I wish to add my protest against the potential development of this beautiful, wild countryside, which is brimming with wildlife.

This brutal destruction of our ever decreasing habitat, is causing any wildlife to get squeezed out, with nowhere to go. Foxes are now increasingly wandering around our streets, we have from the smallest insects, birds, badgers, hedgehogs, foxes etc where do you think they're going to move to.

Then there's the infrastructure, dentists, doctors, chemists schools, increased traffic, has that been taken into consideration, including road access.

I sincerely hope money doesn't rule over your decision!

Yours sincerely,  
Mrs J Lovegrove  
Tilehurst
