2. Do you consider the Local Plan Review is sound?

Please see the guidance notes for an explanation of what 'soundness' means.

The soundness of the LPR should be assessed against the following criteria from the National Planning Policy Framework (NPPF).

Please tick all that apply:

Positively Prepared: The plan provides a strategy which, as a minimum, seeks to meet the area's objectively assessed need and is informed by agreements with other authorities, so that unmet need from neighbouring areas is accommodated where practical to do so and is consistent with achieving sustainable development.

Justified: the plan is an appropriate strategy, taking into account the reasonable alternatives, and based on proportionate evidence.

Effective: the plan is deliverable over the plan period and based on effective joint working on cross-boundary strategic matters that have been dealt with rather than deferred, as evidenced by the statement of common ground.

Consistent with national policy: the plan should enable the delivery of sustainable development in accordance with the policies of the NPPF.

4. Proposed Changes

Please set out what change(s) you consider necessary to make the Local Plan Review legally compliant or sound, having regard to the tests you have identified above (Please note that non-compliance with the duty to co-operate is incapable of modification at examination).

You will need to say why this change will make the Local Plan Review legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Local plan mentions about Green Infrastructure and the supporting document "SA_SEA Nov 2022 (for PS)", also mentions about greenspace. I could not find a designated map for the greenspaces. Please let me know if it is mentioned somewhere else in the document and I might have missed it

I would also be keen to know more about the plans to meet the netzero target and steps taken to reduce the carbon footprint
