Market evidence demonstrates that schemes of 1,500 dwellings typically take approximately 7 years from the validation of an application through to first completions (footnote 2). Given the timescales for the adoption of the LPR (the Local Development Scheme indicates adoption in late 2024) and assuming a planning application for the site is submitted by the end of 2024/2025, first completions are not able to be projected before 2031/2032. The timescale proposed by the Council for delivery is optimistic, given there is a need to prepare and agree to a coherent masterplan or development framework, if prior mineral extraction is necessary and/or there are delays to the adoption of the LPR. In addition, as noted with Sandford Park, the Council has a previous poor record over the delivery of its strategic sites within their expected timescales.

Market evidence also suggest that for sites of 1,500 new homes, a realistic average annual build-out rate is around 100 to 120 dpa³. Therefore, delivering completions from 2031/2032 at 120 dpa is likely to only equate to 960 dwellings at best over the plan period, resulting in a shortfall of 540 dwellings on this allocate site alone.

Summary

Table 3.4 of the Housing Background Paper sets out the housing supply and future supply for the Council during the plan period. The following table provides a comparison with our analysis and findings above:

<for table see attachment>

With the figures in Table 1 in mind, it is clear the Council's housing supply fails to meet the minimum LHN (8,721 dwellings). Further, even by discounting the expected housing shortfall from North East Thatcham during the plan period, this results in the total loss of any headroom built in by the 5% buffer/uplift. The Council's housing supply would therefore fall short of meeting the minimum LHN (where 9,137 – 540 = 8,597).

As such, the Council's housing target fails to meet the test for soundness in the NPPF (2021) as the LPR is not positively prepared, effective or consistent with national policy.

In summary, the LPR should be allocating more sites for housing over the plan period that are consistent with the broad spatial strategy, noting that there are many available sites within the HELAA which have been overlooked, including our client's site 'Land at Lower Way Farm' (HELAA ref: THA9).

The level of housing shortfall, potentially around 2,363 to 3,247 dwellings when providing a 10 to 20% buffer to the LHN, in accordance with the comments outlined in Section 2, is significant. This shortfall should therefore be addressed through additional allocations to the LPR, rather than any early or immediate review of the Local Plan, which would be to defer difficult, strategic planning decisions rather than demonstrating a positive approach to planning now.

Conclusion

Our clients have concerns that the Council's LPR is currently unsound, having regard to the tests of soundness at paragraph 35 of the NPPF. It is considered there are a number of matters which indicate the proposed strategy fails to be robust enough to be sound and is therefore liable to fail in its objectives. There is justification to increase both the housing and employment requirements to address these issues, including:

- The LPR's priority to improve affordability and to deliver additional affordable homes;
- The need to boost supply significant and to build in greater flexibility in the LPR, if the anticipated housing supply does not delivered as expected;
- Unmet need from neighbouring authorities (i.e. RBC); and
- The LPR's property to facilitate and support a strong, diverse and sustainable economic base across the District.

The Council's justification for the allocation at North East Thatcham is also potentially unsound, given the lack of updated evidence and the reduction in housing numbers.

As a result and noting the significant amount of available land identified in the updated HELAA which has been overlooked, including our client's site, it is concluded that a suitable solution would be for the LPR to allocate more sites for housing over the plan period, consistent with the broad strategy of focusing development on the most sustainable settlements, including Thatcham, in accordance with Policy SP3 (settlement hierarchy).

3. Do you consider the Local Plan Review complies with the Duty to Co-operate?
 * Yes
 * No

No

Please give reasons for your answer

4. Proposed Changes

With the above in mind, it is considered that the Council's housing target should be increased to between 564 to 616 dpa (i.e. to provide a 10% to 20% buffer/uplift to the minimum LHN), which would equate to finding a supply of between 9,588 to 10,472 dwellings up to 2039.

