I am getting in touch as I would like to oppose the plan to redevelop the small field behind houses in my close.

My main concern is the narrow entrance gate to access the field and insufficient room for a footpath. There will also be additional noise whilst the work is ongoing as well as turning a child friendly road into a hazardous space. I am also concerned that the close will not cope with the additional vehicles owned by the residents of the 12 new homes.

I would like to officially register my objection.

Best wishes
Kay Quartermaine
