Hello I'm Corey and I'm against the proposed local development allocation for 138 properties on Pincents Hill. This would put pressure on local public services such as schools GP services and much more. That would make it hard to get appointments. This would also make traffic much worse for roads and would be bad for the environment and for pollution. Pincents hill is a much loved green space area and we need to keep it like that. I know we have a housing crisis but we can't build on green land. We need to build on other spaces but NOT greens spaces. That's why I'm totally against the proposed allocation.

Corey Emmens-Roberts
