PURPOSE AND LEGAL BASIS FOR PROCESSING YOUR PERSONAL DATA

In accordance with the data protection laws, we need a "legal basis" for collecting and using information about you. There are a variety of different legal bases for using personal data which are set out in the data protection laws.

We have set out below the different purposes for which we collect and use your personal data, along with the legal basis we rely on to do so.

Why we use your information	Our legal basis for using your information
<p>West Berkshire District Council is processing your data in line with its statutory duties, outlined in the Care Act 2014.</p> <p>Processing is also necessary in the public interest; in other words, as a public authority, West Berkshire District Council runs an Adult Social Care service to protect the people who live within the district.</p> <p>Processing may also be occasionally necessary in the “vital interests” of individuals – this means that where someone could be seriously harmed if it didn’t act, the Council is under an obligation to do what is necessary to protect them.</p> <p>We will use your data in Magic Notes.</p> <p>As we have a statutory basis for collecting your personal data, we do not need to ask for your permission to collect and share it, however we will only ever share your data on a basis of need, in line with legislation and will work transparently with you at all times.</p> <p>Specifically, when using Magic Notes, your consent will be requested at the outset of a call if it is being recorded using Magic Notes. Whilst the legal basis is not consent, the legal basis of public task allows an objection to be made. If anyone objects to the use of Magic Notes at the start of a call then it will not be used.</p> <p>However, if a recording is in progress when an objection is made, the recording will stop at that point, but the recording made up to that point will be used otherwise the meeting will have been ineffective.</p> <p>Where a service or information request requires you to submit further personal information, a separate privacy notice will describe how we will use that data.</p>	<p>Vital Interests: Article 6d of the GDPR namely the processing is necessary in order to protect your vital interests or those of another person.</p> <p>Public Task: Article 6e of the GDPR namely the processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Council.</p> <p>Legal Obligation: Article 6(c) the processing is necessary to comply with the law including:</p> <ul style="list-style-type: none"> • Care Act 2014. • Health and Social Care Act 2012. • Health and Social Care Quality and Safety Act 2015 Section 251(b). • Mental Capacity Act 2005. • Mental Health Act 2007. • Housing Act 2004. • Liberty Protection Safeguards. <p>For special category personal data, the lawful basis we rely on for processing the information is Article 9 UK GDPR:</p> <p>(a) Your consent (g) Processing is necessary for reasons of substantial public interest (h) Processing is necessary for provision of health or social care treatment</p> <p>You can read the guide to lawful basis for processing special category data on the Information Commissioner's Office website</p>

SHARING YOUR PERSONAL DATA

To make sure that we all work together for your benefit, we may need to share information about you with other organisations.

Your data will be seen by council employees who have direct involvement in your care and also by those managing and overseeing those employees. When required, we will also share information with a range of other statutory bodies in order to ensure you are supported and cared for.

Your information may be shared with:

- Health services, including your GP
- Other Council services
- Police or Fire services, should there be a risk to your wellbeing that would make contact with them appropriate
- Charities, providers and caring organisations that might provide services to help you

However, we will only share what others need to know so that they can provide you with appropriate services.

We will not usually share your information with family members or friends unless you have given us permission, but if your wellbeing is at risk we may have to do so to keep you safe.

Your NHS number is accessed through an NHS service called the Personal Demographic Service (PDS). Adult Social Care sends basic information such as your name, address and date of birth to the PDS in order to find your NHS Number. Once retrieved from the PDS the NHS Number is stored in the Council's adult social care case management system. You can 'opt-out' of the use of your NHS Number within the council's social care system upon request. However, if you choose to 'opt-out' then the benefits that it brings may not be realised in terms of the provision of care.

The national data opt out was introduced on 25 May 2018 to allow you to opt out from the use of your data for anything other than your individual care and treatment. This will prevent it being used for research or planning purposes as listed above. The opt out is in line with the recommendations of the National Data Guardian in the Review of Data Security, Consent and Opt-outs.

The national data opt out applies to the NHS and some of the activities of the council. If you are happy with use of your data for research and service planning, you do not need to do anything. If you do choose to opt out your confidential patient information will still be used to support your individual care.

Health agencies and councils must check the NHS national data opt out system before using your data for research or planning.

You can change your national data opt out choice at any time by using the online service or by clicking on Your Health in the NHS App, and selecting choose if data from your health records is shared for research and planning.

We may also share your data if we are required to do so by law, for example by court order or to prevent fraud or other crime.

As a local authority, West Berkshire is legally required to report statutory returns at a Client Level to the Department of Health and Social Care (DHSC). This change takes effect from 1st April 2023. This means that in order for the Council to fulfil its information obligations to the government it is required to share data including personal and sensitive data with the DHSC.

The information being provided supports the Government's drive toward the integration of health and social care. Information provided will help understand current and future population needs, to help monitor service outcomes to inform future service development.

Details of this directive and requirement are set out in a Data Provision Notice: Collection of Client-Level Adult Social Care Data (No.2) that can be found here: [Collection of Client-Level Adult Social Care Data \(No 2\) Direction - NHS Digital](#)

Please note: The National Data Opt-Out mentioned above will not apply to the submission of data to NHS Digital, as it is a legal requirement that local authorities must comply with. Please also note that there is no requirement for the council to obtain consent and no opportunity for individuals to opt out or withdraw their consent. This is because it is a legal requirement which the council is obliged to comply with

HOW LONG WILL YOUR DATA BE KEPT?

Magic Notes recordings will be automatically deleted after 60 days. The information is only retained in Magic Notes to allow the West Berkshire Council User time to amend and extract the information into the Council's Social Care Case Management System. Your personal data will then be kept in the Council's Social Care Case Management System in accordance with the West Berkshire District Council's retention schedule, which can be found here: <http://www.westberks.gov.uk/retention>. Your data will not be kept any longer than necessary.

HOW IS YOUR DATA STORED AND PROCESSED?

Your data will be held on electronic databases and hosted online storage with restricted access designed for social care and will be protected from unauthorized access using up-to-date technical and organisational security measures.