	In addition, the Council's housing supply would fail to meet the minimum LHN. This is particularly due to the LPR's reliance on large strategic sites (Sandleford and North East Thatcham) and windfall sites. This approach is questionable in terms of the timescales for housing delivery and annual rate of completions, not to mention that windfall sites are, by their very nature, not guaranteed.
5. Independent Examination - If your representation is seeking a change, do you consider it necessary to participate at the examination hearing session(s)? * Yes * No	No
5. Independent Examination	To ensure that the views of our client in respect of 'Land at Lower Way Farm, Thatcham' and the shortcomings identified in the Local Plan Review and its evidence base relation to the allocation of sites and land for housing and economic delivery are heard

<p>2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.</p> <p>* Yes * No</p>	No
<p>Please give reasons for your answer</p>	<p>These representations have been prepared by Turley on behalf of Pangbourne College and provide comments on the Regulation 19 Consultation currently taking place in relation to the West Berkshire Local Plan Review 2022- 2039.</p> <p>As you will be aware our client has important land interests in the Local Plan area, including the Pangbourne College estate. The majority of the estate lies to the north of Pangbourne village and surrounds the main core of the college, sports facilities and boarding houses. Additional land within the College's ownership includes the Boathouse on the western edge of the village.</p> <p>These representations provide commentary on the consultation document as a whole, as well as specifically in relation to two parcels of land within our clients' ownership. Separate representations are submitted in relation to other parcels of the College's land.</p> <p>LOCAL PLAN CONTEXT</p> <p>The current Development Plan comprises the Core Strategy (adopted 2012) and the Housing Site Allocations DPD adopted in 2017. The Core Strategy covers the plan period up to 2026 and is premised on the housing need set out within the now revoked South East Plan.</p> <p>This consultation relates to the Local Plan Review covering the period up to 2039. We fully support the principle of the Council reviewing the plan as it provides the opportunity for development needs (for new homes, employment and other land uses) to be considered based on an up-to-date evidence base. Furthermore, it provides the opportunity for the Council to take into consideration any unmet needs from neighbouring authorities and the need to fulfil the Duty to Co-operate.</p> <p>There are some significant physical and technical constraints within the District, including AWE Burghfield and Aldermaston and area of flood plain. The AONB is a policy and landscape designation that covers over 60% West Berkshire, however, not all areas of the AONB are of such a high quality as to warrant their immediate dismissal from consideration in terms of allocating housing site.</p> <p>HOUSING REQUIREMENT AND THE SPATIAL STRATEGY</p> <p>The Local Plan Review will make provision to provide between 8,721 and 9,146 new homes during the plan period which will equate to between 513 and 538 dwellings per annum. This range is the minimum requirement derived by using the standard method plus a 5% buffer. The plan makes reference to needing to accommodate Reading's unmet need of 230 dwellings.</p> <p>The LPR does not seek to allocate sufficient housing sites to meet this identified need, instead leaving some of the housing requirement to be delivered through Neighbourhood Plans. This approach does</p>

	<p>not provide certainty that the housing requirement will be met within the plan period as there are no current Neighbourhood Plans which are proposing to allocate new housing sites.</p> <p>The plan is not considered to be justified in its approach as it seeks for the remainder of its unallocated housing need to be met through windfall sites and neighbourhood plans instead of allocating developable and available sites. Therefore, we do not consider the strategy to be appropriate.</p> <p>We do not consider that the plan will be effective in delivering the amount of development needed in the area as it fails to fully address its housing need through site allocations.</p> <p>For these reasons, we consider that the plan cannot be considered to be sound.</p>

2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	No
Please give reasons for your answer	<p>Draft Policy SP12 sets out provision for 8,721 to 9,146 net additional homes over the Plan period, comprising 513 to 538 dwellings per annum (dpa).</p> <p>Importantly, Paragraph 61 of the NPPF states that the standard method for calculating housing need should be used to 'inform' the 'minimum number of homes needed'. It is noted however that the provision for 513-538dpa is based directly on the minimum Local Housing Need plus minimum 5% buffer required by NPPF paragraph 74.</p> <p>As set out in the AMR (Table 3.4), the Core Strategy housing requirement of 525 dwellings per annum has not been met in 7 of the previous 13 years and therefore there is currently a shortfall of 310 dwellings against the Core Strategy requirement. The Housing Needs Assessment Update (July 2022) also confirms that there is a pressing need for affordable housing in the District. In addition, Reading Borough Council has also identified a shortfall of 230 dwellings which has been agreed to be met within West Berkshire (as referred at LPR paragraph 6.7), and which is likely to increase further given that the standard method now applies a 35% uplift to the 20 largest urban centres including Reading.</p> <p>It is noted also that paragraph 2.27 of the Housing Background Paper explains officer's view that 'a higher number than the current Local Housing Need (LHN) in West Berkshire should be planned for' and paragraph 2.36 adds that 'The Council would plan to meet the upper end of the range in an effort to boost supply and ensure there is built in flexibility'. The accompanying Sustainability Appraisal (November 2022) (Appendix 4) also concludes that the option of planning for the LHN + 10% (option 2a) would</p>

