Notes

*This is a broad provisional timetable and therefore subject to change. Witnesses may be called forward or pushed back and should be prepared for this.

** This session will be reserved for interested parties and will be an opportunity for them to make any points they wish to, provided they are relevant and not repetitious. If the contributor intends to read out a statement, then it would be helpful if hard copies are given to the Inspector, appellant, and Council. The opposing advocate will have an opportunity to ask questions.

Council to organise the virtual session on the 16 June.

A witness may need to pause when giving evidence to accommodate breaks, lunch or overnight adjournments. They should insulate themselves from their team if this occurs.

The 17 June 2025 has been identified as a reserve day in case the timetable slips.
