Dear Sirs / Ladies,

The Thatcham area is already over subscribed with housing versus the appropriate services such as medical, policing, fire & rescue, schooling, all council provided services, etc. Then there is the environment, the destruction of huge areas of green field and woodland, and the upset to animal habitats, some maybe endangered species cannot be overlooked or swept aside. Another aspect of increased population is the fact the present road system would also be totally inadequate. Say NO the this development.

Christopher Hastings