	<p>provide some significantly positive effects and notably more positive effects than compared with the other options of planning for the LHN (option 1) or the LHN + 5% (option 2b).</p> <p>In this context, given recent under-delivery and the unmet and increasing needs of Reading, it is recommended that the housing target is increased to include additional provision above the minimum LHN plus 5% requirement to include sufficient flexibility and ensure that local needs are met, as well as meeting the objectives of national policy to meet the housing needs of present and future generations (paragraph 8), and significantly boost the supply of new homes (paragraph 59)). It is also important that the housing target is not applied as a ceiling or cap to development, as set out in draft Policy SP12.</p> <p>The LPR should be subject to ongoing monitoring, in accordance with the NPPF, in order to ensure that sufficient housing is being delivered based on the LPR target, and be flexible enough to respond to non-delivery of identified sites or changing circumstances during the plan period, e.g. changes to the DEPZ.</p>

Please give reasons for your answer	<p>Reading Unmet Housing Need</p> <p>West Berkshire District Council (WBDC) forms part of the Western Berkshire Housing Market Area, alongside Wokingham Borough Council (WBC), Reading Borough Council (RBC) and Bracknell Forest Council (BFC). This grouping forms the basis for joint working on strategic planning matters. The Memorandum of Understanding (MoU) (October 2017) sets out the agreed position across the authorities that the housing need arising from the Western Berkshire HMA should be met within the Housing Market Area.</p> <p>The RBC Local Plan was adopted in November 2019, and plans for at least 689 homes per annum. Reading's local plan was submitted in March 2018 when housing need was based on the Berkshire Strategic Housing Market Assessment (SHMA) figure of 699 dwellings per annum between 2013 and 2036. This leaves 10 homes per annum, or a total of 230 homes over the plan period, as unmet need. This shortfall is expected late in Reading's plan period (to 2036).</p>

The Plan recognises (at paragraph 6.6) this unmet need of 230 dwellings and notes the Statement of Common Ground between the Western Berkshire HMA authorities that this need should be met within the Western Berkshire HMA. The Plan's response to this unmet need is to note the requirement for RBC to review its plan by 2024, which will need to consider how to deal with housing needs generated by the standard method.

It is important to note that the future local plan for Reading will consider the starting point for housing through the standard method set out in national planning policy and practice guidance. Following revisions to the standard method in December 2020, Reading Borough is identified as one of the 20 largest urban areas in England, where the 'cities and urban centres uplift' applies a 35% increase to the local housing need calculation.

Notwithstanding, the position is that a shortfall of 230 dwellings exists from RBC against the adopted plan.

The WBDC Plan includes a supply of housing which exceeds LHN by 416 dwellings.

Additionally, it is noted that that if a less cautious windfall allowance was assumed in the Plan, developments on large and medium sites would be capable of addressing the unmet need of 230 dwellings in part or full (based on past trends). WBC request the Plan is updated to confirm that it contains a buffer to contribute to Reading's unmet housing need, if required. This would be consistent with the approach taken in the Bracknell Forest Local Plan, where the Inspectors have recently published their post hearing letter (<https://consult.bracknell-forest.gov.uk/file/6134773>). The letter confirms the plan is legally compliant and capable of being made sound with modifications.

Housing Supply

Wokingham Borough Council (WBC) supports the plan approach to the provision of housing.

At the time of preparing the Plan, the Local Housing Need (LHN) for West Berkshire District was calculated by the standard method as 513 dwellings per annum (dpa) at 1 April 2022. This equates to a minimum housing need of 8,721 additional homes in the period 2022 – 2039.

Policy SP12 – 'Approach to Housing Delivery' states that:

'Provision will be made for 8,721 to 9,146 net additional homes in West Berkshire for the period 1 April 2022 to 31 March 2039; 513 to 538 dwellings per annum. The target figure of 538 dwellings per annum does not constitute a ceiling or cap to development...'

The housing requirement is expressed as a range, the lower end being the LHN figure and the upper end comprising LHN plus approximately 5% uplift.

Existing housing commitments, allocations in the adopted plan, and anticipated windfall developments account for 7,337 dwellings. Further land to supply a further 1,809 dwellings is required to meet the higher 9,146 figure (538 dwellings per annum).

Housing/mixed use allocations are set out in Policies SP13 – 15. The Plan sets out new allocations to provide 1,720 homes within the plan period. It additionally identifies a requirement for Neighbourhood Plans to deliver 80 dwellings (55 in Hungerford and 25 in Lambourn), which are both being prepared. Together, this equates to a new supply of 1,800 homes.

Overall, the housing supply in the Plan is 9,137 dwellings (1,800 from new allocations plus 7,337 from existing commitments and windfall). This exceeds the minimum LHN of 8,721. It falls modestly short of the upper end (9,146) by 9 dwellings.

WBC acknowledges that the Plan approach to windfall development is cautious in excluding an allowance from medium and large sites despite past trend data. This cautious approach is considered reasonable. If a less cautious approach was taken to windfalls, the upper end of the housing requirement range would be capable of being met, and exceeded.

In any event, the plan includes supply which is capable of exceeding LHN in accordance with national policy. WBC therefore considers the Plan to be sound regarding meeting its housing need.

3. Do you consider the Local Plan Review complies with the Duty to Co-operate?

- * Yes
- * No

Yes

Please give reasons for your answer	The Plan sets out a strategy which is capable of exceeding housing needs in accordance with national policy and which is not considered to give rise to significant cross boundary implications for Wokingham Borough. WBC therefore considers that the Duty to Co-operate has been met in this regard.
4. Proposed Changes	<p>Reading Unmet Housing Need</p> <p>Though not considered a soundness issue, WBC request WBDC update the Plan to confirm that it contains a buffer to contribute to Reading's unmet housing need if required, consistent with the approach taken in the Bracknell Forest Local Plan main modifications and the Inspectors' initial recommendations.</p> <p>Housing Supply</p> <p>N/A</p>

1. Do you consider the Local Plan Review is legally compliant? * Yes	Yes

* No	
Please give reasons for your answer	
2. Do you consider the Local Plan Review is sound? - Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground. * Yes * No	Yes
2. Do you consider the Local Plan Review is sound? - Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF. * Yes * No	Yes
Please give reasons for your answer	<p>Our representations are prepared in relation to the strategic promotion of land known as North East Thatcham ("NET") on behalf of "the Partnership" which comprises A2Dominion, Catesby Estates, Donnington New Homes and Ptarmigan Land who are jointly promoting the land ("the site") on behalf of its landowners. The Partnership has signed a collaboration agreement to ensure that the site at NET comes forward as a whole, thereby avoiding piecemeal development. The agreement should give the Council confidence that a comprehensive approach will be delivered and the Partnership remains fully committed to progress a planning application as soon as the site's allocation within the Local Plan is secured</p> <p>We support the plan's positive approach to increase housing delivery through the Plan Period and that new homes will be delivered in line with the Spatial Strategy and Settlement Hierarchy in addition to considering Policy DM1: Development in the Countryside. This will ensure that development comes forward on appropriately allocated sites and for development of appropriate density.</p> <p>We support that the target figure of 538 dwellings per annum does not constitute a ceiling or cap to development. The NPPF is clear at paragraph 60 that the objective is to boost the supply of housing and West Berkshire's Housing Background Paper (January 2023) states at paragraph 2.27, "<i>It is considered that a number higher than the current LHN in West Berkshire should be planned for.</i>"</p> <p>In addition to the NPPF objectives to boost housing supply, the Council notes that other reasons why a higher number should be planned for include:</p>

	<p><i>“- The most recent objectively assessed need in the OAN Sensitivity Testing report of March 2018 was 600 dpa. Though the methodology has been superseded and it is no longer a recent study, it remains a consideration;</i></p> <p><i>-The need for flexibility as the impact of annual changes to the LHN, as a result of the rolling forward of the time period covered by the household projections and the updating of the affordability ratio, is uncertain; and</i></p> <p><i>-The need for flexibility to allow for phasing issues and for an element of non delivery of sites.”</i></p> <p>It is also worth noting that the Government’s Planning Practice Guidance (Housing and economic needs assessment), last updated 16 December 2020, states at paragraph: 015 Reference ID: 2a-015-20190220 that, <i>“Where a strategic policy-making authority can show that an alternative approach identifies a need higher than using the standard method, and that it adequately reflects current and future demographic trends and market signals, the approach can be considered sound as it will have exceeded the minimum starting point.”</i> This aligns with the NPPF focus on positively prepared plans, and clearly points to the basis for LPAs to go above the minimum starting point.</p>
